## Bullying Prevention and Investigation Procedures

This Bartlesville School District intends to comply with the mandates of the School Safety and Bullying Prevention Act, 70 OKLA. STAT. § 24-100.2 et seq. ("Act") and expects students to refrain from bullying. Bullying is expressly forbidden and students who bully are subject to disciplinary consequences as outlined in the district's policy on student behavior. Bullies may also be provided with assistance to end their unacceptable behavior, and targets of bullies may be provided with assistance to overcome the negative effects of bullying.

### Definition of Terms

#### Statutory definition of harassment, intimidation, and bullying:

70 O.S. §24-100.3(c) of the School Safety and Bullying Prevention Act defines the terms "bullying," as including, but not limited to a pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication; directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student that a reasonable person should recognize will:

- A. Harm another student;
- B. Damage another student's property;
- C. Place another student in reasonable fear of harm to the student's person or damage to the student's property; or
- D. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

#### General Display of Bullying Acts

**"Threatening behavior"** means any pattern of behavior or isolated action, whether or not it is directed at another person, that a reasonable person would believe indicates potential for future harm to students, school personnel, or school property.

**"Electronic communication"** means the communication of any written, verbal, pictorial information or video content by means of an electronic device, including, but not limited to, social media platforms, text messaging, email, messaging applications, gaming platforms, websites, AI-generated content, images, videos, or other electronic means of communication.

Note: Bullying by electronic communication is prohibited whether or not such communication originated at school, or with school equipment, if the communication is specifically directed at students or school personnel and concerns bullying at school.

**“At school”** means on school grounds, in school vehicles, at school-sponsored activities, or at school-sanctioned events.

Bullying, for purposes of this section of the regulation, includes harassment and intimidation, vice versa. According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of a bullying act depends on the harm inflicted upon the victim and the frequency of the offensive acts. Power may be, but is not limited to, physical strength, social skill, verbal ability, or other characteristics. Bullying acts have been described in several different categories.

## Types of Bullying

**Physical Bullying** includes harm or threatened harm to another’s body or property, including, but not limited to, what would reasonably be foreseen as a serious expression of intent to inflict physical harm or property damage through verbal or written speech or gestures directed at the student-victim, when considering the factual circumstances in which the threat was made and the reaction of the intended victim. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.

**Emotional Bullying** includes the intentional infliction of harm to another’s self-esteem, including, but not limited to, insulting or profane remarks, insulting or profane gestures, or harassing and frightening statement, when such events are considered in light of the surrounding facts, the history of the students involved, and age, maturity, and special characteristics of the students.

**Social Bullying** includes harm to another’s group acceptance, including, but not limited to, harm resulting from intentionally gossiping about another student or intentionally spreading negative rumors about another student that results in the victim being excluded from a school activity or student group; the intentional planning and/or implementation of acts or statements that inflict public humiliation upon a student; the intentional undermining of current relationships of the victim-student through the spreading of untrue gossip or rumors designed to humiliate or embarrass the student; the use of gossip, rumors, or humiliating acts designed to deprive the student of awards, recognition, or involvement in school activities; the false or malicious spreading of an untrue statement or statements about another student that exposes the victim to contempt or ridicule or deprives the victim of the confidence and respect of student peers; or the making of false statements to others that the student has committed a crime, or has an infectious, contagious, or loathsome disease, or similar egregious representations.

**Sexual Bullying** includes harm to another resulting from, but not limited to, making unwelcome sexual comments about the student; making vulgar, profane, or lewd comments or drawings or graffiti about the victim; directing vulgar, profane, or lewd gestures toward the victim; committing physical acts of a sexual

nature at school, including the fondling or touching of private parts of the victim's body; participation in the gossiping or spreading of false rumors about the student's sexual life; written or verbal statements directed at the victim that would reasonably be interpreted as a serious threat to force the victim to commit sexual acts or to sexually assault the victim when considering the factual circumstances in which the threat was made and the reaction of the intended victim; off-campus dating violence by a student that adversely affects the victim's school performance or behavior, attendance, participation in school functions or extracurricular activities, or makes the victim fearful at school of the assaulting bully; or the commission of sexual assault, rape, or homicide. Such conduct may also constitute sexual harassment – also prohibited by Bartlesville Public Schools.

## The “Reasonable Person” Standard

In determining what a “reasonable person” should recognize as an act placing a student in “reasonable” fear of harm, staff will determine “reasonableness” not only from the point of view of a mature adult, but also from the point of view of an immature child of the age of the intended victim along with, but not limited to, consideration of special emotional, physical, or mental needs of the particular child; personality or physical characteristics, or history that might cause the child to be particularly sensitive to efforts by a bully to humiliate, embarrass, or lower the self esteem of the victim; and the discipline history, personality of, and physical characteristics of the individual alleged to have engaged in the prohibited behavior.

## Discipline of Students

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract
7. Changing student's seat assignment or class assignment
8. Requiring a student to make financial restitution for damaged property
9. Requiring a student to clean or straighten items or facilities damaged by the student's behavior
10. Restriction of privileges

## Parental Responsibilities

All parents/guardians will be informed in writing of the district's program to stop bullying and will be given a copy of this policy upon request. An administrative response to a reported act of bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent bullying at school they should encourage their children to:

- Report bullying when it occurs;
- Take advantage of opportunities to talk to their children about bullying;
- Inform the school immediately if they think their child is being bullied or is bullying other students;
- Watch for symptoms that their child may be a target of bullying and report those symptoms; and
- Cooperate fully with school personnel in identifying and resolving incidents.

## Bullying Report Investigation

Each school site will have a designated individual and an alternate to investigate bullying reports. These individuals will be identified in the site's student and staff handbooks, on the district's website, and in the bullying prevention education provided annually to students and staff. The district's anti-bullying program is coordinated at the district level by its bullying coordinator, the Director of Health and Safety. Any employee who witnesses or receives information indicating a potential risk of serious harm shall also refer the matter immediately to the District Behavioral Threat Assessment Team in accordance with district procedures. A bullying investigation and a behavioral threat assessment serve different purposes and may occur simultaneously when appropriate.

For any alleged incidents of bullying reported to school officials, the designated school official will investigate the alleged incident(s) and determine (i) whether bullying occurred, (ii) the severity of the incident(s), and (iii) the potential for future violence.

In conducting an investigation, the designated official shall interview relevant students and staff and review any documentation of the alleged incident(s). School officials may also work with outside professionals, such as local law enforcement, as deemed appropriate by the investigating official. In the event the investigator believes a criminal act may have been committed or there is a likelihood of violence, the investigator will immediately call local law enforcement and the superintendent.

At the conclusion of the investigation, the designated employee will document the allegations, witness statements, evidence reviewed, findings, discipline, interventions, parent contacts, and all follow-up with the targeted student after the investigation to determine whether additional support or intervention is needed and to ensure retaliation has not occurred. Further, the investigator will notify the district's bullying coordinator that an investigation has occurred and the results of the investigation. In the event the investigation reveals that bullying occurred, the district's bullying coordinator will refer the student who committed the act of bullying to a delinquency prevention and diversion program through the Office of Juvenile Affairs.

Upon completion of an investigation, the school may recommend that available community mental health care or substance abuse options be provided to a student, if appropriate. The school may provide a student with information about the types of support services available to the student bully, target, and any other students affected by the prohibited behavior. These resources will be provided to any individual who requests such assistance or will be provided if a school official believes the resource might be of assistance to the student/family. The district is not responsible for paying for these services. No school employee is expected to evaluate the appropriateness or the quality of the resource provided, nor is any employee required to provide an exhaustive list of resources available. All school employees will act in good faith.

The school may request the disclosure of information concerning students who have received substance abuse or mental health care (pursuant to the previous paragraph) if that information indicates an explicit threat to the safety of students or school personnel, provided the disclosure of the information does not violate the requirements and provisions of the Family Educational Rights and Privacy Act of 1974, the Health Insurance

STAT. tit. 59 §1376 of the Oklahoma Statutes, or any other state or federal laws regarding the disclosure of confidential information. The school may request the disclosure of information when it is believed that the student may have posed a danger to him/herself and having such information will allow school officials to determine if it is safe for the student to return to the regular classroom or if alternative education arrangements are needed.

## Parental Notification

The assigned investigator will notify the parents of a target within one (1) school day that a bullying report has been received. Within one (1) school day of the conclusion of the investigation, the investigator will provide the parents of a target with the results of the investigation and any community resources deemed appropriate to the situation.

If the report of bullying is substantiated, within one (1) school day of the conclusion of the investigation, the investigator will contact the parents of the bully to discuss disciplinary action and any community resources deemed appropriate to the situation.

If the report of bullying is substantiated, within one (1) school day of the conclusion of the investigation, the investigator will contact the parents of the bully to discuss disciplinary action and any community resources deemed appropriate to the situation. The timelines in this parental notification section may be reasonably extended if individual circumstances warrant such an extension.

Investigations should be completed as promptly as reasonably possible and generally within five school days.

## Student Transfers

Students who are victims of bullying, and who report the incident(s) to school administrators, may choose to transfer to another school district. Any application for transfer must be made in accordance with the receiving school district's transfer policy.

## Safe School Committees

Each Safe School Committee has the responsibility of studying and making recommendations regarding unsafe conditions, strategies for students to avoid harm at school, student victimization, crime prevention, school violence, and other issues which interfere with and adversely affect school Safety.

With respect to student harassment, intimidation, and bullying, each Committee shall assist the board in promoting a positive school climate. The committee will make recommendations regarding professional staff development needs of faculty and other staff related to methods to decrease student harassment, intimidation, and bullying and understanding and identifying bullying behaviors.
