NOTE: This proposal shows a wide range of Dry Van (BOX) trailers and prices for used trailers. Higher priced trailers are generally newer. Lower priced units are older, in poorer shape, with the need of multiple repairs. Therefore, although units below the \$20,000 dollar range can be found, these units are typically 20 years old and older, repair costs involved for immediate road worthyness and use could put the unit closer to the lower price unit on this list, which, noted in the description will be in need of repairs in a short time.
