

Mid-America Tech - Services Quote FY26

All quoted rates are annual amounts unless otherwise stated.

OneNet offers monthly billing by request.

OneNet Services

Product Name	Product Description	Price Each	Quantity	Total
Gig Port	1 Gbps uplink port into OneNet Datacenter switch	\$144.00	1.00	\$144.00
Rack Space	Standard 19 inch rack unit (RU) of colocation space. Includes power and cooling.	\$240.00	2.00	\$480.00
Shared Web Hosting	Shared Web Hosting - cPanel	\$50.00	1.00	\$50.00

Total Price: \$674.00

OneNet offers a variety of other services, from managed firewall to colocation.

See information below for details and pricing.

Managed Firewall Services

Managed Next-Generation Firewall Services Bundle – OneNet provides a basic managed firewall service through cloud-based Palo Alto or Fortinet solutions (no equipment needed), as well as advanced features for both solutions. *Subscriber must have OneNet internet access service.*

Both the basic firewall and advanced features are required for both solutions.

Subscribers are responsible for two costs of firewall services:

- Non-E-Rate eligible advanced features
- Non-discount portion of the cost of E-Rate eligible basic firewall services

Palo Alto Virtual Firewall Option

Palo Alto Solution Pricing

Product	Estimated Bandwidth w/ Advanced Features Enabled *	vCPU Cores	Annual Fee Basic Firewall (Category 2 E-Rate Eligible)	Annual Fee Advanced Features (Non-E-Rate Eligible)	Annual Total Basic Firewall Plus Advanced Features
PA-2	1.2 Gbps	2	\$2,828	\$1,212	\$4,040
PA-4	3 Gbps	4	\$4,555	\$1,952	\$6,507
PA-6		6	\$7,287	\$3,123	\$10,410
PA-8	5 Gbps	8	\$9,349	\$4,007	\$13,356
PA-10		10	\$11,745	\$5,034	\$16,779

Palo Alto Firewall Advanced Features Include:

Threat Prevention License - Threat prevention subscription protects the network from advanced threats by identifying and scanning all traffic—applications, users and content.

PANDB URL Filtering License - PANDB automatically prevents attacks that leverage the web as an attack point, including phishing links in emails, phishing sites, malicious sites and pages that carry exploit kits.

Global Protect – Global Protect delivers next-generation security platform protection to mobile users to stop targeted cyberattacks, phishing, malicious websites and known and unknown threats.

WildFire Subscription – WildFire goes beyond legacy approaches used to detect unknown threats, bringing together the benefits of traditional and cloud-based analysis.

* These values are accurate for most cases; however, other variables can contribute to the firewall's ability to support the listed bandwidth. Please call OneNet's network services team at 888-5-OneNet to discuss your organization's firewall requirements.

Fortinet Virtual Firewall Option - FortiGate

Fortinet FortiGate Solution Pricing

Product	Estimated Bandwidth w/Advanced Features Enabled*	vCPU Cores	Annual Fee Basic Firewall (Category 2 E-Rate Eligible)	Annual Fee Advanced Features (Non-E-Rate Eligible)	Annual Total Basic Firewall Plus Advanced Features
FG-2	1.3 Gbps	2	\$2,940	\$1,260	\$4,200

Fortinet Firewall Advanced Features Include:

Unified Threat Protection License - Unified Threat Protection extends threat protection across the entire digital attack surface, providing industry-leading defense against sophisticated attacks. The UTP includes security technologies needed to help protect and defend against known and unknown cyber threats and adds coverage for web and email-based attacks.

FortiClient – FortiClient strengthens endpoint security through integrated visibility, control and proactive defense. FortiClient ensures endpoint compliance, mitigates risks and reduces exposure.

FortiCloud Sandbox – The FortiCloud Sandbox service is an advanced threat detection solution that performs dynamic analysis to identify previously unknown malware.

**These values are accurate for most cases; however, other variables can contribute to the firewall's ability to support the listed bandwidth. Please call OneNet's network services team at 888-5-OneNet to discuss your organization's firewall requirements.*

Above-the-Net Services

Service	Services Description	Pricing
	<p>Content Filtering</p> <p>Our Cisco Umbrella solution allows for different filtering policies for administrators and students. Our solution includes web-based detailed filtering and reporting and active directory integration. No hardware is needed for this cloud-based solution, and there is no impact on network speed. This solution is CIPA compliant.</p>	<p>K-12: \$600 per year for 500 or fewer students</p> <p>\$1.30/student per year if more than 500 students (e.g. 1,000 students = \$1,300)</p> <p><i>Libraries please call for pricing</i></p>
	<p>Colocation</p> <p>Utilize OneNet's data center for your hardware. Private MPLS connectivity to your network is available at no additional cost. OneNet's Oklahoma City data center is backed by top-of-the-line cooling and power redundancy solutions. Completed SOC2 Type 2 audit of OneNet's control requirements for our data center, virtualization and colocation services.</p>	<p>\$240/rack unit/year plus connectivity</p>
	<p>Archival Tier Storage</p> <p>This tier of storage provides an economical solution for backup/archival storage. Storage can be accessed via network shares (NFS/CIFS). For multi-site resiliency, request two copies.</p>	<p>\$125/TB/year</p> <p>\$250/TB/year for two copies</p>

Email Hosting

OneNet hosts your organization's email on our managed servers, based on cPanel.

\$250/year for internet subscribers
 \$300/year for non-internet subscribers
**Subscribers with fewer than 25 email accounts, please contact us for pricing.*

Virtual Infrastructure

OneNet offers a resource pool of CPU/RAM on our fully redundant, virtual infrastructure based on VMware vSphere. Multicity disaster recovery capability is included. Completed SOC2 Type 2 audit of OneNet's control requirements for our data center, virtualization and colocation services.

\$60/GB RAM/year plus storage.
 Managed VM service available as well.
 20% Discount on 500GB or more - \$48/GB RAM/year

Virtual Machine Storage

High-speed all-Flash storage with replication to DR site included.

\$1.20/GB/year

Web Hosting

OneNet offers a sophisticated web hosting platform, utilizing cPanel technology.

\$50/year for internet subscribers
 \$100/year for non-internet subscribers

OneNet provides 24/7 service desk support on all services.

OneNet Overview

OneNet is a division of the Oklahoma State Regents for Higher Education and Oklahoma's research and education network. Our mission is to deliver the high-speed connectivity required for research, education, health care, and government agencies across Oklahoma. We partner with local, regional and national organizations to provide fast, reliable and affordable connectivity options. For the "last-mile" of connectivity, extending from our hub sites to subscribers, OneNet leases infrastructure from private telecommunications providers. The result of this partnership is savings for our subscribers and a broadband infrastructure that is one of the most comprehensive in the nation.

Watch our [short video](#) that explains how our private partners provide last-mile services!

Technical Support

OneNet provides 24/7/365 technical support. Subscribers can reach our helpdesk and receive technical support for basic trouble-shooting issues on the subscriber's network. OneNet's helpdesk and engineering staff operate with a set of procedures and checklists that assure OneNet provides unmatched subscriber support and ensures 24/7 availability and responsiveness to those we serve.
