Incremental Pricing: For all additional quantities required by Customer, in excess of the fixed quantities listed herein in combination with any other nominated quantities, or for gas quantities bought back from Customer by Constellation due to Customer's requirements being less than the total nominated volumes each month, the price for such additional

purchases or buybacks shall be based on the then current market price, as determined by Constellation in its reasonable discretion.

If Constellation and Customer have previously entered into any commodity transaction(s) for the Facility (the "Previous Transaction") that overlap one or more of the delivery months covered in this Transaction Confirmation (the "Overlapping Month(s)"), the incremental gas pricing in this Transaction Confirmation shall apply to the Overlapping Months instead of any conflicting incremental gas pricing associated with the Previous Transaction.

Alternative Pricing Mechanism: The above described index pricing may be amended by a mutually agreed to fixed, NYMEX based, price arrangement at any time during the Delivery Period herein. Upon expiration of such a fixed price arrangement before the end of the Delivery Period, the pricing mechanism shall return to the index pricing of the Delivery Period herein.

Special Provision: If this Transaction Confirmation is terminated early for any reason, Constellation shall determine, for each remaining month of the Delivery Period, (i) the value of the Contract Quantity at the Contract Price (the "Contract Value") and (ii) the value of the Contract Quantity based on then-current market pricing (the "Market Value"), such that the difference shall be due to the Customer if the Market Value exceeds the Contract Value and to Constellation if the opposite is the case. The owing party will be required to make any such termination payment in accordance with the payment terms of the Gas Supply Agreement.

Seller's planned billing method for this facility is to bill Buyer based on: Actual Consumption

Period of Daily Balancing: Should an operational flow order or period of daily balancing occur, Constellation will attempt to adjust Buyer's daily nomination to match expected usage as determined by Constellation. The incremental increased or decreased volumes associated with the nomination adjustment will be based on then current spot market price, as determined by Constellation in its reasonable discretion.

Change In Law: Constellation may pass through or allocate, as the case may be, to Customer any increase or decrease in Constellation's costs related to the natural gas and related products and services sold to Customer that results from the implementation of new, or changes (including changes to transportation rates) to existing, Laws, or other requirements or changes in administration or interpretation of Laws or other requirements. "Law" means any law, rule, regulation, ordinance, statute, judicial decision, administrative order, pipeline or utility business practices or protocol, pipeline or utility tariff, or rule of any commission or agency with federal jurisdiction or jurisdiction in the state in which the facility is located. Such adjusted amounts will be included in subsequent invoices to Customer.

Default Service : Should Constellation continue to deliver to Customer beyond the term of this Transaction Confirmation, said deliveries will be made for successive 12 month terms (each an "Extension Term"), until terminated by either party by giving written notice of termination not less than 30 days prior to the expiration of the then-current Extension Term. The price for gas delivered during the Extension Term(s) will be based on market prices as determined by
