2025-2026 School Year planning and preparation:

- We will kick things off with our preservice days beginning **Monday, August 11**, and students will return on **Thursday, August 14**. I'm truly excited about the year ahead—there is a great deal of important and meaningful work on the horizon, culminating in our **five-year Nebraska Department of Education External Review visit on March 16–17, 2026**.

As we prepare for the year, here are a few key initiatives—both new and continuing—that we will be focusing on during preservice and throughout the school year:

2025–2026 Key Initiatives and Focus Areas:

1. Restorative Practices

Restorative practices focus on building strong relationships and fostering a sense of community within our school. Rather than relying solely on traditional discipline, this approach encourages reflection, accountability, and dialogue. Our goals include:

- Strengthening relationships among students, staff, and families
- Implementing restorative circles and conferences
- Reducing exclusionary discipline (e.g., suspensions) while increasing student engagement
- Promoting a culture of empathy, responsibility, and conflict resolution

2. Empowering District PBIS Practices

We are working to strengthen and align our Positive Behavioral Interventions and Supports (PBIS) program to reinforce a proactive, consistent, and supportive approach to student behavior. Enhancements this year will focus on:

- Reinforcing school-wide expectations with consistent language and visuals
- Using data to guide behavior supports and interventions
- Celebrating positive behavior through recognition systems and incentives
- Aligning PBIS efforts with our restorative practices and MTSS framework
- Building staff capacity to reteach, model, and reinforce behavioral expectations effectively

3. The Positivity Project (P2)

Now entering its second full year, P2 continues to support our students' social-emotional learning and character development. P2 empowers students to recognize their own character strengths and those in others, aligning with our broader school improvement goals. Key components include:

- Classroom lessons focused on 24 character strengths
- Opportunities to embed strengths-based language into our school culture
- Reinforcement of a positive, respectful learning environment
- Resources for staff to model and highlight character in instruction and relationships

- Strengthening tier 1 student achievement outcomes by supporting social emotional development

4. Renaissance Platform: eduCLIMBER, Star Assessments, and FastBridge

The Renaissance suite of tools supports data-driven instruction, intervention, and continuous progress monitoring. As we expand our use of the platform this year, we'll focus on:

- **eduCLIMBER** – A centralized data dashboard for academic and behavioral data to support MTSS decision-making
- **Star Assessments** – Universal screeners in reading and math for grades K–12 to identify student learning levels and growth
- **FastBridge** – Diagnostic and progress monitoring tools to guide tiered interventions for students needing additional support
- Integration of data into team meetings and instructional planning
- Other teacher/grade-specific tools:
 - **myON** – A digital library that gives students access to thousands of leveled books with optional audio support, personalized recommendations, and reading analytics to track engagement and growth.
 - **Lalilo** – An adaptive literacy program for K–2 students that supports phonics, word recognition, comprehension, and grammar through interactive, engaging lessons tailored to each learner's progress.
 - **Freckle** – A differentiated practice platform for math, ELA, social studies, and science. It adjusts in real-time to each student's level, offering standards-based activities and assignments aligned with classroom instruction.
 - **SAEBRS** (Social, Academic, and Emotional Behavior Risk Screener) – A universal screener completed by teachers to identify students at risk for social-emotional and behavioral concerns, supporting early intervention within MTSS frameworks.
 - **Star Phonics** – A diagnostic assessment that helps identify specific phonics skills students have mastered or need support with, guiding instruction and intervention in foundational literacy.

5. NDE External Visit Preparation – March 16–17, 2026

Wakefield Community Schools will undergo a five-year **External Visitation** as part of Nebraska's continuous school improvement process. Our preparation will include:

- Updating and aligning our **CIP goals, narratives, and artifacts** to reflect progress
- Documenting evidence of impact in instructional practice, student learning, and staff collaboration
- Engaging staff in reflection and readiness activities throughout the year
- Hosting and participating in stakeholder input sessions
- Highlighting our district's strengths and areas of growth to the NDE visiting team

6. Instructional Model and Evaluation System

This year, we will collaborate to align our instructional model and evaluation system with several evidence-based frameworks, supporting consistent, high-quality teaching. Our model will include tools we have introduced and supported during our CIP journey:

- **Seven Steps to a Language-Rich Interactive Classroom** – Embedding structured academic language opportunities into every lesson
- **Universal Design for Learning (UDL)** – Designing lessons with multiple means of engagement, representation, and expression to reach all learners
- **Explicit Instruction** – Clear, structured teaching that includes modeling, guided practice, and checks for understanding
- **Nebraska Teacher Performance Framework** – State-aligned expectations for effective teaching
- **Marzano Instructional Framework** – A research-based guide to developing and refining instructional strategies

This comprehensive alignment will support instructional coaching, evaluation, and professional development.

7. MTSS Framework and Teaming Structures

We are continuing to develop our **Multi-Tiered System of Support (MTSS)** framework to provide academic and behavioral support for all students. Key efforts include:

- Creating and refining **grade-level and intervention teams** to analyze student data and determine interventions
- Aligning intervention blocks, resources, and schedules to meet student needs
- Incorporating academic, behavioral, and SEL data into decision-making
- Building staff capacity in progress monitoring, Tier 2/3 supports, and team collaboration

Reports

Secondary Principal/AD Report – Mr. Brenn

- Attended District Leadership Team Meetings at Ponca State Park on May 19th and 20th. We as a team discussed many different topics, one specifically related to our External Visit in the Spring.
- We will be switching over to Bound as the district's new activity scheduler. Previously, we used Rschool Today and it was bought out by another company and there is a lot of uncertainty as to whether or not it will be available in the future. Scott Hansen and myself have sat in two zoom meetings with Brian Kujath from Bound, and we will be doing onboarding work starting next week with Bound. Our schedules for next year that were already in Rschool Today will be merged over into Bound.
- Summer school students completed their make-up days as of June 5th. Summer school was mandatory for students that missed more than 15 days. Students were required to make-up everyday over 15 and that started on May 21st. During the summer school time, students worked on specific academic work revolving around Math, English Language Arts, and Reading.
- JH/HS Math Department teachers will be doing a three-hour training session with McGraw-Hill. McGraw-Hill is the new math curriculum that the math teachers selected through our research, review and selection process.

Programs Director Report – Mrs. Zach

- The District Leadership Team held a team retreat at Ponca State Park on May 19-20. We engaged in the following activities:
 - Mr. Farup gave an explanation of how our transition to Renaissance, particularly EduCLIMBER, will challenge mindsets, but will give us a whole picture of students. The shift may also make our data look differently in our CIP. High collaboration of our teaming structures will be key.
 - The district assessment calendar was drafted.
 - The TIP was shared. A summary of the TIP document will be created to share with all staff.
 - The team returned to our Cognia exit report, specifically reviewing areas that were noted as needing improvement. We engaged in an activity in which we rated those areas, giving evidence to support the rating.
 - The team created a list of PD needs. These needs will be posted on the 25-26 PD calendar.
 - We did team building activities to strengthen the connection within our team and to learn more about each other's strengths.
- Brittany Vinchattle and Allie Rosener completed the training of trainers for restorative practices with Ali Hearn. They will be training all staff in the fall. Restorative practices is connected to our

SEBL goal and it is a practice referred to in the state's draft discipline policy that we will most likely be required to implement.

- ELPA 21 summative results for students in grades K-12 were sent to parents.

Superintendent Report – Mr. Farup

- Budget Update – 2025–2026 School Year
 - Certified State Aid for 2025-2026: \$1,311,969 (24-25 was \$2,056,567)
 - Certified Taxing Authority 2025-2026: \$7,513,374
- External Visit - Our 5-year external visit is scheduled for March 16-17, 2026. The Board plays an important role in that visit, so please plan accordingly to participate. We will need a group of parents and community members for that visit as well. We met with our team leader and are currently working on recruiting other members of the team.
- School Resource Office (SRO) Grant Update - The presence of a School Resource Officer (SRO) in our building has been an invaluable asset to the safety, culture, and overall well-being of our school community. The SRO plays a critical role not only in ensuring school safety but also in fostering positive relationships between students and law enforcement. Students have consistently reported feeling safer, more supported, and more respectful of law enforcement due to the daily presence and interactions with the SRO. Likewise, our administrative team has found the SRO to be an essential resource in addressing student behavioral concerns, de-escalating difficult situations, and supporting staff in proactive safety planning.
 - Initially, it was communicated to the district and the Board that the SRO Grant Program would span five years, with the first three years covered by grant funding and the district assuming costs in the fourth and fifth years. However, based on updated information provided by the Dixon County Sheriff's Department, we have learned that the grant covers only four years. The first two years were fully funded through the grant, and the final two years—years three and four—require full financial responsibility from the district.

Board Committee Reports

Board Policy

- The committee met in April to review the 1000 and 2000 series. Recommendations are later in the agenda.
- The committee also reviewed the policy updates from KSB and recommendations are later in the agenda.

Strategic Planning

- Would like to schedule a board retreat with NASB before school starts in August.

Consider, Discuss, and Take Appropriate Action on the Recommendation to Approve an installation of a new phone and intercom system.

The administration recommends the installation of a new phone and intercom system for the school building to replace the current system, which is outdated and increasingly unreliable. The existing system presents ongoing communication challenges and creates potential security concerns, as it does not meet the needs of a modern school environment.

After reviewing multiple bids, the proposal from Quality Telecommunications, Co. in the amount of \$78,908 has been identified as the most cost-effective and comprehensive solution. Quality Telecommunications, Co. submitted the lowest bid by a significant margin while still meeting all required specifications for both the phone and intercom systems.

Upgrading these systems will enhance internal communication, improve emergency response capabilities, and contribute to a safer and more secure learning environment for students and staff.

Motion to accept Quality Telecommunications, Co.'s bid of \$78,908 for the installation of a new phone and intercom system for the school building passed with a motion by Dorcey and a second by Haglund.

Discuss and take appropriate action on the recommendation to prove the renewal of the district's subscription to GoGuardian, a student monitoring and device management software used to enhance school safety and support responsible technology use.

The administration recommends renewing our GoGuardian subscription, a software solution used to monitor student activity on school-issued devices. GoGuardian provides real-time alerts for flagged activity related to self-harm, suicide, weapons, and other concerning content. While not a requirement, this software has become a critical tool in our efforts to ensure student safety and responsible technology use.

GoGuardian is widely used in K-12 districts across the country and is a leader in classroom device management and student monitoring. The software is compatible with all devices currently used in our district and has proven to be reliable and effective.

Our current license expires on June 30. The company offers multiple renewal options, with cost savings available for longer-term commitments.

Motion to renew the district's GoGuardian subscription for a term of 5 years at a cost of \$26,977.50, as presented passed with a motion by Keagle and a second by Haglund.

Discussion and take appropriate action on the addition of Boys and Girls Cross Country as an NSAA Activity for Wakefield High School.

The Superintendent and the High School Principal/Activities Director recommend the addition of boys and girls cross-country as an approved Nebraska School Activities Association (NSAA) activity for Wakefield High School beginning in the 2025-2026 school year. This recommendation is based on student interest and staff availability, as well as feedback from current fall athletic programs.

A student interest survey indicated that 15 students (6 boys and 9 girls) would participate in cross-country if offered, with an additional 22 students (8 boys and 14 girls) stating they might participate. This level of interest supports the feasibility of fielding both boys and girls teams under NSAA guidelines.

Allie (Rosener) Hollcomb has agreed to serve as the head coach for the cross-country program.

Depending on final participation numbers, an assistant coach may be added to ensure proper supervision and support for student-athletes.

Discussions with current fall sports coaches indicate support for the addition of cross-country, with no anticipated negative impact on participation or performance in existing programs.

Motion to approve the recommendation of the Superintendent and High School Principal/Activities Director to add boys and girls cross-country as an NSAA activity for Wakefield High School beginning with the 2025-2026 school year passed with a motion by Dorcey and a second by Riewer.

Discussion of Potential Junior High Athletic Co-op with Tri-County Wolfpack

The administration recommends that the Board of Education engage in a discussion regarding the potential formation of a cooperative (co-op) relationship between Wakefield Community Schools and the Tri-County Wolfpack (consisting of Emerson-Hubbard and Allen) for junior high athletic programs. The intent of this discussion is to explore options that would increase participation opportunities for students, ensure the sustainability of junior high athletic offerings, and address current concerns regarding roster sizes and competitive balance, as well as to explore future relationships in more than just athletic activities.

Initial conversations have taken place between representatives of the involved districts to gauge interest and feasibility. A formal co-op agreement would NOT go into effect for the 2025-2026 school year. An agreement would require alignment on logistics, schedules, shared costs, practice/game locations, coaching assignments, and administrative oversight. If the co-op is agreed upon, this will take time to discuss and organize.

Stakeholder input—including coaches, parents, and students—will be important as the district considers potential benefits and challenges of such an agreement. No formal action will be taken at this meeting; this agenda item is for discussion purposes only at this stage.

Upcoming Dates and Times— *all times and dates are tentative and may change*
