1.A. SWCP Application Approvals

None

1.B. SWCP Payments

14-TR-2	Dayle Alswager	Terrace Repair	\$ 416.25
14-P-40	Jim Fehringer	W/S Basin & Tile	<u>\$ 12,500.00</u>
			\$

12,916.25

1.C. SWCP Cancellations

NONE

1.D. Cottonwood Creek Payments

NONE

1.E. Sand/Duck Creek Approvals

NONE

1.F. Sand/Duck Cost Share Payment

NONE

1.G. Wahoo Creek Cost Share Payments

Richard Cherovsky	Terraces/Tile	10%	\$ 1,285.46
C&L Erickson LLC	Lands for Cons.		\$ 6,402.00
C&L Erickson LLC #2	Lands for Cons.		<u>\$ 7,867.20</u>
			\$

15,554.66

1.H. Wahoo Creek Cost Share Approvals

2. WATERSHEDS

2.A. Shell Creek Watershed

2.A.1. Shell Creek Grant Payments

Attached is a cover crop payment request to Ryan Siefken for \$788. Committee recommendation to make this payment is requested. It will be reimbursed 100% from NET grant funds.

2.B. Wahoo Creek Watershed - Water Quality Plan (PIP) Phase I

No new information to report as this time.

3. LOWER PLATTE RIVER CORRIDOR ALLIANCE

3.A. LPRCA Monthly Report

No new information to report. Meghan will have a written report by Board Meeting.

4. OTHER

4.A. Army COE 205 Projects

4.A.1. Fremont 205

The City of Fremont has been in discussion with NDOR about the differences in the hydraulic modeling between the COE and NDOR. The Corps has had discussion with NDOR about their preliminary road design. A meeting is being organized by the City and the Corps in which NDOR will be invited along with all partners. Heimann is also working on In-kind services the District has tallied the past 3 years.

4.A.2. Schuyler 205

TCW the contractor continues to work on Jedlicka culverts and ramps near QC Supply.

4.B. Shell Creek Landowner Levee Project Update

No new information at this time.

4.C. All Hazard Mitigation Plan Update- JEO Progress Report and Invoice

No new information to report.

4.D. Review of Projects Financial Statement

4.E. Dennis Waak Dam Repair Assistance Request

Dennis and Karen Waak were present to discuss concerns about his private dam. Director Bailey presented some pictures to show the dam issues as attached, The vertical overflow tube is rusted through, causing the erosion. The concern is that the erosion will continue and ruin the horizontal drain tube as well. Their structure is close to the start of the Neiman ditch that goes along the north side of Schuyler and drains into it directly via county road ditches.

The Waak's have hired an engineer to evaluate the structure damage and repair and has contacted some contractors for the possible repair. After more details are available, the Waak's will return to the Projects Committee to discuss possible assistance for their project.

4.F. Off Site Water Table Problems near Sand Creek Wetland

As earlier reported, for three years we have received comments on impacts to neighbors next to the Sand Creek Wetland. The Board voted to move forward with obtaining proposals from professionals to make an independent assessment of damages and we have received two for committee review and potential recommendation to hire one. The committee reviewed the proposals and discussed obtaining more detailed information pertaining to the landowner acres and tiling costs that might be involved to remedy the situation.

After reviewing the two proposals the committee felt that we should return to our first approach to this problem and that is to meet with the individual landowners and ask what they felt it would take to make them whole, including the number of acres effected and the best solution. It appears that the cost to hire a consultant may approach 50% of the cost for a solution.

5. WESTERN SARPY/CLEAR CREEK LEVEE REPORT

Segment 4B

A final inspection was held

Gates are fixed

Continue to monitor seeding establishment next spring

Segment 5

Gates still needed to be installed

All other work is complete

6. ADJOURNMENT

With no further business, the Projects Committee adjourned at 9:13 a.m.
