

Operations Committee Meeting
Thursday, October 29, 2020 9:00 AM
Lower Platte North NRD Office
P.O. Box 126
Wahoo, NE 68066

1. UNFINISHED BUSINESS

We have no unfinished business to consider.

2. WILD NE AND OTHER PROGRAMS

Nothing to consider.

3. OPERATION & MAINTENANCE & OTHER ITEMS

The O & M crew placed rip-rap around a monitoring well along the shore of Lake Wanahoo, we continue to eliminate trees on different properties which will be the bulk of our work during the winter months. Prepare equipment for winter.

A. Clear Creek Levee Repair by Corps of Engineers

The completion of the minor repairs, ROW markers, fencing, staff gauges and a list of smaller items has been completed. The Corps is working with the contractor on all contract closeout documents. We will be notified for acceptance of the Project and if there's a final inspection. The close-out process is occurring.

B. Wanahoo Stilling Basin - (FEMA)

Valley Corp is still anticipating a mid-November start in placing filter material and prepping for sheet pile placement in early December.

C. Western Sarpy Clear Creek O & M Addendum Agreement

A conference call took place Wednesday, October 28 to cover the Western Sarpy Clear Creek (WSCC) easements, O & M Addendum and O & M Manual for the Levee Systems. See attached a letter from the Nebraska National Guard stating that they have provided a 25 year permanent easement for O & M on the levee on their property. The NRD's are requesting that the easements from the National Guard and the Corps of Engineers (Feds) be perpetual easements. The letter states that they will work on changing it to a perpetual easement. We received the Corps letter the day of committee (also attached). See attached the U.S. Army 25 year permanent easement.

The COE is trying to complete the WSCC O & M Manual before the end of the year, even though there will be changes in the future to maps and some descriptions because of ongoing improvements being made to the levee within the Guard Camp.

Also, the NRD's and the National Guard are trying to put finishing touches on the O & M Agreement Addendum which is tied to the easements and physical changes being made to the levee.

We hope to bring these final easements to the Board in December for approval.

- D. Cottonwood 21-A Emergency Spillway
Staff will meet with Bob Sullivan the new Dam Safety Engineer for the NRCS today on site at 1:00 pm. Sullivan was to contact Tim Gokie with NDNR Dam Safety for the details of the problem on Cottonwood 21-A. Since this is a High Hazard dam and designed by NRCS, we are hoping for some cost-share assistance from the NRCS.
Mountford and Heimann met Sullivan to assess the situation. Sullivan is recommending that NRCS to a Dam Assessment on Cottonwood 21-A. An assessment will evaluate the condition of the structure and the potential scope of any needed rehabilitation. Sullivan will also touch base with their financial headquarters to see how competitive it is to obtain rehabilitation funding.
- E. Wanahoo Auxiliary Spillway Crack Repair
Heimann met Joel Schommer with M.E. Collins a second time to review the cracks in the RCC. Joel is their concrete/bridge specialist. Joel stated that Collins could fill the horizontal cracks with a hot tar substance such as they do on streets/highways and fill the broken RCC and gaps with Shotcrete. He forwarded contact information to Concrete Industries in Lincoln to which the District can buy the appropriate materials to fill other cracks such as the hair line cracks on the concrete poured ogee weir and the vertical cracks in the RCC with a chalk or paste type material.
He stated that there's nothing to professional in applying these materials and that staff and/or summer employees could do this.
- F. Wanahoo Dam Monitoring Contract
Olsson's has sent a Proposal or Scope of Services for Instrumentation Monitoring/Data and Stability Evaluation for a period of September 28, 2020 to December 31, 2022.
There are many different items to monitor on the Wanahoo Dam (See Scope of Services Attached). Sean Parks and Andrew Phillips with Olsson, will be available via Zoom to go over the basis of the proposal and as a Board Meeting Educational Presentation go into more detail as to what will be monitored/evaluated and why. We ask that you review this document before Board Meeting and prepare your questions.
- G. Saunders County SID #8 Woodcliff Lakes
The Sanitary & Improvement District No.8 (Woodcliff) has submitted assistance requests for project repair of their existing bank stabilization project and also for a new road raise project at the same location (letter attached).

The SID's first request is for assistance on the local share for repairing 2019 flood damages to their bank stabilization project. They are working with FEMA/NEMA for up to 87.5% on the repairs. The SID's estimated local 12.5% on the repair is \$137,000 on what appears to be \$1,096,000 total cost. LPNNRD approved \$300,000 assistance toward the original bank stabilization project and has made three \$75,000 payments (\$225,000) thus far, with one \$75,000 payment remaining this fiscal year.

The SID's second request is \$400,000, which is 50% of an estimated \$800,000

road raise flood risk reduction project (for engineering and construction).

Since we just received these requests, we thought it best to present them to both the Projects and Operations Committees for discussion before inviting SID representatives to elaborate. This is the first LPNNRD has been informed of these projects, we have been informed the the road raise is 75% complete. While we have budgeted funds for flood damage repairs under Interlocal Project Emergency Repairs and the Rock and Jetty Program, there are no budgeted funds available for the road raise project this fiscal year.

- H. Fremont Non-Structural 205 Study
The Corps of Engineers is preparing to send out the Fremont Non-Structural 205 Study Report for Agency and Public Review. They will send out the report to the Non-Federal partners by Mid-November. They would like to have agency and public meetings in early December.
- 4. ROCK AND JETTY
We received a request for reimbursement from Joel Engel for repair of a jetty on the Platte River in Butler County. The invoice is for \$2,340.00. Staff has inspected the site.
Our policy is to pay 50% up to \$4,000.
- 5. LAKE WANAHOO
 - A. Lake Wanahoo Permit Sales
As of 10/28/2020, the District has received \$2,750.30 in park entry permit revenue. Of that, \$512.50 is from annual park permit sales. The YTD annual permit total is \$95,957.50 and overall park entry sales are \$120,339.79.

Our 2019 totals for October were \$572.50 and the YTD annual permit total was \$82,200.
 - B. Lake Wanahoo Camping Revenue
For the month of October, the District received \$10,137.00 in camping revenue.

All cabins now have radiant electric baseboard heaters installed. We hope that this will attract late season campers and ice fishers over the winter.
 - C. Lake Wanahoo Education Building
During the month of October, the building was rented 27 times. Of these, 4 were NRD meetings, 1 donor rental, and 5 were school groups or youth organizations. Revenue for month of October was \$1,240
Full Rentals: 7
Day Rentals: 10
Night Rentals: 8
- 6. INFORMATION AND EDUCATION
 - A. Information

1. Radio & eAds
KTIC Radio ad for October and November is featuring the voluntary cost-share program available to landowners in the Shell Creek Watershed to upgrade septic systems that have an open discharge (see attached).

Wahoo Newspaper eAd is attached for the month of October- featuring the slogan of "Working today. Conserving for future generations."

2. Analytics
LPNDRD Website: In October, we saw a drop in traffic to the Lake Wanahoo and Czechland Lake pages. Desktop and mobile views are nearly the same again. Sabatka continues to work on improving the mobile portion of our website.

Land Judging

Attached is the news release from the East Central Land Judging Contest. We couldn't have asked for a nicer day! The competition was held North of Czechland Lake on NRD ground. We had a total of 11 schools in attendance, 181 students competed. Milford FFA took first place, followed by East Butler FFA, Raymond Central FFA and Wilber-Clatonia respectively. We required masks for all attending including instructors and staff.

7. RURAL WATER SYSTEMS

A. Colon System

The Colon water system had another positive coliform test during the routine monthly sample. Subsequent repeat tests came back negative, which prevented the Colon RWD from having to chlorinate the system. Wahoo Water Dept. will be performing their annual chlorination the first two weeks

of November which should prevent any potential coliform positives in the immediate future.

Elliott and Tim Thares (DHHS Representative) completed the Level 2 Assessment for the Colon RWD. The Level 2 Assessment was required due to the positive coliform, and positive repeat samples, from our September testing.

Meters read and bills will go out 10/30.

B. Bruno System

The RWD received a request from the Butler County Landfill to bring in an additional service line to their expanding facility: They already have one 2" service and would like to add another 2" service. They have a contractor lined up to install service from the meter pit and requested that the work could be done before the frost sets in. The timeline and size parameters of this job push it beyond the reasonable capabilities of the RWD, therefore Elliott will be reaching out to contractors.

Elliott has contacted the Nebraska Rural Water Association about borrowing their backflow differential gauge to perform annual testing on our 5 backflow prevention devices on the system.

Meters read and bills will go out 10/30

REPLY TO
ATTENTION OF

DEPARTMENT OF THE ARMY
CORPS OF ENGINEERS, OMAHA DISTRICT
1616 CAPITOL AVENUE, SUITE 9000
OMAHA NE 68102-4901

SUBJECT: Required easements for the Clear Creek levee system for the West Sarpy/Clear Creek project located on the Nebraska Army National Guard Camp Ashland Installation

Lower Platte North Natural Resources District
511 Commercial Park Road
Wahoo, NE 68066-9750

Lower Platte South Natural Resources District
3125 Portia Street
Lincoln, NE 68521-1762

Papio-Missouri River Natural Resources District
8901 S. 154th Street, Suite A
Omaha, NE 68138-3635

Dear NRD Boards:

Thank you for your cooperation and understanding while the United States Army Corps of Engineers (USACE) works with the Nebraska Army National Guard (NEARNG) and National Guard Bureau (NGB) to address concerns with the required easements for the Clear Creek levee system for the West Sarpy/Clear Creek project located on the Nebraska Army National Guard Camp Ashland Installation.

Camp Ashland is a military installation under control of the NEARNG. The NEARNG receives its real estate outgrant authority from the NGB and they have instructed USACE, as the real estate agent for the Army, to issue 25-year easements to the NRD for construction, operation and maintenance of the levee system.

To support the request to the NGB for the required perpetual easements, please execute the proposed 25-year easements. The proposed easements will serve as authority for the NRD to continue to operate and maintain the levee system. Once signed, USACE and the NEARNG will continue working jointly to request permission from NGB to amend or replace the easements to reflect a perpetual term. The request will likely take a year or more to complete as it requires an in-depth review and waiver by the NGB. Considering the nature of the easements, we feel the NGB will be supportive of the request.

Thank you for your cooperation with this request. If you have questions or need additional information, you may contact my Acting Chief of Real Estate Division, Mr. Rick Noel, Phone: (402) 995-2832; E-mail: rick.l.noel@usace.army.mil.

Sincerely,

Mark R. Himes, P.E.
Colonel, Corps of Engineers
District Commander

LINCOLN, NE 68524-1801

OCT 15 2020

SUBJECT: Levee System Easements at Camp Ashland Installation

Lower Platte North Natural Resources District
511 Commercial Park Road
Wahoo, NE 68066-9750

Lower Platte South Natural Resources District
3125 Portia Street
Lincoln, NE 68521-1762

Papio-Missouri River Natural Resources District
8901 S. 154th Street, Suite A
Omaha, NE 68138-3635

Dear NRD Boards:

Thank you for your cooperation and understanding while the Nebraska Army National Guard (NEARNG) works with the National Guard Bureau (NGB) and the United States Army Corps of Engineers (USACE) to address your concerns with the required easements for the levee system located on the Nebraska Army National Guard Camp Ashland Installation (Camp Ashland).

Camp Ashland is a military installation under the control of the NEARNG. The NEARNG receives its real estate outgrant authority from NGB and they have instructed USACE, as the real estate agent for the Army, to issue 25-year permanent easements to the NRD for construction, operation and maintenance of the levee system. It is understood the NRDs would prefer to have perpetual easements issued for the levee system. The NEARNG and USACE support granting perpetual easements, but the easement terms will require additional approvals from NGB.

To support the request to NGB for the perpetual easements, we are requesting the NRDs execute the proposed 25-year permanent easements. Once signed, USACE and the NEARNG will continue working jointly to request permission from NGB to amend the easements to reflect a perpetual term. The request will likely take a year or more to complete as it requires an in-depth review by NGB. Considering the nature of the easements, we feel NGB will be supportive of the request.

I am forwarding a copy of this letter to COL Georgia Kroese, United States Property and Fiscal Officer (USPFO) for Nebraska. As the USPFO, COL Kroese is responsible for receiving and accounting for all funds and property of the United States in the possession of NEARNG.

The portion of the levee on Camp Ashland affected by the proposed easements is federal property, therefore COL Kroese has a direct interest in this process.

In addition, I will supply a copy of this letter to Mr. Rodney Nelson, Realty Specialist, Omaha District, USACE. Mr. Nelson will assist NEARNG with the process of preparing and granting the easements.

Thank you for your cooperation with this request. If you have questions or need additional information, you may contact COL Brent Flachsbart, Construction and Facilities Management Officer (CFMO), Phone: 402-309-8456; E-mail: brent.d.flachsbart.mil@mail.mil.

Sincerely,

DARYL L. BOHAC
Major General
The Adjutant General

**DEPARTMENT OF THE ARMY
EASEMENT FOR FLOOD CONTROL LEVEE
RIGHTS-OF-WAY
LOCATED ON
CAMP ASHLAND TRAINING SITE
SAUNDERS COUNTY, NEBRASKA**

This Easement is made on behalf of **THE UNITED STATES OF AMERICA** (the "United States"), between **THE SECRETARY OF THE ARMY**, acting by and through the Real Estate Contracting Officer, Real Estate Division, U.S. Army Engineer District, Omaha, Nebraska, hereinafter referred to as the "Grantor", under and by virtue of the authority vested in Title 10, United States Code, Section 2668, having found that the granting of this easement will not be against the public interest, and the **Lower Platte North Natural Resources District** and the **Lower Platte South Natural Resources District**, duly organized and existing under and by virtue of the laws of the State of Nebraska, with its principal offices located at

Lower Platte North Natural Resources District, 511 Commercial Park Road, Wahoo, NE 68066-9750, and Lower Platte South Natural Resources District, 3125 Portia Street, Lincoln NE 68521-1762, hereinafter referred to as the "Grantees."

NOW THEREFORE:

The Grantor, for good and valuable consideration set forth below, the receipt and sufficiency of which are hereby acknowledged, upon and subject to the terms, covenants and conditions set forth in this Easement, does hereby:

Grant and convey to Grantees, an easement for the construction, installation, operation, maintenance, repair, removal, upgrade, and replacement of flood control levee, and related Facilities, hereinafter collectively referred to as the "Facilities", over, across, under, in and upon lands of the United States as identified in Exhibits "A" and "B", having been determined not to be more land than is necessary for the easement, hereinafter referred to as the "Premises", and which is attached hereto and made a part hereof;

Make no claim of title during the term of this Easement to any easement Facilities of whatever nature located, constructed, or placed on the Premises during the term of the Easement by, or on behalf of, the Grantees; and title to any such Facilities and any addition or alteration to the Facilities, shall, upon completion thereof, immediately vest in the Grantees. The Facilities shall remain real property for the duration of this Easement.

THIS EASEMENT is granted subject to the following conditions:

1. TERM

This Easement is hereby granted for 25 years, beginning June 1, 2018 and ending March 31, 2044, so long as the Grantees remain in compliance with any or all of the conditions of this Easement.

2. CONSIDERATION, MITIGATION, AND DAMAGES

a. The consideration for this Easement shall be the construction, operation and maintenance of a public flood control levee for the benefit of the United States and the general public in accordance with the terms herein set forth.

b. The Grantees will mitigate damages caused to the Premises, surrounding areas, or to Camp Ashland, during initial installation and construction of the Facilities, and damages caused during operation, maintenance, or subsequent construction work, and complete all site restoration in accordance with the Clear Creek – Platte River RB Levee Systems Saunders County Nebraska Operation and Maintenance Manual by Grantees on file in the U.S. Army Engineer District, Omaha, Nebraska.

3. NOTICES

a. All correspondence and notices to be given pursuant to this easement shall be in writing and addressed, if to the Grantees, to Lower Platt North Natural Resources

District, 511 Commercial Park Road, Wahoo, NE 68066-9750, and Lower Platte South Natural Resources District, 3125 Portia Street, Lincoln NE 68521-1762

And, if to the Grantor, to: the Commander, Omaha District, U. S. Army Corps of Engineers, Real Estate Division, ATTN: CENWO-RE-M, 1616 Capitol Avenue, Suite 9000, Omaha, Nebraska 68102-4901; with reference to the Easement number: **DACA45-2-18-6033**, or as may from time to time otherwise be directed by the parties. Both Grantor and Grantees have an obligation to ensure that the other party has their accurate address.

b. Notices shall be mailed by certified mail, postage prepaid, return receipt requested, addressed to the addresses above. The effective date of the notice shall be the earlier of the actual date of receipt or the date the addressee is notified of the attempted delivery of the certified mail, whether or not the addressee actually accepts delivery.

4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Grantor" or "Real Estate Contracting Officer" shall include their duly authorized representatives. Any reference to "Grantees" shall include assignees, transferees and their duly authorized representatives.

5. SUPERVISION BY THE GRANTOR

a. The construction, operation, maintenance, repair or replacement of said Facilities, including related facilities, culverts and other drainage facilities, and the Premises shall be performed at no cost or expense to the United States under the general supervision and subject to the approval of the Grantor's representative having immediate jurisdiction over the property, hereinafter designated as "said officer," and in such manner as not to endanger personnel or property of the United States on the said United States land or obstruct travel on any road thereon. The Grantees shall have the right of ingress and egress for such purposes, subject to approval of access by said officer.

b. The use and occupation of the Premises incident to the exercise of the privileges and purposes hereby granted shall be subject to such rules and regulations as the said officer may from time to time prescribe.

6. APPLICABLE LAWS AND REGULATIONS

a. The Grantees shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the Premises are located. The Grantees shall be solely responsible for obtaining at its cost and expense any permits or licenses required for its operations under this Easement, independent of any existing permits or licenses held by the Grantor.

b. The Grantees shall promptly report to the Grantor any incident for which the Grantees is required to notify a Federal, State or local regulatory agency or any citation by Federal, State or local regulatory agency of non-compliance with any applicable law, ordinance or regulation.

7. CONDITION OF PREMISES

The Grantees acknowledges that they have inspected the Premises, know the condition, and understand that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the Grantor.

8. INSPECTION AND REPAIRS

a. Upon completion of any phase of the Easement activities which causes damage to the Premises, the Grantees shall restore said damage immediately, at the Grantees' own expense, to the same condition in which they existed prior to the commencement of such work, to the satisfaction of the said officer.

b. The Grantees shall supervise the said Premises and Facilities and cause it to be inspected at reasonable intervals, and shall immediately repair any defects or leaks found by such inspection, or when requested by the Grantor to repair any defects or leaks.

9. PROTECTION OF GOVERNMENT PROPERTY

The Grantees shall be responsible for any damage that may be caused to property of the United States by the activities of the Grantees under this Easement, and shall exercise due diligence in the protection of all property located on the Premises against fire or damage from any and all causes. Any property of the United States damaged or destroyed by the Grantees incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Grantees to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefore by the Grantees in an amount to reimburse for the loss satisfactory to the Grantor.

10. RIGHT TO ENTER

a. The right is reserved to the Grantor, its officers, agents, and employees to enter upon the Premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the Grantee, or to make any other use of the lands as may be necessary in connection with government purposes, and the Grantee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

b. (DELETED)

c. The Grantees shall have the right to enter the Installation to exercise its rights under this Easement, subject to certain restrictions and/or special conditions required by the Installation. The Grantees acknowledge and recognize that:

(1) Premises are located on active U.S. Army installations and, as such, access to the easement activities may be subject to temporary closings and identification and/or routing requirements due to the occurrence of announced or unannounced events, actual or simulated, involving: mobilization, extreme weather conditions, security, anti-terrorist force protection measures, police, medical or fire-related emergencies; the occurrence of a national emergency declared by the President or Congress; or due to planned military training exercises affecting the Premises. It is expressly understood that the Grantor may limit or restrict the right of access granted in any manner considered necessary, in the Grantor's sole discretion.

(2) Grantor, acting by and through his duly authorized Commander, Camp Ashland, exercises command and control over and with respect to (i) the Premises, including traffic control, security, force protection, law enforcement, fire protection, activities performed thereon and command and control matters, and (ii) military personnel that may be at or otherwise present on the Premises from time to time.

11. RIGHT TO CONNECT (DELETED)

12. REQUIRED SERVICES (DELETED)

13. TRANSFERS AND ASSIGNMENTS

Without prior written approval by said District Engineer, the Grantees shall neither transfer nor assign this easement or any part thereof nor grant any interest, privilege or license whatsoever in connection with this easement. The provisions and conditions of this easement shall extend to and be binding upon and shall inure to the benefit of the representatives, successors and assigns of the Grantees.

14. INDEMNITY (DELETED)

15. SUBJECT TO EASEMENTS

This easement is subject to all other existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the Premises, provided that the proposed grant of any new easement or route will be coordinated with the Grantees, and easements will not be granted which will, in the opinion of said officer, interfere with the use of the Premises by the Grantees.

16. OTHER AGENCY AGREEMENTS

It is understood that the provisions of this easement shall not abrogate or interfere with any agreements or commitments made or entered into between the Grantees and any other agency of the United States with regard to financial aid to the Grantees in connection with the installation, construction, operations, maintenance, or repair of the Facilities herein authorized.

17. RELOCATION OF FACILITIES (DELETED)

18. TERMINATION

This easement may be terminated by the Grantor upon 30 days written notice to the Grantees if the Grantor shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Grantor for failure of the Grantees to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

19. SOIL AND WATER CONSERVATION

The Grantees shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said Premises at the beginning of or that may be constructed by the Grantees during the term of this easement, and the Grantees shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the Premises resulting from the activities of the Grantees shall be corrected by the Grantees as directed by said officer.

20. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties hereto shall protect the Premises against pollution of its air, ground and water. The Grantees shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the Premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The Grantees shall not discharge waste or effluent from the Premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the Premises shall be in conformance with all applicable Federal, state, interstate, and local laws and regulations. The Grantees must obtain approval in writing from said officer before any pesticides or herbicides are applied to the Premises.

c. The Grantees will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the Grantees' activities, the Grantees shall be liable to restore the damaged resources.

21. ENVIRONMENTAL SITE ASSESSMENT (DELETED)

22. HISTORIC PRESERVATION

The Grantees shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the Premises, the Grantees shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

23. NON-DISCRIMINATION (DELETED)

24. NON-DISCRIMINATION

a. The Grantees shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin or religion.

b. The Grantees, by acceptance of this easement, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964 as amended (42 U.S.C. 2000d); the Age Discrimination Act of 1975 (42 U.S.C. 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directive 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Grantees, its agents, successors, transferees, and assignees.

25. RESTORATION

On or before the termination or revocation of this easement, the Grantees shall, without expense to the United States and within such time as said officer may indicate, restore the Premises to the satisfaction of said officer. In the event the Grantees shall fail to restore the Premises, at the option of said officer, said improvements shall either become the property of the United States without compensation therefore, or said officer shall have the option to perform the restoration at the expense of the Grantees, and the Grantees shall have no claim for damages against the United States or its officers or agents for such action.

26. DISCLAIMER

This instrument is effective only insofar as the rights of the United States in the Premises are concerned; and the Grantees shall obtain such permission as may be required on account of

any other existing rights. It is understood that the granting of this easement does not eliminate the necessity for obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), Section 404 of the Clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state, interstate or local laws in connection with the use of the Premises.

27. SPECIAL CONDITIONS

EXECUTIVE ORDERS 13658 AND 13706

a. It has been determined this Easement is not subject to Executive Orders 13658 and 13706 or the regulations issued by the Secretary of Labor in 29 CFR parts 10 and 13 pursuant to the Executive Orders.

b. If a duly authorized representative of the United States discovers or determines, whether before or subsequent to executing this Easement, that an erroneous determination regarding the applicability of Executive Order 13658 was made, the Grantees, to the extent permitted by law, agrees to indemnify and hold harmless the United States, its officers, agents, and employees, for and from any and all liabilities, losses, claims, expenses, suits, fines, penalties, judgments, demands or actions, costs, fees, and damages directly or indirectly arising out of, caused by, related to, resulting from or in any way predicated upon, in whole or in part, the erroneous Executive Order 13658 determination. This includes Grantees releasing any claim or entitlement it would otherwise have to an equitable adjustment to the Easement and indemnifying and holding harmless the United States from the claims of subcontractors and Grantees employees.

THIS EASEMENT is not subject to Title 10, United States Code, Section 2662, as amended.

Exhibit A - Map

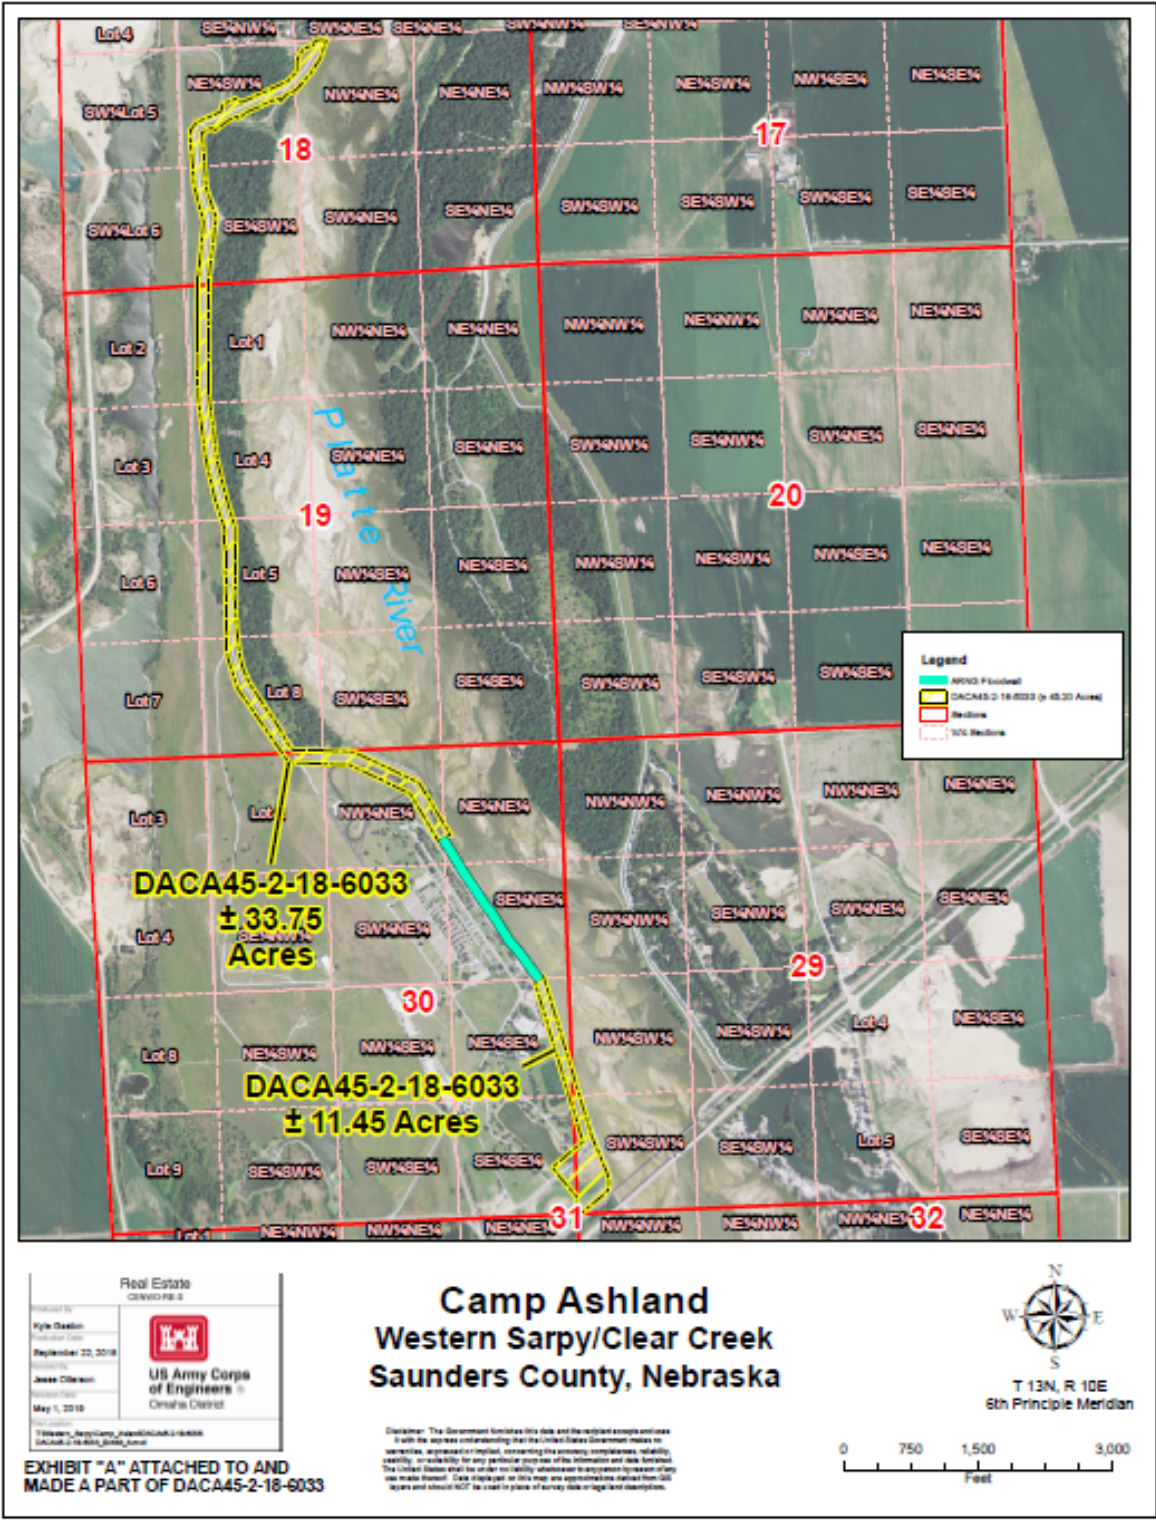

Exhibit B – Legal Description

Parcel 1

A Parcel of land located in the SW $\frac{1}{4}$ of Section 29, the SE $\frac{1}{4}$ of Section 30, the NW $\frac{1}{4}$ and

the NE¼ of Section 31, all located in Township 13 North, Range 10 East of the 6th P.M., Saunders County, Nebraska, more particularly described as follows:

Beginning at the Southwest corner of Section 29, said point also being the Southeast corner of said Section 30, also being the Northwest corner of said Section 32, said point also being the Northeast corner of Section 31;

Thence North 02°38'53" West {Assumed Bearing), along the West line of said Section 29, said line also being the East Line of said Section 30, a distance of 185.20 feet;

Thence North 39°59'00" West, a distance of 432.73 feet;

Thence North 49°29'11" East, a distance of 446.33 feet;

Thence North 17°07'57" West a distance of 1,855.42 feet;

Thence North 50°24'18" East, a distance of 120.49 feet;

Thence South 17°07'57" East, a distance of 1,853.31 feet;

Thence South 23°02'46" East, a distance of 480.56 feet;

Thence South 09°52'59" East, a distance of 84.25 feet;

Thence South 08°24'36" West, a distance of 105.18 feet, to a point on the Northerly Right-of-Way line of the Burlington Northern Railroad Right-of-Way;

Thence South 49°29'11" West, along said Northerly Right-of-Way line of the Burlington Northern Railroad Right-of-Way, a distance of 435.26 Feet, to a point on the West line of said NW¼ of Section 32, said line also being the East line of said NE¼ of Section 31;

Thence North 02°38'53" West, along said West line of the NW¼ of Section 32, said line also being the East line of the NE¼ of Section 31, a distance of 26.71 feet, to the **Point of Beginning**.

The above tract of land herein described contain 11.45 acres, more or less.

ALSO

Parcel 2

A Tract of land located in the SW¼ and the NW¼SE¼ of Section 18, W½ of Section 19, and the N½N½ of Section 30, all located in Township 13 North, Range 10 East of the 6th P.M.,

Saunders County, Nebraska, more particularly described as follows:

Commencing at the Southwest corner of Section 29, said point also being the Southeast corner of said Section 30, also being the Northwest corner of said Section 32, said point also being the Northeast corner of Section 31;

Thence North 02°38'53"West {Assumed Bearing), along the West line of said Section 29, said line also being the East Line of said Section 30, to a point of the E¹/₄ corner of said Section 30, also being the W¹/₄ corner of Section 29, a distance of 2,642.97 feet;

Thence North 44°04'39" West, a distance of 2,101.06 feet, to the **Point of Beginning**;

Thence North 30°42'10" West, a distance of 625.33 feet;

Thence North 64°44'36" West, a distance of 742.24 feet;

Thence North 87°48'37" West, a distance of 685.33 feet;

Thence North 34°31'12" West, a distance of 1,012.59 feet;

Thence North 17°24'21" West, a distance of 374.96 feet;

Thence North 01°06'42" West, a distance of 1,280.77 feet;

Thence North 00°09'57" East, a distance of 132.89 feet;

Thence South 06°25'02" East, a distance of 257.64 feet;
Thence South 10°36'53" East, a distance of 166.41 feet;
Thence South 23°12'49" East, a distance of 212.10 feet;
Thence South 33°46'47" East, a distance of 616.06 feet;
Thence South 27°49'38" East, a distance of 163.67 feet;

Thence South 37°44'49" East, a distance of 108.18 feet;

Thence South 88°38'48" East, a distance of 671.96 feet;

Thence South 64°44'36" East, a distance of 819.91 feet;

Thence South 30°42'10" East, a distance of 671.25 feet;

Thence South 59°17'50" West, a distance of 150.00 feet, to the **Point of Beginning**;

The above parcel of land herein described contain 33.75 acres, more or less.

Together the above parcels of land herein described contain 45.20 acres, more or less.

SCOPE OF SERVICES

This exhibit is hereby attached to and made a part of the Letter Agreement for Professional Services dated September 28, 2020 between Lower Platte North NRD ("Client") and Olsson, Inc. ("Olsson") providing for professional services. Olsson's Scope of Services for the Agreement is indicated below.

PROJECT DESCRIPTION AND LOCATION

Project will be located at: Wahoo, Nebraska

Project Description: Lake Wanhoo Dam – September 28th, 2020 to December 31st, 2022
Instrumentation Monitoring/Data Evaluation and Stability Evaluation

SCHEDULE OF FEES

GENERAL

Olsson shall perform for Client professional services in all phases of the Project to which this Agreement applies as hereinafter provided. These services will include serving as Client's professional representative for the Project, providing professional consultation and advice and furnishing customary services incidental thereto.

TASK I – INSTRUMENTATION MONITORING SEPTEMBER 28TH, 2020 TO DECEMBER 31ST, 2022. EACH OF THE BELOW ITEMS WILL BE COMPLETED ONCE PER YEAR FOR A TOTAL OF THREE YEARS.

- **Vibrating Wire, Multi-Level Piezometer Measurements/Data Evaluation:** Measurements on each of the 23 piezometers. The vibrating wire piezometers will be read at the time relief well measurements are taken and/or at the time inclinometer movement is monitored. A table of current piezometer readings will be provided to the Client.
- **Inclinometer Monitoring/Data Evaluation:** Measurements on each of the six inclinometers. A graphical plot of the inclinometer readings will be submitted to the Client.
- **Settlement Gauges/Movement Marker Monitoring/Data Evaluation:** Survey elevations on each of the 21 settlement gauges/movement markers. A table and graphical plot of the settlement gauges/movement markers will be submitted to the Client.
- **Velocity Profile Data Evaluation:** The Client should collect readings on each of the flowing pressure relief wells (total of 47 pressure relief wells) once per year. We will use the submitted velocity profile data and compile the information into a graphical plot, which will be submitted to the Client.
- **Data Review and Reporting:** Review of piezometer, inclinometers, and velocity profiles data to compare with the maximum values associated with critical measures of the dam stability. If the evaluation determines the measured data exceeds acceptable limits, further evaluation and recommendations would not be included in the scope of services in this letter agreement.

Additional evaluation services to determine the dam stability would be completed under a time-and-expense basis, if needed.

TASK II – YELLOW/RED FLAG UPLIFT REVIEW

- **Yellow/Red Flag Uplift Evaluation:** Use gathered piezometric and pressures relief well data to evaluate the present stability of Wanhoo Dam. We will re-evaluate of the seepage and uplift forces along the dam embankment, compare to the initial calculations and potentially updating the piezometric Yellow/Red Flag milestones. We will also evaluate the current slope stability of the dam with respect to recent piezometric elevations.

TASK III – PRESSURE RELIEF WELL CLEANOUT EVAL

- **Pressure Relief Wells:** Review the pressure relief well data and provide recommendations for pressure relief well cleanout. Recommendations include current well flow reduction list, a well cleanout priority list, and cleanout methods.

TASK IV – PREVIOUS CONTRACT ADDITIONAL SERVICES

- Additional services from previous contract. Including time associated with evaluation and consultation for pressure relief well readings and monitoring equipment.

TASK I COMPENSATION (Instrumentation Monitoring): \$26,860.00 (Twenty-Six Thousand Eight Hundred Sixty Dollars and 00/100s).

TASK II COMPENSATION (Yellow/Red Flag Uplift Review): \$14,070.00 (Fourteen Thousand Seventy Dollars and 00/100s).

TASK III COMPENSATION (Pressure Relief Well Review): \$6,160.00 (Six Thousand One Hundred Sixty Dollars and 00/100s).

TASK IV COMPENSATION (Previous Contract Additional Services): \$1,077.87 (One Thousand Seventy-Seven Dollars and 87/100s).

TOTAL COMPENSATION: \$48,167.87 (Forty-Eight Thousand One Hundred Sixty-Seven Dollars and 87/100s).

Should Client request work in addition to the above Scope of Services, Olsson will invoice Client for such additional services (Optional Additional Services) at the current standard hourly billing labor rate charged for those employees actually performing the work, plus reimbursable expenses, if any. Olsson will not commence work on Optional Additional Service without Client's prior written approval.

Olsson is committed to providing quality service to its clients, commensurate with their wants, needs and desired level of risk. If a portion of this proposal does not meet your needs, or if those needs have changed, Olsson stands ready to consider appropriate modifications, subject to the standards of care to which we adhere as professionals. If you have any questions or concerns, please call Sean Parks at 402-458-5900 (office). We look forward to hearing from you and working with you on this project.

RE: Cost-share, financial assistance for March 2019 Flood Damage Repair Projects

Dear Mr. Gottschalk:

Saunders County SID No. 8 – Woodcliff Lakes would like to formally request cost-share assistance from the Lower Platte North NRD for our March 2019 flood damage repair projects. The SID is working with FEMA/NEMA Public Assistance to obtain 75%/12.5% reimbursement for project costs. Damages occurred to previously constructed bank stabilization measures, the SID roadway, and additional bank erosion. Repairs to those areas are being addressed with FEMA Public Assistance. Currently, the estimated SID portion (12.5%) of those repairs is \$137,000.

The SID also took action to implement a road raise flood risk reduction project along the roadway adjacent to the Platte River. This project raises the entire stretch of roadway adjacent to the River to the 100-year floodplain elevation, a raise of up to 2-feet along the lowest areas of the roadway. This project is being entirely funded by the SID. The current engineering and construction costs for that project are approximately \$800,000. The improvements provide significant additional flood risk reduction for the community, and construction is scheduled for completion in the Spring of 2021.

The SID would like to formally request the NRD provide cost-share assistance for the road raise flood risk reduction project described above, in the amount of 50% of the total project cost, \$400,000. The cost share could be provided over the course of multiple years; the SID would suggest four years.

We appreciate the NRD's support and assistance with this important project. Feel free to call me at (402) 431-7102 or email me at lonnie.mahrt@csgj.com if you have any questions. We look forward to hearing your feedback to this request for assistance.

Sincerely,

Lonnie Mahrt
SID Board Chair

Water is one of the most important natural resources. The Shell Creek Watershed which covers portions of Boone, Madison, Platte and Colfax counties in the Lower Platte North Natural Resources District continues to be a top priority. The Lower Platte North NRD is offering a voluntary program to landowners within the watershed for cost-share assistance to upgrade septic systems with open discharge. For more information about this program, please contact Bill Bos at the Columbus NRCS Office at 402-564-0506
