**Rationale:**

This item is placed on the agenda through May so that the board may approve contracts through the start of the meeting.

Note that contracts for Julie Rickertsen, Scott Carlin, and Heather Linden were approved at a special meeting held on May 1.

4.1.4. Discuss, consider, and approve calendar for 2017-18 school year.

## **Rationale:**

The leadership is proposing that the first draft of the school calendar that was presented in January is modified to include a weekly PLC time for the staff as the result of discussions with the administrative team, the Executive Council and a group of educators who traveled to Hastings to visit their buildings and to see their Professional Learning Communities in action. The PLC process utilized in the Hastings Public Schools has allowed them to improve effectiveness and increase student learning as evidenced by the assessment scores and recognition as Blue Ribbon Schools.

Information received from the AdvancEd Accreditation visit which occurred in March support this request. The accreditation process is designed to provide an international protocol for institutions committed to systemic, systematic and sustainable improvement, to build capacity of the system and its schools to increase and sustain student learning and to stimulate and improve effectiveness and efficiency throughout the system.

The external review was a diagnostic process to stimulate and guide continuous improvement with a focus on the impact of teaching and learning, the capacity of leadership and effective use of resources.

Professional judgment by the External Review Team results in:

- Powerful Practices
- Opportunities for Improvement
- Improvement Priorities
- Index of Education Quality
- Accreditation Recommendation

Two powerful practices were determined. It was recommended that the District continue to use the practices as the pillars of a high-performing system.

- The Gothenburg Public Schools effectively engages parents and community members as active partners to leverage relationships and improve communications resulting in unity among stakeholders.
- The Gothenburg Public Schools governance and leadership teams collaborate to foster autonomy at all levels of the organization.

Two improvement priorities were identified and the district is required to respond to these items within the next two fiscal years.

- Design and implement a strategic plan that supports challenging, equitable educational programs resulting in the improvement of learning.
- Develop and implement a systematic process to collect, analyze and use data from various assessments to focus on the improvement of curriculum and instruction to increase student learning and achievement.

Finally, two additional opportunities for improvement were identified. While no action is required, the external team recommended that the identified items were continued and refined in alignment with the improvement priorities.

- Create and implement a grading and reporting system based on clearly defined criteria that represent the attainment of content knowledge and skills.
- Expand the systemic incorporation of the Marzano model to strengthen instructional strategies that enhance teacher effectiveness.

It is the position of the leadership teams that the lofty goals that have been placed before us will only be effective with a consistent and systemic plan involving on a weekly basis.

- 4.1.5. Discuss, consider and approve proposed policies and revisions to existing policies.

**Rationale:**

Dawson County School District #20, Gothenburg Public Schools, participates in a policy update and revision process with the Perry Law Firm through Educational Service Unit #10. Mr. Perry typically sends proposed revisions upon completion of the legislative session, however, we have received an early installment of new policies due to summer implementation requirements.

According to the bylaws of the board, while policies may typically be introduced in one meeting and approved at a second meeting, policies may be approved in a single meeting if necessary. This may become applicable if policies are proposed which impact handbooks and are not received until after the June meeting.

## **Administrator Report**

Meeting: February Board Meeting

Date: 05/08/17

Mrs. Allison Jonas

---

**Early Childhood:** We had our first “Week of the Young Child” event on April 27<sup>th</sup>. Approximately 500 people attended the Lil Tykes Fair. Mrs. Bell did a great job setting this up and coordinating. It was a wonderful community event that pulled together more than ten community groups to make the evening a huge success.

Jump Start will run July 10<sup>th</sup> – 28<sup>th</sup>. Fully staffed! Based on preschool reports, we’re anticipating a class size of 60-65.

Preschool is accepting applications through the last day of school. We have six available spots.

**Curriculum:** K-6 math is meeting on Wednesday, May 17<sup>th</sup> to evaluate three programs. The secondary math team is getting together on May 22<sup>nd</sup> to evaluate some possibilities. As a reminder, we’re looking to pilot two programs in the fall with an adoption date of August 2018.

**Special Education:** Our non-publics meeting typically held in June will be held on May 24<sup>th</sup> at noon this year due to NDE moving back some reporting deadlines. This is an opportunity for non-public schools in our community to come in and talk about Special Education and what that can look like for students whose parents choose to enroll them in a non-public school.

**Mentor Program:** Starting to talk about mentors for next year. Our “new” teachers aren’t so new anymore!

**Professional Development & School Improvement:** Starting to work on back to school professional development. We’ve contracted with ESU 10 to provide some data analysis training to our staff. This will tie directly into developing our essential learnings and individualized learning concepts we hope to address through the PLC process.

### **Completed Staff Evaluations:**

Formal: 43 (completed)

Walkthroughs: ~225

## PROTOCOL FOR STUDENT TESTING

### 1. Eligibility for Random Testing

Students who participate in competitive extracurricular activities at the junior and high school (Grades 7-12) level are eligible for random testing. See Board Policy 5306 for specifics.

Competitive Extracurricular Activities as defined by Gothenburg Public Schools include, but not limited to:

Art Club	FFA	Softball
Band	Flag Corps	Speech
Basketball	Football	Track
Cheerleading	Golf	Volleyball
Choir	Play Competition	Wrestling
Cross Country	Quiz Bowl	

### 2. Testing Procedures

- a. The Superintendent, Activities Director, or contracted Third Party Administrator will create a confidential testing schedule to ensure that the testing of eligible students is conducted in a manner that is random. Frequency of testing and depth of testing panel will be determined on an annual basis and kept confidential. To maintain confidentiality and to maintain the integrity of the randomness of this program, the students eligible for testing will be identified by a unique personal identifier that does not make the student known to persons other than the school officials who are directly involved in the testing program.
- b. The testing collection process will be conducted in a manner that protects student privacy, guards against tampered specimens and ensures an accurate chain of custody of the specimen. The method of testing may involve the use of breath, saliva, urine, or hair samples. To the extent the testing involves the collection of urine, a certified collector in accordance with DOT urine drug screen collections policy/ procedures shall do it. Such collection procedures may require a same sex monitored collection should the urine sample shows signs of alteration, temperature out of range, or tampering.
- c. The Superintendent or Activities Director will designate a collection site(s) at Gothenburg Junior/Senior High School where individuals may provide specimens.

## Gothenburg Public Schools

- d. The Superintendent and the Third Party Administrator have developed and will maintain a documented procedure for collecting, shipping and accessing all specimens. The Superintendent and the Third Party Administrator will utilize a standard Custody and Control Form for all students participating in extracurricular activities testing. A tamper-proof sealing system, indentifying numbers, labels, and sealed shipping container will be used for specimen transportation. Collection sights will maintain instructions and training emphasizing the responsibility of the collection site personnel to protect the integrity of the specimen and maintain as proper a collection procedure that is reasonable.
  - e. The Third Party Administrator will transmit the results of all tests to the Medical Review Officer by a secure method. Prior to making a final determination, the Medical Review Officer shall give the individual an opportunity to discuss the result either face-to-face or over the telephone. The Medical Review Officer will meet with Activities Director and Principal upon final determination.
  - f. Request for Retest: A split specimen will be collected for all testing methods with the exception of alcohol testing. Students involved in the program may, upon a non-negative test result, request in writing that the split sample be tested (within 72 hours of being notified of the final testing result) at a second nationally certified laboratory from a list provided by the Medical Review Officer. The student is required to pay the associated costs of an additional test in advance. Costs, however, will be reimbursed if the result of the split sample test is negative.
3. The following are defined in Board Policy 5306:
- Confidentiality
  - Appeal Procedures
  - Consequences for Positive Tests
    - Note: Suspension from school activities involves all activities including homecoming, coronation, prom, dances, etc.

Personnel - Certificated EmployeesRelease from Contract

Certificated employees who wish to be released from their contract shall submit a written request for release to the Board of Education. The written request shall include a resignation.

The action on a release from contract received after April 15th each year shall be discretionary with the Board. The earlier the request for release is submitted, the greater will be the likelihood of the release being granted. Requests for release received by the Superintendent after June 1<sup>st</sup> will ordinarily not be granted. Releases may be made subject to the conditions, including liquidated damages, payment of costs of securing a replacement, and the condition that a suitable replacement be secured.

There will be no penalty for release from the contract, though the certificated employee and the Board may negotiate and agree upon the terms of the release.

Where a certificated employee leaves employment without receiving an approved release, the Superintendent is authorized to file a complaint with the Nebraska Professional Practices Commission. The Board also reserves the right to seek damages against any certificated employee as a result of breach of contract.

Date of Adoption: April 9, 2007

Personnel -AllRecruitment and Selection

The Board of Education authorizes the Superintendent to recruit and recommend for employment the best qualified personnel to implement and fulfill the goals and policies of Gothenburg Public Schools. All applicants so selected and recommended must satisfy the standards as set by the Board and/or the laws of the State of Nebraska.

All certificated personnel applying for employment shall be recommended for hiring by the Superintendent with the final approval by the Board of Education prior to hiring. Final approval must be made by formal motion of the Board of Education. The final approval by the Board of Education should generally follow closely the recommendation of the Superintendent whenever possible, but such approval of recommendation is not mandatory on the Board of Education.

Where required by law or deemed essential by the school district, employees must be duly licensed and/or certified.

### Meal Charge Policy

It is the policy of the District to comply with the National School Lunch Program and School Breakfast Program and all other federal grant programs that provide free or reduced meals to qualifying students.

### Student Eligibility

Families of students who may be eligible for free or reduced price school meals should submit an application to determine their eligibility. Applications are available through the Superintendent or Superintendent's designee. As long as an application is submitted on or after July 1, the application will be considered current for the new school year. A student may become eligible for free or reduced meals at any time during the school year if the household experiences a change in financial circumstances.

### Meal Account Balances

The District requires families to pre-pay for paid or reduced price meals. Notwithstanding the option to pre-pay, students and families may add funds during the school day. Any balance remaining shall carry over into the next month. Households approved for free or reduced price meals with funds remaining in their meal account at the end of the school year shall receive a refund upon request. When a student leaves the District or graduates, the District shall attempt to contact the student's household to return any funds remaining in the student's meal account.

Unpaid meal charges may be carried over at the end of the school year as a delinquent debt and the District shall undertake reasonable collection efforts to collect unpaid meal charges classified as delinquent debt, pursuant to and in compliance with state and federal law. The District shall maintain records of its collection efforts and, once delinquent meal charges are converted to bad debt, its documentation establishing and handling of the bad debt.

Unpaid charges place a large financial burden on our School. Despite the fact that there are no easy solutions to this very important issue, we have established this policy to establish uniform meal account procedures. The provisions of this policy pertain to regular & reduced priced school breakfast and lunch meals. While the USDA Child Nutrition Program does not require that a student who pays for meals be served a meal without payment, we provide this policy as a courtesy to those students in the event that they forget their lunch money.

The District will ensure that families can check their meal account balances in a manner other than exclusively online. The District will ensure that at least one form of meal account payment is free of charge.

- Full Pay Families - will pay for meals at the district's published standard rate for each meal. After the FAMILY balance reaches -\$25.00 he/she will not be allowed to charge, however he/she will be offered a designated menu alternate that will be charged to the child's meal account at the standard rate.

- Reduced Pay Families will be allowed to receive a breakfast at the district's published reduced rate for each meal. When the balance reaches -\$25.00 he/she will not be allowed to charge, however he/she will be offered a designated menu alternate that will be charged to the child's meal account at the reduced rate.
- Free Status Families will be allowed to receive a free breakfast and lunch each day.

A la carte purchases must be prepaid. In addition, there will be no 2<sup>nd</sup> entrée's allowed without funds available in their account.

### Student Confidentiality

The District will disclose individual student eligibility information only to those persons (and organizations) who require the information in order to carry out an activity specifically authorized by the National School Lunch Act, subject to applicable legal exceptions.

The District shall not use or implement any colored or coded meal cards, tickets, tokens, or other methods of payment that would overtly identify a student as being eligible for free or reduced price meals.

### Distribution Annually

This policy shall be provided in writing to all students' households at the start of each school year and to households transferring to the District during the school year.

This policy shall also be provided annually to District staff members responsible for the enforcement of this policy, including food service professionals.

The Superintendent or the Superintendent's designee shall maintain documentation of the annual distribution of this policy to students' households and District staff.

Students**School Wellness Policy**

A mission of Gothenburg Public Schools (“District”) is to provide curriculum, instruction, and experiences in a health-promoting school environment to instill habits of lifelong learning and health. Therefore, the Board adopts the following School Wellness Policy.

**1. District Wellness Committee****Committee Role and Membership**

The District will convene a representative District Wellness Committee (“DWC”) or work within an existing school health committee that meets at least annually to establish goals for and oversee school health and safety policies and programs, including development, implementation and periodic review and update of this District wellness policy.

The DWC membership will represent all school levels and include (to the extent possible), but not be limited to: parents and caregivers; students; representatives of the school nutrition program; physical education teachers; health education teachers; school health professionals or staff; mental health and social services staff; school administrators; school board members; and the general public. When possible, membership will also include Supplemental Nutrition Assistance Program Education coordinators. To the extent possible, the DWC will include representatives from each school building and reflect the diversity of the community.

***Leadership***

The Superintendent or designee(s) will convene the DWC and facilitate development of and updates to the wellness policy, and will ensure each school’s compliance with the policy.

The district will designate a school wellness policy coordinator, who will ensure compliance with the policy.

**2. Wellness Policy Implementation, Monitoring, Accountability and Community Engagement*****Implementation Plan***

The District will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy. The plan delineates roles, responsibilities, actions and timelines specific to each school; and includes information about who will be responsible to make what change, by how much, where and when; as well as specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education and other school-based activities that promote student wellness. It is recommended that the school use the Healthy Schools Program online tools to complete a school-level assessment based on the Centers for Disease Control and Prevention’s School Health Index, create an action plan that fosters implementation and generate an annual progress report.

This wellness policy and the progress reports can be found at the District’s website.

***Recordkeeping***

The District will retain records to document compliance with the requirements of the wellness policy at the Superintendent's office and/or on the District's computer network. Documentation maintained in this location will include but will not be limited to:

- The written wellness policy;
- Documentation demonstrating that the policy has been made available to the public;
- Documentation of efforts to review and update the Local Schools Wellness Policy; including an indication of who is involved in the update and methods the district uses to make stakeholders aware of their ability to participate on the DWC;
- Documentation to demonstrate compliance with the annual public notification requirements;
- The most recent assessment on the implementation of the local school wellness policy;
- Documentation demonstrating the most recent assessment on the implementation of the Local School Wellness Policy has been made available to the public.

***Annual Notification of Policy***

The District will actively inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. This will include a summary of the District's events or activities related to wellness policy implementation. Annually, the District will also publicize the name and contact information of the District officials leading and coordinating the committee, as well as information on how the public can get involved with the school wellness committee.

***Triennial Progress Assessments***

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which the District's schools are in compliance with the wellness policy;
- The extent to which the District's wellness policy compares to model wellness policy; and
- A description of the progress made in attaining the goals of the District's wellness policy.

The position/person responsible for managing the triennial assessment and contact information is the Superintendent or the Superintendent's designee.

The DWC, in collaboration with individual schools, will monitor schools' compliance with this wellness policy.

The District will notify households/families of the availability of the triennial progress report.

***Revisions and Updating the Policy***

The DWC will update or modify the wellness policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.

### ***Community Involvement, Outreach and Communications***

The District will actively communicate ways in which representatives of DWC and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms, such as email or displaying notices on the District's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The District will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the District and individual schools are communicating important school information with parents.

The District will notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

### **3. Nutrition**

#### ***School Meals***

All schools within the District that participate in USDA child nutrition programs, including the National School Lunch Program (NSLP), the School Breakfast Program (SBP), and any additional Federal child nutrition programs will meet the nutrition requirements of such programs.

#### ***Staff Qualifications and Professional Development***

The school nutrition program director will meet or exceed hiring and annual continuing education/training requirements in the USDA professional standards for child nutrition professionals. School nutrition personnel will refer to USDA's Professional Standards for School Nutrition Standards website to search for training that meets their learning needs.

#### ***Water***

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day and throughout every school campus ("school campus" and "school day" are defined in the glossary). The District will make drinking water available where school meals are served during mealtimes.

#### ***Competitive Foods and Beverages***

The foods and beverages sold and served outside of the school meal programs (e.g., "competitive" foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum.

To support healthy food choices and improve student health and well-being, foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards or, if the state policy is stronger, will meet or exceed state nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias, vending machines, school stores and snack or food carts.

### ***Celebrations and Rewards***

1. The district will encourage all staff to ensure that all foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards.

### ***Fundraising***

Organizations selling foods and beverages through fundraisers on the school campus during the day will be encouraged to select items that meet or exceed the USDA Smart Snacks in Schools nutrition standards.

### ***Nutrition Promotion***

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs.

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs.

### ***Nutrition Education***

The District will teach, model, encourage and support healthy eating by all students. Schools will provide nutrition education and engage in nutrition promotion that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences and elective subjects;

### ***Food and Beverage Marketing in Schools***

Any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA Smart Snacks in School nutrition standards or, if stronger, state nutrition standards, such that only those foods that comply with or exceed those nutrition standards are permitted to be marketed or promoted to students.

Food and beverage marketing is defined as advertising and other promotions in schools. This term includes, but is not limited to the following:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (Note: immediate replacement of these items are not required; however, districts will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that it is financially possible over time so that items are in compliance with the marketing policy.)
- Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.
- Advertisements in school publications or school mailings.
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

As the District/school nutrition services/Athletics Department/PTA/PTO reviews existing contracts and considers new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the District wellness policy.

#### **4. Physical Activity**

Children and adolescents should participate in physical activity every day.

Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) will not be withheld as punishment. The District will provide teachers and other school staff with a list of ideas or resources for alternative ways to discipline students.

#### ***Physical Education***

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts.

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

#### ***Recess (Elementary)***

All elementary schools will offer recess on all days during the school year. If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located near the cafeteria to ensure proper hygiene prior to eating and the students

are required to use these mechanisms before eating. Exceptions may be made as appropriate, such as on early dismissal or late arrival days. Outdoor recess will be offered when weather and other conditions make it feasible for outdoor play. In the event that recess must be held indoors, teachers and staff will follow the indoor recess guidelines that promote physical activity for students, to the extent practicable. Recess will complement, not substitute, physical education class.

### ***Classroom Physical Activity Breaks***

The district recommends teachers provide short 3-5 minute physical activity breaks during and between classroom times.

### ***Active Academics***

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies and others) and do their part to limit sedentary behavior during the school day.

### ***Active Transport***

The District will support active transport to and from school, such as walking or biking.

## **5. Other Activities that Promote Student Wellness**

The District will integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues and physical activity facilities. The District will coordinate and integrate other initiatives related to physical activity, physical education, nutrition and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development and strong educational outcomes.

Schools in the District are encouraged to coordinate content across curricular areas that promote student health, such as teaching nutrition concepts in mathematics, with consultation provided by either the school or the District’s curriculum experts.

### ***Community Partnerships***

The District will develop, enhance, or continue relationships with community partners in support of this wellness policy’s implementation.

### ***Community Health Promotion and Family Engagement***

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

***Staff Wellness and Health Promotion***

The district will have a staff wellness committee that focuses on staff wellness issues, identifies and disseminates wellness resources and performs other functions that support staff wellness in coordination with human resources staff.

Schools in the District will implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors. The District promotes staff member participation in health promotion programs and will support programs for staff members on healthy eating/weight management that are accessible and free or low-cost.

***Glossary***

**School Campus:** areas that are owned or leased by the school and used at any time for school-related activities, including on the outside of the school building, school buses or other vehicles used to transport students, athletic fields and stadiums (e.g., on scoreboards, coolers, cups, and water bottles), or parking lots.

**School Day:** the time between midnight the night before to 30 minutes after the end of the instructional day.

**Triennial** – recurring every three years.

## **Administrator Report**

Meeting: February Board Meeting

Date: 05/08/17

Mrs. Allison Jonas

---

**Early Childhood:** We had our first “Week of the Young Child” event on April 27<sup>th</sup>. Approximately 500 people attended the Lil Tykes Fair. Mrs. Bell did a great job setting this up and coordinating. It was a wonderful community event that pulled together more than ten community groups to make the evening a huge success.

Jump Start will run July 10<sup>th</sup> – 28<sup>th</sup>. Fully staffed! Based on preschool reports, we’re anticipating a class size of 60-65.

Preschool is accepting applications through the last day of school. We have six available spots.

**Curriculum:** K-6 math is meeting on Wednesday, May 17<sup>th</sup> to evaluate three programs. The secondary math team is getting together on May 22<sup>nd</sup> to evaluate some possibilities. As a reminder, we’re looking to pilot two programs in the fall with an adoption date of August 2018.

**Special Education:** Our non-publics meeting typically held in June will be held on May 24<sup>th</sup> at noon this year due to NDE moving back some reporting deadlines. This is an opportunity for non-public schools in our community to come in and talk about Special Education and what that can look like for students whose parents choose to enroll them in a non-public school.

**Mentor Program:** Starting to talk about mentors for next year. Our “new” teachers aren’t so new anymore!

**Professional Development & School Improvement:** Starting to work on back to school professional development. We’ve contracted with ESU 10 to provide some data analysis training to our staff. This will tie directly into developing our essential learnings and individualized learning concepts we hope to address through the PLC process.

### **Completed Staff Evaluations:**

Formal: 43 (completed)

Walkthroughs: ~225

## PROTOCOL FOR STUDENT TESTING

### 1. Eligibility for Random Testing

Students who participate in competitive extracurricular activities at the junior and high school (Grades 7-12) level are eligible for random testing. See Board Policy 5306 for specifics.

Competitive Extracurricular Activities as defined by Gothenburg Public Schools include:

Art Competition	FFA	Softball
Band (9-12 only)	Football	Speech
Basketball	Golf	Track
Cheerleading	Play Competition	Volleyball
Choir (9-12 only)	Quiz Bowl	Wrestling
Cross Country		

Students may be enrolled in Art, Band or Choir courses and not be considered eligible for competitive events such as art competitions, marching band contests or district music. Students enrolled in these courses and who do not want to be considered eligible for competition, must declare the intent in writing on a form provided by the district. An alternative assignment would be substituted for participation in the competition if the competition results in a grade. In addition, music is an academic requirement for junior high students and therefore, enrollment in these courses does not result in eligibility for random testing.

### 2. Testing Procedures

- a. The Superintendent, Activities Director, or contracted Third Party Administrator will create a confidential testing schedule to ensure that the testing of eligible students is conducted in a manner that is random. To maintain confidentiality and to maintain the integrity of the randomness of this program, the students eligible for testing will be identified by a unique personal identifier that does not make the student known to persons other than the school officials who are directly involved in the testing program.
- b. The testing collection process will be conducted in a manner that protects student privacy, guards against tampered specimens and ensures an accurate chain of custody of the specimen. The method of testing may involve the use of breath, saliva, urine, or hair samples. To the extent the testing involves the collection of urine, a certified collector in accordance with DOT urine drug screen collections policy/ procedures shall do it. Such collection procedures may require a same sex monitored collection should the urine sample shows signs of adulteration, temperature out of range, or tampering.

## Gothenburg Public Schools

- c. The Superintendent or Activities Director will designate a collection site(s) at Gothenburg Junior/Senior High School where individuals may provide specimens.
  - d. The Superintendent and the Third Party Administrator have developed and will maintain a documented procedure for collecting, shipping and accessing all specimens. The Superintendent and the Third Party Administrator will utilize a standard Custody and Control Form for all students participating in extracurricular activities testing. A tamper-proof sealing system, indentifying numbers, labels, and sealed shipping container will be used for specimen transportation. Collection sights will maintain instructions and training emphasizing the responsibility of the collection site personnel to protect the integrity of the specimen and maintain as proper a collection procedure that is reasonable.
  - e. The Third Party Administrator will transmit the results of all tests to the Medical Review Officer by a secure method. Prior to making a final determination, the Medical Review Officer shall give the individual an opportunity to discuss the result either face-to-face or over the telephone. The Medical Review Officer will meet with Activities Director and Principal upon final determination.
  - f. Request for Retest: A split specimen will be collected for all testing methods with the exception of alcohol testing. Students involved in the program may, upon a non-negative test result, request in writing that the split sample be tested (within 72 hours of being notified of the final testing result) at a second nationally certified laboratory from a list provided by the Medical Review Officer. The student is required to pay the associated costs of an additional test in advance. Costs, however, will be reimbursed if the result of the split sample test is negative.
3. The following are defined in Board Policy 5306:
- Confidentiality,
  - Consequences for Positive Tests, and
  - Appeal Procedures
