LB31	Conrad	Education	<p>Requires the State Board of Education to create a model policy governing school districts' use of student surveillance technology by December 1, 2025. This policy will require schools to transparently inventory such technologies, including costs, vendors, and privacy protections, and make this information publicly available. The bill cites concerns about student privacy, parental rights, and the responsible use of taxpayer funds. School boards must then adopt compliant policies by May 1, 2026, ensuring that the use of surveillance technology aligns with the state's model policy and protects students' rights. The bill emphasizes the importance of balancing security and efficiency goals with the protection of personal liberty and transparency. Requires the State Board of Education to develop and distribute a model policy regarding student surveillance, monitoring, and tracking technology by December 1, 2025. Each school board must then adopt a written policy consistent with the model policy by May 1, 2026. This policy will be implemented at the start of the 2026-2027 school year. The minimum requirements for the policies are: (1) School districts must identify and inventory all types of surveillance tools and student surveys that gather personal information. This inventory must include: (a) The name and contact information for each private company, vendor, or government entity that provides the technology, (b) The cost to purchase and maintain each surveillance, monitoring, and tracking technology tool, (c) A description of each student surveillance, monitoring, and tracking technology tool, including a description of privacy protection measures for each tool and data collection, data sharing, and usage activities, (d) Whether or not parents may opt their student out of being subjected to a student surveillance, monitoring, and tracking tool, (e) If and how the data will be shared with law enforcement or implicate punitive actions under the Student Discipline Act, (f) How student surveillance, monitoring, and tracking technology tools ensure proper accommodations for students with disabilities or individualized education programs, (g) How biometric or personally identifiable information is stored, shared, or sold with the private companies, vendors, or governmental entities providing such tools, (h) What remedies are available to students and parents for violations of personal privacy related to surveillance, monitoring, and tracking technology tools, including under the Consumer Protection Act, the Political Subdivisions Tort Claims Act, and state statute.</p> <p>School districts must post the inventory and information related to surveillance, monitoring, and tracking technology on the school district's website and ensure that it is available in hard copy upon request.</p> <p>School boards may include additional provisions in their policies that conform to the spirit and intent of the law.</p>	oppose	2/4	NCSA testified on behalf of several groups, including NRCSA	General File

LB89	Kauth	Government	<p>Adopt the Stand With Women Act. Defines sex based biological reproductive systems and mandating sex-segregated restrooms and locker rooms in schools and state agencies. Requires sex-based separation in school and athletic association sports, with exceptions for maintenance, emergencies, and caregivers with children. The act aims to protect female athletes' safety and competitive opportunities and address perceived inconsistencies in legal interpretations of sex. It includes a severability clause to ensure the constitutionality of the remaining sections should any part be deemed invalid. Individuals with disorders of sex development are to be protected under the Americans with Disabilities Act. Would place restrictions on schools and government agencies in Nebraska in the following ways:</p> <p>Restrooms and Locker Rooms in Schools: Schools must designate each group restroom and locker room as either for use by females or for use by males. Males would be prohibited from using restrooms designated for females, and females would be prohibited from using restrooms designated for males. Males would be prohibited from entering locker rooms designated for females while females are present, and females would be prohibited from entering locker rooms designated for males while males are present. Exceptions to these restrictions would be allowed for custodial, maintenance, or inspection purposes, for rendering emergency assistance, and for parents or caregivers attending to minor children or individuals with disabilities of the opposite sex.</p> <p>School Athletics: School-sponsored athletic teams or sports must be designated as either for males, for females, or coed. Males would be prohibited from participating on teams designated for females. Females would be prohibited from participating on teams designated for males unless there is no female team offered or available for that sport. Schools would not be subject to complaints, investigations, or adverse actions for maintaining separate athletic teams for female students.</p> <p>State Agencies: State agencies must define a person's sex as their biological sex, meaning either male or female. State agencies must designate each group restroom in their facilities as either for use by females or for use by males. Males would be prohibited from using restrooms designated for females in state agency facilities, and females would be prohibited from using restrooms designated for males. The Commissioner of Education would be responsible for enforcing the Stand With Women Act in schools, with the authority to take remedial action, including qualifying noncompliance as a violation of school accreditation rules.</p> <p>The act also includes a severability clause, stating that if any part of the act is declared invalid, the remaining portions would remain in effect.</p> <p>AM 701 makes changes to the bill that provide more explanation</p>		2/7		Kauth priority. LB303	Hughes	Education	<p>Amends sections of the Tax Equity and Educational Opportunities Support Act. Key changes include altering school district levy authority, modifying foundation aid calculations, establishing a School Finance Reform Commission, and adjusting certain certification dates.</p> <p>Drops the maximum levy for school districts from \$1.05 to \$1.02 beginning with the 2025-26 year.</p> <p>Increases foundation aid, which is the base amount of funding guaranteed to each school district. Currently, the foundation aid is set at \$1,500 per formula student. Beginning in school fiscal year 2025-26, foundation aid will increase to \$1,590 per formula student. For school fiscal years 2023-24 and 2024-25, 100% of foundation aid is included as a formula resource. For the school fiscal year 2025-26 and each school fiscal year after, only 60% of foundation aid will be included as a formula resource.</p> <p>Sets a minimum base levy of \$0.30.</p> <p>This bill proposes changes to Nebraska's school funding formula but does not specifically mention the creation of new funding sources. The bill amends the Tax Equity and Educational Opportunities Support Act to adjust how state aid is calculated and distributed to school districts. Also creates a base levy adjustment to reduce state aid for districts with lower property tax levies. The bill establishes a School Finance Reform Commission to study and recommend adjustments to school funding, with a focus on preventing property tax increases. However, it does not outline the creation of new funding sources for these adjustments.</p>	support	2/10	Dave Welsch on behalf of NRCSA	Hughes priority

LB605	Raybould	Education	<p>Outlines policies for transgender student participation in school extracurricular activities. The bill defines key terms like biological sex, gender identity, and transgender status. It mandates that school boards create policies addressing transgender student participation, including requirements for documentation and a process for determining eligibility. These policies must also address confidentiality, appeals, and restroom/locker room usage. Finally, the bill clarifies that eligibility for activities separated by sex is based on birth certificates unless a student is approved under the new policy. The school board must determine if the student meets the eligibility standards for participation as a transgender student. If the school board determines that the student meets the eligibility requirements, the board submits an eligibility application to any necessary and applicable athletics or activities association. The school board also uses specific review criteria to approve or deny a student's application to participate in an extracurricular activity as a transgender student. For a transgender female student applying to participate in an extracurricular athletic activity, the school board must confirm that they have completed a minimum of one year of hormone treatment related to gender transition or undergone medically confirmed gender reassignment surgery. The board must also confirm that the transgender female student does not possess physical or physiological advantages over biological females. If a student is denied participation as a transgender student, their eligibility remains with the team of the gender identified on their birth certificate. If a school board approves an application for a student to participate in an extracurricular activity as a transgender student, the school board must cooperate with and submit documentation to any applicable athletics or activities association. The school board requires eligibility for an extracurricular activity separated by male and female teams to be based on the student's gender as determined by the biological sex on the student's birth certificate, unless the student is approved for participation as a transgender student.</p>		3/18		Motion to withdraw (3/11) approved.

3011 Transportation

The school district will provide free transportation, partially provide free transportation, or pay an allowance for transportation in lieu of free transportation on each day school is in session to the students who reside in the district and qualify for transportation according to the district's transportation plan. The families of students who will not be provided transportation pursuant to the district's plan or who must drive students to a pick-up point will be reimbursed according to statute if they qualify for such reimbursement. Parents seeking mileage reimbursement must submit requests to the district on forms which may be obtained from the office of the Superintendent of Schools.

When a student who has been attending the district is placed into foster care, school district staff will collaborate with state and local child welfare agencies to determine whether transportation is required under state law when it is in the child's best interest that their school of origin be maintained. The district will only provide transportation to students placed in foster care when the responsible child welfare agency agrees to reimburse the school district for the cost of transportation or when transportation is otherwise required by law. The board designates the **Superintendent of Schools** as the initial point of contact for child welfare agency representatives to discuss transportation issues related to children in foster care.

Students who are homeless will be provided with transportation pursuant to Board Policy 5014.

The district will provide transportation to tuition students in accordance with the contract provisions, if any, for services from the contracting districts.

The use of buses for class parties, field trips, and similar purposes shall require the prior approval of the superintendent or appropriate principal.

School Meal Program and Meal Charges

Meal Program. The school district will make a school meal program available to students. The cost of the program will be determined by the board of education so as to make the program as nearly self-supporting as possible. With board approval, the district may contract with a private company or corporation for the management and/or provision of the program.

The district will notify the families with children attending school of the current guidelines for free or reduced-price school meals. A copy of the complete regulations and procedures regarding reduced-price and free meals shall be available in the office of the superintendent. Families may apply for free or reduced-price school meals at any time during the school year.

Payment Options. Families may pay for school lunches using cash, check, or online payment.

Meal Charge Policy. The district will notify students and their families of the policy for charged meals, meaning meals received by a student when the student does not have money in hand or in his or her food account. This policy applies to students who receive meals at the free, reduced, or full rates.

Notice of this policy must be provided in writing to all households at the start of each school year and to households that transfer to the school during the school year. Notice may be provided through the student handbook, student registration materials, online portal used to access student accounts, direct mailing or e-mail, newsletter, the district website, and/or any other appropriate means. Notice of this policy will also be provided all school staff responsible for the enforcement of it, including food service professionals responsible for collecting payment for meals at the point of service, staff involved in notifying families of low or negative balances, and other staff involved in enforcing any aspect of this policy.

The district's policy on charged meals is: If a student has no funds available to pay for a meal, the student will be provided and charged for a limited "courtesy meal" option, such as a plain sandwich, milk, and a piece of fruit. Students who qualify for free meals will not be denied a reimbursable meal, even if they have accrued a negative balance from other food purchases. School staff may prohibit any students from charging a la carte or extra items if they do not have cash in hand or their account has a negative balance.

If a student repeatedly lacks funds to purchase a meal, has not brought a meal from home, and is not enrolled in a free meal program, the district will use its resources and contacts to protect the health and safety of the student. Failure or refusal of parents or guardians to provide meals for students may require mandatory reporting to child protection agencies as required by law.

Collection of Delinquent Meal Charge Debt

The school district is required to make reasonable efforts to collect unpaid meal charges. The building principal or his or her designee will contact households about unpaid meal charges and notify them again of the availability of the free and reduced meal program and/or establish payment plans and due dates by telephone, e-mail, or other written or oral communication. If these collection efforts are unsuccessful, the school district may pursue any other methods to collect delinquent debt as allowed by law.

Collection efforts may continue into a new school year.

In the event that the Nebraska Department of Education develops a state-level meal charge policy, it shall supersede that portion of this policy.

Use of School Property

1. Use of Specific Facilities by Application and Agreement
 - a. The district permits non-commercial use of the track by individual patrons for their personal health and wellness. The facility uses defined in this paragraph are an exception to the general facility use requirements contained in this policy for ease of administration and efficiency. All other facility uses must comply with the other provisions of this policy.
 - b. These particular facilities may be used upon only one application and upon signing the district's written waiver and agreement.
 - c. Use of these facilities is governed by this and other district policy and the agreement signed by the user. A copy of each agreement will be maintained in the district's central office.

Due to the complications created by groups or individuals using district facilities for commercial purposes, these uses are prohibited. Booster clubs and other organizations raising money purely for the support of student groups, as defined below, and not for personal profit are not considered commercial uses but must comply with the district's policies which apply to these groups.
 - c. Any person or group using school facilities must assure that it will be responsible for maintaining order, protecting property, and providing security and safety.
 - d. Only those organizations and persons who are known to school officials, who have financial resources sufficient to cover all rentals and possible damages, and who are willing to discharge such

obligations shall be permitted to use the school facilities and equipment.

- e. The rental fees for school facilities shall be set by the board.
- f. Non-curricular student groups or non-student groups (as those terms are defined below) that wish to use the facility must submit a facility use application which may be obtained from the district's central office. The application must be received by the superintendent prior to the approval of any facility use.
- g. The shop and weight room may not be used by students when school is not in session, unless supervised by a district staff member or a responsible adult upon approval of the superintendent. Use of the shop and weight room in violation of this provision may lead to the students being denied access to these facilities or other consequences permitted by board policy and Nebraska law.
- h. Any person or group using the school facilities, for any purpose, must comply with all of the district's policies, rules, and regulations.

3. Definitions

- a. "Curriculum-related student groups" shall mean students participating in school-sponsored activities, supervised by district staff, related to the curriculum, and recognized by the board.

- iii.) Curriculum-related and Extracurricular student groups have priority over non-curriculum related student groups and non-student groups.

b. Non-curriculum related student groups

- i. Non-curriculum related student groups may use the school building during non-instructional time. Such use shall be without charge.
 - (1) Such uses shall occur while the building is normally open and there is a minimum of interference with custodians or other student and staff facility use.
 - (2) These groups may use the school buildings in the evening for meetings if the group is sponsored by an adult and the adult (1) files the application to use the facilities on behalf of the group and (2) assumes responsibility for cleanup and placing the area back in the condition it was in prior to use.

- iii. Non-curriculum related student groups may meet only on school premises at times and places determined by the superintendent.
- iv. Non-curriculum related student groups must meet each of the following conditions to secure the superintendent's permission to use school facilities:

 - (2) The district has facilities available to accommodate the group.
 - (3) The use is voluntary and for the general benefit of the student participants.

 - i. The local education association may hold meetings when classes are not in session and staff members are not on duty.
 - ii. Non-student groups which provide education-related programming and services for students and staff may be given priority of use over other outside groups. The superintendent has sole discretion in determining whether proposed uses relate sufficiently to the district's educational standards and programs.

- iii. Non-student groups which provide programming and services for community members and others living within the district may be given priority of use over other outside groups.
 - c. Denial of access
 - i. The superintendent may limit or deny access to school buildings, grounds, and activities to any person whom the superintendent deems to be using the facilities inappropriately and contrary to the district's mission.
 - ii. Upon determining that a person or group has engaged in, or is engaging in conduct that constitutes grounds for exclusion under this policy, the superintendent shall take such action as he or she determines appropriate, including directing the person to cease engaging in the conduct or to leave the school premises or activity immediately. The superintendent may request assistance from law enforcement authorities to remove an offending person from the school grounds. A person who enters school premises in violation of these conditions shall be deemed to be trespassing.
 - iii. The superintendent shall have the authority to fix the time when, and the conditions under which, the offending person may return to school premises.
- 6. Students, staff, and community members may use or lease school equipment for non-school use only if they have received the prior permission of the superintendent.
- 7. Proof of Insurance
 - a. When any non-curriculum related or non-student group utilizes school district facilities, the group submitting the facility use application may be asked to provide proof of insurance up to the current tort claims limits applicable to political subdivision in the State of Nebraska. Currently, those limits are \$1,000,000 per person for any number of claims arising out of a single occurrence and \$5,000,000 for all claims arising out of a single occurrence.

- b. The district may require the non-curriculum related or non-student group to include the district as an additional insured on any such policies and may refuse access to its facilities until proof of satisfaction of this requirement is submitted to the superintendent.

8. No Fees for Admission

- a. Non-curriculum related and non-student groups may not charge a fee to participate in or be a spectator at any recreational activity, event, or other such gathering occurring on district grounds unless approved in advance by the superintendent.
- b. If the district retains control over the area of the premises in which the non-curricular and non-student group desires to use, meaning the district provides supervision, staffing, custodial services, or otherwise maintains its control during the group's use of the facilities, the group may not charge a fee for admission under any circumstances.
- c. Non-curricular and non-student groups may charge for parking or vehicle entry onto the premises unless otherwise prohibited by the superintendent.

Restrictions on Use and Permission. Copyrighted works such as print, audio, video, software, applications, and other documents or media (“works”) may be reproduced or used for educational purposes only when the use of the reproduction is a fair use in compliance with state and federal copyright law or when the written permission or license for such use has been obtained from the copyright holder. A staff member who wishes to use any non-original work must obtain the prior written permission of the building principal. Unless the district has obtained a license for use of a work for its intended educational purpose, no principal shall grant permission for a requested use of a copyrighted work unless the principal has reasonable grounds to believe that it is a fair use under applicable copyright law. Only works requested to be used in the course and scope of employment with the district will be permitted.

Distribution of Copyright Compliance Materials. The district will make information available to staff and students which describes and promotes compliance with copyright laws.

Course Materials Subject to Copyright Protection. The purpose of this provision is to provide notice to all staff, students, and parents that course materials may be subject to copyright protection. No class materials may be used or copied for use outside of the class session or sessions in which the materials are used for educational purposes unless authorized or required by law. No student or staff member may take audio or video recording of any class in which copyrighted materials are used unless authorized or required by law or an applicable educational plan provided under state and federal disability laws. Any such recordings will be kept only long as required to fulfill the purpose of the recording, such as for evaluative purposes, or the applicable retention period required by law.

Copies for Individuals with Disabilities. This policy does not restrict district staff members from reproducing or distributing copies of copyrighted works in a specialized format for use by individuals with disabilities to gain access to the work.

Removal of Unauthorized Copyrighted Works. Upon obtaining knowledge or awareness of an unauthorized use of copyrighted works, the district will take reasonable steps to remove, deny access to, and stop use of any unauthorized copyrighted work stored in the district’s

paper or digital files or programs. This includes but is not limited to administrators accessing staff files and equipment for the purpose of physically removing curricular materials or directing staff members to cease using the materials immediately when there has been no license granted or fair use determination made. The school district will comply with all federal record retention requirements, the Nebraska Records Management Act, and with Schedules 10 and 24 of the Nebraska Secretary of State's Records Management Division. These requirements apply to both physical and digital records. When permitted by Schedule 10 and Schedule 24 of the Nebraska Secretary of State's Office, records will be transferred to durable electronic media for long-term storage.

Special Rules Related to Electronic Forms of Communication.

Electronically stored information such as e-mail, instant messaging, and other electronic communication are important to the district's overall operation. E-mail and other forms of electronic communication which is subject to retention under the Nebraska Records Management Act may be moved to a storage method other than their original format. Each individual who creates or receives electronic communications that belong to or pertain to the operation of the district is responsible for determining whether and in what format those records must be maintained. Duplicate records may be destroyed at any time prior to the approved retention period. Staff members who are uncertain about whether a record should be retained should consult with their supervising administrator.

Due to the nature and volume of forms of electronic communication related to the operation of the district, transitory or multiple copies of electronic communication will be retained with metadata intact for 30 days. After this time, the electronically stored information with metadata intact shall be subject to overwriting or deletion from the district's electronic files and records, except as otherwise required by these policies or state and federal law.

School-affiliated Social Media Posts. Communication on school-affiliated social media accounts are considered short-term communications pursuant to the Records Management Act. As such, they will be retained in their original form on the vendor's system and will not be deleted by the user for at least 6 months. Individuals who are uncertain as to whether a specific social media account is "school-affiliated" should refer to the Board's policy on Staff and District Social Media Use contained elsewhere in these policies.

Special Rules Related to Security Camera Footage. Video footage from security cameras is generally considered working papers under the Records Management Act, and will be overwritten consistent with the district's audio and video recording policy. Video footage which captures an event of

educational or behavioral significance and contains personally-identifiable information will be maintained by the school district pursuant to its policy on student records.

Student Records. The retention of student records is also governed by the board’s policy on student records.

Records Regarding Pending or Threatened Litigation. When litigation against the district or its employees is filed or threatened, the district will take all reasonable action to preserve all documents and records that pertain to the issue. When the district is made aware of pending or threatened litigation, a litigation hold directive will be issued by the superintendent or his/her designee. The directive will be given to all persons suspected of having records that may pertain to the potential issues in the litigation. The litigation hold directive overrides any records retention schedule that may otherwise call for the disposition or destruction of the records until the litigation hold has been lifted.

Booster Clubs and Parent-Teacher Organizations

Parent-teacher organizations and booster clubs (collectively, "Supporting Entities") promote goodwill throughout the community and strengthen educational programs via parental and community involvement in the district. However, the district's involvement with Supporting Entities may result in negative legal and political consequences.

Supporting Entities are separate entities from the district and board. Therefore, district employees may only participate in a Supporting Entity's activities as a member, officer, or director of the Supporting Entity. District employees may not participate in Supporting Entities in their capacity as a district employee. Further, in-school announcements for Supporting Entity sponsored functions must provide a clear indication that the function is sponsored by the Supporting Entity.

Notwithstanding anything herein to the contrary, an administrator employed by the district may attend the meetings of the Supporting Entity. An administrator who attends Supporting Entity meetings must strongly **recommend** that the Supporting Entity adopt the following policies:

- (a) The Supporting Entity should legally establish itself as a Nebraska Nonprofit Organization.
- (b) The Supporting Entity should require that
 - i. all checks written out of the Supporting Entity's checking account contain two signatures;
 - ii. sales slips, receipts, or invoices for every expenditure be provided to the Supporting Entity's treasurer and kept in the Supporting Entity's records; and
 - iii. bank statements be reviewed and approved by the Supporting Entity treasurer and reconciled by a Supporting Entity officer that does not have check-signing authority.

Supporting Entities may only use the district's facilities for meetings or public activities, and may only use the district's names, logos, or mascots, upon prior written approval of a district administrator.

Returned and Outstanding Checks

Returned Checks. Any individual or entity that writes a check to the school district which is returned due to insufficient funds must reimburse the school district in cash for the amount of the check plus a \$40.00 returned check charge. Individuals or entities whose checks are repeatedly returned due to insufficient funds may be prohibited from paying amounts due to the school district via check.

Outstanding Checks. The superintendent will review outstanding checks issued from the school district's accounts. Outstanding checks are those which have not been deposited by the payee within 180 days of issuance. The board authorizes the superintendent or his or her designee to resolve all matters related to outstanding checks, including stopping payment and reissuing checks.

3026 Handbooks

The school district's handbooks for students and staff are intended to convey information and explain school regulations and procedures that are necessary for the school to run smoothly and efficiently. Although the board of education may take action to approve the handbooks annually, the administration has the authority to change the contents of any handbook so long as the changes are consistent with board policy.

None of the district's handbooks creates a "contract" between the school district, staff members, parents or students.

If any information contained in any handbook conflicts with board policy or state statute, the policy or statute will govern.

Resolution of Conflicts Between Parents Over School Issues

It is in students' best educational interests to have parents work cooperatively with each other and with school personnel regarding their children's education. In certain circumstances, parents disagree with each other regarding their children's education or other issues involved with the school district. Though such disagreements typically occur with separated or divorced parents, this regulation is not limited to those circumstances.

1) Obtaining Records and Conferring with Teachers.

All parents can obtain their children's records and meet with their children's teachers regardless of custody or visitation rights unless a court enters an order otherwise or their parental rights have been terminated. The district will not schedule separate parent-teacher conferences absent extraordinary circumstances.

2) Accessing a Child at School/Picking Up a Child.

School personnel will neither interpret nor enforce court orders governing the relations between separated or divorced parents unless the court order terminates the parental rights of a parent, limits a parent to supervised visitation with minor children or otherwise specifically limits the parent's access to the child at school. In all other circumstances, parents may contact their child while at school or pick a child up from school at any time. School staff are not responsible for enforcing visitation schedules contained in any court order to which the school district is not a party.

Sex Offenders

The safety of the students attending school is very important to the board of education. School employees, parents, and students should be aware of dangers posed by sex offenders living within the school district, and should be vigilant in providing protection against these dangers.

The Nebraska Legislature has enacted the Nebraska Sex Offender Registration Act. The Act requires sex offenders to register with the local county sheriff where they reside. The school district shall notify staff members, parents, and students of any registered sex offenders residing in the school district. Such notice shall contain information about the availability of further information on the State Patrol's web page, and shall inform the recipient of the prohibition against using the information for any retaliatory purpose against the sex offender, the offender's family, or the offender's employer. Only information deemed non-confidential pursuant to NEB. REV. STAT. §§ 29-4006 and 29-4009 will be disclosed in the aforementioned notification.

The board does not generally permit registered sex offenders on school grounds, at any school sponsored activity, or on any property under the control of the school district. The superintendent or his/her designee is hereby empowered to notify sex offenders of this policy and to grant limited permission to attend certain activities on a case-by-case basis.

Students who are registered sex offenders shall not be precluded from receiving a free education from the school district on that basis. The school district will consider a student's status as a registered sex offender in determining the student's educational placement and program.

Lending Textbooks to Children Enrolled in Private Schools

Through June 30, 2024, the school district shall make textbooks available to private school children who reside within the district or are otherwise entitled to borrow them pursuant to statute and 92 Nebraska Administrative Code, section 4. The district is obligated to purchase and lend textbooks only to the extent that the Legislature appropriates funds to the Nebraska Department of Education to be distributed for this purpose. As used in this policy, "textbooks" shall have the definition adopted by the Nebraska State Board of Education in Rule 4.

The district shall make a request for funds by filing an application on the form prescribed by the Department of Education no later than February 15th prior to the school year for which the application is made. The application shall include: the number of applications received; the number of textbooks requested; the number of textbooks needed to be purchased to fill the requests; the purchase price of the textbooks needed to be purchased which may include up to 5% of the cost to defray administrative expense; the title, purchase price, and number requested of each textbook including any shipping or handling charges; and if applicable the amount of carryover funds remaining from the previous year, amount of funds on hand from sale of unused textbooks, and amount of funds on hand from reimbursements for damaged textbook.

Textbooks which have not been requested for three consecutive years may be classified as unused and disposed of by sale or otherwise.

On or before November 15th, the district shall prepare a list of textbooks that are designated for use in the district during the current year and a list of new textbooks designated for use the following school year. The lists shall be kept current and in a place where they may be viewed during regular business hours. The district shall maintain a separate inventory of textbooks purchased for the use of private school children residing in the district.

Any parent or legal guardian who wishes to borrow textbooks shall submit an application on the form prescribed by the Department of Education to the district's administration offices on or before January 15th prior to the school year for which the application is made. The district shall maintain a supply of blank application forms and receipt forms. It shall keep the forms that have been signed by parents and guardians in a separate file for at least 5 years. It shall notify the parents and guardians at least 10 days prior to the start of

school when and where the textbooks will be available. It shall make textbooks available to parents or guardians on or before August 15th. If the number of textbooks for a particular subject or grade level is insufficient to fill all of the requests, the textbooks shall be distributed to parents and guardians based on a random drawing.

Parents and guardians shall sign a receipt on the form prescribed by the Department of Education when they pick up the textbooks and shall return the textbooks that can be returned no later than 15 days after the district's last day of class. The district shall assess the returned textbooks for damage beyond normal wear and tear. The parent or guardian who signed the receipt is responsible for paying the reasonable cost of the repair or replacement of any book that is damaged, lost, stolen, or not returned.

The school district shall limit the loan each year to ten textbooks per student for students in grades K-6 and to eight textbooks per student for students in grades 7-12.

This policy shall terminate July 1, 2024.

Contract

To: Southern Valley Public School

Project: Driveway Entrance and Roundabout Street

Address: 43739 NE-89 Oxford, NE. 68967

Date: 5.09.2025

The contractor has bid a leveling course and overlay of the driveway entrance and roundabout. This is all the of the asphalt at the main entrance. The scope of the work includes the following: Contractor will edge mill the perimeter so transitions are smooth, and so new asphalt will be the same height as the curb. We will power sweep the road. Care will be taken while sweeping. Then tack # CSSIH (State of NE approved) will be sprayed down. This is an important step as it binds the overlay to the base layer creating a stronger road. Also, then water cannot get in between the layers and "slip" or "pop" the overlay off. A leveling course will be put down. This is to restore the crown in the road and to fill in the irregularities. The design for this leveling course will incorporate fine aggregates to effectively fill small discrepancies in the surface. Tack oil will be sprayed again. Then a 2" thick overlay will be put down. This will be compacted with a vibratory roller to meet the industry density standard. Asphalt mix design is a 1/2" commercial Spr 64-22 mix design with 12 % rock which is an ideal mix for this overlay. Timely compaction will take place to meet industry density standards. Work will be done efficiently and quickly to minimize the inconvenience. The contractor owns the asphalt plant and lay down equipment to control the quality and to maximize the efficiency of this operation. **No Sales tax or line striping included.**

635' x 22' Roundabout

195' x 37' Entrance

Total: \$69,761.00

The contractor is a licensed Nebraska contractor and is fully insured with liability and workman's compensation insurance. We are also accredited with the Better Business Bureau. All work will be done in a timely and professional manner with the best interest of the customer in mind. The contractor has an experienced team, which works well together to achieve a quality product for the customer. Mobilization is also included. **The company's core value is for a long-term customer relationship. We take care of our local communities. Payment upon Completion.**
