1. Working Meeting scheduled for Feb. 27th at 7:30

11. Adjournment- Next regularly scheduled Board Meeting is March 9, 2020 at 7:30 P.M.

INSTRUCTIONS FOR THOSE WHO WISH TO SPEAK DURING PUBLIC FORUM

-

(Agenda items only) Public comment time is the time to request to speak to items listed on this agenda. The public forum is available for interested parties that are not part of any formal presentation regarding a specific agenda item. Patrons wishing to address the board need to request to be recognized by the Board President or Chair of the meeting prior to the beginning of the meeting.

(Non agenda item) this is the time to request to speak to any nonagenda topic concerning the school district. Since it is not an agenda item, the board cannot discuss or take action at this time. The BOE may choose to place the item on a future agenda for consideration &/or action.

Time Limit: The Board President or chair for the meeting shall have the authority to establish reasonable time limits for individual speakers (generally five minutes) and for the duration of public forum sessions.

Personnel or Student Topic: Patrons wishing to address the board regarding a personnel or student issue need to understand that Board policies require that such concerns initially be directed to the administration for consideration. Board members will generally not respond to any questions or comments directed toward or about individual staff members and/or students. Patrons are cautioned that slanderous comments are not protected just because they are made at Board meeting.

General Rules: Please remember that this is a public meeting for the conduct of the business of the Board of Education. Offensive language, personal attacks and hostile conduct will not be tolerated.

This agenda contains a list of subjects known at the time of its distribution. A copy of the agenda reflecting any changes will be available for public inspection during normal business hours in the office of the Superintendent. Except for the items of an emergency nature, the agenda will not be enlarged later than 24 hours before the scheduled start of the meeting.

Board of Education Regular Meeting
SALINE COUNTY SCHOOL DISTRICT 76-0068

StudentsIntroductory Statement

The focus of the school system is on the student. The students and their educational development is the central concern of the board of education's policies and the administrative regulations.

The board of education, within the parameters provided by the patrons of the school district, will attempt to provide adequate facilities and available means to all who wish to learn in the school district.

Date of Adoption: November 12, 2007
Board Reviewed August 2013

StudentsAdmission RequirementsMinimum Age:

A child shall be eligible for admission into kindergarten at the beginning of the school year if the child is five years of age or will be five years of age on or before July 31 of the calendar year in which the school year for which the child is seeking admission begins. The School Board shall admit a child who will reach the age of five years on or after August 1 and on or before October 15 of such school year if the parent or guardian requests such entrance and provides an affidavit stating that (i) the child attended kindergarten in another jurisdiction in the current school year; (ii) the family anticipates a relocation to another jurisdiction that would allow admission within the current year; or (iii) the child is capable of carrying the work of kindergarten which can be demonstrated through a recognized assessment procedure approved by the Board.

Early Admission to Kindergarten:

The following assessment procedure for determining if a child is capable of carrying the work of kindergarten is approved and shall be made available to interested persons:

Early kindergarten enrollment exceptions may be made for younger children who are intellectually advanced. At a minimum, eligibility for the admission shall be based upon an analysis of the child's: (1) mental ability, (2) emotional/social development, (3) pre academic skills, and (4) fine motor skills.

The kindergarten early entrance assessment procedures are designed to identify and place in kindergarten those children who:

- a. will turn 5 years of age between August 1 and October 15;
- b. are deemed by parents or guardians as being intellectually advanced and likely to benefit from advanced grade placement; and
- c. are selected on the basis of testing by professionals trained and certified to administer the assessments that will produce evidence of strength in:
 1. mental ability defined as scoring 84th percentile or above on a standardized assessment of cognitive ability such as the Wechsler Pre Primary Scale of Intelligence III, or the Stanford-Binet V;
 2. a test of emotional/social development such as the Behavior Assessment System for Children, Second Edition (BASC-2);
 3. 75th percentile or greater on a test of pre academic skills such as the Woodcock Johnson III; and
 4. a test of fine motor ability, scoring 75th percentile or above on a standardized measurement such as the Beery VMI.

In the discretion of the Superintendent or designee, the assessments may be administered by the School District's professional staff, or the parents or guardians may be required, at their own expense, to have all or some of the required assessments completed by

reputable professionals and to submit the results of such assessments to the School District.

The decision regarding early entrance to kindergarten requires careful consideration of all factors that affect kindergarten success with final determination to be made based on the recommendation of the District Evaluation Team, to be composed of such individuals as the Superintendent or designee determine appropriate. The academic, social, and emotional readiness, as well as the student's physical development and well-being, must be weighed with institutional factors also considered. Sound decision making in the area of early entrance to kindergarten is dependent upon reliable information regarding a student's readiness and a thoughtful balancing of the myriad of factors implicated by the decision. Parents will be notified in writing of the results of the Early Kindergarten Entrance assessment and the determination of the District Evaluation Team in a timely fashion; not to exceed three weeks after the assessments are completed.

Families who seek early admission of their child into kindergarten must obtain an *Early Entrance to Kindergarten Packet* from the School District Administrative.

Parents must fill out the early entrance application forms, which include a parent questionnaire and obtain and attach a reference letter from someone who is well acquainted with the child but not a relative of the child. The person providing this reference should know the child well enough that they can speak with some expertise about the child's attributes and abilities. The reference letter should indicate whether this person recommends the child be schooled with children who will be a year older than the child and, if so, the evidence this person has concerning the child's mental ability, fine and gross motor ability, visual and auditory discrimination, emotional/social development, and communication skills. Suggestions for this reference letter are a preschool teacher, a Sunday school teacher, a day-care provider, or a physician.

The assessment request, reference letter and parent questionnaire must be completed and returned to the District no later than May 25th of the spring before fall enrollment to allow summer assessment to be completed.

Decisions regarding early kindergarten entrance must include consideration of the above and shall not be made based on race, color, gender, religion, ancestry, national origin, marital status, age, disability, or sexual orientation of the child or the child's parents or guardians. Institutional factors, such as capacity, may also be considered.

Admission to First Grade:

A child may be eligible to enter first grade, even if the child has not attended kindergarten, if the child is six years of age or will be six years of age on or before October 15 of the current school year and school officials determine that first grade is the appropriate placement for the child.

Graduates:

A student who has received a high school diploma or received a General Equivalency Diploma shall not be eligible for admission or continued enrollment.

Age 21:

A student shall not be admitted or continued in enrollment after the end of the school year in which the student reaches the age of 21. The school year for this purpose ends at the last day of instruction for graduating seniors.

Birth Certificate, Physical, Visual Evaluation and Immunization:

The parents or legal guardian shall furnish:

- (1) A certified copy of the student's birth certificate issued by the state in which the child was born, upon admission of a child for the first time, shall be provided within 30 days of enrollment. Other reliable proof of the child's identify and age, accompanied by an affidavit explaining the inability to produce a copy of the birth certificate, may be used in lieu of a birth certificate. An affidavit is defined as a notarized statement by an individual who can verify the reason a copy of the birth certificate cannot be produced. (Failure to provide the birth certificate does not result in non-enrollment or disenrollment, but does result in a referral to local law enforcement for investigation).
- (2) Evidence of a physical examination by a physician, physician assistant, or nurse practitioner, within six months prior to the entrance of the child into the beginner grade and the seventh grade or, in the case of a transfer from out of state, to any other grade, unless the parent or legal guardian submits a written statement objecting to a physical examination.
- (3) Evidence of a visual evaluation by a physician, a physician assistant, an advanced practice registered nurse, or an optometrist, within six months prior to the entrance of the child into the beginner grade or, in the case of a transfer from out of state, to any other grade, unless the parent or legal guardian submits a written statement objecting to a visual evaluation. The visual evaluation is to consist of testing for amblyopia, strabismus, and internal and external eye health, with testing sufficient to determine visual acuity.
- (4) Evidence of protection against diphtheria, tetanus, pertussis, polio, measles, mumps, and rubella, Hepatitis B, Varicella (chicken pox), Haemophilus Influenzae type b (Hib), invasive pneumococcal disease and other diseases as required by applicable law, by immunization, prior to enrollment, unless the parent or legal guardian submits a written statement that establishes than an exception to the immunization requirements are met.
- (5) Every student entering the seventh grade shall have a booster immunization containing diphtheria and tetanus toxoids and an acellular pertussis vaccine which meets the standards approved by the United States Public Health Service for such biological products, as such standards existed on January 1, 2009.

The Superintendent or Superintendent's designee shall notify the parent or guardian in writing of the foregoing requirements and of the right to submit affidavits or statements to object to the requirements, as applicable. The Superintendent or Superintendent's designee shall also provide a telephone number or other contact information to assist the parent or guardian in receiving information regarding free or reduced-cost visual evaluations for low-income families who qualify.

A student who fails to meet the foregoing requirements shall not be permitted to enroll or to enter school, or if provisionally enrolled or enrolled without compliance, shall not be permitted to continue in school until evidence of compliance or an exemption from compliance is given.

Enrollment of Expelled Students

If a student has been expelled from any public school district in any state, or from a private, denominational, or parochial school in any state, and the student has not completed the terms or time period of the expulsion, the student shall not be permitted to enroll in this school district until the expulsion period from such other school has expired, unless the School Board of this school district in its sole and absolute discretion upon a proper application approves by a majority vote the enrollment of such student prior to expiration of the expulsion period. As a condition of enrollment, the School Board may require attendance in an alternative school, class or educational program pursuant to Nebraska law until the terms or time period of the original underlying expulsion are completed. A student expelled from a private, denominational, or parochial school or from any public school in another state, will not be prohibited from enrolling in the public school district in which the student resides or in which the student has been accepted pursuant to the enrollment option program for any period of time beyond the time limits placed on expulsion, pursuant to the Student Discipline Act, or for any expulsion for an offense for which expulsion is not authorized for a public school student under such Act. For purposes of this policy, the term expulsion or expelled includes any removal from any school for a period in excess of twenty (20) school days.

Military Families

If a parent presents evidence to the District of military orders that military family will be stationed in the State of Nebraska during the current or following school year, the District will enroll preliminarily the parent's students.

StudentsDiscontinuance of Enrollment for Children Younger Than Six Years of Age

Any person with legal or actual charge or control of a child younger than six years of age prior to the then-current school year, who is enrolled in this school district, may discontinue the enrollment of such child by submitting a written notification to the Superintendent or the Superintendent's designee, indicating the child's name, date of birth, grade level and effective date of discontinuation of enrollment. The notification must be in writing and on a form provided by or acceptable to the Superintendent or the Superintendent's designee containing all information required herein. The form must be dated and signed by a parent or person with legal or actual charge or control of the child. The school district may request written verification or documentation of the person's authority to dis-enroll the child. Upon receipt of required written form and any other required information or documentation, the school district shall note discontinuance of the enrollment on its official records pursuant to state law. Any child dis-enrolled shall not be eligible to re-enroll in this school district until commencement of the next school year, or until the child reaches the age of six prior to the then-current school year, whichever occurs earlier. Any person signing a request for discontinuation of enrollment, acknowledges this policy, procedure and the requirement thereof, and expressly agrees thereto.

Legal Reference: Neb. Rev. Stat. §79-201

Date of Adoption: November 12, 2007
Board Reviewed August 2013

AFFIDAVIT
(For Child Age 6 to Not Attend School)

The undersigned, being first duly sworn, states upon oath as follows:

I am the parent or guardian of _____ (Child's name). The Child's date of birth is _____. The Child has or will reached the age of six prior to January 1 of the current school year, but will not reach age seven prior to January 1 of the current school year.

I elect to not enroll the Child in an accredited school this school year and hereby affirm (check or initial appropriate exception for attendance):

_____ the Child is participating in an education program that the parent or guardian believes will prepare the child to enter grade one for the following school year; or

_____ the parent or guardian intends for the Child to participate in a school which has elected or will elect pursuant to law not to meet accreditation or approval requirements and the parent or guardian intends to provide the Commissioner of Education with a statement pursuant to section 79-1601(3) on or before the child's seventh birthday.

IN WITNESS WHEREOF, this affidavit is signed and acknowledged this ____ day of _____, 20____.

 Parent or Guardian

STATE OF NEBRASKA)
)
COUNTY OF _____) **ss.**

The foregoing instrument was acknowledged before me this ____ day of _____, 20____ by _____.

 Notary Public

PARENT RELEASE
(For Children Age 16 and 17 to Discontinue Enrollment)

The undersigned, being first duly sworn, states upon oath as follows:

I am the parent or guardian of _____ (Child's name). The Child's date of birth is _____. The Child has reached the age of 16 and has not reached the age of 18.

I hereby release the Child from continued enrollment in school. The Child is disenrolled from school effective _____ (insert date; if none stated, disenrollment is effective immediately).

NOTICE: Once disenrollment occurs by Parent Release, any future enrollment or re-enrollment must be approved by the Superintendent.

IN WITNESS WHEREOF, this affidavit is signed and acknowledged this ____ day of _____, 20__.

 Parent or Guardian

STATE OF NEBRASKA)
)
COUNTY OF _____) **ss.**

The foregoing instrument was acknowledged before me this ____ day of _____, 20__ by _____.

StudentsAssignment of Students: Grade Placement and Transfer StudentsAssignment of Students

It shall be the responsibility of the administration to determine academic placement decisions involving students, including situations where students transfer into Friend Public Schools from other educational settings. The District reserves the right to make the most appropriate grade level placement, class placement and teacher assignment for students which best fulfills the needs of the students and the school district.

Grade Level Placement and Credits

Students who enter the District shall be required to present transfer documents and such records as the administration determines appropriate, indicating grade placement, courses completed, and special needs or accommodations, and may be required to complete achievement test to determine appropriate placement.

Placement decisions will consider whether the student is transferring from a school which is accredited or approved. An “accredited” or “approved” school is one which was accredited or approved by the Nebraska Department of Education and, for schools from other states, is a school which is accredited or approved by that state’s department of education, meeting requirements which are the same or equivalent as those of the Nebraska Department of Education.

Transfers from Accredited or Approved Schools

Students transferring from accredited or approved schools will initially be placed in the next grade level above that which the student last successfully completed, or for transfers during the school year, in the same grade level as the student was at prior to the transfer. Credits earned at an accredited or approved school will be accepted by the Friend Public Schools. A student who enrolls during the school year shall be given the opportunity to earn full credit for the courses in which the student is enrolled if the student is able to demonstrate mastery of the subject matter and/or completion of course requirements, other than attendance, at a level required for other students to receive credit who have been enrolled throughout the period for which the credit is to be granted. The administration may use a review of transcripts from prior schools attended, standardized tests, assessments, and/or teacher evaluations of student competency in the subject matter to make such a determination.

Transfers from Non-Accredited or Approved Schools

Students transferring from schools which are not accredited or approved (e.g., home schools) will be placed at a grade level to be determined by the administration based on consideration of the following factors:

1. Student’s chronological age.
2. Transcript review
3. Testing (achievement test data; diagnostic test data; and/or criterion referenced test data)
4. Teacher evaluation of student competency

Credits earned at a school which is not accredited or approved will not be accepted by the Friend Public Schools. However, the administration may, in its discretion and subject to regulatory requirements, grant a student credits towards meeting graduation requirements for core curriculum courses (not elective courses) completed by the student in a non-accredited or non-approved school if the student is able to demonstrate mastery of the subject matter and completion of course requirements, other than attendance, at a level required for other students to receive credit and to demonstrate that the student has received instruction in such course(s) comparable to that which the student would have received by attending an accredited or approved school. The administration may use a review of transcripts from prior schools attended, standardized tests, assessments, and/or teacher evaluations of student competency in the subject matter to make such a determination. The same criteria will be used for determining whether to grant credit to such a student who enrolls during the year.

Class Rank and Graduation

It shall be the responsibility of the High School Principal to determine academic grade point average, class rank and eligibility for graduation, subject to review by the Superintendent.

Grade point average (G.P.A.) shall be maintained for the 9th through 12th grades. Courses taken prior to 9th grade are not considered for G.P.A. purposes.

Pass/fail grades will be assigned to those courses in which students are granted credit when they begin attending Friend Public Schools.

Class rank is maintained for the 9th through 12th grades. Class rank is based on the Friend Public Schools G.P.A. To be considered for class ranking and any honors or awards which are based on class rank or G.P.A. (e.g., Valedictorian), students must complete a minimum of four semesters of attendance at Friend Public Schools. To receive a diploma from Friend Public Schools during the year the student intends to graduate, students must complete at least 40 credit hours of courses taken at Friend Public Schools and students who have transferred from a school which is not accredited or approved must earn a minimum of two years' credit in an approved or accredited senior high school, grades 10-12, with the final semester's credit being earned in this school district. Exceptions may be allowed only with administrative recommendation and Board approval.
