All-in-One — Simple Design, Yet Complex Integration

While utilizing module mainframe connectivity, the H series highly integrates splice processing and display control to achieve true all-in-one, which simplifies system interconnection structure for customers. It will also reduce equipment failure rates, and improve equipment operation and maintenance to a whole new level.

True Flexibility — Awakens New Sensory Experience

H series supports numerous layers with an unrestricted arrangement. Each output daughterboard provides 16 layers. The layers can freely cross different output loading areas while keeping layer size the same. Layers can be in any position, overlapped, or unlimited scaled. It supports functions such as image capture, layer configuration, layer rotation, and more. This all helps you realize your creativity and create a captivating visual effect.

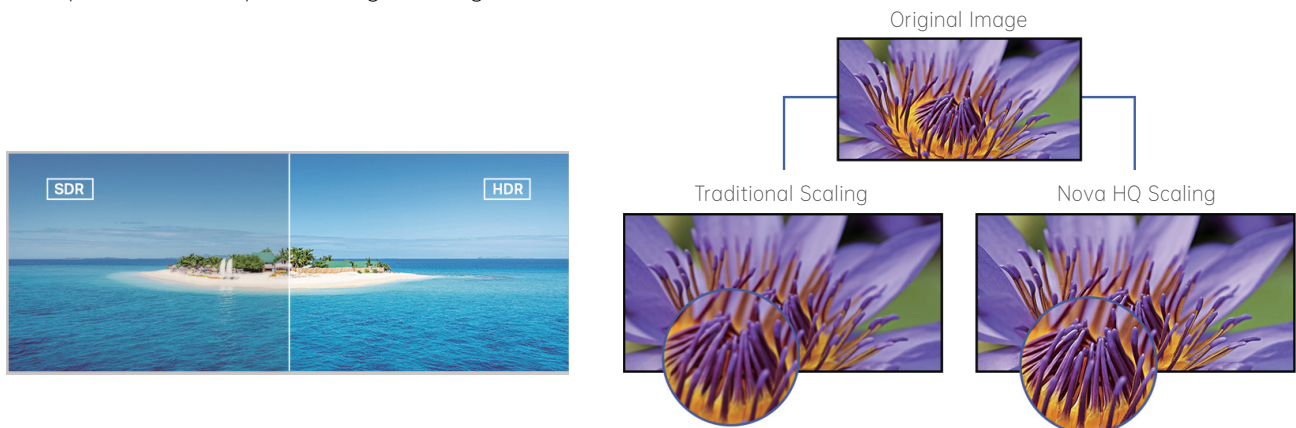

True 4K — Display Every Pixel in its Intended Beauty

To meet the client's display requirements, H Series achieves true 4K (4K x 2K@60Hz, RGB 4:4:4, 10bit) signal collection, processing, and output. It can be configured with DP1.2, HDMI2.0, or other high-definition 4K daughterboards to realize ultra-high-resolution display. Input and output signal support full 60FPS smooth processing without lag or frame loss, fully showcasing the details of the image. The entire system has 10bit color depth processing, which sharply increases color expressiveness and provides a smoother transition for better image quality.

High Image Quality — Rebuild Original Vision

To handle the existing requirements of fine-pitch displays, H Series features comprehensive image quality enhancements. The internal high-definition image processing engine, support for HDR, wide color gamut transmission, high contrast, and abundant colors, those all provide more details in both light and shadow. NovaStar's HQ high-quality scaling technology, which includes an adaptive content scaling engine. This technology prevents loss of details and border errors when zooming out, as well as jagged edges and blurring when zooming in, allowing for a perfect recovery of the original image.

Super Stability — Multiple Safeguards for Peace of Mind

Hot plugs for inputs and outputs and smart data recovery functions provide safety, stability, and convenient operation. An industrial-grade redundant power module ensures stable operation for the course of your entire application.

The LCD touch screen on the front panel provides real-time monitoring of the main device and daughterboard transmission status, further increasing stability. Supports real-time display readback from the screen, which gives you total control over your application for a truly trouble-free experience.

Real-time monitoring of the main device and daughterboard transmission status.

Statement of Work

Attachment A: Individual Project Requirements

1. PROPOSAL TERMS & CONDITIONS

- a. All pricing listed in Proposal include labor. Rates are based on a commitment that work is to be performed during regular business hours; 8AM to 5PM local time, Monday through Friday. Should project work push beyond these normal hours without prior agreement with ImageNet, additional labor rates/charges may apply.
- b. It is assumed that all work will be completed as a continuous effort. Disruptions of this continuous effort beyond the control of ImageNet Consulting may require additional labor costs. Additionally, if the project is finished ahead of the estimated completion, there will be no credit issued to the customer.
- c. All System Engineer/Programming work outside of work defined within the SOW is billed at \$165.00 per hour.
- d. ImageNet Consulting will install, test, and verify that the AV solution is working as designed. Additional training and materials outside of what is outlined in the proposal will be an additional charge based upon the scope of the project.

2. CUSTOMER SITE/PROJECT REQUIREMENTS

- b. Network drops are recommended at the mounting location of all equipment and are the responsibility of the client to provide and maintain. Certain equipment cannot be installed without PoE network drops, and many components require internet connection to perform maintenance tasks and basic functions.
- c. Customer to identify and provide an IT Administrator for solution implementation and support interaction.
- d. Customer will provide access to all areas required to complete this project. Any areas of high security or hazard should be made known prior to project commencement.
- e. Customer will provide access to all information and documentation required to complete this project.

- j. Customer is solely responsible for updating PC OS and 3rd party software. i.e. Windows 10, Zoom, MS Teams etc.
- k. Customer will provide Remote Access capabilities and credentials so that ongoing support can be provided as necessary via phone and remote desktop support, or an onsite resource that can accommodate remote support.
- l. Customer is solely responsible for maintaining agreed upon timeline, customer-side delays may push back launch dates by a ratio that exceeds 1:1 and may incur further service costs.
- m. Customer is solely responsible for required A/C power at device location as needed.
- n. Customer is solely responsible for required data connections at device location as needed.
- o. Customer is solely responsible for ceiling grid modification unless specified otherwise.
- p. Customer is solely responsible for providing adequate trash and old equipment disposal.
- q. Customer is solely responsible for providing parking availability, loading and unloading access, access control, and hours of operation.
- r. Customer is solely responsible for providing a OSHA approved lift or scaffolding unless otherwise specified in the proposal.
- s. Customer must ensure install site meets agreed upon standards and is free of obstruction.
- t. Customer is solely responsible for modification to furniture unless otherwise specified in the proposal.
- u. Customer is solely responsible for modification of existing walls in order to properly support new equipment unless specified otherwise in the proposal.
- v. If any of the above items are not met by the client at the time ImageNet arrives on site to install, a revised PO for additional labor may be assessed unless otherwise noted by ImageNet.
- w. All project/shipping timelines are approximate until items are received in our warehouse. Project completion is subject to receipt of equipment. Estimated 3-4 weeks for equipment delivery unless otherwise specified in contract agreement. Installation will be scheduled once 100% of equipment has been received unless otherwise specified in the contract agreement.
- x. ImageNet will work with the client to schedule installation based on: a) the estimated arrival time of the components, b) all necessary action items required by the client as listed above, and c) any additional needs.
- y. ImageNet Consulting does its best to anticipate conversion changes and user needs. However, once design agreement is established, changes requiring more than 1 hour of work could require a Request For Change and may incur additional costs.

3. DATA & SOFTWARE/FIRMWARE

- a. ImageNet Consulting is not responsible for the loss of data or any A/V recordings due to system failure, misuse, or damage.
- b. Future 3rd party software installation or services by ImageNet Consulting are an added cost unless otherwise agreed upon.

4. WALLBOARD DIGITAL SIGNAGE SOLUTIONS (if included in Project Scope)

- a. A "Welcome Letter" document will be sent out to the client on any project involving Wallboard Digital Signage Software. This document will help us outline training timeframes for the software, initial content design, and necessary network information so we can pre-configure the media players for easy installation. This document must be returned by the client for ImageNet to proceed with installation.

Powering Your School's Identity

Apptegy started in 2014 with the goal of enabling schools to build a strong brand and communicate more effectively with their audiences. In 2015, we worked with our first three beta clients. Today, in 2022 we've partnered with more than 2,500 clients in all 50 states to build their website, custom mobile app, and the alert and notification system.

What Makes Us Different

1 Thrillshare's Ease of Use

With our publishing platform, Thrillshare, **you don't need to have any programming knowledge** to update your district's website, app or notification system. Now promoting your success stories across all communication channels can be done right from your smartphone.

2 The User Experience for Your Community

Wherever your community interacts with you online, **they'll be able to engage with ease**. No more pinching or pulling to view your website on a smartphone or being redirected somewhere else from your app.

3 Your Experience Working With Us

From the beginning, Apptegy set out to be more than a software provider. We strive to be a true partner and resource for our districts. That commitment and our personal, fast and easy support has earned Apptegy an unheard of **99% client retention rate**.

I have to tell you, this platform is GREAT. Thrillshare simplifies the process of posting things to various school online resources to the point where I can see where we will be sharing so much with parents, especially on the APP.

All of you at Apptegy have been absolutely wonderful to work with. We have received great feedback on our new website and app, and one of our most recent posts reached more people than we ever have! That would never have happened without Thrillshare!

Scope & Deliverables

At Apptegy, we've developed the first publishing platform for school districts, so your team manages all of your communication channels from a single place. This means you'll share more stories with your community without creating more work for your staff.

By eliminating the technological barrier required to communicate, Thrillshare makes it easy to assign roles and privileges to your team to update what they care most about. With this level of customization and control, you can be confident about consistent messaging being shared with your community.

Publishing Platform

From the beginning, Thrillshare was designed to contain all your district communication channels in one place.

Built specifically for school districts, Thrillshare not only manages your website, but also your custom mobile app, all of your social media channels, and your alerts and notification system. Keeping information up-to-date is **as easy as it gets**, from the lunch menu to your calendar and news.

Mobile Apps

We build beautiful mobile apps for **Android and iPhone** that focus on what really matters: the user experience. A user experience that delights parents and community members means they will continue to come back to the app for meaningful information.

Websites

We will work with you to understand how you want your district brand to come across by creating a new website. Within your common branding, each school webpage can be customized, using the school's specific colors, mascots, logos, etc. We want your website to stay fresh and never grow stale, so we **include a free re-design** with each year of our partnership.

Alerts

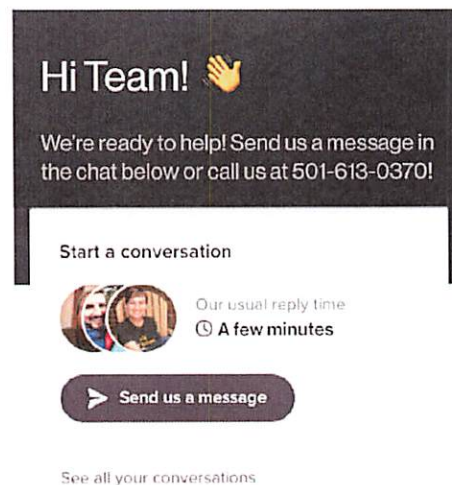

In order to save you time, we can automatically **sync with your Student Information System** so you can send out text, phone and email notifications. Easily send and schedule recurring alerts like attendance calls. Plus, with state-of-the-art technology, your text, email and voice calls can be automatically translated.

Transition & Support

We handle all of the heavy lifting including design, development, static content migration, training and ongoing support. Your own dedicated contacts at Apptegy during implementation and after launch make it an easy transition for the district.

With **unlimited training and prompt support**, every Thrillshare user will always have someone to assist with any questions that arise.

I. Estimated Transition Timeline

Kick-off

Week 1

We get our partnership started with a meeting to introduce stakeholders on your side and ours. In this meeting, we will cover our detailed roadmap, initial designs, and the overall structure of the planned implementation.

Design

Weeks 2-3

We create a mockup as a first draft and iterate from there. Since we've already established a good understanding of what you're looking for in the kick-off call, this process is typically quite fast.

Development & Content Migration

Weeks 4-6

Once we're done with the development, we migrate your static content for you. After our team has gone through your entire website and app and confirmed that everything is working, we will ask you to approve the content and functionality as well.

Training Sessions

Weeks 7-8

An ideal training schedule will include a setup call with your project lead, in-depth sessions for all of your power users, and introduction sessions for casual users.

Launch Campaign

Weeks 9-10

Flipping the switch is all it takes: we just point your domain to our servers and the change to the new website will be instant.

Of course we don't want the switch to go unnoticed by your community. That's why we design an entire launch campaign around the app and website with you. You'll get a custom marketing playbook, including graphics, videos, and a launch plan.

Support

Ongoing

Now that you are live, we work together to drive adoption of your new website and mobile app. You will be working closely with your Client Success Manager on marketing strategies and our Support Team on any questions your users have after the switch.

Master Services Agreement

The following terms and conditions are a binding part of the Order Form and Master Services Agreement of Apptegy, Inc. (together with its affiliates, agents, and assigns, "**Apptegy**") between Apptegy and the Client that is set out in the Order Form. References to the "**Agreement**" below collectively include the Order Form (including and incorporating the terms and conditions set out in the "**Estimated Transition Timeline**" and the "**Payment Schedule**" that is provided with this Agreement) and the following terms and conditions. This Agreement provides the terms and conditions for Client to purchase and use Apptegy's Services (as defined below). Capitalized terms used but not otherwise defined in the following terms and conditions will have the meanings given to them in the Order Form.

1. Integration with Other Documents. This Agreement is the entire agreement between Apptegy and Client with respect to the Services, except as expressly set out below. No separate written or online agreements or terms and conditions will be incorporated in this Agreement or otherwise bind the parties unless expressly set out in this Agreement or in a Client Addendum (as defined below). The Client Addendum will control and govern with respect to all matters expressly set out in the Client Addendum, and this Agreement will control and govern in all circumstances. To be enforceable on the parties, any amendment, modification, or additions to the terms and conditions of this Agreement must be set out in a separate written addendum to this Agreement confirming such amendments, modifications, and/or additions in writing (a "**Client Addendum**").

2. Services; License. During the License Term, Apptegy will provide, and Client and the individuals allowed to access the Services by or on behalf of Client ("**User(s)**") may access and use, the products and services set out in the Order Form (collectively, "**Services**"). Client hereby grants Apptegy a limited, nonexclusive, revocable, worldwide, fully-paid, royalty-free license to use, copy, and modify Client's information, material, data, photographs, videos, intellectual property (including without limitation all copyrights, trademarks, service marks, and similar rights), and other content (collectively, "**Client Content**") for providing and improving the Services. Client's right to access and use the Services, and Apptegy's license to Client Content, will automatically terminate upon termination or expiration of this Agreement.

3. Fees. Client will pay to Apptegy all fees set out in the Order Form. Upon execution of this Agreement, Apptegy will submit an initial invoice to Client for the first year of Services and for all other fees due upon execution. Apptegy will invoice all subsequent-year fees on or about the anniversary of the applicable Client Start Date(s) (as defined below). Client agrees to pay all invoices in full within 30 days of the date of the invoice. Client agrees that (i) development and implementation fees are due in full upon execution of this Agreement, (ii) fees for use of the Services are payable in annual portions for each year of the License Term as set out in the Order Form, (iii) fees for use of the Services are subject to Five Percent (5%) annual increases, starting the first renewal year after the last year of the term initially purchased by Client and continuing each year thereafter, as set out in the Order Form, and (iv) discounts for purchases of bundled Services will automatically expire if Client cancels any of the bundled Services and Client will thereafter be invoiced for the full price of the continuing Services. Client acknowledges that fees for Services do not include taxes, duties, and other government charges, including sales, use, consumption, VAT, GST, and other withholding, as applicable, and Client is solely responsible for any such obligations.

4. License Term. The term of Client's license to use the Services (the "**License Term**") will start on the date(s) set out on the Order Form (the "**Client Start Date(s)**"). Clients that purchase multiple Apptegy products may have different license start dates for different products. If no license start date is set out on the Order Form, the Thrillshare Media Client Start Date will be the date that is 60 days after Apptegy receives an executed agreement from Client and the Thrillshare Rooms Client Start Date will be the date that is 90 days after Apptegy receives an executed agreement from Client. The License Term will terminate on the anniversary of the applicable Client Start Date(s) that is after the number of license years initially purchased by Client, as set out in the Order Form, plus any renewal periods. This Agreement will renew for successive, additional periods of one (1) year from the anniversary of the Client Start Date(s), unless Client provides Apptegy with written notice of non-renewal before the end of the then-current License Term. Subject only to applicable procurement and appropriations law, Client agrees that it may not terminate this Agreement before the expiration of any then-current License Term without cause, unless Client pays Apptegy all fees in full for all license years of the then-current License Term, as set out in the Order Form, plus payment of any previously discounted amounts for the Services during the Term. All fees paid to Apptegy are non-refundable, subject only to applicable procurement and appropriations law.

5. Performance Terms. In addition to this Agreement, the rights and obligations of the Client and Apptegy with respect to the providing, accessing, and using the Services will also be subject to and governed by the Apptegy Terms of Use ("**Terms of Use**") and Privacy Policy ("**Privacy Policy**"), available at the following links: <https://www.apptegy.com/terms-and-conditions/> and <https://www.apptegy.com/privacy-policy/>. The Terms of Use and Privacy Policy, as each may be amended, are incorporated into this Agreement in their entirety, as applicable to Client. Without limiting the generality of the foregoing, the Terms of Use and Privacy Policy set out and govern the terms and conditions for Services availability, User eligibility and acceptable use, data privacy and security, regulatory notices and information, warranties, disclaimers, and liability limitations, and other related terms. The applicability of the Terms of Use and Privacy Policy is limited to the order of priority set out below.

6. Carrier Restrictions. Apptegy provides unlimited text, voice, and email messaging to Client subject to restrictions placed on Apptegy by mobile and wireless carriers and network operators (collectively, "**Carriers**"). For example, Carriers have (i) placed limits on the number of characters that may be included in messages sent via the Services and (ii) placed restrictions on the type of messaging content that may be sent through the Services. Carrier restrictions are not within the control of Apptegy and are subject to change without notice. When a Carrier places new or modified restrictions on Apptegy, certain features and functions of the Services may change as a result without notice to you. Client agrees that Apptegy will not be responsible or liable for any change in Services that arise from or in connection with Carrier restrictions.

7. TCPA/CTIA Compliance. Client is exclusively responsible for complying with applicable laws and regulations governing communications sent via the Services by Client and Users under Client's account, including, but not limited to, the Telephone Consumer Protection Act of 1991, as it may be amended ("**TCPA**"), and the requirements and policies of CTIA – The Wireless Association ("**CTIA**"). Client is encouraged to establish and implement methods and procedures to ensure compliance with applicable laws and regulations, including the TCPA and the CTIA, and to inform and train each of its employees, contractors, and representatives who use the Services on the methods and procedures. Apptegy may provide Client with materials and information about such laws and regulations, including the TCPA and the CTIA;

Client acknowledges that all such materials and information is provided for general education purposes only. No such act by or information from Apptegy (whether individually or taken as a whole) will create or be deemed to create responsibility or liability on the part of Apptegy with respect to Client's compliance with the laws and regulations governing the communications sent via the Services by Client and Users under Client's account, including the TCPA and/or the CTIA.

8. COPPA Notice and Compliance. Apptegy prohibits use of the Services by children under the age of thirteen (13), unless and only to the extent the child is a User invited or added to the Services by Client. When children are invited or added to the Services as Users under Client's account, Apptegy provides the Services with respect to the children solely in the educational context authorized by Client under this Agreement and solely for the benefit of Client and its Users. Client consents, as agent for and on behalf of such children (and their parents and guardians), to Apptegy's collection, use, disclosure, and storage of personal information about or from the children in accordance with this Agreement. Client acknowledges that Apptegy is relying on Client's consent in the previous sentence for the purposes of complying with the Children's Online Privacy Protection Act, as it may be amended ("**COPPA**"), and that Apptegy is authorized to presume that Client has obtained and will maintain all required parent and guardian consent for Apptegy's collection, use, disclosure, and storage of information for any children under the age of thirteen (13) that are invited or added to the Services under Client's account.

Please note that Client is responsible for complying with COPPA with respect to Users under Client's account if Client invites or adds children under the age of thirteen (13) to the Services. Client is encouraged to establish and implement methods and procedures to ensure compliance with COPPA, and to inform and train each of its employees, contractors, representatives, and Users who use the Services on the methods and procedures. Apptegy may provide Client with materials and information about complying with COPPA; Client acknowledges that all such materials and information is provided for general education purposes only. No such act by or information from Apptegy (whether individually or taken as a whole) will create or be deemed to create responsibility or liability on the part of Apptegy with respect to Client's compliance with COPPA.

The Terms of Use and Privacy Policy, accessible as set out above, confirm that Apptegy may collect information about children as a necessary part of providing the Services to Client (for example, as applicable: contact information for communications sent via the Services;

posts made on messaging tools in the Services; information included in assignments and other class content submitted via the Services) and provide notice regarding Apptegy's collection, use, disclosure, and storage of personal information from children. Please note that some or all of this information may not be private as to the individual child, parent, or guardian. For example, for Users of Rooms, information shared by a User via the messaging features of Rooms will be visible to Client, as the party providing access to the Services to its Users. In some circumstances, information provided by or about a child may be available or visible to other individual Users. For example, for Users of Rooms, information about a child that is posted in the group messaging tool in a Child's Room may be visible to other individual Users that are also authorized users for the same Room. Apptegy will collect, use, and disclose such information in accordance with COPPA and the Privacy Policy.

9. Accessibility Compliance. Client is exclusively responsible for complying with all applicable laws and regulations governing accessibility of the parts of the Services under the control of Client (for example: Client's website and/or mobile applications), including, but not limited to, the Americans with Disabilities Act, as it may be amended ("**ADA**"), and the requirements and policies of Web Content Accessibility Guidelines ("**WCAG**"). Client is encouraged to establish and implement methods and procedures to ensure compliance with applicable laws and regulations, including the ADA and the WCAG, and to inform and train each of its employees, contractors, and representatives who use the Services on the methods and procedures. The Services include tools to assist Client with accessibility compliance, and Apptegy may provide Client with materials and information about such laws and regulations, including the ADA and the WCAG; Client acknowledges that all such tools, materials, and information are provided to assist Client with its compliance obligations and for general education purposes only. No such functionality, act by, or information from Apptegy (whether individually or taken as a whole) will create or be deemed to create responsibility or liability on the part of Apptegy with respect to Client's compliance with the laws and regulations governing accessibility of the parts of the Services under the control of Client (for example: Client's website and/or mobile applications), including the ADA and/or the WCAG.

10. Third Party Functions. Apptegy relies on third-party providers and partners for parts of the Services (for example: posting a message or communication on Facebook or Twitter account; hosting Client websites). APPTEGY IS NOT RESPONSIBLE FOR ANY CONSEQUENCE, LOSS, OR DAMAGE (DIRECT OR INDIRECT) ARISING FROM OR RELATING TO THE PARTS OF THE SERVICES MANAGED OR MADE AVAILABLE BY OR VIA THIRD-PARTY PROVIDERS AND PARTNERS. Please see the Terms of Use and Privacy Policy for more information.

11. Disclaimers; Limited Liability. Apptegy provides the Services subject to certain disclaimers and limitations of liability. Please see the Terms of Use and Privacy Policy for more information.

12. Intellectual Property. Nothing in this Agreement or the performance of this Agreement will convey, license, or otherwise transfer any right, title, or interest in any intellectual property or other proprietary rights held by either party, except as expressly set out in the Agreement. Apptegy retains all right, title, and interest in all intellectual property rights, including patent, trademark, trade secret, and copyright (whether registered or unregistered), in and to the Services and the underlying software and technologies, all related technical documentation, and all derivative works, improvements, and modifications to any of the foregoing. Client agrees the foregoing is necessary to Apptegy providing the Services.

13. Compliance with Laws. The parties agree to comply with all laws applicable to the use of the Services and performance of this Agreement.

14. Miscellaneous. The Order Form and Master Services Agreement, together with (i) the Terms of Use and Privacy Policy, and (ii) the Client Addendum, if applicable, is the entire agreement between the parties with respect to the subject matter, and supersedes all prior agreements and understandings, whether written or oral. If any conflict or ambiguity exists with respect to any term or condition of any of the foregoing, the following priority will govern and control: (1) if applicable, the Client Addendum for all matters expressly addressed in the Client Addendum; then (2) this Order Form and Master Services Agreement for all other matters; then (3) the Terms of Use and Privacy Policy. Apptegy is not subject to any obligations that are not expressly identified in this Agreement, a Client Addendum, or the Terms of Use and Privacy Policy.

This Agreement is governed by the laws of the state in which Client is located, without regard to conflict of law principles. The parties irrevocably submit to the exclusive jurisdiction and venue of the federal courts having jurisdiction where Client is located for any dispute that relates to the Services or this Agreement. Except as set out in this Agreement, this Agreement may not be amended or modified without the prior written consent of both parties.

Neither party may assign this Agreement without the prior written consent of the other party, except in connection with a merger, acquisition, or sale of all or substantially all of a party's assets or voting securities. If any provision(s) of this Agreement is held invalid or unenforceable, such invalidity or unenforceability will not invalidate or render the Agreement unenforceable, but rather the Agreement will be construed as if not containing the unenforceable provision(s), and the rights and obligations of the parties will be construed and enforced to honor the parties' original intent to the maximum extent permitted under applicable law. This Agreement will inure to the benefit of the successors and assigns of the parties. The Agreement may be executed in multiple counterparts and executed by original, facsimile, or electronic signature (including PDF, Proposify, HelloSign, and similar methods), each of which when delivered will be deemed an original, and all of which together will constitute one agreement.

Subsurface Exploration Fee Proposal

Proposed Sidewalk Canopies at Cleveland, Reagan
Elementaries and Alcott MS

June 27, 2024

Norman Public Schools
131 South Flood Avenue
Norman Oklahoma

VIA Email: jmilner@norman.k12.ok.us

Attn: Justin Milner

Regarding: Proposal for Subsurface Exploration
Proposed Sidewalk Canopies at Cleveland, Reagan Elementaries and Alcott MS
Norman, Oklahoma

Dear Justin:

Standard Engineering & Field Services (STANDARD) is pleased to provide this proposal for geotechnical exploration services for the Proposed Sidewalk Canopies at Cleveland, Reagan Elementaries and Alcott MS, located in Norman, Oklahoma.

Scope of Work

This geotechnical study is to evaluate the soil's and/ or rock's strength conditions, check the soil plasticity characteristics, and to recommend subgrade preparation, foundation types, and pavement sections for the proposed project. Based on the information provided to us, it is our understanding that the project consists of the following:

- Client Project #23016B.2A, 23016T, 23016L
- 2 New sidewalk canopies at Cleveland Elementary School at 500 N Sherry Ave, Norman, OK 73069
- 2 New sidewalk canopies at Alcott Middle School at 1919 W Boyd St, Norman, OK 73069
- 2 New sidewalk canopies at Reagan Elementary School at 1601 24th Ave SE, Norman, OK 73071

Field Exploration

A total of **Five (5)** borings are requested to be drilled to the depth of **Twenty-Five (25)** feet using a truck mounted CME 55 within the project's footprint. Samples will be obtained from borings at regular intervals and at soil layer interfaces where material characteristics change. A minimum of three samples will be obtained within the top five (5) feet and at 5-foot intervals thereafter using the following methods:

- Split-Barrel Sampler (SPT) in cohesionless soils, and cohesive soils
- Thin-Walled Tube (Shelby) in cohesive soils (clays, plastic silts; ASTM D1587)
- Grab samples between SPTs and Shelby-Tube samples will also be collected

Location	# Borings	Depth (ft)
Cleveland Elementary	2	25 or 5 Feet into Rock
Alcott Middle School	1	25 or 5 Feet into Rock
Reagan Elementary	2	25 or 5 Feet into Rock

Hand held pocket penetrometer readings will be taken on all cohesive samples in the field. Soil samples will be sealed in the field to prevent disturbance and moisture changes and transported to the laboratory for testing. All borings will be plugged in accordance with Oklahoma Water Resource Board (OWRB) regulations. The ground surface at the borings' locations will be surveyed by rod and transit methods in relation to a convenient fixed object or a benchmark provided by the client. Groundwater, if encountered, will be measured during, and at the completion of drilling operations. Standard will call OKIE to locate utilities in public easements, the owner is responsible for locating private utilities at the site.

Minor damage at the site, such as rutting in landscaping and cracking in light duty concrete or asphalt paving (i.e. sidewalks and driveways) may occur during the field exploration due to the size and weight of the drilling equipment. Any remediation or repair of damages resulting from the use of such equipment in order to perform the field exploration is not part of this scope and will not be the responsibility of Standard.

Laboratory Testing

Laboratory tests shall be assigned and performed to classify soils and obtain geotechnical physical characteristics for soils and rock such as strength, compressibility and compaction characteristics. Perform laboratory testing consistent in quantity and quality with local geotechnical engineering practice to provide the information for the foundation recommendations required in the report. We will perform following laboratory tests:

- Soil Moisture Content Test
- Volumetric Chunk Density Test
- Atterberg Limits Test (PI)
- Sieve Analysis
- Unconfined Compressive Strength Test

Reporting, Scheduling, Authorization and Cost

The drilling work can be scheduled within **five (5) to seven (7)** working days after receiving notice to proceed and obtaining clearance of utilities at the site. Report will be issued within **seven (7)** working days after completion of laboratory testing.

A report will be generated including the following:

- Vicinity map and boring location plan
- Computer generated boring logs with soil stratification based on visual soil classification, and laboratory test results
- Boring and site elevations
- Laboratory test results summary
- Summary of field testing and drilling methods

- Narrative of difficulties and access obstructions
- Subsurface soil conditions
- Ground water levels observed during and at the completion of drilling, and anticipated seasonal high water level
- Seismic site class using IBC 2018 and ASCE 7-16
- Previous construction activity
- PVR analysis results with removal or treatment of objectionable materials
- Earthworks recommendations including engineered fill requirements
- Compaction requirements
- Drainage system recommendations
- Foundation recommendations including allowable bearing pressure for shallow foundations
- Foundation recommendations including allowable end bearing and skin friction capacities for deep foundations
- Estimated settlement
- Slab-on-grade floor slab recommendations, including modulus of subgrade reaction
- Asphalt concrete and Portland cement concrete pavement section recommendation for light and heavy-duty traffic
- Other construction considerations

The cost estimate for geotechnical services, including borings, laboratory testing, and reporting as described is presented in the following table:

Description	Cost (\$)	Type
Geotechnical Exploration – Cleveland Elementary	\$2,350.00	Lump Sum
Geotechnical Exploration – Reagan Elementary	\$2,350.00	Lump Sum
Geotechnical Exploration – Alcott Middle	\$1,600.00	Lump Sum
Additional Drilling if Needed	\$15.00	Per Foot

The geotechnical exploration fee includes up to 3 hours of engineering support in the design phase after the geotechnical report is submitted. Additional services, if required and/or requested, will be provided at our standard unit rates.

We appreciate the opportunity to provide the budgetary proposal. To authorize this work, please return a completed copy of the attached “Agreement for services” form by e-mail to rkhalife@standardUSA.com. If there are any questions concerning this proposal or if further information is required, please contact me at 405.528.0541 or 405.395.8040.

Sincerely,

Roy Khalife, PE

a. STANDARD will perform the services to be provided by STANDARD pursuant to this Agreement in accordance with generally accepted engineering principles and practices of performance by professionals of ordinary skill existing at the time of performance under similar conditions for the locality where the services are to be performed. The CLIENT hereby acknowledges that the Project involves certain inherent risk factors (such as limitations on laboratory analytical methods, variations in subsurface conditions and the like) which may adversely affect the results of the Project, even though the services are performed with such care and skill. Data, interpretations and recommendations by STANDARD will be based solely on information available to STANDARD. STANDARD will not be responsible for any other party's use or interpretations of information reported by STANDARD and/or the recommendation(s) of any other party based on such information. STANDARD's services do not include the investigation or detection of, nor do the recommendations in STANDARD's reports address the presence or prevention of, biological pollutants such as mold, fungi, bacteria, viruses; or occupant safety issues, such as vulnerability to natural Disasters, terrorism, or violence. If computer software is to be provided to the CLIENT as part of the services, CLIENT will execute a separate software license agreement. **STANDARD MAKES NO WARRANTIES OR GUARANTEES EXPRESS OR IMPLIED, RELATING TO STANDARD'S SERVICES AND STANDARD SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.**

b. The Scope of Work cannot be changed, altered or amended except by written agreement signed by both parties. If CLIENT and STANDARD agree in writing for STANDARD to perform additional services, then STANDARD will be entitled to an increase in compensation at rates provided in this Agreement. STANDARD reserves the right to elect not to perform additional services. If STANDARD determines in its sole discretion that additional services are necessary to avoid a delay in the completion of the Project, then STANDARD shall perform those services without waiting for instructions from CLIENT and shall be entitled to an increase in compensation for such services at the standard hourly billing rate charged for those employees performing the services, plus reimbursable expenses, if any.

c. STANDARD's personnel may be present, either full or part time, to provide observation and field testing of specific parts of the Project in accordance with the Scope of Work set forth herein. STANDARD will be responsible for supervision and site safety measures for its own employees but shall not be responsible for the supervision or health and safety precautions for any other parties, including CLIENT, CLIENT's contractors, or any other parties present at the site. Should a contractor be involved in the Project, STANDARD's work does not include supervision or direction of the work of the contractor, its employees or agents.

d. Title to all samples and waste materials remains with Client, and at no time shall STANDARD take title to the above material. Portions of samples are consumed by testing. Unless otherwise stated in the Scope of Work, the remaining residue of all test samples from the Project site by STANDARD shall remain the property of CLIENT and shall be handled by STANDARD as follows: At CLIENT's written request, STANDARD will maintain preservable test samples and specimens or the residue therefrom for 30 days after the report date free of storage charges. After the initial 30 days, upon written request, STANDARD will retain test specimens or samples for a mutually acceptable storage charge and time period. If CLIENT does not make a written request to preserve samples and specimens, then STANDARD may dispose of the samples or specimens or return them to CLIENT at CLIENT's expenses. If it is determined that no test(s) are necessary on the sample(s), or determining that a sample originally thought to be NON-HAZARDOUS is in fact HAZARDOUS, then STANDARD will return the samples to CLIENT.

e. Field tests or boring locations described in STANDARD's report or shown on sketches are based on specific information furnished by others and/or estimates made in the field by STANDARD personnel. Such dimensions, depths or elevations are approximations and are not warranted to be exact.

f. STANDARD shall maintain during the performance of the services by it under this agreement if reasonably available, (i) statutory Workers' Compensation liability coverage, (ii) Comprehensive General Liability insurance coverage, and (iii) automobile liability coverage in policy amounts of not less than One Million Dollars (\$1,000,000.00). STANDARD represents that it currently has professional liability coverage in the aggregate limit of at least One Million Dollars (\$1,000,000.00) and agrees to attempt to maintain such coverage for the period of performance of the Scope of Work and for a period of one (1) year following completion of those services, if such coverage is reasonably available at commercially affordable premiums. For the purpose of this Agreement, "reasonably available" and "commercially affordable"

shall mean that more than half the consultants practicing the same professional discipline in the state where the project is located are able to obtain such coverage

ARTICLE 2. THE CLIENT'S RESPONSIBILITIES

a. CLIENT has obtained access and right of entry to the Project and hereby grants free access and right of entry to the Project to STANDARD, its employees, agents, and subcontractors, for the purpose of performing all acts, studies and research, including without limitation the obtaining of samples and the performance of tests and evaluations, pursuant to the Scope of Work. CLIENT understands that subsurface conditions throughout the site may vary from those apparent at the discrete sampling locations or other sources of subsurface data and that site conditions may change from time to time. CLIENT agrees that STANDARD's proposed sampling locations are approximate and that STANDARD may depart a reasonable distance from those locations. CLIENT accepts that, despite STANDARD's use of reasonable precautions to reduce damage, invasive services such as drilling, or sampling may damage or alter the site and that site restoration is not provided by STANDARD unless specifically included in the Scope of Work.

b. CLIENT represents that CLIENT possesses all necessary permits and licenses required for the performance of the services to be provided by STANDARD under this Agreement and for the continuation of CLIENT and STANDARD's activities at the Project.

c. CLIENT will furnish or cause to be furnished such reports, data, studies, plans, specifications, documents and other information deemed necessary by STANDARD for the proper performance of STANDARD's services pursuant to this Agreement. STANDARD may rely upon documents provided by the CLIENT in performing the services required under this Agreement; however, CLIENT-provided documents will remain the property of the CLIENT. All documents, including, but not limited to, drawings, specifications, reports, boring logs, field notes, laboratory test data, calculations and estimates prepared by STANDARD as part of the service, pursuant to this Agreement, shall remain STANDARD's exclusive property. CLIENT agrees that all documents of any nature furnished to CLIENT or CLIENT's agents or designees, if not paid for, will be returned upon demand and will not be used by CLIENT for any purpose whatsoever. CLIENT further agrees that under no circumstances shall any documents produced by STANDARD pursuant to this Agreement be used at any location or for any project not expressly provided for in this Agreement without STANDARD's prior written consent. If CLIENT uses all or any portion of STANDARD's work on another project without STANDARD's written permission, CLIENT shall defend, indemnify and hold STANDARD harmless from any and all claims arising from such unauthorized use.

d. CLIENT shall be responsible for identifying, locating, and marking, and/or shall arrange for identifying, locating and marking of private subterranean structures or utilities and subsurface structures. STANDARD shall take reasonable precautions to avoid damage or injury to such utilities and structures. STANDARD shall take reasonable precautions to avoid damage or injury to subterranean structures or utilities which were identified and marked by CLIENT or a one-call provider. STANDARD shall not be responsible for any damage, liability or costs, or for any property

damage, injury or economic loss arising or allegedly arising from damages to utilities or subterranean structures that were not identified, located, or marked by CLIENT or the one-call provider, or that were not properly communicated to STANDARD; or that were improperly marked on documentation, plans, drawing or utility clearance materials provided to STANDARD. STANDARD shall not be responsible for any damage, liability or costs, or for any property damage, injury or economic loss arising or allegedly arising from damages to utilities or subterranean structures caused by subsurface penetrations in locations approved by CLIENT and/or the one-call provider, except for damages caused by the negligence of STANDARD in the use of such information. CLIENT waives any claim against STANDARD and agrees to defend, indemnify, and hold STANDARD and its officers, directors, employees, shareholders, agents, and subcontractors harmless from any claim or liability for injury or loss, including costs of defense, arising from damage done to subterranean structures and utilities not identified or not accurately located. In addition, CLIENT agrees to compensate STANDARD for any time spent or expenses incurred by STANDARD in defense of any such claim, with compensation to be based upon STANDARD's prevailing fee schedule and expense reimbursement policy.

e. CLIENT shall provide, or cause to be provided, to STANDARD all documents and information known or available to CLIENT that relate to the identity, location, quantity, nature, or characteristic of any Hazardous Material (i.e., hazardous waste under RCRA, hazardous substance under CERCLA, hazardous constituent, toxic material, radioactive material, contaminated material, or petroleum product) on, under, or near the site, and shall immediately transmit new, updated, or revised information as it becomes available.

f. Unless otherwise provided herein, CLIENT shall assume all responsibility for, including control and removal of, and protect, defend and save harmless STANDARD from and against all claims, demands and causes of action of every kind and character arising from pollution or contamination (including naturally occurring radioactive material) which originates above the surface of the land or water from spills of fuels, lubricants, motor oils, pipe dope, paints, solvents, ballast, bilge and garbage, except unavoidable pollution from reserve pits, wholly in STANDARD's possession and control and directly associated with STANDARD's equipment. In the event a third party commits an act or omission which results in pollution or contamination for which either STANDARD or CLIENT, for whom such party is performing work, is held to be legally liable, the responsibility therefore shall be considered as between STANDARD and CLIENT, to be the same as if the party for whom the work was performed had performed the same and all of the obligations regarding defense, indemnity, holding harmless and limitation of responsibility and liability, as set forth herein, shall be specifically applied.

g. CLIENT shall release STANDARD of any liability for, and shall defend and indemnify STANDARD against, any and all claims, liability and expense resulting from operations under this Agreement on account of any alleged injury to, destruction of, or loss or impairment of any property right in or to oil, gas, water or other mineral substances, if at the time of the alleged act or omission causing injury, destruction, loss or impairment, said substance had not been reduced to physical possession above the surface of the earth. CLIENT shall release STANDARD of any liability for, and shall defend and indemnify STANDARD against, any and all claims, liability and expense resulting from operations under this Agreement on account of any alleged loss or damage to any formation, strata, or reservoir beneath the surface of the earth.

h. CLIENT agrees to pay STANDARD's invoices upon receipt. STANDARD may suspend work for lack of timely payment. Should payment not be received within 30 days of invoice date, the CLIENT agrees to also pay a service charge of 1.5 percent per month or 18 percent per annum and the costs of collection, including reasonable attorneys' fees. If 1.5 percent per month exceeds the maximum allowed by law, the service charge of 1.5 percent will automatically be reduced to the maximum legally allowed. If CLIENT has any objection to an STANDARD invoice, CLIENT must so advise STANDARD in writing giving the reasons for such objections within 14 days of receipt by the CLIENT of such invoice, and shall promptly pay the undisputed portion. Payment shall constitute final approval of all aspects of the corresponding Work performed to date by STANDARD. If the Project is terminated in whole or in part, then STANDARD shall be paid by the CLIENT for services performed prior to STANDARD's receipt of written notice of such termination, including STANDARD's reimbursable expenses and actual and reasonable shut-down costs.

ARTICLE 3. PUBLIC LIABILITY: Except for claims by employees of STANDARD for Workers' Compensation, in the event any third party brings suit or claim for damages against STANDARD alleging exposure to or damage from material, elements or constituents at the Project before, during, or after the services are performed by STANDARD or any of its agents pursuant to this Agreement, which is alleged to have resulted in or caused disease or any adverse health condition to any third party or resulted in costs for remedial action, uninhabitability of any property, or any other property damage or loss of any kind, then CLIENT agrees at its sole cost to defend STANDARD in any such suit or claim and to indemnify and hold harmless STANDARD and its officers, directors, employees and shareholders from and against any loss, damages, liabilities and cost (including, but not limited to, reasonable attorney fees) and to pay on behalf of STANDARD and its officers, directors, employees and shareholders any judgment entered against STANDARD and its officers, directors, employees and shareholders, including any interest thereon. CLIENT will have the right to investigate, negotiate and settle, with STANDARD's written concurrence, any such suit or claim, and STANDARD will cooperate in the defense of any such suit or claim.

ARTICLE 4. GENERAL CONDITIONS, NOTIFICATION, LIMITATION OF LIABILITY AND INDEMNIFICATION

a. Except as otherwise provided in this Agreement, STANDARD and CLIENT shall defend, indemnify, and hold harmless the other, their agents, and employees, from and against legal liability for all claims, losses, damages, and expenses to the extent such claims, losses, damages, or expenses are caused by their negligent acts, errors, or omissions. In the event such claims, losses, damages, or expenses are caused by the joint or concurrent negligence of STANDARD and CLIENT, they shall be borne by each party in proportion to its own negligence under comparative fault principles.

NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR: LOSS OF PROFITS OR REVENUE; LOSS OF USE OR OPPORTUNITY; LOSS OF GOOD WILL; COST OF SUBSTITUTE FACILITIES, GOODS OR SERVICES; COST OF CAPITAL; OR FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT, PUNITIVE, OR EXEMPLARY DAMAGES.

b. Notwithstanding any other provision of this Agreement, and to the fullest extent permitted by law, neither CLIENT nor STANDARD, their respective officers, directors, partners, employees, contractors or subconsultants shall be liable to the other or shall make any claim for any delay damages, any punitive damages or any incidental, indirect or consequential damages arising out of or connected in any way to the Project(s) or to this Agreement. This mutual waiver of delay damages and consequential damages shall include, but is not limited to, disruptions, accelerations, inefficiencies, increased construction costs, increased home office overhead, loss of use, loss of profit, loss of business, loss of income, loss of reputation or any other delay or consequential damages that either party may have incurred from any cause of action including, but not limited to, negligence, statutory violations, misrepresentation, fraud, deceptive trade practices, breach of fiduciary duties, strict liability, breach of contract and/or breach of strict or implied warranty. Both the CLIENT and STANDARD shall require similar waivers of consequential damages protecting all the entities or persons named herein in all contracts and subcontracts with others involved in the Project(s).

c. To the fullest extent permitted by law, and notwithstanding any other provision of this Agreement, the total liability, in the aggregate, of STANDARD and STANDARD's officers, directors, employees, shareholders, agents, and subcontractors, and any of them, to the CLIENT, for any and all claims, losses, costs, or damages, including attorney's fees and costs and expert witness fees and costs of any nature whatsoever or claims expenses resulting from or in any way related to the Project or this Agreement from any cause or causes shall not exceed the total compensation received by STANDARD under this Agreement. It is intended that this limitation apply to any and all liability or cause of action however alleged or arising, unless otherwise prohibited by law, except that this limitation does not apply to the extent damages are paid under STANDARD's Comprehensive General Liability Insurance or automobile liability insurance.

d. The CLIENT further agrees, to the fullest extent permitted by law, to limit the liability of STANDARD and STANDARD's officers, directors, employees, shareholders, agents, and subcontractors, and any of them, to all construction contractors and subcontractors on the Project for any and all claims, losses, costs, damages of any nature whatsoever or claims expenses from any cause or causes, including attorney's fees and costs and expert witness fees and costs, so that the total aggregate liability of STANDARD and STANDARD's subcontractors to all those named shall not

exceed STANDARD's total fee for services rendered on this Project. It is intended that this limitation apply to any and all liability or cause of action however alleged or arising unless otherwise prohibited by law, except that this limitation does not apply to the extent damages are paid under STANDARD's Comprehensive General Liability Insurance or automobile liability insurance.

e. Notwithstanding any other provision of this Agreement, and to the fullest extent permitted by law, neither party's individual employees, principals, officers or directors shall be subject to personal liability or damages arising out of or connected in any way to the Project or to this Agreement.

f. This Agreement may be terminated by either party upon giving the other party not less than seven (7) calendar days written notice or by mutual agreement. The receiving party shall have that seven (7) calendar day period in which to cure the default. If this Agreement is terminated by either party, STANDARD shall be paid in full for all services performed through the termination date, in addition to STANDARD's reimbursable expenses and reasonable shut-down costs incurred.

g. Neither CLIENT nor STANDARD may delegate, assign, sublet or transfer its duties or interest in this Agreement without the prior written consent of the other party, except STANDARD may retain the services of subcontractors to assist STANDARD in performance of its duties and obligations hereunder.

ARTICLE 5. UNFORESEEN OCCURRENCES: If during the performance of services by STANDARD under this Agreement, any unforeseen hazardous substances or petroleum products or constituents thereof or other unforeseen conditions or occurrences are encountered which in STANDARD's sole judgment significantly affect or may affect the services, the risk involved in providing the services, or the Scope of Work, STANDARD and CLIENT will mutually agree to revise the Agreement to include consideration of the previously unforeseen conditions or occurrences, such revision to be in writing and signed by the parties and incorporated herein; or STANDARD may, at its option, terminate this Agreement effective on the date specified by STANDARD in writing.

ARTICLE 6. LITIGATION ASSISTANCE: Unless expressly set forth in the Scope of Work, the Scope of Work does not include costs of STANDARD for required or requested assistance to support, prepare, document, bring, defend, or assist in litigation undertaken or defended by the CLIENT. All such services required or requested of STANDARD, except for suits or claims between the parties to this Agreement, will be reimbursed by the CLIENT according to STANDARD's normal rates and charges for such services and payment for such services shall be in accordance with this Agreement.

ARTICLE 7. FORCE MAJEURE: STANDARD is not responsible for damages or delay in performance caused by acts of God, strikes, lockouts, accidents or other events beyond the reasonable control of STANDARD.

ARTICLE 8. NO THIRD-PARTY BENEFICIARIES: This Agreement and STANDARD's performance of the Scope of Work are for STANDARD's and CLIENT's sole benefit and exclusive use with no third parties intended. Reliance upon STANDARD's performance of the Scope of Work and any work product is limited to CLIENT and is not intended for third parties. For a time period limited to three months following STANDARD's completion of the Scope of Work and submittal of any work product in the form of a report, STANDARD will issue additional reports addressed to, and for the use of, other parties designated by CLIENT, contingent upon each such party signing and returning STANDARD's reliance agreement and STANDARD receiving the agreed-upon fee for each additional report so issued.

ARTICLE 9. SURVIVAL: All obligations arising prior to the termination of this Agreement and all provisions of this Agreement allocating the responsibility or liability between CLIENT and STANDARD shall survive the completion of the services and the termination of this Agreement.

ARTICLE 10. INTEGRATION: This Agreement and the documents attached hereto, and which are incorporated herein constitute the entire agreement between the parties and cannot be changed or amended except by a written instrument signed by all parties hereto. In the event CLIENT

issues a purchase order or similar form to authorize or otherwise administer payment for Work under this Agreement, the use of such form shall be for convenience purposes only and any additional or conflicting terms it contains are stricken.

ARTICLE 11. GOVERNING LAW AND VENUE: This Agreement shall be governed in all respects by the laws of the State of Oklahoma. Each of the parties hereto shall only enforce a claim arising out of this Agreement in the appropriate state or federal court having subject and personal jurisdiction located in Oklahoma City, Oklahoma. For purposes of any action or proceeding instituted with respect to any such claim, except those for which CLIENT must first pursue Dispute Resolution as provided herein, all of the parties hereto irrevocably submit to the jurisdiction of such courts and irrevocably consent to service of process out of such courts by mailing a copy of the summons and complaint, by certified mail, return receipt requested, postage prepaid to each party at the address provided for such party in this Agreement.

ARTICLE 12. DISPUTE RESOLUTION: CLIENT shall not be entitled to assert any claim, including but not limited to, professional negligence, negligence, breach of contract, misconduct, error, omission, fraud, or misrepresentation ("Claim") against STANDARD unless and until CLIENT has first obtained a written opinion from an independent, registered professional of the relevant discipline ("Expert") that STANDARD has violated the standard of care applicable to STANDARD's performance of the Scope of Work. The opinion must contain: (a) the name and license number of the Expert; (b) the qualifications of the Expert, including a list of all publications authored in the previous 10 years and a list of all cases in which the Expert testified within the previous 4 years; (c) a statement by the Expert setting forth the factual basis for the Claim; (d) a statement by the Expert of each and every act, error, or omission that the Expert contends supports the Claim or any alleged violation of any applicable standard of care; (e) a statement by the Expert of all opinions the Expert holds regarding the Claim or any alleged violation of any applicable standard of care; (f) a list of every document related to the Project reviewed by the Expert; and (g) a list of every individual who provided Expert with any information regarding the Project. The opinion is a condition precedent to the right of CLIENT to assert any Claim in any litigation or arbitration and CLIENT's failure to timely provide an opinion to STANDARD will be grounds for automatic dismissal of the Claim with prejudice. CLIENT shall furnish this opinion to STANDARD and the parties shall endeavor to resolve the dispute within thirty (30) days, after which CLIENT may pursue its remedies at law. The prevailing party in any litigation relating to a Claim shall be entitled to recover from the other party those reasonable attorney fees, costs and expenses incurred by the prevailing party in connection with the Claim.

ARTICLE 13. INDEPENDENT CONTRACTOR: In performing services under this Agreement, STANDARD shall operate as, and have the status of, an independent contractor and shall not act as or be an employee of the CLIENT.

ARTICLE 14. SUBCONSULTANTS: STANDARD may utilize as necessary in its discretion subconsultants or other subcontractors. STANDARD will be paid for all services rendered by its subconsultants and other subcontractors as set forth in this Agreement.

ARTICLE 15. NOTICE: Notices shall be sufficiently given if sent by certified mail, postage prepaid, to each of the parties at the address noted for such party in this Agreement, or such other address as shall be furnished in writing by either party.

ARTICLE 16. ENTIRE AGREEMENT: This Agreement supersedes all prior communications, understandings and agreements, whether oral or written. Amendments to this Agreement must be in writing and signed by the CLIENT and STANDARD.
