5. Financial Consent Docket - Discuss and possible vote on monthly financial reports, encumbrances, change orders and warrants supported by proper invoice. A discussion was held during the review of the financial reports to discuss changing our procedure of approving both the encumbrances and the warrants. Reports are submitted every month that contain

encumbrances, change orders, unpaid encumbrances and activity fund activities. Since we already provide the encumbrance registers for approval of each purchase order, we should not have to provide the warrant registers for approval every month as our board has already approved the purchase order and the amount for each. OSSBA, Julie Miller, agreed that we should be able to just approve the encumbrances and change orders and not the warrants. Matt Gindhart added that most schools only approve the encumbrances and change orders and can pay for everything throughout the month that has already been approved. Warrants would be presented in the treasury report after the fact, so everything would still be seen by the board of education; It would just be at the end of the month, not before. Each of the board members agreed that we would move to only approve the encumbrances and change orders during our board meeting and to have the warrants included in the treasury report that is provided for their review. Warrants will only be printed throughout the month on an as-needed basis, and we will continue to print most checks after the board meetings. Motion to approve financial consent agenda, items 5.A. from 5.G., as presented passed with a motion by Brett Ramsey and a second by Scott Smith.
