STUDENTS

It is your responsibility to carefully read all information and policies included in this handbook. You will be held responsible for knowing and following all policies and procedures contained herein.

The Board requires that all school personnel share in the supervision of the students' development toward desired standards of conduct and support all personnel acting within the framework of the established policy. Too much time spent dealing with negative behaviors of a few students results in neglecting the majority.

It is the desire of Davis Public Schools to provide you with the very best educational opportunities possible. You can help us provide this opportunity by complying with the following general guidelines:

1. Obey all rules and regulations pertaining to students of Davis Public Schools.
2. Apply yourself to the established course of study.
3. Respect authority of the administration, faculty, and staff of Davis Public Schools.
4. Respect school property.
5. Refrain from expressions of nonconformity through demonstrations, violence, and other forms of incitement.

PARENTS/GUARDIANS

The ultimate responsibility for student behavior rests with the parents/guardians. The following are among your specific responsibilities:

1. Support the school in requiring each student to observe all school rules and regulations as well as accepting responsibility for any willful misbehavior on the part of the student. Send each student to school with proper attention having been given to health, personal, cleanliness, and appropriateness of dress.

2. Maintain an active interest in the student's daily work. Make it possible for him/her to complete assigned homework by providing a quiet place with conditions conducive to study.
3. Comply with the school's requests. This includes reading carefully all communications and signing and returning them as requested.
4. Cooperate with the school in attending conferences setup for exchanging information and for planning of the student's continued progress.

The faculty and staff of Davis Public Schools sincerely appreciate the special job that parents/guardians do in helping with the educational process. We continue to encourage each parent/guardian to visit whenever possible and become actively involved in helping us to help our students.

ATTENDANCE

Two tardies equal one absence. A student is tardy, who is not in the student's seat when the bell sounds to begin class. A student who is more than ten minutes late is counted absent for that period. Excessive tardies will lead to disciplinary procedures.

The Davis Board of Education believes that in order for students to realize their fullest potential from educational efforts, they should attend all classes if possible. Realizing that some absences may be beyond a student's control, the board has adopted a policy requiring students to be in attendance a minimum of **80%** each semester to receive credit for any course in which the student is enrolled. If a student or parent believes absences to be of an emergency or unavoidable nature, an attendance waiver may be requested through the building principal before or immediately after the absence. All absences will count against the attendance requirement, except for school activities. The Board of Education will review any appeal.

The Davis Board of Education believes that in order for students to reach their fullest educational potential, they should attend all classes whenever possible. However, we understand that some absences may be unavoidable. Therefore, students are allowed up to ten absences per semester in each course before credit may be denied.

If a student or parent believes absences are due to an emergency or unavoidable circumstances, an attendance waiver may be requested through the building principal before or immediately after the absence. An administrative appeal may also be used in cases of chronic medical conditions or other documented, significant reasons. All absences will count toward the ten-day limit, except for school-related activities. Appeals may be reviewed by the Board of Education.

MAKE UP WORK

Students will receive 1 day to make up work for every day they are absent. Example: a student misses 3 days they will have 3 days to make up work.

Students are asked not to bring visitors to school without prior approval of the principal. This causes unnecessary confusion in the classroom and does not help the educational climate.

SCHOOL POLICY

Several policies of the Davis Public Schools have been abbreviated for use in the handbook. Complete policies are available for review at www.daviswolves.org under the Administration tab.

SEXUAL HARASSMENT OF STUDENTS

The policy of the school district forbids discrimination against, or harassment of any student on the basis of sex. The Board of Education will not tolerate sexual harassment by any of its employee or students. This policy applies to all students and employees including non-employee volunteers whose work is subject to the control of school personnel. A separate policy applies to sexual harassment of employees.

1. Sexual Harassment

- A. For the purpose of this policy, sexual harassment includes verbal or physical sexual advances, including subtle pressure for sexual activity; touching, pinching, patting or brushing against; comments regarding physical or personality characteristics of a sexual nature; and sexually oriented “kidding”, “teasing”, double meanings, and jokes.
- B. Demeaning comments about a girl’s ability to excel in a class historically considered a “boy’s” subject, privately talking to a student about sexual harassment.
- C. Writing graffiti which names a student or otherwise identifies a student is potentially slanderous and constitutes sexual harassment. Graffiti of any kind will not be tolerated on school property. The superintendent is directed to cause any graffiti or unauthorized writings to be removed immediately.

2. Specific Prohibitions

- A. Administrators and Supervisors
 1. It is sexual harassment for an administrator, supervisor, support employee, or teacher to use his/her authority to solicit sexual favors or attention from students.
 2. Administrators, supervisors, support employee, or teachers who either engage in sexual harassment of students or tolerate such conduct by other employees shall be subject to sanctions, as described below.
 3. The school district is not concerned with the “off-duty” conduct of school personnel unless the conduct has or will have a negative impact on the educational process of the school. Any romantic or sexual affiliation between school personnel and students, including students who have reached the age of majority (18) during school hours will have a negative impact on the educational process and shall constitute a violation and suspension or termination for the employee. Any sexual affiliation between teachers and students under the age of 18 may constitute a crime under state or federal law.

3. Report, Investigation, and Sanctions

- A. It is the express policy of the Board of Education to encourage student victims of sexual harassment to come forward with such claims. This may be done through the Sexual Discrimination Grievance Policy.
1. Students who feel that administrators, supervisors, support personnel, teachers, or other students are subjecting them to sexual harassment are encouraged to report these conditions to the appropriate administrator or teacher. If the student's immediate administrator or teacher is the alleged offending person, the report will be made to the next higher level of administration or supervision or to any responsible adult person.
 2. Confidentiality will be maintained and no reprisal or retaliation will be allowed to occur as a result of the good faith reporting charges of sexual harassment.
- B. In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred will be investigated. The superintendent has the responsibility of investigating complaints of sexual harassment.
 - C. Any employee found to have engaged in sexual harassment of students shall be subject to sanctions, including, but not limited to, warning, suspension, or termination subject to applicable procedural and due process requirements.
 - D. Any student found to have engaged in sexual harassment of other students shall be subject to sanctions, including, but not limited to, warning, suspension, or other appropriate punishment subject to applicable procedural and due process requirements.

DISRUPTIVE ACTS

Disruptive acts are defined by the following: discrimination, acts of hatred, harassment, physical threats, extortion, violence to persons at school, on school vehicles, or at or going to or from school-sponsored or authorized functions.

Any person who, without justifiable or excusable cause and with intent to do bodily harm, commits any assault, battery, or assault and battery upon the person of a school employee while such employee is in the performance of any duties as a school employee or upon any student while such student is participating in any school activity or attending classes on school property during school hours shall, upon conviction, be guilty of a misdemeanor. The convicted person shall be punished by a term of imprisonment in the county jail for a period not exceeding six (6) months or by a fine not exceeding one thousand dollars (\$1000.00), or by both such fine and imprisonment.

Any person who, without justifiable or excusable cause, commits any aggravated assault and battery upon the person of a school employee while such employee is in the performance of any duties as a school employee or upon any student while such student is participating in any school activity or attending classes on school property during school hours shall, upon conviction, be guilty of a misdemeanor. The convicted person shall be punished by a term of imprisonment in the county jail for

a period not exceeding one (1) year, or by a fine not exceeding five thousand dollars (\$5000.00), or by both such fine and imprisonment. (21-650.7)(Section 104.1 School Laws of Oklahoma)

In addition, due to the disruption it poses to the educational process, all students are subject to disciplinary action, including suspension, for interfering with, intimidating, harassing, threatening, or injuring any school employee at any time.

Every student has a basic right to attend school without being subjected to threat of injury or intimidation in any fashion. Incidents of fighting, physical assault, and severe verbal intimidation are not acceptable at school, on school vehicles, or at or going to or from school-sponsored or authorized functions. It is also explicitly prohibited to engage in any activity that is racially abusive, including racial slurs, epithets, harassment, acts of racial intimidation, or other negative offenses which reference sex, age, color, religion, national origin, marital, veteran status, disability, or other legally protected status. This policy is applicable to students and any other party involved in school programs or activities. A safe and cordial atmosphere is the responsibility of all participants in school activities and those who attend such activities. Disrespectful, negative, disruptive, or abusive verbal or physical behavior toward activity participants, officials or those attending such activities by students, adults, or others will not be tolerated. All parties guilty of such behavior will be subject to sanction. For students this would be determined by the principal. All staff members shall take reasonable, timely, and appropriate action in response to any of the listed behaviors once actual or constructive notice has occurred.

BUS DISCIPLINE POLICY

Due to the serious nature of pupil transportation, no disruptive behavior shall be tolerated on any school bus that might endanger the life of any student transported. Rules for bus riding will be presented to students at the beginning of school and parents/guardians must review the rules with their children. It is required that a parent/guardian sign the statement that the rules and bus discipline policy has been read and discussed with their children. The signed statement must be returned to the building principal within the first (2) weeks of school or their children will not be transported.

Upon the first violation of the bus rules, each student will have the choice of:

1. two-day suspension of their bus riding privileges
2. punishment befitting the offense (determined by the building principal)
3. two-day detention

Upon the second offense, the student will receive a two-week suspension of their school bus riding privileges.

Upon the third offense, the student will receive a suspension of their school bus riding privileges for one semester. If the offense occurs during the last two weeks of the semester, it shall be applied to the following semester.

Any student carrying alcohol, tobacco, a controlled dangerous substance, firearm, or weapon on any school bus will forfeit his/her school bus riding privileges for the remainder of the school year and shall be reported to the appropriate law enforcement agency.

All students being transported on district-owned school buses may be assigned a seating position and may be required to sit in that seat position (optional with the driver).

All school bus riding rules and discipline policies shall apply to school bus routes and activity trips.

HARASSMENT, INTIMIDATION, AND BULLYING POLICY

The Davis Public Schools' student conduct code prohibits bullying. This regulation further explains the negative effects of that behavior and seeks to promote strategies for prevention.

Statement of Board Purpose in Adopting Policy

The board of education recognizes that bullying of students causes serious educational and personal problems, both for the student-victim and the initiator of the bullying. The board observes that this conduct:

1. Has been shown by national and state studies to have a substantial adverse effect upon school district operations, the safety of students and faculty, and the educational system at large.
2. Substantially disrupts school operations by interfering with the district's mission to instruct students in an atmosphere free from fear, is disruptive of school efforts to encourage students to remain in school until graduation, and is just as disruptive of the district's efforts to prepare students for productive lives in the community as they become adults.
3. Substantially disrupts healthy student behavior and thereby academic achievement. Research indicates that healthy student behavior results in increased student academic achievement. Improvement in student behavior through the prevention or minimization of intimidation, harassment, and bullying towards student-victims simultaneously supports the district's primary and substantial interest in operating schools that foster and promote academic achievement.
4. Substantially interferes with school compliance with federal law that seeks to maximize the mainstreaming of students with disabilities and hinders compliance with Individual Educational Programs containing objectives to increase the socialization of students with disabilities. Targets of bullying are often students with known physical or mental disabilities who, as a result, are perceived by bullies as easy targets for bullying actions.

5. Substantially interferes with the district's mission to advance the social skills and social and emotional well-being of students. Targets of intimidation, harassment, and bullying are often "passive-target" students who already are lacking in social skills because they tend to be extremely sensitive, shy, display insecurity, anxiety and/or distress; may have experienced a traumatic event; may try to use gifts, toys, money, or class assignments or performance bribes to protect themselves from intimidation, harassment, or bullying; are often small for their age and feel vulnerable to bullying acts; and/or may resort to carrying weapons to school for self-protection. Passive-target victims who have been harassed and demeaned by the behavior of bullies often respond by striving to obtain power over others by becoming bullies themselves, and are specifically prone to develop into students who eventually inflict serious physical harm on other students, or, in an effort to gain power over their life or situation, commit suicide.
6. Substantially disrupts school operations by increasing violent acts committed against fellow students. Violence, in this context, is frequently accompanied by criminal acts.
7. Substantially disrupts school operations by interfering with the reasonable expectations of other students that they can feel secure at school and not be subjected to frightening acts or be the victim of mistreatment resulting from bullying behavior.

Bullying often involves expressive gestures, speech, physical acts that are sexually suggestive, lewd, vulgar, profane, or offensive to the education or social mission of this school district, and at times involves the commission of criminal acts. This behavior interferes with the curriculum by disrupting the presentation of instruction and also disrupts and interferes with the student's, victim's or bystander's ability to concentrate, retain instruction, and study or to operate free from the effects of bullying. This results in a reluctance or resistance to attend school.

Definition of Terms

1. Statutory definition of harassment, intimidation, and bullying:

70 O.S. §24-100.3(c) of the School Safety and Bullying Prevention Act defines the terms "bullying," as including, but not limited to a pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication, directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student that a reasonable person should recognize will:

- A. Harm another student;
- B. Damage another student's property;
- C. Place another student in reasonable fear of harm to the student's person or damage to the student's property; or

D. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

2. The "Reasonable Person" Standard

In determining what a "reasonable person" should recognize as an act placing a student in "reasonable" fear of harm, staff will determine "reasonableness" not only from the point of view of a mature adult, but also from the point of view of an immature child of the age of the intended victim along with, but not limited to, consideration of special emotional, physical, or mental needs of the particular child; personality or physical characteristics, or history that might cause the child to be particularly sensitive to efforts by a bully to humiliate, embarrass, or lower the self esteem of the victim; and the discipline history, personality of, and physical characteristics of the individual alleged to have engaged in the prohibited behavior.

3. General Display of Bullying Acts

Bullying, for purposes of this section of the regulation, includes harassment and intimidation, and vice versa. According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of a bullying act depends on the harm inflicted upon the victim and the frequency of the offensive acts. Power may be, but is not limited to, physical strength, social skill, verbal ability, or other characteristics. Bullying acts by students have been described in several different categories.

A. Physical Bullying includes harm or threatened harm to another's body or property, including, but not limited to, what would reasonably be foreseen as a serious expression of intent to inflict physical harm or property damage through verbal or written speech or gestures directed at the student-victim, when considering the factual circumstances in which the threat was made and the reaction of the intended victim. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.

B. Emotional Bullying includes the intentional infliction of harm to another's self-esteem, including, but not limited to, insulting or profane remarks, insulting or profane gestures, or harassing and frightening statement, when such events are considered in light of the surrounding facts, the history of the students involved, and age, maturity, and special characteristics of the students.

C. Social Bullying includes harm to another's group acceptance, including, but not limited to, harm resulting from intentionally gossiping about another student or intentionally spreading negative rumors about another student that results in the victim being excluded from a school activity or student group; the intentional planning and/or implementation of acts or statements that inflict public humiliation upon a student; the intentional undermining of current relationships of the victim-student through the spreading of untrue gossip or rumors designed to humiliate or embarrass the student;

the use of gossip, rumors, or humiliating acts designed to deprive the student of awards, recognition, or involvement in school activities; the false or malicious spreading of an untrue statement or statements about another student that exposes the victim to contempt or ridicule or deprives the victim of the confidence and respect of student peers; or the making of false statements to others that the student has committed a crime, or has an infectious, contagious, or loathsome disease, or similar egregious representations.

D. Sexual Bullying includes harm to another resulting from, but not limited to, making unwelcome sexual comments about the student; making vulgar, profane, or lewd comments or drawings or graffiti about the victim; directing vulgar, profane, or lewd gestures toward the victim; committing physical acts of a sexual nature at school, including the fondling or touching of private parts of the victim's body; participation in the gossiping or spreading of false rumors about the student's sexual life; written or verbal statements directed at the victim that would reasonably be interpreted as a serious threat to force the victim to commit sexual acts or to sexually assault the victim when considering the factual circumstances in which the threat was made and the reaction of the intended victim; off-campus dating violence by a student that adversely affects the victim's school performance or behavior, attendance, participation in school functions or extracurricular activities, or makes the victim fearful at school of the assaulting bully; or the commission of sexual assault, rape, or homicide. Such conduct may also constitute sexual harassment – also prohibited by Davis Public Schools.

Procedures Applicable to the Understanding of and Prevention of Bullying of Students

1. Student and Staff Education and Training

All staff will be provided with a copy of the district's policy on prevention of bullying of students. All students will be provided a summary of the policy and notice that a copy of the entire policy is available on request. Davis Public Schools is committed to providing appropriate and relevant training to staff regarding identification of behavior constituting bullying of students and the prevention and management of such conduct.

Students, like staff members, shall participate in an annual education program that sets out expectations for student behavior and emphasizes an understanding of bullying of students, the district's prohibition of such conduct, and the reasons why the conduct is destructive, unacceptable, and will lead to discipline. Students shall also be informed of the consequences of bullying conduct toward their peers.

B. Davis Public Schools' Safe School Committee

The safe school committee has the responsibility of studying and making recommendations regarding unsafe conditions, strategies for students to avoid harm at school, student victimization, crime prevention, school violence, and other issues that interfere with and adversely affect the maintenance of safe schools.

With respect to student harassment, intimidation, and bullying, the safe school committee shall consider and make recommendations regarding professional staff development needs of faculty and other staff related to methods to decrease student harassment, intimidation, and bullying and understanding and identifying bullying behaviors. In addition, the committee shall make recommendations regarding: identification of methods to encourage the involvement of the community and students in addressing conduct involving bullying; methods to enhance relationships between students and school staff in order to strengthen communication; and fashioning of problem-solving teams that include counselors and/or school psychologists.

In accomplishing its objectives, the committee shall review traditional and accepted harassment, intimidation, and bullying prevention programs utilized by other states, state agencies, or school districts.

Student Reporting

Students are encouraged to inform school personnel if they are the victim of or a witness to acts of harassment, intimidation, or bullying.

Staff Reporting

An important duty of the staff is to report acts or behavior that the employee witnesses that appear to constitute harassing, intimidating, or bullying. Employees, whether certified or noncertified, shall encourage students who tell them about acts that may constitute intimidation, harassment, or bullying to complete a report form. For young students, staff members given that information will need to provide direct assistance to the student.

Staff members who witness such events are to complete reports and to submit them to the employee designated by the superintendent to receive them. Staff members who hear of incidents that may, in the staff member's judgment, constitute harassment, intimidation, or bullying, are to report all relevant information to the superintendent or his/her designee.

Parental Responsibilities

Parents/guardians will be informed in writing of the district's program to stop bullying. An administrative response to bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent bullying at school they should encourage their children to:

1. Report bullying when it occurs;
2. Take advantage of opportunities to talk to their children about bullying;
3. Inform the school immediately if they think their child is being bullied or is bullying other students;

4. Watch for symptoms that their child may be a victim of bullying and report those symptoms; and
5. Cooperate fully with school personnel in identifying and resolving incidents.

Discipline of Students

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract
7. Changing student's seat assignment or class assignment
8. Requiring a student to make financial restitution for damaged property
9. Requiring a student to clean or straighten items or facilities damaged by the student's behavior
10. Restriction of privileges
11. Involvement of local authorities
12. Referring student to appropriate social agency
13. Suspension
14. Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, prom, prom activities, and/or class trips.

The above consequences will be imposed for any person who commits an act of bullying as well as any person found to have falsely accused another as a means of retaliation, reprisal, or as a means of bullying. Strategies will be created to provide counseling or referral to appropriate services, including guidance, academic intervention, and other protection for students, both targets and perpetrators, and family members affected by bullying, as necessary.

Publication of Policy

Annual written notice of this policy will be provided to parents, guardians, staff, volunteers, and students with age-appropriate language for students. Notice of the policy will be posted at various locations within each school site, including but not limited to, cafeterias, school bulletin boards, and administrative offices. The policy will be posted on the school district's website at www.daviswolves.org and at each school site that has an Internet website. The policy will be included in all student and staff handbooks.

Personal Electronic Device Policy

Pursuant to Oklahoma Statutes, Section 1-126, Title 70

Devices Off - Learning On

Spending less time on screens during class helps students stay focused, feel less stressed, and connect more with their learning and each other. By keeping personal devices off and put away during lessons, we create an environment where students can do their best in school, build friendships, and take care of their well-being.

This new policy is in agreement with the new state law regarding prohibiting students from using electronic devices from bell-to-bell (as defined in the statute "**BELL TO BELL**" means the time between the first bell ringing at the start of the school day to begin instructional time until the dismissal bell at the end of the school day to end instructional time.)

Expectations for Students

All students are expected to keep personal electronic devices turned off and out of site during the instructional day. Personal electronic devices include cell phones, earbuds, headphones, iPads, smartwatches, smart glasses, and any other device that can connect to the internet, a cell phone, or a cellular or Wi-Fi network. This includes when students are on an activity or field trip with the school during the instructional day. However, devices may be used before and after school.

This effort helps us create a better learning environment by reducing distractions and encouraging students to stay engaged. Families can always reach their child by calling the school office. Students may request to go to the office to use the phone to call their parents or guardians during the instructional day.

Guidelines for Students & Families

- **Bringing a Device is a Personal Choice** - Davis Public Schools cannot guarantee the safety of personal devices. Students bring their personal electronic devices at their own risk. To avoid loss or damage, we recommend leaving all devices at home or keeping them safely stored in a bag.
- **Devices Should Stay Out of Sight** - Personal devices must be put away and should not be used on campus during instructional time, other than the specific exceptions outlined in this policy. This includes but is not limited to passing periods, bathrooms, and hallways.
- **Keep Devices on Silent** – If a personal device makes noise in class thereby disrupting the educational environment, it will be treated as a policy violation as if the student had the device out.
- **Lost or Stolen Devices** - If students bring a personal device to school, we recommend having a tracking app. Teachers and staff cannot take time from instruction to search for lost or missing

devices that students choose to bring to school at their own risk.

- **Need to Reach Your Student?** - In case of an emergency, parents can call the front office, and a message will be delivered to your child.
- **Students Needing to Call Home** - If a student needs to contact a parent, they may request to use the office phones.

This policy helps us create a space where students can focus on learning, build strong relationships, and enjoy their school day without unnecessary distractions.

Please remember that Davis Public Schools may not be held responsible for lost, stolen, or damaged devices, even if they have been confiscated.

Consequences

1st Offense - Teacher will immediately notify an administrator of the policy violation. The device will be confiscated; parent/guardian will be notified.

2nd Offense – Teacher will immediately notify an administrator of the policy violation. The device will be confiscated and put in the office to be picked up by an authorized adult listed in Wengage by Sylogist. The student will also receive ISS. This will be documented as the student's second offense. Parents will need an ID to pick up the device.

3rd Offense – Second Offense and student may also receive out of school suspension and may not be allowed to attend school sponsored events including athletics events, field trips, and prom for the remainder of the school year.

4th Offense – Disciplinary action is rendered at administrative discretion including, but not limited to, out of school suspension, change of placement, loss of activity/athletic privileges and/or other consequences at the administrator's discretion.

If a student refuses confiscation of a device, the student may be immediately suspended, receive ISS, or other disciplinary action rendered at the discretion of administration.
