3038 School Safety and Security

In order to fulfill its obligation to provide a safe and secure learning environment, the Board of Education has adopted this School Safety and Security Policy. Although the district will take reasonable steps to protect students and staff, no entity can provide complete safety and security at all times. This policy does not make the district a guarantor of the safety of students, staff or patrons.

I. General Safety and Security

a. NDE Rubric

The District will meet at least the minimum requirement for each school safety and security standard indicator adopted by the Nebraska Department of Education.

b. School Hours

- i. During a crisis situation, the administration will maintain established school hours and proceed with all co-curricular activities as scheduled whenever possible.
- ii. If, during a crisis situation, the parent(s) or guardian of a student decides that the student needs to be absent, this absence will be excused.

c. Access to School Facilities

- i. The school's facilities may not be used for funeral or memorial services during the school day.
- ii. This policy does not discourage the presentation of traditional American Legion memorial services which promote patriotism.

d. Memorials

- i. Memorials often create a visual reminder of a particular crisis that may reintroduce feelings of grief for students. Therefore, memorials may not be

displayed anywhere on the school premises without board approval.

- ii. This policy is not intended to discourage the acceptance of memorial funds or specific items, subject to the approval of the superintendent.
- iii. The District encourages family and friends to sponsor scholarships through the Lexington Community Foundation to honor the memories of their loved ones.

II. Superintendent's Duties Related to Safety and Security

a. Appointment of Crisis Team

The Superintendent shall appoint members to serve on the school district's crisis team. The superintendent may, but is not required, to include representatives from the following groups on the crisis team:

b. Compliance with Fire and Safety Codes

The Superintendent will ensure that the school district meets all current fire and life safety codes or is in the process of coming into compliance.

c. Annual Safety Audits

The Superintendent will arrange for the performance of annual safety audits using an external consultant utilizing the standardized audit protocol adopted by the Nebraska Department of Education.

d. Mutual Aid Agreements

The Superintendent will enter into mutual aid agreements to address the academic, physical, operational, psychological, and emotional recovery areas when possible with appropriate local entities.

III. Building Principals' Duties Related to Safety and Security

a. Positive and Safe Learning Environment

Each building principal shall implement a school-wide behavior process to create a positive and safe learning environment.

Each building principal shall conduct training on and require enforcement of the district's anti-bullying and dating violence policies.

Each building principal shall ensure that staff complete the required suicide prevention training as required by board policy.

Each building principal shall require staff to engage in active supervision of students at all times

b. Visitor Protocol.

Each building principal shall adopt a protocol for visitors to his/her school building to sign in upon arrival and departure and to be identified as a visitor while they are in the building during the school day. The protocol must also address visitors in specialized areas of the school such as playgrounds, gyms, cafeterias and the like.

This protocol may be written or unwritten but must be clearly communicated to and enforced by all staff.

The building principal will report individuals who repeatedly violate the visitor protocol to the superintendent for possible exclusion from school facilities pursuant to board policy.

c. Emergency Drills

Each building principal must ensure that the following drills are conducted in his/her building:

- i. Fire drills (evacuation): One fire drill conducted monthly with one additional drill being conducted during the first 30 days of school.

Threat Assessment and Response

The board of education is committed to providing a safe environment for members of the school community. Students, staff and patrons are urged to immediately report any statements or behavior that makes the observer fearful or uncomfortable about the safety of the school environment.

1. Definitions

- a. A **threat** is an expression of a willful intent to physically or sexually harm someone or to damage property in a way that indicates that an individual poses a danger to the safety of school staff, students or other members of the school community.
 - i. The threat may be expressed/communicated behaviorally, orally, visually, in writing, electronically, or through any other means.
 - ii. A **transient threat** is an expression of anger or frustration that can be quickly or easily resolved.
 - iii. A **substantive threat** is an expression of serious intent to harm others which includes, but is not limited to, any threat which involves a detailed plan and means.
- b. A **threat assessment** is a fact-based process emphasizing an appraisal of observed (or reasonably-observable) behaviors to identify potentially dangerous or violent situations, to assess them and to manage/address them. Threat assessment is the process of identifying and responding to serious threats in a systematic, data-informed way.
 - i. The threat assessment process is distinct from student disciplinary procedures. The mere fact that the district is conducting a threat assessment does not by itself necessitate suspension, expulsion or emergency exclusion without complying with state law and board policy related governing those actions.

- ii. The threat assessment process is distinct from specialized instruction which a student with a disability may receive from the school district. The school district will not change a student's educational placement as that term is used in the Individuals with Disabilities in Education Act *solely* as part of a threat assessment.

2. Obligation to Report Threatening Statements or Behaviors.

All staff and students must report **substantive threats** to a member of the administration immediately and comply with any other mandatory reporting obligations. Staff and students who are unsure whether a threat is substantive or transient should report the situation. Staff and students must make such report regardless of the nature of the relationship between the individual who initiated the threat or threatening behavior and the person(s) who were threatened or who were the focus of the threatening behavior. Staff and students must also make such reports regardless of where or when the threat was made or the threatening behavior occurred.

THREATS OR ASSAULTS WHICH REQUIRE IMMEDIATE INTERVENTION SHOULD BE REPORTED TO THE POLICE AT 911.

3. Threat Assessment Team

The threat assessment team (team) shall consist of the superintendent; the administrator or supervisor in whose building or department the alleged threat occurred; guidance counselor and local law enforcement.

Not every team member need participate in every threat assessment. If the threat has been made by or is directed towards, a student with a disability, the threat assessment team must include a staff member who is knowledgeable about special education services or Section 504 of the Rehabilitation Act, as appropriate. Neither the student nor their student's family members are part of the threat assessment team.

The team is responsible for investigating all reported threats to school safety, evaluating the significance of each threat, and devising an appropriate response. The threat assessment team shall work closely with the crisis team in planning for crisis situations. The threat assessment team shall be familiar with mental health resources available to students, staff and patrons and shall collaborate with local mental health service providers as appropriate.

4. Threat Assessment Investigation and Response

When a threat is reported, the school administrator shall initiate an initial inquiry/triage and, in consultation with members of the threat assessment team, make a determination of the seriousness of the threat as expeditiously as possible. The school administrator must contact law enforcement if the administrator believes that an individual poses a clear and immediate threat of serious violence.

If there is no reasonably apparent imminent threat present or once such an imminent threat is contained, the threat assessment team will meet to evaluate and respond to the threatening behavior. The team may, but is not required to, review the following types of information:

- Review of the threatening behavior and/or communication;
- Interviews with the individuals involved including students, staff members, and family members as necessary and/or appropriate;
- Review of school and other records for any prior history or interventions with the students involved;
- Any other investigatory methods that the team determines to be reasonable and useful.

At the conclusion of the investigation, the team will determine what, if any, response to the threat is appropriate. The team is authorized to disclose the results of its investigation to law enforcement and to the target(s) of any threatened acts. The team may refer the individual of concern to the appropriate school administrator for consequences under the school's student discipline policy or, if appropriate, report the results of its investigation to the student's individualized education plan team.

Regardless of threat assessment activities, disciplinary action and referral to law enforcement will occur consistent with board policy and Nebraska law.

5. Communication with the Public about Reported Threats

The team will keep members of the school community appropriately informed about substantive threats and about the team's response to those threats. This communication may include oral announcements, written communication sent home with students, or communication through print or broadcast media. However, the team will not reveal the identity of the individual of concern or of any target(s) of threatened violence unless permitted by law.

6. Coordination with the Crisis Team After Resolution of Threat

The threat assessment team will confer with the district's crisis team after a threat has been investigated to provide the crisis team with information that the crisis team may use in assessing or revising the district's All-Hazard School Safety Plan.
