C. Action Items

C.1. Budget Review and Request for Board to Approve Budget for Publication Susan Brooks

The 2023-24 proposed budget was developed within the parameters set by the Board of Education, and in compliance with state and federal laws and limits. The proposed budget includes a General Fund total budget of \$129,319,517. The proposed maximum disbursements across all funds for 2023-24 is \$173,541,989.

Tonight the Board will be asked to approve the publication of the 2023-24 Budget Summary and Budget Hearing Notice, along with the Notice of Hearing on the Final Tax Request.

C.2. Year End Budget Transfers and Rollover Susan Brooks

At the end of each fiscal year, funds must be transferred to various accounts or expended outside of the regular Board approval process in order to pay encumbered expenses and ensure that all funds have adequate allowances at the beginning of the next fiscal year. Due to the fiscal year ending at the end of August, the Board is being asked to grant the Board Treasurer the needed authority to make these necessary transfers and expenditures.

Administrative Recommendation: Move that the Board Treasurer, in consultation with the Superintendent, be granted the authority to make necessary transfers to close out the 2022-23 fiscal year.

C.3. Mission Life/Safety Ralph Gladbach

At the February 6th Board meeting, it was approved for GP Architecture to create the RFP and solicit bids to upgrade the fire alarm/sprinkler system at Mission. Tonight, the administration will ask the Board to approve the bid from DC Electric Inc. in the amount of \$763,418 for the life/safety upgrades at Mission.

C.4. Revised 2023-2024 School Calendar
Jeff Rippe

The administration will ask the Board to approve the revision of the 2023-24 school calendar to be Professional Work Time (no school) day on May 10, 2024.

E.5.*Summer School Report
Robert Moore

The Bellevue Public Schools offers a variety of summer programs for students, each program serving its own purpose. As the district evaluates summer programs, the staff is proactive to ensure each program continues to meet the intended purpose. In total, 4424 students participated in the district's traditional summer school program from June 5-23, 2023.

The elementary summer school program is designed to provide enrichment and remediation opportunities for students in an environment where content is delivered in a variety of creative ways. This year's MAP data assisted teachers in guiding instruction to students. 67% of the elementary/preschool students attended summer school.

The secondary summer school offered a wide variety of courses in addition to transition courses for students entering 7th grade and 8th grade. 37% of Middle School Students participated this summer.

At the high school level, approximately 25% of all students participated. Most of the entering 9th-grade students earn credit in physical education and health. Also this summer, options in personal finance were added. This allows these students more opportunities in their schedule to take other elective classes. High school summer school also consisted of credit acquisition and credit recovery for students in grades ten through twelve in most core areas.

STEM Camps (math, science and technology) were held for three weeks, June 26-July 14, and served 206 students entering sixth, seventh, and eighth grades with a limited enrollment. Students participating in the camp were taught by BPS educators who expanded student opportunities beyond what is offered during the school year. The fee for the camp was \$100 per child, per week.

World Language Camp was held June 26-30, and served 70 students grades fourth through sixth. This camp was sponsored by the DoDEA IMPACT-WL grant and free

to

students.

C. Action Items

C.1. Hearing on Student Fees

A hearing was held to review the Student Fees Board Policy and Administrative Regulation 504.19. No public comment was given.

C.2. Frank Kumor Career Center

Dr. Rippe shared the District has been in discussions with the BPS Foundation on moving from their current location at the Support Center, to building out space in the Frank Kumor Career Center. There is space the District would not use for future programs, which would make the BPS Foundation more visible and accessible for donors and community members. The BPS Foundation would enter into a 20-year lease with the District for the office space at the Frank Kumor Career Center. The Foundation would pay \$1.00 per year for the lease and has agreed to pay for the cost of the build-out of the space. To terminate the lease, both parties would have to agree.

Motion Passed: I move to approve the lease agreement as presented between the Bellevue Public Schools and the Bellevue Public Schools Foundations. Passed with a motion by Kristy Kiviniemi and a second by Phil Davidson.

Existing Budget Limitations

- **BPS Budget Parameters**
- **General Fund Levy limit of \$1.05**
- **Certified Budget Authority**
 - Certified by the State at \$103,952,954
 - excludes: Special Grant Funds - \$3.8 million
 - SPED expenses - \$21.5 million
 - General Fund Lid exclusions – none

2023-24 Certified Authority *is* enough to meet our needs

New Limitations and Budget Requirements

New last year:

- **Allowable Growth Percentage**

- calculation is 2% plus growth, which is determined by the Sarpy County Assessor;

- total growth percentage is unknown until August 20th when certified valuations are released;

- in 22-23 the Total Allowable Growth Percentage Increase was 3.86% - not enough for us to fund the budget

- calculated allowable growth has traditionally not been enough due to historically low valuation in the district, and **we expect to have to present at the County Hearing again this year**

New Limitations and Budget Requirements

New this year:

- **LB243 Property Tax Request Authority**
 - allows tax revenue to grow 3% plus a portion of growth in enrollment, ELL, and poverty students;
 - in addition, the Board may vote to access an additional 5%;
 - BPS' allowable growth percentage for 2023-24 is 3.72%, which provides an estimated \$43,003,502 in tax revenue;
 - the tax requirement to fund the proposed 2023-24 budget is \$46,110,784, which is Tax Request Authority of about 6.6% due to historically low valuations.
 - The Board will be asked to approve the additional 5%

REVIEWED - School Publications

The Board of Education is the publisher of all school publications. The Board of Education delegates to the Superintendent of Schools and building principals the responsibility to regulate the content of school publications.

The Board of Education, in recognition of the students' freedom of expression, wishes to allow for a maximum of free expression in student publications within the limits of student responsibility, good taste, and courtesy. The Board's recognition of the students' freedom of expression shall be interpreted to mean a differentiation between freedom and license.

The Board further interprets "freedom of expression" as including consideration by the sponsors of student publications of the maturity levels of the students, the care in the development of journalistic and other skills of expression among students, and the development of a sense of student responsibility for what is said to the individuals and groups addressed.

Since the Board recognizes and provides for the students' freedom of expression, and since the publications of the school are under the jurisdiction of the Board of Education, the Board shall consider unauthorized publications, if published, written, or distributed by students with school equipment or on school property, or which refer to the Bellevue Public Schools, either in title or authorization, to be a violation of this policy.

REVIEWED - Fund Raising by Students and Parents

The Board of Education recognizes that fund raising activities are sometimes necessary to support the planned programs for students. Fund raising activities can provide important positive and philanthropic educational experiences for students.

The Board of Education also recognizes that fund raising can compete for the time students and their families spend on school and family-related activities. The time committed to the fund raising activity should be justified prior to conducting the activity and students should not disrupt classrooms while conducting the activity. Door-to-door sales by students are prohibited.

The justifiable need for funds and for a fund raising activity should be identified prior to conducting the activity. Fund raising for the purpose of providing financial support for the operation of an outside agency, other than agencies with the sole purpose of supporting Bellevue Public Schools, is prohibited. This would not prohibit a student organization from having a fund raising activity and donating all or a portion of the funds to a philanthropic organization or activity. The specific fund raising activity shall meet the guidelines for conducting fund raising activities that shall be developed and included in an Administrative Regulation.

**REVIEWED - Cooperative Sponsorship of Nebraska School Activities Association
Activities**

The Board of Education recognizes that some of the activities sponsored by the Nebraska School Activities Association may be unavailable in one or both of the Bellevue High Schools and that the Bellevue High Schools may provide some activities sponsored by the Nebraska School Activities Association that are unavailable to students from other NSAA member schools. The Bellevue School District may enter into an agreement that allows high schools within the school district or a Bellevue High School and another NSAA member high school to field a common participating group for a specific interscholastic activity. Activities for Bellevue students conducted through an agreement for cooperative sponsorship between high schools shall be considered an activity program sponsored and operated by the Bellevue Public Schools and will be subject to the policies and regulations of the school district.

Cooperatively sponsored activity programs shall be planned for in the school curriculum. The expenses for students from a Bellevue High School that participate in a cooperatively sponsored activity, including necessary travel, will be borne by the Bellevue School District. The regular budgetary process will be followed to implement cooperatively sponsored programs.

Other NSAA member schools that cooperatively sponsor an activity with a Bellevue High School will assume responsibility for the transportation, liability, safety, and expenses of the participants from their school. Students from other NSAA member schools participating in a cooperative program in a Bellevue High School will be bound by the policies, rules and regulations that govern the Bellevue Public Schools' programs and any additional rules of the specific cooperating high school.

Cooperatively sponsored activities with other NSAA member schools will be considered when it has been determined that:

1. the activity should be part of the curriculum,
2. the regular educational program of the participants will not be unduly interrupted,
3. equal opportunity for students from both high schools to participate has been considered,
4. the guidelines established by the Nebraska School Activities Association have been met, and
5. the staff, facilities, equipment, level of supervision and safety procedures are appropriate.

Cooperative agreements between the two Bellevue High Schools to conduct joint NSAA activities will always be considered before any agreement between a Bellevue High School and another NSAA member school is explored.

Cooperative agreements between high schools must be approved by the Board of the Bellevue Public Schools, other participating NSAA member schools and the Nebraska School Activities Association before implementation.

REVIEWED - Prohibiting Discrimination on the Basis of Sex in Student Activities

It is the policy of the Bellevue School District to comply with the regulations implementing Title IX of the Education Amendments of 1972.

Title IX of the Education Amendments of 1972 prohibits sex discrimination in federally assisted education programs. Specifically, Title IX states:

“No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal financial assistance...”

REVISED - Student Health and Immunization Checkups

Physical examinations

Students enrolling in kindergarten (or the beginning grade), students entering the seventh grade or students transferring to any grade in the district from out of state shall have a physical examination by a ~~licensed~~ physician, a physician assistant, or an advanced practice registered nurse-nurse practitioner within the six months prior to entrance and provide proof of such an examination to the school district. **Either a completed, signed, and dated physical exam report, or a printed or typewritten form signed by a qualified examiner indicating that a physical examination was administered on a specific date within the previous six month period on a specifically named individual, provided to the school by the parent/guardian, constitutes sufficient evidence of compliance.**

~~A certificate of health stating the results of a physical examination and signed by a physician, physician assistant, or an advanced practice registered nurse will be maintained in the student's health record.~~

Immunizations

Students enrolling in the school district shall also submit proof of immunization against measles, mumps, rubella, poliomyelitis, diphtheria, pertussis, tetanus, hepatitis B, and ~~chicken pox~~ **varicella**, as required by law. The student may be admitted provisionally if the student has not yet completed the immunization process but is in the process of doing so. Failure to meet the immunization requirement will be grounds for suspension, expulsion or denial of admission.

The Superintendent of Schools shall annually file a report required by the Department of Health and Human Services summarizing the immunization status of the district's students.

Visual evaluation

Students enrolling in kindergarten (or the beginning grade) or students transferring to any grade in the District from out of state shall also have a visual examination by a licensed physician, a physician assistant, an advanced practice nurse-nurse practitioner or an optometrist, including tests for amblyopia, strabismus, and internal and external eye health, and visual acuity. The visual evaluation must be completed within six months prior to entrance and proof of such evaluation shall be provided to the school district.

A certificate of health, or other form, stating the results of the visual evaluation and signed by a physician, optometrist, physician assistant, or advanced practice registered nurse shall ~~will~~ be maintained in the student's health record.

Notifications to parents

The student's parent/guardian shall be notified in writing of their right to submit a written statement refusing such physical or visual examinations or immunizations for the student and shall be provided with a telephone number or other contact information to assist the parent/guardian in receiving information regarding free or reduced-cost visual evaluations for low income families who qualify.

No ~~child~~ **student** shall be required to submit to a health inspection, including those provided by the District if the ~~child's~~ **student's** parent/guardian provides the District with a statement signed by a physician, a physician assistant, or **an advanced practice registered nurse-nurse practitioner** ~~or an advanced practice registered nurse~~ practicing in accordance with statutes stating that the child has undergone the required inspection within the past six months. If such a statement is not received, the child shall submit to required inspections. Parents/**guardian** will be promptly notified of any condition requiring professional attention.

Other health inspections

During each school year the district will provide for screening for ~~sight~~ **vision** and hearing, dental defects and any other conditions as specified and scheduled by the Department of Health and Human Services. Parents/**guardian** will be promptly notified of any condition requiring professional attention.

Any student enrolling during the school year after these screenings will have such a screening made immediately upon entrance. Any student showing symptoms of any contagious or infectious disease shall be sent home as soon as practicable and the principal notified of the circumstances.

REVISED - Administration of Medication to Students

The administration of ~~medicine~~ **medication** to students during their attendance at school is a responsibility of great magnitude. While the Board of Education recognizes the medical benefits, which are gained by the student who has been prescribed certain ~~medicines~~ **medications**, the Board of Education also believes that the primary responsibility for prescription, possession, and administration of a student's ~~medicines~~ **medication** lies with the parent and physician. However, the Board also recognizes that certain situations may occur in which it is necessary for ~~medicines~~ **medications** to be administered to a student during the regular school day.

The Board of Education, therefore, directs the Superintendent of Schools to establish regulations for the administration of ~~medicines~~ **medication** to students during the school day. Such regulations will include the safeguards which provide for:

1. Written approvals of parents and/or physicians for the school to administer ~~medicine~~ **medication**.
2. Safeguards for storage of ~~medicine~~ **medication**.
3. The conditions under which a school employee may administer ~~medicine~~ **medication** to a student.
4. Protocol for administration of medicine as the result of a life threatening situation.
5. Procedures for life-threatening asthma or anaphylaxis.
6. **Procedures for self-management of asthma, anaphylaxis, seizures or diabetes.**

The Board of Education prohibits the referral of a student by a professional staff member to a physician for the express purpose of prescribing a psychoactive drug. The Board of Education directs that, in those situations in which physical or emotional dysfunctions seem to exist, the professional staff member may recommend only that a parent consider medical examination for a student.

REVIEWED - Communicable Disease

The Bellevue Public Schools shall cooperate with the Nebraska Department of Health and Human Services and local authorities in developing and implementing procedures for control of communicable disease in the school. All procedures shall conform to the regulations for communicable disease control established by the Nebraska Department of Health and Human Services and the National Center for Disease Control.

In general, a student or an employee with a communicable disease will be allowed to attend school or perform normal work assignments if the individual's presence in school or the work environment does not present an unreasonable health risk to that individual or others as determined by regulations established by the Department of Health and Human Services. Regulations and procedures will be developed to ensure that the student or employee suspected of having a dangerous communicable disease which is transmittable in a normal school or work environment will have the individual's situation reviewed and rights protected.

The student or employee with a dangerous communicable disease transmittable in a normal school or work environment may be excluded from school or work until a written permission concerning management of the individual and the disease is provided by his/her physician. The student may be educated with the proper home or hospital bound services or the employee shall continue to receive salary and/or leave benefits until the student or employee is released to return to school/work.

As a condition of school attendance, employment, or continued employment, individuals suspected of having a dangerous communicable disease may be required to submit to compulsory medical examinations at school district expense. The District may implement alternative educational settings or restructure the job assignment for those individuals with dangerous communicable diseases.

REVIEWED - Asthma and Allergic Reaction Protocol

The District will adopt and implement the Emergency Response to Life-Threatening Asthma or Systemic Allergic Reactions (Anaphylaxis) Protocol as required by the Nebraska Department of Education. The school shall allow a student with asthma or anaphylaxis to self-manage his/her asthma or anaphylaxis condition upon written request of the student's parent/guardian and authorization of the student's physician or other health care professional who prescribed the medication for treatment of the student's condition.

The Superintendent of Schools and staff, in conjunction with licensed health personnel, shall establish procedures for the implementation of this policy during regular hours while school classes are in session. The procedures established shall comply with NDE rules regarding the protocol to follow in case of a life-threatening asthma or systemic allergic reaction and use of an EpiPen and albuterol. The procedures shall ensure that each school building will procure and maintain the equipment and medication necessary under the protocol in the case of any student or school staff emergency. Staff training in using the protocol shall occur periodically. Records of such training and occurrences of administering medication under the protocol shall be maintained.

The parent/guardian of a student of minority age may sign a waiver requesting that their student not receive emergency treatment under this protocol. Information about the waiver shall be provided to parents/guardians in the student handbook.

REVIEWED - Wellness and Nutrition

The Board of Education desires to promote and monitor a school-based wellness promotion. The Superintendent of Schools is responsible for the development of a program that shall:

1. Include goals for nutrition education, physical activity and other school-based activities designed to promote student wellness as appropriate;
2. Include nutrition guidelines for all foods available in each school during the school day; the objectives of the guidelines shall be to promote student health and to reduce childhood obesity;
3. Assure that guidelines for reimbursable school meals shall not be less restrictive than regulations and guidance issued by the Secretary of Agriculture, as those regulations and guidance applies to schools;
4. Establish a plan for measuring implementation of the local wellness policy, including designation of one or more district employees who shall be charged with operational responsibility for ensuring the wellness policy is effectively enforced;
5. Involve parents, students, representatives of the school food authority, the school board, administrators and the public in the development and implementation of the school wellness policy as appropriate;
6. Provide that nutritional guidelines apply to all foods available in each school building during the school day when classes are in session; and
7. Encourage students, families, staff and community members to utilize the programs and facilities provided by Bellevue Public Schools and the Lied Activity Center to promote and maintain personal wellness.

REVIEWED - Concussion Awareness

Training to recognize the symptoms of concussions and brain injuries and how to seek their proper medical treatment shall be made available to coaches of the district's athletic teams.

The district will provide information on concussions and brain injuries to athletes and their parents or guardians prior to the beginning of practice or competition including at least:

1. The signs and symptoms of concussions;
2. The risks posed by sustaining a concussion; and
3. The action a student should take in response to sustaining a concussion including the notification of coaches.

A student participating on a school athletic team shall be removed from a practice or game when reasonably suspected of having sustained a concussion or brain injury in that activity after observation by a coach or a licensed health care professional who is professionally affiliated with or contracted by the school. Any parent or guardian who suspects a student has sustained a concussion is expected to immediately notify district coaches or administrators of the injury. Students who suspect they have sustained a concussion shall immediately make such notification.

The injured student shall not be permitted to participate in any school supervised team athletic activities involving physical exertion, including, but not limited to, practices or games until the student:

1. Has been evaluated by a licensed health care professional;
2. Has received written and signed clearance to resume participation in athletic activities from the licensed health care professional; and
3. Has submitted the written and signed clearance from the licensed health care professional to resume participation in athletic activities to the school accompanied by written permission to resume participation from the student's parent or guardian.

If a student is reasonably suspected after observation of having sustained a concussion or brain injury and is removed from an athletic activity as required above, the parent or guardian of the student shall be notified by the school of the date and approximate time of the injury suffered by the student, the signs and symptoms of a concussion or brain injury that were observed, and any actions taken to treat the student.

It is the responsibility of the superintendent to implement this policy.

ADOPTED – Behavioral Points of Contact

The Superintendent of Schools shall designate one or more school employees as a behavioral awareness point of contact for each school building. The point of contact may be an administrator, nurse, counselor, or other appropriate staff member. Each behavioral awareness point of contact shall be trained in behavioral awareness and have knowledge of community service providers and other resources that are available for the students and families in such school district.

The District shall maintain or have access to a registry of local mental health and counseling resources for the students and families. Each behavioral awareness point of contact shall coordinate access to support services for students whenever possible. If information for an external support service is provided to an individual minor student, school personnel shall notify a parent/guardian of the contact in writing unless such recommendation involves law enforcement or child protective services.

The Superintendent of Schools shall ensure that District employees who interact with students receive at least one hour of behavioral and mental health training with a focus on suicide awareness and prevention training each year.

The District shall annually report behavioral awareness points of contact to the Nebraska Department of Education when requested.

The points of contact will be listed in the student handbook and on the district website.

REVISED - Firearms and Destructive Devices

Any student who is determined to have knowingly and intentionally possessed, used or transmitted a firearm, **including concealed firearms**, on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose, or in a vehicle being driven for a school purpose by a school employee or his or her designee, or at a school-sponsored activity or athletic event, will be expelled from school for not less than one year. The Superintendent of Schools or School Board may modify the expulsion required on an individual basis. For the purpose of this section, firearm means a firearm as defined in 18 U.S.C. 921.

Any person who possesses a firearm, **including concealed firearms**, in a school, on school grounds, in a school-owned vehicle, or at a school-sponsored activity or athletic event shall be guilty of the offense of unlawful possession of a firearm on school grounds. This shall not apply to (a) the issuance of firearms to or possession by members of the armed forces of the United States, active or reserve, National Guard of this state, or Reserve Officers Training Corps or peace officers or other duly authorized law enforcement officers when on duty or training, (b) firearms which may lawfully be possessed by the person receiving instruction, for instruction under the immediate supervision of an adult instructor, or (c) firearms contained within a private vehicle operated by a non-student adult which are not loaded and (i) are encased or (ii) are in a locked firearm rack that is on a motor vehicle. Encased shall mean enclosed in a case that is expressly made for the purpose of containing a firearm and that is completely zipped, snapped, buckled, tied, or otherwise fastened with no part of the firearm exposed.

Any firearm, **including concealed firearms**, possessed in violation of this section of the policy in a school, on school grounds, in a school-owned vehicle, or at a school-sponsored activity or athletic event shall be confiscated without warrant by a peace officer or may be confiscated without warrant by school administrative or teaching personnel. Any firearm confiscated by school administrative or teaching personnel shall be delivered to a peace officer as soon as practicable. Administrators will refer any student who brings a firearm or weapon to school to the criminal justice or juvenile delinquency system.

REVIEWED - Requests to Contact Students and Student Interviews by Non-School Personnel

In dealing with law enforcement officials and the removals of students and/or interviews of students, Bellevue Public Schools' employees are not to obstruct government operations or unreasonably refuse or fail to aid a peace officer, but are also to attempt to prevent undue interference with District operations or educational programming. Law enforcement officers should not be permitted to remove a child from school while the child is properly in attendance, without permission of the child's parent or guardian, except when legally authorized to do so. For purposes of this policy, a law enforcement officer is defined as: coroners, jailers, marshals, police officers, sheriffs, state highway patrol officers, members of the National Guard on active service by direction of the Governor during periods of emergency, and all other persons with similar authority to make arrests. Interviews of students by law enforcement officials and other law authorities should be urged to contact students for questioning outside the instructional day and off school premises whenever possible. School employees shall not, in the course of dealing with a peace officer or probation officer, disclose any confidential student records or information from such student records other than in response to a court order or subpoena or as otherwise authorized by state law and the Family Educational Rights and Privacy Act (FERPA).

REVIEWED - Bellevue Public Schools Memorial Guidelines

The Bellevue School Board provide family and friends opportunities to share their grief upon the death of a student or staff member who were enrolled in one of the district's schools at the time of their death or employees that were employed at Bellevue Public Schools at the time of their death. Such opportunities should be in accordance with the following guidelines. Bellevue Public Schools will consult with parents of the deceased student to determine if the parents consent to memorializing their child or with the family of the deceased employee.

MEMORIALS

Student/staff memorials may be established if there is no cost to the school with the consent of the deceased student's parents/guardians.

Appropriate memorials include:

1. A memorial scholarship administered by the Bellevue Public Schools Foundation.
2. Purchase of library books, school supplies and equipment. Donated books may include a bookplate or equipment may include an engraved plate no larger than two by six inches. Wording will be limited to "Donated by the _____ family" or "Donated by the _____ family in honor of mental health awareness, cancer, etc." but with no mention of the deceased's name. Any engraved bookplate will be removed at the end of ten years and offered to the parents or guardians.
3. Monetary funds designated to a particular school activity or department; or contributions by students/staff to memorials designated by the family, i.e. cancer society, local charity, etc.

GRADUATION CEREMONIES

1. A family may also request a cap and gown in memory of a deceased student.
2. There will be no personalized participation in graduation ceremonies on behalf of a deceased student. One chair is reserved at every *baccalaureate ceremony* and that chair "represents every student that has died that would've been in that class.

REVISED - Student Organizations - Non Sponsored

Bellevue Public Schools secondary schools shall provide equal access and a fair opportunity to non-sponsored student organizations to organize and meet on school premises during non-instructional time. Bellevue Public Schools secondary schools will not discriminate against non-sponsored student organizations on the basis of the religious, political, philosophical or other content of speech at such meetings.

Secondary school students are permitted to organize and conduct meetings of non-sponsored student organizations subject to the provisions of this policy. Such organizations must be voluntary, student initiated and directed, and non-supervisory school personnel, parents and any other persons who are not students enrolled in the school are prohibited from directing, controlling, conducting or regularly attending the meetings of such organizations. School personnel may regularly attend meetings of non-sponsored student organizations in a supervisory capacity to ensure compliance with this policy and the regulations developed pursuant to this policy. Non-sponsored student organizations shall not be deemed to be school sponsored or recognized. The fact that such organizations are permitted to conduct meetings under this policy shall not constitute an expression of school district support for the purposes, goals, objectives, activities, beliefs or opinions of such organizations or the content of any meetings thereof.

Membership in non-sponsored student organizations shall be limited to students currently enrolled in the specific secondary school where the organization meets.

Non-sponsored school organizations shall not engage in any activity which is contrary to law, district policy, or school rules; which materially or substantially interferes or there exists a likelihood of materially and substantially interfering with the orderly conduct of educational activities within the school; or which would adversely affect the health, safety, or welfare of any students or staff members.

The Superintendent of Schools will cause to be developed regulations and procedures for establishing, operating, supervising, and terminating the opportunity of non-sponsored student organizations to meet on school premises.

Federally Recognized “Youth Organizations”

The Bellevue Public Schools will allow, upon request, a representative of a recognized youth organization to provide: (1) oral or written information to students regarding the youth organization and how such youth organization furthers the educational interests and civic involvement of students in a manner consistent with good citizenship; and (2) services and activities to any student who is a member of such youth organizations. A “recognized youth organization” is limited to those groups listed in 36 U.S.C. Subtitle II. Part B. Each requesting youth organization will be permitted to provided information at school at least once during each

school year. The administration will make a good faith effort to find a mutually agreeable date, time, and location for each requesting youth organization, though the administration shall have the ultimate authority to select the date, time, and location for any requesting youth organization. Under no circumstance will any requesting youth organization be permitted to provide oral information to students during instructional time, unless previously approved by the Superintendent or Superintendent's designee. Every representative from a requesting youth organization must submit to, at the organization's cost, a background check. The Superintendent or designee may refuse to allow an individual to be on school grounds if the individual's background check disclosed a prior felony conviction or if, in the Superintendent of Schools discretion, the background check otherwise reveals concerns about student safety. Nothing in this paragraph preempts or undermines any provisions of the District's Parental Involvement Policy.

Non-instructional time shall mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings shall not interfere with the orderly conduct of the education program or other school district operations. It shall be within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. Activities relating to and part of the education program shall have priority over the activities of another organization.

A list of federally recognized "youth organizations" can be located at uscode.house.gov.

REVIEWED - Student Records

Protection of individual privacy is a matter of long-standing practice in a democratic society. Also, of major importance is the right of an individual to have access to files and records which are maintained on himself/herself. The maintenance and protection of student records is detailed in Nebraska Department of Record Management Schedule 10.

Since the public school necessarily maintains extensive and confidential information about students and their families for legitimate educational purposes, it is recognized that the potential is present for invasion of personal rights should such information be revealed to unauthorized persons or should access to the information be restricted from the student or his/her parents/guardians.

The Board of Education, therefore, directs the Superintendent of Schools to establish administrative regulations which will insure against invasion of privacy to the student or his/her family and which will provide for access to the student's records by the student, his/her family, and by school officials as needed in performance of their assigned duties.

The Administrative Regulation will provide for:

1. The type of information about the student and his/her family and the manner in which it is to be collected and stored;
2. The identification of individuals or agencies to whom specifically defined information may be released without parental consent;
3. The maintenance of a perpetual record for each student who has enrolled, including name, address, age, grade level, attendance, and achievement;
4. The notification of students, parents/guardians of students under eighteen years of age and eligible students at least annually, of the rights accorded them by the student records laws;
5. The opportunity for students, parents/guardians of students under eighteen years of age and eligible students to have a hearing at which they may challenge the content of a student's records; and
6. The destruction of information relating to disciplinary matters and material not specifically required as a permanent record upon the student's graduation or withdrawal from school.
7. The Administrative Regulation is intended to comply with the rules/regulations of the State Records Administrator adopted pursuant to Sections 84-1201 to 84-1220.

REVIEWED - Musical Instruments

Students will generally be expected to furnish their own musical instruments for instruction and activities. However, in order to maintain the quality of music program desired, the Board of Education recognizes the need for the school to purchase, maintain, and issue those musical instruments which the individual student could not reasonably be expected to own.

REVIEWED - Class Size

The Board of Education recognizes that class size is a function of staffing level, type of instruction provided, type of students served, facility limitations, type of program offered or selected, distribution of students between attendance areas, distribution of students between grade levels within a building and parameters imposed by available resources, law, rule or regulation. The Board also recognizes that different staffing patterns and ranges in class size are necessary to accommodate class size variables.

The Board of Education will annually review, through the budgetary planning process, the staffing plan for the ensuing year before the budget is developed. The projected average class sizes included within the proposed staffing plan will:

1. Allow a variety of staffing patterns and ranges in class size to accommodate the recognized variables.
2. Meet laws, rules and regulations that are mandated.
3. Balance staffing resources whenever possible.
4. Minimize the range in class sizes.
5. Maintain the neighborhood school concept whenever possible.
6. Avoid dividing families.
7. Make school assignments for students as permanent as possible.
8. Provide a staffing level that can be reasonably implemented within available resources.
9. Meet rules and regulations that govern programs in which the District has elected to participate.

REVIEWED - Grouping for Instruction

The Board of Education supports instructional arrangements that provide for the needs of individual students, allow for the placement of students in the best learning situation possible in a school, and challenge each student to grow and develop intellectually. Forms of grouping flexible enough to allow individual students to move from one group to another as the student's needs or the activities change may be incorporated within the District.

Special Services

Selection procedures for students needing special services will follow regulations outlined by the State Department of Education, the Federal Department of Education, and/or other local policies, regulations and procedures. Special education services will be provided for students with disabilities at all levels in the educational process.

Elementary School

Grouping in the elementary schools generally will be within a heterogeneous classroom. When the regular curriculum, materials and activities that support the curriculum, or pacing of instruction do not meet individual student's needs, appropriate learning options will be available for those students on a district-wide basis.

Middle School

Students may be grouped within heterogeneous teams to effectively and efficiently deliver the transitional, departmentalized curriculum of the middle school. When the regular curriculum, materials and activities that support the curriculum, or pacing of instruction do not meet individual student's needs, appropriate learning options will be available for those students on a district-wide basis.

High School

Grouping in the high schools occurs when the student selects courses within the diversified curriculum provided students. When the regular curriculum, materials and activities that support the curriculum, or pacing of instruction do not meet individual student's needs, appropriate learning options will be available for those students on a district-wide basis.

Selection of Students**Elementary**

Students will be assigned to elementary classrooms by the principal. The grouping of students within a classroom at the elementary level will be the responsibility of the teacher. Grouping of students district-wide will occur based on selection of students for whom the regular curriculum should be modified.

Middle School

The placement of students into classes and teams in the middle schools will be the responsibility of the building principal. The grouping of students on a day-to-day basis within teams will be the responsibility of the teachers. The selection of students for transitional classes that have different levels of curriculum content will be the responsibility of the building principal. The principal will use all available information and seek the assistance of parents, teachers, guidance counselors, and other personnel to ensure proper placement of each student. Grouping of students district-wide will occur based on selection of students for whom the regular curriculum should be modified.

High School

The placement of students into classes in the high schools will be the responsibility of the building principal. The selection of students for transitional classes that have different levels of curriculum content will be the responsibility of the building principal. The principal will use all available information and seek the assistance of parents, teachers, guidance counselors, and other personnel to ensure proper placement of each student. Grouping of students within high school classes will be the responsibility of the classroom teacher. Grouping of students on a district-wide basis will occur based on selection of students for whom the curriculum should be modified.

REVIEWED - Extra-Curricular/Co-Curricular Activities

School Sponsored

The Board of Education recognizes that educational experiences provided through the public school cannot and should not be limited to the classroom. For this reason, extracurricular activities, contests and field trips will be provided in the school program.

Activities shall be planned for in the school curriculum and budgeted for annually. When included in the planned curriculum and in the budget document, the expenses for such programs, including necessary travel expense, shall be borne by the District.

Non-School Sponsored

The Board of Education recognizes that students and teachers, on a voluntary basis, may make trips to various areas of the United States and foreign countries. These unofficial trips will not occur during the school day and are not endorsed or supported by the Board of Education of the Bellevue Public Schools. No publicity, literature or advertisements may infer sponsorship by any individual school, the Board of Education or the Bellevue Public School District.

Class time, school time, or school resources and facilities may not be used to promote or solicit participation in these trips. No employee of the Bellevue Public Schools shall use his/her position to solicit children or parents to participate in the activity. School employees shall not use any materials, equipment, facilities or other school district resources to promote these activities. School employees shall not be considered employees of the District when participating in these activities.

School employees must be careful not to give the perception that their involvement with optional trips infers district sponsorship or endorsements. School employees are discouraged from holding organizational meetings in their homes. The travel agency or representative of the carrier should conduct organizational meetings.

REVIEWED - Secondary Guidance and Counseling

School counselors design and deliver comprehensive school counseling programs that promote student achievement. A comprehensive school counseling program is an integral component of the school’s academic mission. Comprehensive school counseling programs, driven by student data and based on standards in academic, career and personal/social development, promote and enhance the learning process for all students.

Effective school counseling programs are a collaborative effort between the school counselor, parents and other educators to create an environment that promotes student achievement. Staff and school counselor’s value and respond to the diversity and individual differences in our societies and communities. Comprehensive school counseling programs ensure equitable access to opportunities and rigorous curriculum for all students to participate fully in the educational process.

It is the policy of the Bellevue Public Schools to employ school counselors that are certified/licensed educators with the minimum of a Masters degree in school counseling and are uniquely qualified to address the developmental needs of all students through a comprehensive school counseling program addressing the academic, career and personal/social development of all students.

REVIEWED - Textbook Loans to Private School Students

The Bellevue Board of Education recognizes the Legislature of the State of Nebraska and the State Board of Education have given the Board the power and duty to purchase and loan textbooks to private school students. Under this legislation, a school district shall not be obligated to spend any money for the purchase and loan of textbooks to students enrolled in private schools other than funds specifically appropriated by the Legislature for the purpose of purchasing and loaning textbooks.

The Board of Education directs the Superintendent of Schools to develop regulations and procedures to implement the textbook loan to students enrolled in a private school program in a manner that recovers from the State of Nebraska costs associated with this program within the constraints of State Statute and State Board of Education Procedures and Rules.

These regulations and procedures will also establish a priority for selecting textbooks that will be purchased if, after the distribution of funds, the Board is unable to provide all of the textbooks for which applications have been made due to a pro-rata reduction in the funds by the Department of Education.

REVIEWED - Student Evaluation

The Board of Education believes that an evaluation program will provide a means for objective assessment of academic growth and potential of the student, will assist the professional staff in determining the needs of the individual student and the student body as a whole and will provide information which has implications for changes in the curriculum or instructional procedures.

The Board of Education, therefore, directs that an evaluation program be established which will provide for an ongoing, comprehensive and comparable record of academic growth and development and which evaluates the effectiveness of curriculum and instructional procedures.

The Board of Education also directs that procedures be followed which will ensure the confidentiality of an individual's evaluation records.

REVISED - Curriculum-Assessments

1. State Assessments

Bellevue Public Schools has adopted an assessment plan and has aligned the curriculum with the state approved content standards. The assessment plan includes a schedule and procedures for assessing success in achieving state standards.

Teachers are to clearly articulate the learning targets and align instruction to the learning targets within each of the content standards. Teachers are to give students instruction on the content prior to students being assessed on each content standard in order to provide learning opportunities for all students.

The assessments are to be conducted in accordance with the assessment plan schedule. Teachers are to conduct the assessment in a manner that assures it accurately assesses whether or not students are meeting the targets outlined by the content standards.

Assessment results are to be reported by the teachers in the manner and within the time directed by the administration or designee. The assessment data is to be used to meet state standards, to provide students and parents with information about student progress, to enhance school improvement planning, and to improve instruction. The assessment data is to be evaluated by teachers to monitor student learning and to improve instruction or terminate ineffective teaching practices to ensure students are being given the opportunity to meet the standards.

2. Achieving Valid Assessments

Educators are responsible for maintaining the integrity of the assessments to ensure that assessments provide a valid measure of student progress and accomplishments. Educators are not to engage in any practice that may result in assessment results that do not reflect student learning, knowledge, skills or abilities in the area assessed.

For purposes of this policy, student assessments include both “standardized assessments” (including state assessments, norm referenced tests, and evaluations conducted for special education eligibility); local curriculum assessments (summative and interim/formative); and other coursework assessments (e.g., daily formative assessments, classroom test, quizzes, and other evaluative tools used to assign grades).

The following specific assessment expectations and rules apply:

- a. Integrity of the Assessment Instrument. The integrity of the assessment instrument is to be maintained.
 - i. Standardized Assessments. Standardized assessment instruments are not to be made available to students at any time before the student takes the assessment. The assessment instrument is to be maintained in a secure manner.
 - ii. Local Curriculum and Coursework Assessments. Local curriculum and coursework assessment instruments are to be periodically modified to keep the assessments current and prevent students from effectively using “test banks.” For coursework assessments that are given on a repeat basis to students at different times (e.g., a test that is given to students throughout the school day), the educator is to remind students to not share the content of the assessment with students who will be taking the assessment later.
- b. Teaching for Success on Assessments. It is appropriate for educators to prepare students to do well on assessments. This is to be accomplished in a manner that assures the assessment accurately reflects the student’s knowledge, and not simply test preparation.
 - i. Teach the Content. Educators are to prepare students to do well on assessments by teaching the subject content. Educators are not to “teach to the test” by teaching based solely on the content of the assessment. The content is to be taught to the students over an appropriate amount of time prior to the assessment. “Cramming” assessment content just before the assessment is to be taken is not appropriate. Review of content previously taught is appropriate.
 - ii. Practice Tests. Educators are to prepare students by teaching test taking skills independent of the subject matter being assessed. Educators are not to conduct reviews (drills) ~~using earlier (no longer published) versions of the same test, using alternate (parallel) forms of the same published test,~~ or using actual items from the current form of a standardized test that will be administered to students. Educators are not to conduct reviews (drills) using items of identical format (for example, multiple choice) to the exclusion of other formats.
- c. Conditions for Successful Assessments.
 - i. Communications. Educators are to communicate to students and parents when assessments will be administered, the purpose of the assessment and

how the assessment results will be used. Educators are to motivate students to do their best on assessments. Educators are to read and be familiar with assessment administration directions in advance and communicate the rules to students accurately and clearly.

- ii. Climate. Educators are to have sufficient assessment materials available (~~e.g., No. 2 pencils, if needed~~). The classroom is to be arranged to allow comfortable seating. Distractions are to be eliminated. Educators in nearby classrooms are to be informed that the assessment is to be administered so noises from neighboring classrooms are kept at a minimum. Activities or arrangements are to be made for students who finish early so such students do not cause a distraction to other students still taking the assessment.
 - iii. Security. Educators are to monitor students while administering assessments to ensure students are complying with standards of academic integrity. Students who violate standards of academic integrity are to be reported to the administration.
- d. Full Participation. Educators are to make efforts to have all eligible students take the assessments. ~~The educator should develop a list of students who will be exempted from assessment and the reason for the exemption and submit the list for review and approval by the Principal.~~
- e. Assistance During Assessments.
- i. Standardized Assessments. Educators are not to provide assistance to students while a standardized assessment is being administered ~~except as provided for in a student's 504 Plan or IEP~~. This includes giving "hints," giving extra time, reading the tests to students or defining or pronouncing words for students, allowing students access to instructional material related to the content of the assessment (e.g., displaying a map during a social studies assessment) or allowing students access to mechanical aids (~~e.g., calculators~~). **Except as provided for in a student's 504 plan, IEP or when allowable with assessment administration guidelines.**
 - ii. Local Curriculum and Coursework Assessments. For coursework assessments, students may be allowed access to instructional materials or mechanical aids ~~only when all students being given the assessment are given the aids and~~ use of the aids does not hinder the students from learning the content of the lesson.
- f. Student Answers. Assessments are to reflect the students' work as submitted by the students. During the assessments, educators are to monitor students to make sure directions are being followed (~~e.g., students are using a No. 2 pencil on all "bubble"~~

~~sheet assessments and completely erase mistaken answers and extra marks on “bubble” sheet assessments~~). Educators are not to change answers on a student’s assessment sheet or otherwise participate in the submission of false or misleading assessment results.

Violations of the rules and expectations set forth in this policy will be considered to be a breach of the District’s standard of ethics and may result in disciplinary consequences. Educators are to report suspected violations of the expectation to the administration. The administration is to investigate and appropriately respond to violations of the expectations.

REVISED - Student Control and Discipline

Introduction

The following rules and regulations are designed to establish order and to protect all members of the educational community in the exercise of their rights and responsibilities on school grounds, in a vehicle owned, leased or contracted by the school being used for a school purpose, or in a vehicle being driven for a school purpose by a school employee or by the employee's designee, at a school-sponsored activity or athletic event, or off school grounds not at an educational function or event as provided in state statutes. These statements are outlined for uniform understanding of the practices and procedures used in our schools.

I. The Superintendent of Schools delegates the responsibility for maintaining discipline in the schools and the administration of appropriate corrective measures to the building administration within the guidelines of Board Policy, Administrative Regulation, and the Laws and Constitution of the State of Nebraska and the United States.

II. Areas of Prohibited Student Conduct: Any conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in or material interference with any school function, activity, or purpose, or that interferes or creates a reasonable likelihood that it will interfere with the health, safety or well-being, or the rights of themselves or others is prohibited.

III. Behavior Response for Grades PK-12: In accordance with Nebraska statute, no pre-kindergarten through second grade student may be suspended from school, unless the student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity. Instead, the Principal or Principal's designee may implement alternative disciplinary measures on a case-by-case basis if a pre-kindergarten through second grade student engages in misconduct that would otherwise result in short-term suspension. If a pre-kindergarten through second grade student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity, the student may be suspended or expelled.

The preceding is a general standard that should be used as a guide by all students. Not all acts of misconduct can be itemized in this regulation. The following is an enumeration of some of the main areas of conduct which may lead to actions such as: required counseling or conferencing, detention, confiscation of material, revoking privileges, arrangement of schedules, restriction of extracurricular activity, probation, exclusion, mandatory building assignment, suspension, expulsion and psychological evaluation or psychiatric evaluation upon the written consent of the parent or guardian. Exclusion, suspension, expulsion, and mandatory building assignment shall be administered in accordance with the standards established by state and Federal law.

(1) Use of violence, force, coercion, threat, intimidation, harassment, or similar conduct in a manner that constitutes a substantial interference with school purposes and/or situations

that occur outside of school but cause a substantial disruption or impact of learning within school.

(2) Willfully causing or attempting to cause substantial damage to property, or repeated damage involving property.

(3) Stealing or attempting to steal property of substantial value, or theft involving property.

(4) Causing or attempting to cause personal injury to a school employee, to a school volunteer, or to any student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person that may constitute a violation.

(5) Threatening or intimidating any person for the purpose of, or with the intent of, obtaining money or anything of value from such person.

(6) Knowingly possessing, handling or transmitting any object or material that is ordinarily or generally considered a weapon: Weapons include: Firearms means any weapon which is designed to or may readily be converted to expel any projectile by the action of an explosive or frame or receiver of any such weapon: handguns, rifles, and shotguns.

a. Look-A-Like weapons (There have been a number of recent cases where students have faced serious disciplinary action for possessing AirSoft and other look-alike weapons on campus). In many cases, these simulated weapons may meet the definition of a dangerous weapon because they expel a projectile. Students may also face discipline under the provisions of 79-283. [Ref. § 79-256(2)]/ [Ref. § 79-256(3)] if they act with malice and display an item that appears to be a firearm, even if the item is not in fact dangerous.

b. Knives: Any dagger, dirk, knife, or stiletto with a blade.

c. Any other dangerous instrument which is capable of inflicting cutting, stabbing.

d. Knuckles and brass or iron knuckles means any instrument that consists of finger rings or guards made of a hard substance and that is designed, made, or adapted for the purpose of inflicting serious bodily injury or death by striking a person with a fist enclosed in the knuckles.

e. Other weapon includes incidents in which one or more students possessed or brought anything used as a weapon that is not classified as a handgun, rifle/shotgun, knife/dagger, or other firearm to schools. Examples include chains, pipes, razor blades or similar instruments with sharp cutting edges; ice picks, nun-cha-ka sticks; stars; billy clubs; tear gas guns; electrical weapons (stun guns); BB or pellet guns.

f. Destructive devices means:(i) Any explosive, incendiary, chemical or biological poison, or poison gas (A) bomb, (B) grenade, (C) rocket having a propellant charge of more than four ounces, (D) missile having an explosive or incendiary charge of more than one-quarter ounce, (E) mine, (F) booby trap, (G) Molotov cocktail, (H) bottle bomb, (I) vessel or container intentionally caused to rupture or mechanically explode by expanding pressure from any gas, acid, dry ice, or other chemical mixture, or (J) any similar device, the primary or common purpose of which is to explode and to be used as

a weapon against any person or property (Nebraska Revised Statute 28-1213) [Ref. § 79-267(5)].

g. Not with standing the foregoing, plastic utensils typically used for food preparation and consumption and not being used in a threatening or intimidating manner shall not be considered weapons.

(7) Engaging in the unlawful selling, use, possession or dispensing of tobacco, alcoholic beverages or liquor, narcotics, drugs or other controlled substances or an imitation controlled substance as defined in state statute, a substance represented to be a controlled substance as defined in state statute or being under the influence of a controlled substance or alcoholic liquor.

(8) Public indecency (shall apply only to students at least twelve years of age but less than nineteen years of age; [Ref§28-806].

(9) Engaging in Bullying, which disrupts a school's ability to educate students; and bullying threatens public safety by creating an atmosphere in which such behavior can escalate into violence. For purposes of this section, bullying means any ongoing pattern of physical, verbal, or electronic abuse.

(10) Sexually assaulting or attempting to sexually assault any person if a complaint has been filed by a prosecutor in a court of competent jurisdiction alleging that the student has sexually assaulted or attempted to sexually assault any person, including sexual assaults or attempted sexual assaults which occur off school grounds not at a school function, activity, or event.

(11) Repeated violation of any valid rules of conduct established by the Board of Education, Superintendent, or building administrators of the Bellevue Public Schools.

(12) Engaging in any other activity forbidden by the laws of the United States or the State of Nebraska.

(Examples: (this is not an exhaustive list) Loitering on school property before or after assigned classes without the permission of a staff member; Causing a false fire alarm; Trespassing (being present in an unauthorized place in the school, unauthorized presence on school property, or refusing to leave the school premises when ordered to do so by school officials), reckless driving; unlawful assembly.

(13) Violation of the student attire and grooming policy and/or the accompanying administrative regulation.

(It is the intent of the Legislature that alternatives to suspension or expulsion be imposed against a student who is truant, tardy, or otherwise absent from required school activities.) [Ref. § 79-267(10)]

Violation of the student attire and grooming policy and/or the accompanying administrative regulation.

III. In addition to the preceding main areas of conduct which may lead to disciplinary action, the following regulations are considered standard for the Bellevue School District.

- A. Checking Out of School Students who leave school for any reason during regular school hours must have approval from the principal's office.
- B. Field Trips Any student making a trip under the sponsorship of the school is required to bring a note, signed by the student's parent/guardian, giving permission to participate in the activity.
- C. Inspection of School Property in order to maintain order and discipline and preserve safety, school officials reserve the right to and will periodically inspect school property, including student lockers and desks. Other than periodic inspections will be conducted whenever school officials have reasonable cause to believe that there is kept or concealed on school property, including student lockers and desks, any contraband or other material which violates either state law or school rules. School officials also reserve the right to search an individual whenever the search is reasonably necessary to maintain order, discipline, health or safety. All such searches shall be based upon reasonable individualized suspicion and shall be conducted when school officials are in possession of concrete, objective and clearly expressed facts which may be based upon reliable information or personal observation. All searches shall be conducted in the most minimally intrusive manner possible.
- D. Safekeeping of Valuables Students are discouraged from bringing valuables and large amounts of money to school. Students are responsible for the safekeeping of their possessions and for other items which have been assigned to their care.
- E. Fines Books and equipment supplied by the school district must receive reasonable care. Students defacing furniture or books, damaging school property or losing books or equipment assigned to them will be fined in an amount sufficient to restore the damaged article to the original condition or to replace it.
- F. Short-Term Suspensions-Completing Classwork Students that were suspended from school for a short-term, five days or less, will be given a reasonable opportunity to complete and receive credit for major assignments, activities, projects and examinations missed if the preparation for the assignment, activity, project or examination could or should have been substantially completed while the student was in attendance as a student. Examples include semester tests, major projects or papers and unit tests. ~~Credit will not be awarded students for activities such as normal daily~~

~~assignments, quizzes and class participation completed by students that were suspended for a short-term.~~

Students that were suspended for a short-term must contact their teacher(s) and make arrangements for a time and/or place to complete or submit the major assignment, activity, project or examination missed.

REVIEWED - School Publications

Student publications are important elements of the instructional program and contribute directly to the accomplishment of the goals of the school. The Board of Education and the professional staff recognize the students' freedom of expression within the framework of the policy of the Board of Education, and hereby establish the guidelines for student publications.

1. The school administration, the faculty sponsor, and, if necessary, a faculty committee will establish and maintain a manual for the guidance of editors of student publications which will contain at least the following features:
 - a. Policies, regulations, and bylaws for student publications within the instructional program.
 - b. Style guides.
 - c. Guides to question of taste and appropriateness.
 - d. Guide to cost limits.
 - e. Routes of appeal.
 - f. Statements of board policy and purposes of student publications.
 - g. Safeguards to freedom of expression.
 - h. Provision for review by the school attorney when review is needed to guard against charges of libel and slander.
 - i. Consideration of issues concerning school safety.
 - j. Provision for review at the District level of those publications which provide district-wide information or create a historical record of the school, district or community.

2. Principals have the right and responsibility to represent the publisher and regulate the content of school publications.

REVIEWED - Fund Raising by Students and Parents

Specific fund raising projects conducted by students and parents in the Bellevue Public School District must be justified to and approved by the principal of the school where the program benefiting from the activity is conducted. Fund raising activities will be reviewed to ensure the project falls within the guidelines of the Bellevue Public School District.

Elementary Guidelines

Any fund raising should be done for a clearly stated purpose. The purpose should contribute to educational goals or advocacy for children.

Fund raising activities that are family oriented and do not involve the sale of items by students should be encouraged. Book fairs, carnivals, family dinners, fun nights and skating parties are examples of family oriented fund raising activities. The school district will ensure that students with financial need will be accommodated to allow participation in school-sponsored fund raising events.

Secondary Guidelines

Only school-recognized and sponsored groups or organizations will be approved for fund raising.

A fund raising activity must have a clearly stated purpose that includes the benefit to the organization and/or the overall student body.

Student oriented activities such as talent shows, dances, etc. that involve a large part of the student body are examples of positive fund raising activities.

All fund raising proposals must be submitted in writing to the school administration.

Groups and organizations may not duplicate fund raising activities.

Individual students will not be excluded from trips or activities financed by fund raising simply because the student did not sell enough product.

REVISED - Student Activities Funds

Activity accounts will be kept in each of the secondary schools and funds in each account shall be deposited in a local bank. These accounts shall be under the immediate supervision of the principal in each school who shall sign all checks in payment of bills which have been properly certified by the sponsors of the various activities or organizations. The Director of Fiscal Affairs shall be responsible for developing procedures to manage the accounting.

A duplicate receipt shall be made for all money received and the business transacted shall be checked at the end of each day. Monthly reports showing receipts, expenditures, bank balance and cash on hand shall be submitted to the Board. Each organization shall have its own treasurer who shall keep a record of dues and other receipts and expenditures and shall verify the accounts by checking with the school secretary once each semester. All funds of activities or organizations shall be turned in to the bookkeeper who shall deposit them at the bank.

Before obligating any activity account funds, all services must be approved first by the person in charge of the organization or activity, and second by the school principal or delegated representative. Requests for purchases in excess of ~~\$100.00~~ **\$5,000.00** must be approved by the ~~Central Office Administrator responsible for the budget code~~ **Director of Fiscal Affairs** before funds can be obligated.

Prices of all purchases regardless of the amount shall be carefully analyzed. ~~Any purchase of \$200 or more will require price quotations directly from three or more companies.~~

REVISED - Student Physical Examination and Immunization

In compliance with Nebraska State Statutes, a physical examination by qualified medical personnel is required of all students entering kindergarten and seventh grade, and those transferring to the school district from an out-of-state school district. The date of the physical examination must have been within the previous six months. Parents shall have up to thirty (30) days following date of enrollment to present evidence in writing of the physical examination or an objection to the physical examination in writing.

In compliance with Nebraska State Statutes, each student enrolled in the Bellevue Public Schools shall be required to be immunized against measles, mumps, rubella, poliomyelitis, **hepatitis B**, diphtheria, pertussis, ~~and~~ tetanus, **and varicella** prior to enrollment. Students may be provisionally enrolled if they have begun the required immunizations and continue to receive the necessary immunizations as rapidly as is medically feasible or if the student's parent/guardian is on active duty in the military services and the child is enrolling in school following residence in another state or country.

Provisional enrollment of military personnel new to the District is subject to school officials receiving a signed statement from the parent/guardian certifying that the student has completed the required immunizations. This provisional enrollment shall not continue beyond sixty days.

Exemptions will be granted for medical or health reasons substantiated by a signed statement from a physician, or religious conflict substantiated by a signed affidavit from the student's legal guardian if the student is a minor.

REVISED - Administration of Medication to Students

Certain administrative precautions must be established before the school may administer or supervise the administration of ~~medicine~~ **medication** to students during the school day. In accordance with the acceptance of this responsibility, and according to the directives established in Board of Education Policy 508.02, the following regulations are established:

Written Approvals

Long-Term Medications: Prior to the administration of any ~~medicine~~ **medication** which is to be taken by a child for a period longer than two weeks, the written permission of both the parent and the child's physician must be on file in the office of the school in which the student attends. (~~A physician written asthma action plan must be on file for any child who has the diagnosis of asthma.~~)

Short-Term Medications: Prior to the administration of any ~~medicine,~~ **medication** which is to be taken by a child for a period of time less than two weeks, the written permission of the parent must be obtained. Short-term medication will usually include medicine such as antibiotics, eye drops, etc.

Safeguards for Storage

1. Medication which is administered under the supervision of the school will be **stored in a locked or otherwise secure area. Emergency drugs should be secured but not locked.** ~~securely at all times in a in the office of the school.~~
2. The school principal or his/her trained designate (nurse, health para, teacher, teacher para, or secretary) will accept and store no more than a ~~school week's~~ **30 day** supply of the medication from the parent. However, more than a ~~20~~ **30** day supply is accepted and stored for meter dosed inhalers and other medications when deemed appropriate. ~~The medication may be brought to school by the student.~~ **Encourage parent/guardian to deliver and pick up medications when possible. Medication may be brought to school by a student as permitted by the parent.**
3. The medication will be brought to the school in a container with a pharmaceutical label, which must state the student's name, ~~prescription~~ **medication**, dosage, and manner of administration.
4. The school principal or his/her designate (nurse, health para, teacher, teacher para, or secretary) are the only persons authorized to accept responsibility for the storage of medicine.

Conditions of Administration

1. Except for emergency situations, only the school principal or his/her designate (nurse, health para, teacher, teacher para, or secretary) will administer or supervise the administration of a ~~medicine.~~ **medication**
2. Only the amount of ~~medicine~~ **medication** prescribed by the physician will be dispensed at any one time.

3. The person administering the medicine will ascertain that the student actually consumed the prescribed medicine while in the observation of the person administering the medicine.
4. The person administering the medication will maintain a record of students who receive medication and ~~log~~ document each dosage.
5. The District will adopt and implement the Emergency Response to Life-Threatening Asthma or Systemic Allergic Reactions (Anaphylaxis Protocol as required by the Nebraska Department of Education.)
6. With authorization of a student's physician, a parent or guardian may submit a written request to allow the student to manage their asthma, anaphylaxis or diabetes while at school or during a school related activity. A medical management plan consisting of multiple components, is required.

REVIEWED - Homeless Children and Youth

A homeless child or youth is defined as one who lacks a fixed, regular, and adequate nighttime residence. The term includes:

- Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement.
- Children and youth who have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as a regular sleeping accommodation for human beings.
- Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.
- Migratory children (as defined in section 1309 of the ESSA of 1965, as amended) who qualify as homeless by above conditions.

This definition includes both youth who are unaccompanied by family and those who are homeless with their families. The Bellevue Public School District will comply with state and federal law as it relates to homeless children or youth.

Educational Liaison

The Director of Student Services shall serve as the District’s Local Educational Liaison who will serve in tracking, monitoring and coordinating programs and activities for these children. The identity and duties of the Local Educational Liaison shall annually be provided to the Nebraska Department of Education, school staff, providers and advocates of services to homeless persons, and to homeless students.

Review and Revision

The District shall review and revise any policies that may act as barriers to the enrollment of homeless children and youths in the District. In reviewing and revising such policies, consideration shall be given to issues concerning transportation, immunization, residency, birth certificates, school records and other documentation, and guardianship. Special attention shall be given to ensuring the enrollment and attendance of homeless children and youths who are not currently attending school.

REVIEWED - Transgender Students

This administrative rule is intended to clarify existing laws, rules and policies, and to guide how best to support the needs of the District's transgender students and their families. It does not anticipate every scenario and situation that may occur with transgender students' needs. Therefore, it is encouraged that administrators discuss these issues with each student and family on a case-by-case basis to determine how best to support the student within the parameters of this administrative rule.

1. Guidance for Privacy

All persons, including students, have a right to privacy. This includes the right to keep private one's transgender status at school. Information about a student's transgender status, legal name, or gender assigned at birth also may constitute confidential medical information. School personnel should not disclose information that may reveal a student's transgender status to others, including parents and other school personnel, unless legally required to do so or unless the student has authorized such disclosure. Transgender students have the right to discuss and express their gender identity and expression openly and to decide when, with whom, and how much to share private information. Students are encouraged to discuss their rights with staff members as well as this regulation. Administration and staff will work with transgender students to develop a plan and to comply with this regulation. When contacting the parent/guardian of a transgender student, school personnel should use the student's legal name and the pronoun corresponding to the student's gender assigned at birth unless the student, parent/guardian has specified otherwise.

2. Definitions

- "Gender identity" is a person's deeply held sense or psychological knowledge of their own gender, regardless of the sex they were assigned at birth. Everyone has a gender identity.
- "Transgender" describes people whose gender identity is different from their gender assigned at birth.
- "Gender expression" refers to the way a person expresses gender, such as clothing, hairstyles, activities, or mannerisms.
- "Sex" is the physical makeup of a human being, referred to as their biological or natal sex. A person's biological sex is sometimes also referred to as their "assigned gender."

3. Names/Pronouns

Transgender students have the right to be addressed and referred to by a name and pronoun that corresponds with the student's gender identity, as determined by the parent and student. District employees may not intentionally refuse to refer to a student by the name or pronoun identified as corresponding with the student's affirmed gender identity.

4. Official Records

The District is required to maintain a mandatory permanent student record (“official record”) that includes a student’s legal name and legal gender. However, the District is not required to use a student’s legal name and gender on other school records or documents. The District will change a student’s official record to reflect a change in legal name or legal gender upon receipt of documentation that such change has been made pursuant to a court order. In situations where school staff or administrators are required by law to use or to report a transgender student’s legal name or gender, such as for purposes of standardized testing, school staff and administrators shall adopt practices to avoid the inadvertent disclosure of such confidential information.

5. Dress code

Students have the right to dress in accordance with their gender identity, in conformance with the dress and grooming standards contained in the Student Rights & Responsibilities Handbook and any dress and grooming standards prescribed by a student’s school of attendance.

6. Restroom Accessibility

Students shall have access to a restroom that corresponds to their gender identity. A student shall not be required to use a restroom that is incongruent with the student’s gender identity. Where available, a single stall bathroom may be used by any student who desires increased privacy, regardless of the reason. The use of a single stall bathroom shall be a matter of choice for a student, and no student shall be compelled to use such a bathroom. Use of restrooms by transgender or gender nonconforming students shall be determined on a case-by-case basis depending on specific circumstances.

7. Physical Education, Athletics and Activities

Transgender students shall be permitted to participate in gender-separated physical education, intramural athletics, and non-high school interscholastic athletics and activities in accordance with the student’s gender identity. Participation in high school interscholastic athletics shall be governed by Nebraska School Activities Association policy. In the absence of such policy, schools will work with the NSAA to determine specific participation parameters. Activities that may involve the need for accommodations to address student privacy concerns, such as overnight trips, will be addressed on a case-by-case basis using the guiding principles of safety and honoring the student’s gender identity and expression.

8. Locker Room Accessibility

A student shall not be required to use a locker room that is incongruent with the student’s gender identity. Locker room usage shall be determined on a case-by-case basis, using the guiding principles of safety and honoring the student’s gender identity and expression. Some options include:

- Use of a private area in the locker room (e.g., a bathroom stall with a door; an area separated by a curtain; a physical education instructor's office in the locker room).
- A separate changing schedule (e.g., using the locker room before or after the other students).
- Use of a nearby private area (e.g., a nearby restroom; a nurse's office).

REVIEWED - Pregnant and Parenting Students

The Bellevue Public School District shall make reasonable accommodations for pregnant and parenting students so that no student is excluded from participation in, denied benefits of, or subjected to discrimination on the basis of that student's gender/sex (including pregnancy, childbirth, breastfeeding, pregnancy related medical condition, false pregnancy, termination of pregnancy or recovery therefrom).

Pregnant and parenting students have the right to attend school in an environment free from discrimination, harassment, intimidation and/or bullying. The Bellevue Public School District will work collaboratively with the school community to create and maintain a school culture where students feel welcome, safe, and respected.

I. Attendance and Absences

A. Attendance

Every child, age 6 to 18, has the right and obligation to attend school. Pregnant and parenting students who are minors have the same obligation to meet compulsory school attendance laws as any student. This obligation applies to minor students regardless of their marital or parental status.

B. Medical Illness

Bellevue Public Schools will excuse a student's absences (**Medical Illness (MI)**) because of pregnancy or childbirth for as long as the student's doctor deems the absences medically necessary. In addition, Bellevue Public Schools will not treat a pregnant student differently from other students being cared for by a doctor, even when a student is in the later stages of pregnancy; we will not presume that a pregnant student is unable to attend school or participate in school activities.

C. Requiring a Licensed Healthcare Providers Written Permission for School Participation

Bellevue Public Schools will require a student to provide written permission from her licensed health care provider that she is physically and emotionally able to continue to participate in school and/or participate in extracurricular activities.

II. Accommodations for Participation

Bellevue Public School District will make reasonable accommodations to facilitate equal access and full participation of pregnant and parenting students. Such accommodations, implemented on a case-by-case basis, may include, but are not limited to:

- Providing hall passes for bathroom use as needed
- Scheduling classes in more accessible locations
- Providing a larger desk or work space
- Allowing elevator access when needed and possible

- Allowing additional time for passing periods and nutrition and lunch
- Providing modified activities in physical education programs when requested by the student and her medical provider (*Pregnant and parenting students are entitled to participate in physical education and school sports on the same basis as other students. Bellevue Public Schools will ask a student to obtain certification of a licensed healthcare provider regarding her participation. When students cannot meet the requirements of the regular physical education curriculum, the Bellevue Public Schools will provide students with a modified physical education curriculum. This curriculum should be modified to meet the demands of each student's health and physical limitations as defined by their licensed health care provider and should provide physical education credit*).
 - Arranging for school-based independent study during an extended pregnancy-related medical absence
 - Allowing scheduling flexibility whenever possible to enable full participation and reduce school absences due to medical concerns
 - Examples of such flexibility could include:
 - Facilitating changes to minimize loss of school time and to provide access to childcare
 - Allowing students to remain in school
 - Allowing a reduced schedule of classes or contracts for a student with medical complications
 - Using online programs, such as Accellus

III. Accommodations for Lactating Status

Bellevue Public Schools will also make reasonable accommodations to the educational program and activities that are responsive to a student's lactating status. Reasonable accommodations for a lactating student include, but are not limited to:

- Providing a reasonable amount of time to accommodate her need to express breast milk or breastfeed an infant child.
 - Examples of a reasonable amount of time could range from 20 to 40 minutes, two to three times a day; schools will consider a lactation schedule in order to allow a student to breastfeed or express milk at regular intervals; Include time to set up and clean equipment, collect, label and store milk*
- Access to a private and secure room (the door locks, or a message is placed on the door that the room is in use, or blinds/curtains are drawn), other than a restroom, to express breast milk or breastfeed an infant child (this may be an existing space on campus)
 - Examples of such access could include:
A vacant office; A room which can be arranged to be used by the lactating student during specific times of day; A women's lounge; A first aid room; A dressing room; A cubicle with a partition or curtain*

- Permission to bring onto a school campus a breast pump and any other equipment used to express breast milk
- Access to a power source for a breast pump or any other equipment used to express breast milk
- Access to a place to store expressed breast milk safely:

Examples related to storing expressed breast milk could include: A storage location for an ice chest or cooler; A dedicated refrigerator; The Center for Disease Control and Prevention recommends breast milk is stored at room temperature up to 77°F in a 6 to 8 hour period. Containers should be covered and kept as cool as possible. If students carry their own insulated cooler bag, the recommended temperature is 5-39°F using ice packs in contact with milk containers at all times and with limited opening of the cooler.

- A student shall not incur an academic penalty as a result of her use during the school day of reasonable accommodations and shall be afforded an opportunity to make up any work missed due to such use. A complaint of noncompliance with the provision of reasonable accommodations for lactating students may be filed with the Director of Student Services. **If you wish to file a complaint of discrimination with OCR, you may use the online complaint form available at <http://www.ed.gov/ocr/complaintintro.html>.**

IV. Enrollment - In-School Child Care Facility

Pregnancy can be a difficult and stressful time for students and their families. Support and collaboration of school staff are crucial in ensuring on-going educational success. Bellevue West serves as a center for Early Head Start under the Sarpy County Head Start Program. Reasonable efforts will be made by the sending school (Bellevue East) and the receiving school (Bellevue West) to locate and assist students who need to transfer (completely voluntary). These efforts might include, but are not limited to:

- Making a referral to the school counselor/administration to locate and assist students when transfers are needed from Bellevue East to Bellevue West
- Ensuring the transfer has been completed (If a student makes the decision to transfer schools, the school counselor will make sure that their grades or credits are not lost in the process. Also the new school will need to have the classes that they need or can make an arrangement for them to get them. Students have the right to return to their previous school).
- Making a referral to the F.A.S.E Team (social workers)
- Enrolling in a support group for moms with a F.A.S.E. Team member
- Planning with students for their return to their home school if they choose

V. Professional Development

The State Department of Education (NDE) shall offer training for teachers, counselors, and administrators for the rights of pregnant and parenting students to receive equal access to education.
