5.B. Superintendent Report

Superintendent Scott Cline reviewed the September Financial Report, noting a moderate rise in expenditures and steady overall revenue.

"Going through our finances for this month, as you can see, our expenditures for the month of September are up about \$40,000," Cline told Board members. "Fifteen thousand of that increase is in child nutrition, with the remainder coming from various smaller items." Cline reported that District revenue for the month appeared down by about \$6,000, but he clarified that the shortfall was temporary. "We haven't yet received our reimbursement for child nutrition," he explained. "Last year that reimbursement was \$14,000, so once that comes in, our revenue should be essentially flat compared to last year."

The district's overall financial position remains strong, with the cash balance up roughly \$300,000 from the same time last year. "We're still sitting good financially," Cline said, "but we need to start watching our expenditures closely."

In the building fund revenue was down about \$27,000, primarily due to a decline in interest earnings. "Our interest took a hit this month," Cline noted. "That's something to keep an eye on to see what that trend may be."

Child nutrition spending saw a notable increase, up \$15,000 for the month. Initially, Cline said he believed the rise was due to more students participating in the program, but a closer review showed timing played a larger role. "Some of that has to do with where our Keystone bill fell," he said. "In October, we had to double up there because we didn't get it paid in September. So the difference looks bigger than it really is." About \$5,000 of the additional expenditures came from equipment purchases for the child nutrition program. Once the state reimbursement is received, Cline expects the program's revenue picture to balance out.

In Daycare operations, Cline reported that expenditures were down, primarily because the center is operating with one fewer full-time employee. "Our revenue for this month is

basically flat," he said, "but overall, the Daycare is in a better financial position this year than it was last year."

Cline concluded the report by emphasizing continued fiscal responsibility while acknowledging that, overall, the district remains in a stable financial condition.

BEHAVIORAL THREAT ASSESSMENT

The Waynoka Public Schools is committed to providing a safe and secure learning environment for students and staff. This policy establishes a school behavioral threat assessment (BTA) and management program to conduct a fact-based, systematic process designed to gather information about, assess and manage behavior or communication that raises a concern that a person or situation may pose a threat of severe and significant targeted violence against the school community.

Oklahoma law requires an officer or employee of a school district or member of a board of education to notify law enforcement of any verbal threat or act of threatening behavior which reasonably may have the potential to endanger students, school personnel or school property. School district officers or employees of a school district or members of a board of education shall be immune from employment discipline and any civil liability for communicating information in good faith if they reasonably believe a person is making verbal threats or is exhibiting threatening behavior. This report requirement is separate from and should be made prior to the Threat Assessment Team meeting.

Nothing in this policy precludes school personnel from acting immediately to address an imminent threat, including immediately removing a student from school, subject to subsequent due process procedures when the student poses an immediate threat to themselves, others, property, or the educational environment.

The threat assessment process is distinct from and does not supplant the student discipline policy. A behavioral threat assessment will not impose suspension solely for investigating student conduct or conducting a threat assessment. Any action that could result in removal of a student from the student's school environment pending or after a threat assessment will only be carried out in accordance with state and federal law applicable to students with disabilities.

Threat assessment is not intended to refer students to the criminal justice system, but to facilitate the provision of resources and support to a student and to mitigate potential acts of violence. Law enforcement referral is not appropriate in the case of student behavior that is a violation of the school conduct code but that is not also a crime.

This policy applies to all students, staff, and visitors. The policy applies to threats made verbally, in writing, electronically, or through behavior that may indicate a risk of violence or self-harm.

Definitions

Threatening Behavior: Any verbal threat or threatening behavior, whether or not it is directed at another person, which indicates potential for future harm to students, school personnel or school property.

Threat Assessment Team (TAT): A multidisciplinary team tasked with evaluating and managing threats, which may include administrators, counselors, psychologists, law enforcement representatives, and other relevant staff.

Imminent Threat: A threat judged to be immediate or likely to occur in the near future.

Non-Imminent Threat: A threat that is concerning but does not indicate immediate danger.

The Threat Assessment Team shall consist of the principal, school counselor, school security personnel and a teacher or employee familiar with the student. The principal shall oversee the implementation, coordinate meetings, and communicate with the parent//guardians of the student involved. The Threat Assessment Team will assess any threat that is reported to determine severity and any needed interventions.

BEHAVIORIAL THREAT ASSESSMENT (CON'T)

Information related to threat assessments will be kept confidential and disclosed only to individuals with a legitimate educational or safety interest, consistent with applicable law.

Staff shall receive annual training on recognizing warning signs, reporting procedures, and threat assessment protocols.

The Threat Assessment Team shall maintain secure records of all assessments. This policy shall be reviewed annually by the school board or as needed to ensure effectiveness and compliance with state and federal law.

OPEN RECORDS REQUESTS

It is the policy of the Waynoka Board of Education to recognize and facilitate the public's right of access to and review of public records. The district is not required to release information contained in its education records except in conformity with the provisions of the Open Records Act, Title 51, Oklahoma Statutes, Section 24 A.1.

The superintendent's secretary shall be the district's custodian of public records and shall be responsible for the preservation and care of those public records. At least one person shall be available at all times to release records during the regular business hours of the school district. Additionally, the superintendent may establish reasonable rules of procedure by which public records may be inspected.

The superintendent shall charge a fee to recover the reasonable direct costs of copying district records. The superintendent shall also charge a fee for the direct costs of searching for district records sought for solely commercial purposes or for searches that cause excessive disruption to the district's essential functions. In no case shall a search fee be charged for records sought in the public interest including, but not limited to, releases to the news media, scholars, authors, and taxpayers seeking to determine whether officials of the district are honestly, faithfully, and competently performing their duties as public servants. Fees for copies shall be paid in advance before the copies are made. A deposit may be required for search fees. The school district may require advance payment of estimated fees when the estimated cost exceeds Seventy-five Dollars (\$75.00) or if the requestor has outstanding fees from previous requests.

The fee schedule for searching for and copying of district records shall be as follows:

Copies:	Research:
8 1/2" X 11" or	\$25.00 per hour
8 1/2" x 14"	\$.25 per copy
11" x 17" ledger	\$.50 per copy
Certified copy	\$1.00 per page

The written schedule of fees is posted at the central office and is on file with the county clerk. All confidential student records as defined by state and federal law shall remain confidential and accessible only to authorized personnel. The district may make requested records available online at the school district's website to comply with the obligation of providing prompt, reasonable access to records.

A requestor must complete a records request form which describes the records that are being requested with reasonable specificity. If the request is not specific, clarification must be provided. To have reasonable specificity, a request must:

- a. specify a general time frame within which the requested records would have been created or transmitted,
- b. seek identifiable records, rather than general information without any qualifiers or other specifications, and
- c. include search terms that are sufficiently specific to assist the public body in identifying the requested records.

School personnel may seek additional information from the requestor to fulfill the request and to identify the records sought by the requestor. The request may be denied if it is still not reasonably specific in accordance with state law or if the information that is requested is protected by state or federal law. Any request denied on the basis that a

OPEN RECORDS REQUESTS (CON'T)

record is not a public record shall include the statutory reference of the law which provides that the information is confidential.

REFERENCE: 51 O.S. §24 A.1, et seq.

NOTE: If regular business hours are not maintained, the school district is required by law to post and maintain a written notice at the main office of the school district and with the county clerk, which notice shall include the following: (1) the hours records are available for inspecting, copying, and reproduction; (2) the name, address, and telephone number of the individual in charge of the records; and (3) detailed procedures for obtaining access to the records at least two days of the week, excluding Sunday.
