MEMORANDUM

TO: RMSD Board of Education, Dr. George Bickert, Superintendent of Schools
FROM: Clint Taylor, Chief Procurement Officer
CC: Lenny Allen, Director of Maintenance, Kief Johnson, Director of Athletics and Activities
DATE: June 23, 2020
RE: **Procurement Report, IFB 2019-2020 SY#8, PPE**

The purpose of this memorandum is to provide a written procurement report to the Superintendent and Board of Education regarding Invitation for Bid 2019-2020 SY#8. This memo outlines the process to date, provides a recommendation to the Board, and requests that the Board approve of the District moving forward with a contract per NMSA 13-1-115.

The procurement requested invitation for bids (IFB) for the following products: 3 Ply Surgical Masks, KN95 Masks, Nitrile Gloves, Non-Touch Thermometers and antibacterial hand sanitizer gel. The District received bids from five vendors. Two vendors, EZ Reach LLC and Garex Industries, provided bids and complied with specifications for all products. These two vendors are recommended for a multiple award on the invitation for bid.

As you are aware, procuring personal protective equipment has been a challenge, and the District is grateful that these offerors were willing to serve our students. Notwithstanding any provision of the procurement, the District reserves the right to procure PPE through existing channels at lower prices and reserves the right to negotiate lower per unit prices at any point now or in the future.

Bids are available for review in the business office. Upon award, the bids will be made available to all offerors. In accordance with NMSA 13-1-116, the file and its contents are confidential until the award is formally conferred by the Board. The IFB can be viewed at: <http://www.ruidososchools.org/RFPS.aspx>

CAPABILITY STATEMENT

ABOUT XENEX[®]

Xenex Disinfection Services Inc. is a privately-held company headquartered in San Antonio, Texas. Xenex was founded by epidemiologists Dr. Mark Stibich and Dr. Julie Stachowiak in August 2008, with the core mission to significantly reduce the number of HAIs that impact the health and lives of millions of patients and their families, and become the new standard method for disinfection in healthcare facilities worldwide.

CORE COMPETENCIES

Xenex is a world leader in advanced disinfection systems. Our LightStrike™ Germ-Zapping™ Robots help hospitals reduce the pathogens that cause healthcare associated infections. Through our program, hospitals have achieved infection rate reductions greater than 70% for common pathogens such as *C. diff*, MRSA, CRE, VRE and other MDROs, as well as SSI rate reductions up to 100%.

The Xenex LightStrike Robot and program are structured to easily align with any facility's disinfection program needs. With 400+ prominent hospitals (including over 50 government facilities) utilizing Xenex programs, together we have developed and continue to reproduce effective infection rate reduction programs. We are committed to helping healthcare facilities reduce the risk and incidence of HAIs at their facility.

PRODUCT DESCRIPTIONS

LIGHTSTRIKE™ GERM-ZAPPING ROBOTS: Xenex LightStrike Germ-Zapping Robots are the first disinfection systems of their kind to deliver Pulsed Xenon UV light covering the full germicidal spectrum for fast, effective surface disinfection. The LightStrike Robots are able to deactivate bacteria and spores in a short 5 minute cycle. The user interface is intuitive, customizable and has a push button to start and, therefore cannot be compromised and started remotely. The Xenex cloud based Portal allows you to view Robot utilization data in real-time and a dedicated Account Executive will assist with monthly compliance metrics, ensuring your program's success.

DIFFERENTIATORS

EVIDENCE-BASED SCIENCE

1. Pulsed Xenon technology produces broad spectrum germicidal UV light in the range of 200 to 300nm
2. Infection Rate Reduction Program results demonstrated healthcare-associated infection (HAI) rate reduction and over 26 published peer-reviewed studies (including 10 hospital outcome studies) demonstrating rate reductions for *C. diff*, MRSA, CRE, VRE and other MDROs
3. Infection Rate Reduction Program results demonstrated reduction for class 1 surgical site infection (SSI) rates as shown in peer-reviewed published outcome studies

PATIENT SAFETY

1. The Pulsed Xenon disinfection program supports Joint Commission accreditation and National Patient Safety Goal 7 to reduce the risk of healthcare-associated infections under NPSG.07.03.01 and NPSG.07.05.01

STAFF SAFETY

1. Self-storing lamp system reduces the risk of contact burn and/or lamp breakage
2. Lamps do not require a safety protocol for cleanup in the event of lamp breakage
3. Easy to transport and maneuver (height < 48 inches/push weight < 5 lbs)
4. Triple sensor motion detection can sense motion from across a room

USABILITY

1. Can meet discharge and transfer demand between 12 - 24 rooms per day, per Robot
2. Five (5) minute cycle time to kill spores such as *C. diff*
3. Does not require a warm up or cool down period
4. No reported materials damage to plastics, metals and/or other materials

SERVICE AND REPORTING

1. Proactive, remote lamp monitoring to ensure lamp life is not exceeded
2. Monthly reporting and review of utilization, compliance, and infection rate data
3. On-site staff training, workflow integration and program implementation to ensure success
4. Technician training provided for Bio-Med or other qualified hospital personnel to perform general maintenance and repairs
5. Ability to access program portal 24/7 to monitor Robot utilization and other key program metrics
6. Service and support help-line available 24/7

DISASTER PREPAREDNESS

1. Robot has been tested to be effective against Ebola
2. Robot has been tested to be effective against Anthrax
