### Title II Section 3\_1: High Quality Instruction

Question 1	Question 2	Question 3
<p>The LEA (administration), in collaboration with the professional instructional staff, continuously monitor, evaluate, edit, and enhance all curricula. instructional assessment (CIA) system of each grade level (PreK-5) and subject area (6-12) to assure that student learning is taking place and grade level proficiency is achieved. One of the most important components of the assessment system is the creation of multiple curriculum-based measures (CBMs) that are given (throughout the year as a formative assessments) to assess student learning and teacher effectiveness in delivering instruction. Data driven analysis and subsequent decision-making based on CBM data has helped sustain long-term academic growth of all students in Ruidoso.</p>	<p><b>Each student maintains a data folder in which all student achievement scores are entered as part of district-wide data tracking systems. Students who may be identified as falling behind, or not meeting standards, are provided MLSS supports via the school's Student Assistance Team (SAT). An academic improvement plan is individually developed for students in need and/or who are a part of the SAT process.</b></p> <p><b>In the era of teacher shortages, the LEA partners with outside agencies (ENMU, Region IX) and NM PED supports (Achieve Excellence) to make sure that alternative-licensed receive necessary training and that early-career teachers receive the mentoring and support needed to deliver high quality instruction.</b></p>	<p>The LEA (administration), in collaboration with the Ruidoso Education Association (REA-teachers' union), works to schedule both Professional Learning Community (PLC) meeting time as well as job-embedded Professional Development (PD) for teachers and staff in all areas of need. A mathematics curriculum adoption took place during the 2020-21 school year and the LEA partnered with REA to assure that teachers receive HQPD aligned to the HQIM. During the 2020-2021 school year, the LEA purchased ELA, SLA, ELD, and World Languages curricula and will assure that all staff receive high-quality professional learning (HQPL) aligned to these high-quality instructional materials (HQIM).</p>

### Title II Section 3\_2: Educator Quality Measures By Subgroup

**RATING** How does the LEA ensure that all students in the subgroups listed are provided with high quality instruction

In all academic grade level/content areas, each of the LEA's identified demographic subgroups (Caucasian, Hispanic, Native American, Econ-Disadv., SWD, and EL) are compared to the "ALL" student group (and the same group at the state level) to determine if any achievement gaps exist.

When gaps are identified, adjustments are made to instruction and individual student decisions regarding which Multi-Layered Systems of Support are needed.

In ensuring an overall high-quality education for all subgroups, perhaps the most telling and important statistic is graduation rate. The LEA subgroup graduation rate comparison to the state's rates for the past three cohort groups is included in uploaded files at the end of the Title II application.

## Program Narrative

<b>Priority</b>	College, Career and Life Readiness
<b>Detail Narrative</b>	<p>The goals of the Ruidoso Municipal School District, in serving our Native American students, are</p> <ul style="list-style-type: none"> <li>- to improve attendance and reduce truancy;</li> <li>- to improve educational opportunities; and</li> <li>- to improve student outcomes by strengthening culturally responsive learning environments.</li> </ul> <p>Ruidoso Municipal School District would like to improve the educational opportunities for Native American students by addressing challenges with student attendance, academic achievement, and by strengthening culturally responsive learning environments.</p> <p><b>Increasing Attendance and Reducing Truancy</b></p> <p>Native American Liaisons serve the students at Sierra Vista Primary, White Mountain Elementary, Ruidoso Middle School, and Ruidoso High School. The duties of the Liaisons include monitoring of Native American students' grades and attendance. The Liaisons work with students, parents, teachers, and school administrators to address and problem-solve</p>

truancy concerns. These efforts include home visits by the Liaisons and school resource staff. The Native American Liaisons also work to identify Mescalero community resources to support families and ensure that students receive JPO and counseling supports. The District recognizes and supports Native American cultural and religious events. The Liaisons work to support these events, while ensuring that students maintain academic status. Grade level teachers mentor Native American students and help monitor classroom absences. When absences occur they call home in an effort to create and maintain a positive line of communication and to maintain a dynamic relationship between parents and school staff.

**Improving Educational Opportunities for Native American Students**

The Native American Liaison at Sierra Vista Primary will provide attendance, and student and parent support to primary school students, grades Pre-K through 2nd grade. More specifically, the Liaison will provide attendance messaging during enrollment and registration, and provide targeted home visits and phone calls to foster positive relationships and remind new students and their families about the importance of attendance. The Liaison will also review prior year attendance data for returning and incoming students, in an effort to flag students who were chronically absent in an effort to engage these students through appropriate school climate activities and incentives. The District believes that a focused effort on attendance of Native American students during the early school years will reap benefits during middle school and high school. The supplies and materials line item of the grant may be used to recognize improved attendance of Native American students.

At lower grade levels, Native American Liaisons assist Native American Students transitioning from one school to the next. A checklist is in place to identify specific student considerations when transitioning from school to school and grade to grade.

The grant funding will be used to employ tutors, and a Native American Liaison for Sierra Vista Primary, which serves early childhood and primary grades, to support Native American students to ensure that they meet and exceed grade level expectations. The District endeavors to start tutoring during the month of August. All data is disaggregated by subgroups to identify gaps and trends in student needs. See table below.

The District also intends to expand efforts to expose Native American students to career and college opportunities through campus and work site visits, paired with FAFSA and application support.

**Describe how the proposed program meets the goals of the IEA**

**The following are the identified goals of the IEA. The emboldened ones are addressed specifically in Ruidoso's proposed program.**

**A. Ensure equitable and culturally relevant learning environments, educational opportunities and culturally relevant instructional materials for American Indian students enrolled in public schools.**

**Ruidoso partners with our Native American Liaisons and local tribal educational leaders on finding and providing as much culturally-relevant curricular and instructional materials as possible. Additionally, the District is in partnership with the**

**NMPED on developing and instituting more culturally and linguistically-appropriate material for Native and English Language students.**

**B. Ensure maintenance of Native American languages.**

The district's overall K-12 approach to English language development is to provide all English learners with the individualized instruction they need in order to become English proficient and academically successful. The English Learner Program fully implements the English Language Development Standards. Teachers collaborate to create rich academic/content-oriented lesson plans. K-5 students participate in a 45-minute block of ELD instruction facilitated by a TESOL-endorsed teacher. Secondary students participate in a transitional ELA/ELD program that addresses the unique language needs and various levels of English proficiency (according to ACCESS 2.0 data) facilitated by a TESOL and ELA teacher. Instruction for English Learners is highly focused and innovative in both elementary and secondary programs. Teachers collaborate on a weekly basis to expand and enhance the abilities of ELs. All programs for English Learners are supported by a scientifically research-based curriculum designed to advance students in the acquisition of English. The WIDA curriculum and ACCESS data are used to guide teachers in the delivery of instruction for English Acquisition for ELs. Daily instruction in English Language Arts is provided for all students.

English Learners are provided instruction in their home language as well as in English within the regular education setting. This allows them to be provided with a curriculum that is aligned with CCSS while simultaneously learning English. The WIDA curriculum and ACCESS data are used to guide teachers in the delivery of instruction for English acquisition and to ensure that adequate progress in becoming proficient is monitored and made. At the elementary level, a 45-minute block of ESL/ELD instruction is part of the daily schedule. At the secondary level, course 1062 and 1063 are offered, which provides ESL/ELD and ELA/ELD instruction.

**STUDENT DISCIPLINE**

Parents, school personnel and students shall be involved in the development of policies, and public hearings before the Board shall be held during the formulation of these policies in the high school attendance areas within each district or on a district-wide basis for those districts that have no high school. The Superintendent shall prepare and recommend the final format of discipline policies and develop procedures for the discipline of students that comply with state laws and regulations. These policies and procedures will apply to all students traveling to, attending, and returning from school, and while visiting another school or at a school-sanctioned activity and may be imposed if the student's behavior affects the school order. When suspension or expulsion is involved, notice, hearing, and appeal procedures shall conform to applicable legal requirements.

However, no local school board shall allow for the imposition of discipline, discrimination or disparate treatment against a student based on the student's race, religion or culture or because of the student's use of protective hairstyles or cultural or religious headdresses.

Racialized aggression defined as any aggressive act which can be characterized, categorized or which appears as such to be racial in nature is prohibited. A link to a statewide hotline for reporting such incidents is provided on the District Website located at ( fill in web address for school district).

Information concerning a student's disciplinary record will be held in the strictest confidence.

Disciplinary actions taken will be recorded in an administrative log, and all types of suspensions or expulsions will be recorded in a separate file for each student.

**Policy Advisory No. 210. JK – Student Discipline.** Senate Bill 80 and House Bills 29 and 43 approved during the recent New Mexico legislative session added to the current statute 22-5-4.3 regarding school discipline policies.

The addition from **Senate Bill 80 and House Bill 29** was on the subject of prohibiting imposition of discipline, discrimination or disparate treatment against a student's race, religion or culture or because of the student's use of

protective hairstyles or cultural or religious headdresses. After review of these bills, Policy Services has interpreted them to address the issue of hair as it may cause a disruption of the education of students. Educators are likely familiar with the past court cases and discussions surrounding the issue of hair color, length, style and sundry other concepts that were considered to distract from the education of other students. A narrow interpretation of the changes enacted by these bills would seem to focus on protective hairstyles or cultural or religious headdresses. The definitions in statute 22-5-4.3 however, would require a broader interpretation.

It appears to Policy Services that hair as to color, length, style, including wigs would now be off limits to disciplinary action for disruption of the educational process. Additionally, an individual's personal cultural or religious headdresses, and wraps can not be considered a disruption to the educational process. It is the suggestion of Policy Services that any focus of disciplinary action regarding hair or coverings of the hair relative to the individual's personal cultural or religious beliefs, can no longer be the considered for disciplinary action.

It may be noted that the change suggested in Policy JK, Student Discipline, does not include the extensive definitions of the statute. The statute is linked to the policy for reference purposes but the definitions are not included in the policy since they were so broad as to be inclusive of any and all disciplinary action related to hair unless judicial verification would provide otherwise. Efforts to make exceptions by a school district will likely be challenged at some legal cost.

**House Bill 43** added a section to statute 22-5-4.3 which requires all school discipline policies define and include a specific prohibition against racialized aggression involving a student or school personnel and provide links to the statewide hotline to report racially charged incidents or racialized aggression.

Policy Services has selected the following definition of racialize for purposes of definition since none was given in statute. Racialized: to give a racial character to; to categorize, marginalize , or regard according to race. Using this definition with aggression would give us a definition as follows: racialized aggression would be defined as characterizing, categorizing or marginalizing an aggressive act as racial in nature. This definition has been used in the policy JK. Should a school district wish to use another definition it should feel free to do so.

General provisions for discipline are as follows:

### **Policy Advisory Discussion**

**Policy Advisory No. 210. JK – Student Discipline.** Senate Bill 80 and House Bills 29 and 43 approved during the recent New Mexico legislative session added to the current statute 22-5-4.3 regarding school discipline policies.

The addition from **Senate Bill 80 and House Bill 29** was on the subject of prohibiting imposition of discipline, discrimination or disparate treatment against a student's race, religion or culture or because of the student's use of

protective hairstyles or cultural or religious headdresses. After review of these bills, Policy Services has interpreted them to address the issue of hair as it may cause a disruption of the education of students. Educators are likely familiar with the past court cases and discussions surrounding the issue of hair color, length, style and sundry other concepts that were considered to distract from the education of other students. A narrow interpretation of the changes enacted by these bills would seem to focus on protective hairstyles or cultural or religious headdresses. The definitions in statute 22-5-4.3 however, would require a broader interpretation.

It appears to Policy Services that hair as to color, length, style, including wigs would now be off limits to disciplinary action for disruption of the educational process. Additionally, an individual's personal cultural or religious headdresses, and wraps can not be considered a disruption to the educational process. It is the suggestion of Policy Services that any focus of disciplinary action regarding hair or coverings of the hair relative to the individual's personal cultural or religious beliefs, can no longer be the considered for disciplinary action.

It may be noted that the change suggested in Policy JK, Student Discipline, does not include the extensive definitions of the statute. The statute is linked to the policy for reference purposes but the definitions are not included in the policy since they were so broad as to be inclusive of any and all disciplinary action related to hair unless judicial verification would provide otherwise. Efforts to make exceptions by a school district will likely be challenged at some legal cost.

**House Bill 43** added a section to statute 22-5-4.3 which requires all school discipline policies define and include a specific prohibition against racialized aggression involving a student or school personnel and provide links to the statewide hotline to report racially charged incidents or racialized aggression.

Policy Services has selected the following definition of racialize for purposes of definition since none was given in statute. Racialized: to give a racial character to; to categorize, marginalize , or regard according to race. Using this definition with aggression would give us a definition as follows: racialized aggression would be defined as characterizing, categorizing or marginalizing an aggressive act as racial in nature. This definition has been used in the policy JK. Should a school district wish to use another definition it should feel free to do so.

As to providing links to the statewide hotline for reporting incidents of racialized aggression, a general statement of intent was included with the expectation that the school district would provide a link on its website to the statewide hotline for this purpose, upon such a hotline being available. Policy Services was unable to find a specific hotline for racial purposes.

***Policy Advisory No. 211. JICA*** – The only changes made to the policy on Student Dress and grooming are the addition of the legal reference to NMSA 22-5-4.3 and the cross reference to JK.

***Policy Advisory No. 212. AC*** – The only change made to the policy on Nondiscrimination is the addition of the legal reference to NMSA 22-5-4.3 because the statute adds to discriminatory offenses by way of definitions.

***Policy Advisory No. 213. GCQF*** – Discipline, Suspension, Termination and Discharge of Professional Staff. Per the requirements of House Bill 43 the addition of the prohibition against racialized aggression and reference to the link to a statewide hotline for reporting were added to this professional staff discipline policy. Again, it should be noted that Policy Services was unable to find a specific hotline for racial purposes.

***Policy Advisory No. 214. GDQD*** – Discipline, Suspension, Termination and Discharge of Support Staff. Per the requirements of House Bill 43 the addition of the prohibition against racialized aggression and reference to the link to a statewide hotline for reporting were added to this professional staff discipline policy.

### **Policy Advisory Discussion**

**Policy Advisory No. 210. JK** – Student Discipline. Senate Bill 80 and House Bills 29 and 43 approved during the recent New Mexico legislative session added to the current statute 22-5-4.3 regarding school discipline policies.

The addition from **Senate Bill 80 and House Bill 29** was on the subject of prohibiting imposition of discipline, discrimination or disparate treatment against a student's race, religion or culture or because of the student's use of

protective hairstyles or cultural or religious headdresses. After review of these bills, Policy Services has interpreted them to address the issue of hair as it may cause a disruption of the education of students. Educators are likely familiar with the past court cases and discussions surrounding the issue of hair color, length, style and sundry other concepts that were considered to distract from the education of other students. A narrow interpretation of the changes enacted by these bills would seem to focus on protective hairstyles or cultural or religious headdresses. The definitions in statute 22-5-4.3 however, would require a broader interpretation.

It appears to Policy Services that hair as to color, length, style, including wigs would now be off limits to disciplinary action for disruption of the educational process. Additionally, an individual's personal cultural or religious headdresses, and wraps can not be considered a disruption to the educational process. It is the suggestion of Policy Services that any focus of disciplinary action regarding hair or coverings of the hair relative to the individual's personal cultural or religious beliefs, can no longer be the considered for disciplinary action.

It may be noted that the change suggested in Policy JK, Student Discipline, does not include the extensive definitions of the statute. The statute is linked to the policy for reference purposes but the definitions are not included in the policy since they were so broad as to be inclusive of any and all disciplinary action related to hair unless judicial verification would provide otherwise. Efforts to make exceptions by a school district will likely be challenged at some legal cost.

**House Bill 43** added a section to statute 22-5-4.3 which requires all school discipline policies define and include a specific prohibition against racialized aggression involving a student or school personnel and provide links to the statewide hotline to report racially charged incidents or racialized aggression.

Policy Services has selected the following definition of racialize for purposes of definition since none was given in statute. Racialized: to give a racial character to; to categorize, marginalize , or regard according to race. Using this definition with aggression would give us a definition as follows: racialized aggression would be defined as characterizing, categorizing or marginalizing an aggressive act as racial in nature. This definition has been used in the policy JK. Should a school district wish to use another definition it should feel free to do so.

As to providing links to the statewide hotline for reporting incidents of racialized aggression, a general statement of intent was included with the expectation that the school district would provide a link on its website to the statewide hotline for this purpose, upon such a hotline being available. Policy Services was unable to find a specific hotline for racial purposes.

***Policy Advisory No. 211. JICA*** – The only changes made to the policy on Student Dress and grooming are the addition of the legal reference to NMSA 22-5-4.3 and the cross reference to JK.

***Policy Advisory No. 212. AC*** – The only change made to the policy on Nondiscrimination is the addition of the legal reference to NMSA 22-5-4.3 because the statute adds to discriminatory offenses by way of definitions.

***Policy Advisory No. 213. GCQF*** – Discipline, Suspension, Termination and Discharge of Professional Staff. Per the requirements of House Bill 43 the addition of the prohibition against racialized aggression and reference to the link to a statewide hotline for reporting were added to this professional staff discipline policy. Again, it should be noted that Policy Services was unable to find a specific hotline for racial purposes.

***Policy Advisory No. 214. GDQD*** – Discipline, Suspension, Termination and Discharge of Support Staff. Per the requirements of House Bill 43 the addition of the prohibition against racialized aggression and reference to the link to a statewide hotline for reporting were added to this professional staff discipline policy.

TO: RMSD Board of Education  
FROM: Heidi Shanor, Director of Learning and Student Services  
CC: Dr. George Bickert, Clint Taylor, Veronica Prieto, Ann Spence  
RE: **ELA, SLA, ELD, World Languages Textbook Adoption, Grades 9-12**  
**ELD Textbook Adoption, Grades 6-8**

---

The purpose of this memorandum is to provide to the Board of Education the final selections from the textbook adoption committee for English Language Arts (ELA), Spanish Language Arts (SLA), English Language Development (ELD), and World Languages (Spanish) and the expenditure amount for each recommended selection. This memo outlines the process to date, provides the final selection recommendations, and the expenditure amount for each curriculum and requests that the Board consider approval of each of the textbooks for adoption.

In January, 2021, the Director of Learning and Student Services and Bilingual Coordinator contacted each of the textbook publishing companies which are on the New Mexico Public Education Department approval list to obtain information and schedule presentations to be made to the RMSD textbook adoption committee.

In February, 2021, the textbook adoption committee, consisting of grades 2-12 teachers and staff and RHS parent, met to review the textbook publishers, select a rubric with which to score the curricula, develop a protocol for review and piloting of lessons from each curricula, and set dates for publisher presentations.

In late February and March, 2021, ELA, SLA, ELD, and Spanish teachers piloted lessons from each curricula in their classrooms.

In mid-March, 2021, each department met to score each curricula using the agreed upon rubric.

On April 8, 2021, the textbook adoption committee met, reviewed the completed rubrics, and made the final textbook selections to be used beginning with the 2021-2022 school year. The adoption is for six years.

The final selections for recommendation:	Quote Price:

**RE: Board Action Item, Ruidoso Middle School Library Furniture Upgrade**

---

The attached quote from Meteor Education is for the purchase and installation of furniture for the Ruidoso Middle School Library. As background, English Language Arts staff and building leadership have been working for the past year to design plans to make the library setting more of a literacy and collaboration space rather than a testing center. The attached furniture upgrade and reconfiguration will accomplish this objective. The cost of the project is not expected to exceed \$37,734.

The Ruidoso High School library is also scheduled for an upgrade, and staff are working with Meteor on a similar proposal. The high school proposal is expected to be more broad in scope.

**SCOPE OF SERVICES AND ASSOCIATED FEES  
WARRIOR DRIVE MULTI-USE TRAIL  
APRIL 28, 2021  
Page 1 of 4**

**Project Description:**

The Ruidoso Municipal School District (District) would like an ADA accessible trail from the existing Hull Loop Trail on the west side of Hull Road along Warrior Drive to the entrance to the Ruidoso High School. The District would also like a recreational trail from the High School entrance to the Ruidoso Middle School bus drop off. The recreational trail may not be able to be constructed with the existing funding but will be designed as a future project. It is assumed that the ADA accessible trail will be paved. The recreational trail could be paved or compacted earth.

**Task 1 – Topographic Survey**

BHI proposes to use USGS data for a topographic surface. BHI will use Sierra Blanca Survey to supplement the surface with features such as drainage structures, curb, edge of road, and signs. Existing utilities marked by the One-Call service will be surveyed.

**Task 2 – Preliminary Design**

BHI will prepare preliminary plans (30%) for the proposed trail. A best-fit alignment will be determined along the north side of Warrior Drive. BHI will use the NMDOT design guidelines and the preliminary design checklist as a guide for developing the preliminary design package. The proposed path alignment will be determined after the reviewing the topographic survey and information gathered at the field visit. The preliminary plans will include the existing ground terrain, path centerline of the proposed typical section from edge of existing pavement based on best fit. ADA PROWAG requirements will be followed. If it becomes impossible to follow the requirements, then a design variance will be prepared and submitted to NMDOT for approval.

Preliminary design will include a pedestrian crossing at the intersection of Hull Road and Warrior Drive, extension of the culverts in the intersection, a potential new culvert to replace the existing pedestrian bridge, crossings of the entrance to the Middle School and entrance to the High School.

The preliminary path design will include establishing vertical and horizontal alignments and developing a Civil 3D model. Excavation of existing slopes will be minimized to reduce erosion.

The engineer will develop an Opinion of Probable Construction Cost utilizing the most up to date NMDOT Unit Bid Prices and any necessary adjustments based on local cost construction projects. A preliminary traffic control plan will be completed for review in accordance with MUTCD for any shoulder closures on Hull or Warrior Drive.

**Task 3 – Right-of-Way Coordination**

BHI will coordinate with the District and the Village for Property Ownership Documentation. A certification request letter will be prepared for the District to submit to NMDOT. BHI will coordinate with NMDOT for the ROW Certification.

**Task 4 – Environmental**

BHI and our Environmental subconsultant will prepare a Categorical Exclusion (CE) document in accordance with the National Environmental Policy Act (NEPA) regulations and other applicable guidelines and regulations. BHI's Environmental Consultant will follow the NMDOT's Location Study Procedures in completing the environmental documentation. Pedestrian biological and archaeological surveys will be conducted. Wetlands have been identified in three locations. The extent of the wetlands will be delineated. A Wetland Delineation Report will be prepared. Other documentation includes a Categorical Exclusion, a Cultural Resources Report, a NMCRIIS Investigation Abstract Form, a Biological Assessment, agency scoping and tribal consultation letters. The environmental documents will be submitted to NMDOT for review.

**Task 5 – Public Involvement**

A virtual public information meeting will be conducted via Zoom to get input from the local community. The meeting will be advertised in the local newspaper. A PowerPoint presentation will be prepared to convey the trail alignments to the public. BHI will provide documentation of the comments received and after the public meeting as part of the CE completed for the project.

**Task 6 – Utility Coordination and Certification**

BHI will subcontract with Cobb Fendley for utility coordination and certification. Cobb Fendley will perform the following services:

Quality level D: A records research of existing subsurface and overhead utilities within the project limits will be done by contacting each utility owner and obtaining their available facility records. NMDOT and the Village of Ruidoso will be contacted for any permits that have been issued to utility companies. A list of utility owner contacts will be developed.

Quality level C: QLC mapping will be prepared by correlating surveyed surface evidence to the QLD utility records to obtain the utility location. QLC mapping includes utility type, ownership, size and material composition based on available record information.

Utility Certification: Design plans will be distributed to utility owners at the 30%, 60%, and 90% design. A utility coordination meeting will be held. Our subconsultant will obtain utility verification letters from each of the affected utility owners. A utility certification letter will be prepared.

Due to the nature of the project and limited excavation, It is assumed that no Level A or B utility designating or locating (potholing) will be necessary. If through the coordination process any designation or potholes become necessary to obtain the certification, then an additional service request will be made. One field coordination meeting is assumed. A Utility Certification Request letter will be prepared for District signature.

**Task 8 – Final Design**

BHI will complete the final design of the multi-use trail from the end of the trail on Hull Road to the entrance to Ruidoso High School on Warrior Drive. BHI will also prepare plans for a recreational trail from the High School entrance to the Middle School Bus Drop Off Area. BHI will use the NMDOT's guidelines and final checklist as a guide for completing the final design package. The design parameters will be developed using current engineering practices and guidelines adopted by the NMDOT. Horizontal and vertical alignments will be updated as necessary and the Civil 3D model will be developed to provide cross sections of the path, driveways, and existing roads. Final design will also include drainage culvert extensions. BHI will conduct an independent quality control review of each submittal during final design development. The review will be conducted by an engineer or planner who is not directly involved in the development of the plans. BHI will deliver 60/90%(combined) and Final/PSE design plans to the NMDOT, the Village of Ruidoso, and the District for review. The PSE submittal package will include any applicable NTC's that are project specific, plans, and the Probable Construction Cost Estimate, Work Zone Checklist and PSE/LTPA Checklist. BHI will address PSE comments and produce/submit sealed plans to the NMDOT and the District for production and respond to miscellaneous requests prior to bid advertisement. BHI will prepare all contract and bid documents as part of the submittal package for the District in accordance to NMDOT contract and bidding requirements. Bidding assistance, attendance and support of a Pre-Bid meeting, Pre-Construction meeting & construction support and/or inspection are not included with the design services scope, and can be developed later as requested by the District.

A 404 and 401 permit will most likely be required to extend the drainage structures in the Hull Road intersection. BHI will prepare a 404 / 401 permit application and coordinate with the US Army Corps of Engineers.

**Task 9 – Meetings and Coordination**

BHI's project manager will coordinate and attend up to two design team meetings with the District and NMDOT staff to discuss design progress and technical issues. These include a kickoff meeting with the project team. BHI's Project Manager will hold up to six internal meetings to share ongoing analysis, gather input from team members and keep all parties informed on the progress of the project. Additional design team meetings will occur at key milestones, 30%, 60/90% (combined) and Final/PS&E design reviews.
