Motion to approve the Consent Agenda and the bills, and to authorize the Board President and Treasurer to sign and validate all the checks as presented. This motion, made by Darren Wright and seconded by Tim Stopak, Passed.

Ed Knott: Abstain (With Conflict), Karrie Fogleman: Yea, Kathleen Rolf: Yea, Tim Stopak: Yea, Darren Wright: Yea

Yea: 4, Nay: 0, Abstain (With Conflict): 1

Board Member Ed Knott's Contractual Interest Statement NADC Form C-3 was read and submitted noting his interest in the Applied Connective Open Account Invoice.

1. Meeting Agenda and Previous Meeting Minutes

2. Bill Roster and Financial Reports

5. Board Committee Reports

1. Committee on American Civics

Committee on American Civics meeting will be held during the next Regular Board of Education Meeting on November 11th @ 7:30. Public Comment will be accepted during this time.

2. Transportation Committee

Transportation Committee met October 2nd to discuss and review the bus and vehicle fleet, and bus driver salaries. It is the recommendation of the committee to trade the 2002 Chevy Silverado for 2017 Ford F150, to trade the 2007 Thomas Freightliner for 2021 Thomas Freightliner, and to increase wage for bus activity drivers to \$18.00/hour.

3. Facility Committee

Facility Committee met October 3rd to review proposals from interested Performance Criteria Developers. Four candidates expressed an interest in the position. It is the recommendation of the Facility Committee to approve contract with Cleve Reeves, BVH Architecture.

6. Administrative Reports

1. Elementary Principal

Mr. Theis notes 97% attendance rate for fall parent teacher conferences.

2. Middle School Principal

Mr. Curry reported that the fall MAP testing has been completed. 87% of the middle school parents were in attendance at the fall parent teacher conference. A Course Proposal Process and Curriculum Adoption Process was presented to the board to be implemented this fall.

Mrs. Webster presented details pertaining to our current class rank policy; asking the board to consider adopting the Laude system.

3. High School Principal

Mr. Kravig updated the board on MAP testing results and details pertaining to the school improvement process and strategic plan.

4. Activities Director

5. Superintendent

Superintendent Hardwick noted that a Correction Notice was to be published correcting a clerical error on the property valuation total for the 2019-20 budget. This correction did not affect the budget of disbursements, nor did it increase the amount of property tax request.

7. Public Comment

8. Action Items

1. Performance Criteria Developer Contract Agreement

Motion to approve Performance Criteria Developer Contract Agreement with BVH Architecture for the design study and standards development of the 2020 Facilities Project as presented. This motion, made by Ed Knott and seconded by Darren Wright, Passed.

Board & Administrator

FOR SCHOOL BOARD MEMBERS

October 2019 Vol. 33, No. 6

Editor: Jeff Stratton

Developing an entry plan: Part 3

By Dr. Peter Gorman

My entry plan had a lot of moving parts (i.e., meetings, events, and activities), but I was able to maintain my focus because the entry plan had five goals that were clearly articulated and understood by the Board of Education and by me. Those goals were:

1. Develop and ensure successful district reform governance through effective and positive board-superintendent relations.
2. Increase student achievement for all students while simultaneously closing the achievement gap.
3. Improve public trust, commitment, and confidence through open, honest communication, responsive corrective action to identified obstacles to improving student achievement, and the conditions of teaching and learning.
4. Increase organizational effectiveness and efficiency.
5. Establish a supportive, positive, and effective district climate and culture singularly focused on the improvement of student achievement using a continuous improvement model.

Getting to this point — garnering board approval for a preliminary course of action, which is of course what the goals were — was a crash course for me in board relations.

The wind was in my favor, as much as it could be given with the contentious nature of the Board of Education and their negative image in the court of public opinion. Mitigating these factors was that the Board of Education was in the middle of comprehensive training and had adopted policies supporting reform and improvement. What it boiled down to for the district was that the superinten-

dent and the senior leadership team had to create a climate and culture and put in place systems, processes, and structures to create an aligned system to increase student achievement at scale for all students, closing achievement gaps, and increase the graduation rate. In this organization, the superintendent is the person with the car keys and the principal is the person actually driving the car. All other players — administrators, teachers, and school support staff — are passengers.

All of this was in my mind when I created five goals for my first three months as superintendent. I had to win over the board, the public, and the employees simultaneously while laying out and selling all three audiences on my personal theory of action for increasing student achievement at scale.

In any top leadership job, the treadmill is already up and running when you step on it — and my entry was no exception. But the five goals provided structure and focus for me and for the Board of Education.

The goals served another purpose, too. They became a significant part of my evaluation. All of this was by design. The key point here is that from the beginning, we focused on an aligned system to increase student achievement at scale. An effective entry plan is an integral component of such a system. We aligned our actions with identified goals. We aligned those goals with my evaluation, as well as the evaluations I did for executive staff each year. And we aligned them with what we thought was best for students. The early goals, the long-term goals, the district's success, and my evaluation were inextricably linked, and during my entire time in Charlotte this alignment drove our work. ■

Never attack the media; avoid grandstanding

Reporters love it when a board member is very angry and confronts them about press coverage. Great quotes make for great stories.

This is why it's vital to speak with one unified voice. Nothing destroys public confidence quicker

than board members publicly quibbling during meetings.

It's another reason why you don't want individual board members going off with a reporter to give their own media interviews on a contentious issue. ■

Evaluate progress toward goals

Evaluate the progress you make toward your goals at least once a year. Did you reach them? Did you learn something that will help you plan for next year? It's easy to make the same mistakes twice if you don't carefully analyze where you encountered problems.

But always remember, the board evaluates the administrator, and the administrator evaluates the em-

ployees. The board's evaluation of staff performance infringes on the superintendent's responsibilities.

What about your district's future? There are plenty of places your district can go and too little time and money to accomplish everything.

Recommendation: Sit down as a board and superintendent team. Decide where you want the district to go and make your plans. ■

Role and responsibilities chart gives guidance

It's important for boards and their superintendents to clarify who is responsible for what. This is an effective way to avoid problems, like board micromanagement of the administrator that

can create tension in the board-superintendent relationship. Use the following chart to designate specific board and superintendent responsibilities:

Key: **B** = board responsibility; **S** = superintendent responsibility.

1. Establish and communicate the mission, values, and strategic goals for the school system. **B**
2. Develop and approve policies to guide the district. **B**
3. Implement board policies and directives. **S**
4. Advise the board on all matters under board jurisdiction. **S**
5. Recommend policies, strategic plan initiatives, and educational programs for board consideration. **S**
6. Implement the strategic plan. **S**
7. Approve the annual budget. **B**
8. Establish a monitoring and evaluation system, as well as support and recognition systems. **B**
9. Oversee financial planning and control. **S**
10. Establish organizational roles for staff. **S**
11. Evaluate the effectiveness of the board in achieving established goals. **B**
12. Supervise and evaluate district operations, and report to the board on district performance. **S**
13. Appoint/select school site and central office administrators. **S**
14. Report annually to the public on school performance. **B**
15. Act as an advocate for public education. **B/S**
16. Report to the board on student learning, achievement, and development. **S**
17. Maintain professional relationships with staff, administrators, the parent community and other community individuals, groups, and organizations. **S**
18. Hire, supervise, evaluate, and, if necessary, terminate the superintendent. **B**
19. Know and follow its own policies. **B**
20. Share information openly. **B/S** ■

Proposal for Architectural Services

Boone Central Schools
2020 Facilities Project

BVH

PCD Proposal: Boone Central 2020 Facilities Project

Dear Nicole & Selection Committee,

Thank you for the opportunity to assist Boone Central Schools with this important next project as the Performance Criteria Developer. Herein you will find our credentials, past projects related to our experience, record, and performance as well as our proposal for professional services, including our billing rates.

Distinctions you will find in the BVH team for this project:

- **The BVH team has an innate understanding of your Albion campus from our existing work there.** We will bring insight to this process due to our involvement on the past project. Cleve Reeves will lead the overall educational design consulting, concept design, and project management. Bryan Solko and Mike Daily, two of BVH's best experienced staff, will assist with technical insight in key areas where needed.
- **Our working style is to first ask questions, then help you to determine the best path forward.** Our goal in this process will be to establish a basis for the Design-Builder to successfully and quickly understand the issues important to the overall project's success, leading to a successful overall project.
- **We understand how to balance front-end costs with long term efficiencies, operations, durability, and maintenance.** School budgets are usually limited, so we need to make sure the design and construction will last for generations to come. Our work with many PK-12 school designs are a testament to this.
- **A project management process that will deliver.** This proven BVH team has worked together on many successful projects for 12 years. We know how to stay on schedule, adhere to a budget and keep the Owner-Architect team moving forward together through the process.

We genuinely appreciate the opportunity to continue the relationship with Boone Central Schools. We pride ourselves not only on the quality of our work, but also in the deep relationships our collaborative process espouses. Let me know if I can answer any questions to help you make the decision to move forward with BVH on this project.

Sincerely,

Cleve Reeves, AIA
Principal

BVH Architecture is a purpose-driven design practice committed to an immersive and collaborative creative process. We seek to create architecture that enhances and inspires the community in which it serves.

Firm History & Services (A)

BVH Architecture has engaged in the design and preservation of our built environment through the practices of architectural design, interior architecture, and planning since 1968. Our studio locations in Lincoln and Omaha are home to multi-disciplinary design staff bent on making the world better by designing exceptional places to live, work, learn, and play.

We employ the same creative and collaborative approach in our design studios as we do in our projects. We utilize an open and energetic environment which allows a unique approach to projects with the collective knowledge of everyone in the studio, and we encourage our clients and the community to engage with us in our design pursuits.

At the core of our design practice lies the desire to do more with built environments than meet minimum requirements. Our vision as designers is to transform lives by creating places that contribute to the vitality of communities. We believe in making the world better by design.

Cleve Reeves, AIA

PRINCIPAL-IN-CHARGE / EDUCATION DESIGN LEADER

BVH ARCHITECTURE

Cleve has considerable experience in all phases of design from programing and master planning through construction. His skills in formulating client centered concepts and ideas help bring teams together in a collaborative process. Cleve leads BVH's future-focused learning space design initiatives, shaping BVH's practice and projects to deeper levels of achievement. With his calm inquisitive approach, project challenges are ushered through the inherently complex layers to successful resolution.

PROJECT MANAGER

BVH ARCHITECTURE

Bryan has extensive experience as a project architect on multiple projects including educational spaces, community centers, recreation facilities and more. His responsibilities include developing and executing the architectural design and delivery of the project by coordinating the work between owner, users, consultants and contractors, as well as overseeing code review, construction materials and assembly methods, technical research, sustainable methods and the BIM process. Bryan will also perform the overall construction administration tasks and responsibilities including shop drawing review, on-site observations and contract document conflict resolution ensuring a holistic design execution.

Project Approach

300+

TOTAL FACILITIES

\$400+

MILLION DOLLARS,
K-12 WORK IN PAST 5 YEARS

Education is the passport to the future, for tomorrow belongs to those who prepare for it today.

MALCOLM X

We are a purpose-driven practice intent on improving the built environment. Our focus within learning space design is to improve learning outcomes through our work. We do this by understanding educational goals and needs, and imparting design expertise and construction best practices into a seamless process. We keep a thorough consciousness of cost implications at every stage of the project. We are more than a collection of architects and engineers; we are a team of creative thinkers pushing to create better learning environments through our work.

SCHOOL DESIGN UNDERSTANDING

Our team understands the complex needs of planning and designing new and consolidated school facilities. We know the unique needs of learners at various levels of elementary, middle school, and high school. While respecting varying educational approaches from school to school, many design needs transcend to provide guiding factors that influence the design of educational facilities today:

- 1 The educational approach must drive the facility design.
- 2 A secure and safe environment is paramount for learners to explore and live in a world where the once unthinkable is becoming all too common.
- 3 Visibility is important for educators and learners to remain connected and have natural exposure to various learning activities.
- 4 Academic areas should be zoned separately from activity/public access areas for safe operations and building segmentation.
- 5 Separation and overlap of primary, middle, and secondary education levels needs to be assessed for unique educational delivery to be employed in new school facilities.
- 6 Natural daylight both stimulates and creates a connection to the rhythm of the day, seasons of the year, and the larger world we live within.
- 7 Health and comfort standards set a baseline for air quality and acoustics that have significant impacts on learning for children.
- 8 Efficient operations are a baseline we push forward at every step. How to improve the standards while reinforcing the learning environment and balancing the front-end costs is a challenge we enjoy.

Advanced Professional
Studies, Sandy Creek
High School

Fairfield, NE

RESEARCH & INSIGHTS

Our educational design thought leaders stay ahead of the trends in many ways. We regularly reach out to other educational thought leaders to understand where impactful teaching and learning is going. We are not focusing on the trends that come and go, rather on the underlying long term educational benefits that are true shifts within schools. **Our goal is to translate best educational practices in to a facility that will endure to support learning for decades.** Our team is made up of diverse individuals, each with a different focus on the design factors that make educational design truly outcome focused.

PROJECT MANAGEMENT

Effective project management is both a science and an art. Our project managers are experienced at the essential skills of communication, leadership, team management, risk management, cost management, schedule adherence, etc. We also understand the need for design and schedule adjustments along the way.

MANAGING COST / VALUE ENGINEERING

Cost control begins at the first step. Change orders during construction can be greatly reduced by in-depth existing conditions analysis. Matching early baseline expectations with budget goals ensures all parties understand priorities, while keeping potential enhancements active in the process for decision making based on thorough understanding of all factors. Throughout the design process an estimate will be developed and updated during each design phase (programming, schematic design, design development

and construction documents). We push to include relevant details as early as practical in the process, including: building systems, engineering systems, furniture, technology integration, and site development. Contingencies are developed for those items not fully understood or developed at early stages and a discovery allowance going into bidding is advisable to handle unforeseeable conditions that will arise in an existing structure. Value engineering is a system embedded throughout our design process. At every stage, we verify budget alignment to the design and make recommendations on any changes needed or opportunities for further development.

EDUCATIONAL DESIGN

An educational facility creates a great opportunity to inspire learners to engage the learning process and catapult their academic careers forward. We understand that architecture needs to play a supportive role while creating instances that elevate the engagement in key opportunities. Allowing spaces to fluctuate between focus and play, respite and action, excitement and inquiry, take precedence over style and monumentality. Our focus is on learning outcomes. This project needs to set the stage for many learners academic success for generations to come.

While playing a supportive role to the educational outcomes being planned, we like to play off the excitement of the students to draw and create inspiration for design. We have a deep respect for the roles color, materials, light, and spatial design can play in enhancing the learning environment. Creating places of learning that feel like space for play engages learners at their core to help motivate them

to engage in the educational process. In various projects we have built window seats, study niches, floor spaces, and many other features that make the learning space fit the environmental needs of the learners.

SOCIO-ECONOMIC UNDERSTANDING

Our work in schools across the region has made us keenly aware of the role schools play in supporting all members of our society. From satisfying basic needs for meals, to providing school supplies, and even wrapping social services around education, the role schools often play to help elevate the disadvantaged is noteworthy and understood as a part of the process we are proud to help move forward.

QUALITY CONTROL

Accuracy and timeliness are paramount in construction documentation. Our technical team routinely performs by setting realistic expectations, following through on deadlines agreed upon. We have several levels of quality assurance review throughout the process. These involve reviewers both inside and outside the team to uncover as much as possible to reduce surprises during construction. When surprises do come up, we deal with them immediately and openly. Egos need to be kept at check to solve problems in alignment with the overarching goals.

Design Process

While we understand the PCD process will mainly include BVH's services for the PCD phase, we include the full building project process as a demonstration of our understanding and approach to the overall process.

1. PERFORMANCE CRITERIA DEVELOPMENT: DEVELOP THE BIG PICTURE

Having performed on the design-build side of D-B projects many times, the BVH team understands the level of Performance Criteria Development information that is needed for success to the Owner as well as the Design-Builders. The process below is proposed based on the information provided in your PCD Proposal Request Letter.

TASK A: Existing Facilities Assessment

In this phase the team will analyze the existing K-12 campus, focusing on key areas identified by the School for consideration of how the middle school can be best integrated into the Albion campus. The Mason's building will also be analyzed to determine suitability as an early childhood education center. Typically, the following key information is assessed to inform the Owner as to the needs and suitability of the buildings and spaces considered:

- + Code/Life Safety
- + Existing Building Condition
- + Deferred Maintenance Issues Found
- + Existing Layout Adaptability for the Prospective New Uses
- + Drainage, Playgrounds, Parking and Traffic Flows
- + Alignment to Educational Approach
- + Security & Safety

Included in this phase is one day on site performing building assessments and understanding project constraints, goals and objectives. The findings of this phase will be documented in a report that could be included in the Design-Build RFP. The overall duration is anticipated to last two weeks.

Westside Middle School Learning Commons are embedded within the Learning Team Classroom Pods.
Westside Middle School / Omaha, NE

TASK B: Programming

In this phase, the Architect will meet with staff and the Board to set the architectural list of spaces and associated requirements for operational needs including intended uses, furniture and equipment. 1 day will be spent on site in meetings. The overall duration is anticipated to last 2 weeks.

TASK C: Performance Criteria Document

In this phase, The Architect will develop concept plan drawings for the overall campus site plan (including Prairie Street vacation), new floor plan of the K-12 campus, floor plan of the middle school project as well as the Mason's building re-use. (BVH has plans of the existing K-12 campus, we would need drawings to be provided of the Mason's Building from the school.)

The drainage impact of closing Prairie Street will be studied in conjunction with the Albion City Engineer. Any drainage design would be performed by the City Engineer, BVH would assist with information about anticipated playground, sidewalk, parking and driveway improvements.

Criteria specifications in an outline format will set the design and construction requirements for the Design-Builder.

An estimate of probable cost will be developed in conjunction with the concept drawings. A final document will consolidate all information into an attachment that can be included in the Design-Build RFP.

1. Performance Criteria Development: Develop the Big Picture

- Community & Student Engagement
- Facility Audit & Site Selection
- Master Planning Design
- Tours & Benchmarks
- Establish Budget

The Design-Build Phase will encompass the processes below per the D-B team's approach. We include this as an illustration of our process and our overall process understanding.

2. Test Design Ideas

- Schematic Design Options
- Budget Estimates

3. Refine Solutions

- Design Development
- Educational Alignment
- Budget Estimates/Validation
- Construction Documents

4. Construction Implementation

- On-Site Observations
- Proactive Involvement
- Timely Submittal Process

5. Start-up & Warranty

- Align Operations with Goals
- Warranty Issue Resolution
- Post Occupancy Analysis
- Commissioning

My experience with BVH has been extremely positive. They understand education and the needs of our district, they listen first and ask questions second, are professional, and most of all they are authentic people who put others first.

*Russ Olsen, Principal
Westside Middle School*

The BVH team recently toured IDEO, Google, and the Design School in California.

OTHER SERVICES NOT INCLUDED

The following services can be added as needed by the Owner for the PCD process:

TASK D: Demolition support for all or part of the Petersburg campus.

This could include demolition drawings, bidding documents, bidding support and construction phase assistance.

TASK E: Create existing floor plan drawing of the Mason's building.

TASK F: Design-Builder Solicitation and Procurement Support

BVH can assist with creating other information that may be needed to support KSB Law to create the D-B RFP, D-B contract, fielding questions and providing answers from D-B candidates, to assist the school in RFP, interview and negotiation process.

TASK G: Consulting as Needed during the Design-Build Process

BVH can assist with reviews of design and construction documents, GMP document review and construction phase advice as needed.

Services which could be included as needed:

- Civil Engineering
- Mechanical, Plumbing and Electrical Engineering
- Structural Engineering
- Surveying, Soils/Geotechnical Investigation

Excluded by BVH Insurance Limitations:

- Hazardous Materials Related Services

TOURS & BENCHMARKS

We find touring example buildings with clients as well as reviewing virtual case studies of distant facilities help the team to think expansively in solving the unique issues at hand. When appropriate, we reach out to the community and stakeholders to help foster an understanding and build bridges that enhance the project long after our work is complete. Often we find the most revealing viewpoints and issues from those students and teachers who live in the facilities every day.

Utilizing energy modeling software, a number of design variations can be tested to find an optimal balance between climate control systems and operation costs.

2. TEST DESIGN IDEAS

During this phase we begin **testing design solutions** through the filter of the baseline information gathered. The balance of impactful learning space design, sustainable operations and budget will be reviewed and verified throughout the process. Primary design drivers we believe ensure success in educational facilities include;

- + **Interconnected and varied spaces**
- + **Small and large group environments**
- + **Spatial collaboration via openness/connectedness**
- + **Acoustic and thermal comfort**
- + **Connection to nature**
- + **Interactive building components (technology, writable walls, re-configurable spaces, etc)**

3. REFINE SOLUTIONS

Upon approval of a preferred design direction and budget, the team will **refine the design**. The construction documents will illustrate the implementation for construction through drawings and specifications. The budget will be verified through detailed estimates. Teaching and learning outcomes will be reviewed to ensure compatibility with the goals and needs developed months earlier.

4. CONSTRUCTION IMPLEMENTATION

During the critical phase of **construction**, our collaboration role continues with on-site meetings and walk-through observations. We help guide the contractors to understand the educational goals along with the construction needs. Our role as advisor to the Owner extends to inform of any possible issues that can be anticipated, deficiencies found through the course of construction and any modifications that may need to be made due to unforeseeable conditions. Our team understands the critical nature of timely shop drawing/submittal reviews and turn-around on RFI's.

Wisner-Pilger School
Wisner, NE

5. STARTUP & WARRANTY PROCESSES

We assist the contractor and owner to ensure that **startup and operations** are aligned with the educational goals and design intentions. Our team can perform various levels of facility commissioning as needed to provide a detailed review and implementation process.

We can often also aid in the process of moving into a new environment. We conduct teacher walkthroughs and workshops after construction to help educators understand how the new environment can facilitate their educational approaches. This helps to improve the ramp-up time of starting operations in a new facility.

At the conclusion of the warranty period, we engage the Owner and Contractor to review the facility and develop an action plan if adjustments are needed. The site, building, and engineering systems are reviewed to understand if they are functioning as intended. The facility is reviewed through observation and questionnaires to determine if the design supports the educational processes and goals as intended. We often check in well before the warranty term to understand how the project is working as a way to continue to develop our practices to help both current and future clients.

Community & Student Engagement

Although this is not included in the PCD RFP, the following information is included for reference.

Our team has been involved in numerous successful pre-bond and community outreach engagements. Successful engagements center on objectively relaying key information while providing meaningful feedback from the community for the school design team. We assist by providing objective information, analysis, and recommendations on items such as: site selection, tailored facility design models, and key construction cost data to help inform bond referendum amounts. We work with a variety of educational, fiscal, and owner representatives to round out the team of key advisors, working to simplify what can be a complex and challenging process.

Community outreach can be an impactful tool throughout the design process. This can help achieve several goals: 1) inform parents and patrons of the school of the great work being done to better the learning environment; 2) provide valuable input to the design team through the process; and 3) create alignment amongst

the community on the project needs and goals. **Our process has a 91% success rate, on the first bond vote.** We attribute this to truly listening and learning from the community and then applying this to the design. The end result is a building that the community truly has authorship in, which leads to greater buy-in and eventual success.

The following components are the core pieces of a successful pre-bond effort. The schedule and process is tailored to your school district based on the needs of your community.

1 Establish the Working Committee, Work Plan, and Time Line. The process needs to peak at the bond vote, so the methods and tools need to be tailored to the community for the best fit. A clear work plan including a detailed process, schedule, and time line is developed. A communications plan and tools are outlined so that the work is well documented and key information is readily available. This can include press releases, websites, email distribution, social media posts, and more.

A citizen's committee comprised of community leaders, teachers, school administrators, and students can objectively research the needs and opportunities and bring a recommendation back to the Board of Education. Our team helps to train the committee on methods to engage the community to successfully handle different conversations and situations.

The BVH design team led several engagement workshops with the Westside Middle School student community.

2 Existing Facility Analysis. When a school has not had recent work to modernize their physical plant, an analysis can help the district understand the needs to create alignment with educational delivery and ensuring possible solutions are designed and built to be congruent with existing operations.

3 Community Outreach. By reaching out to the community, consensus on needs can start to be developed. The goal is to bring the community together with a process of education that results in community support for the project.

4 Student Engagement. Involving students in a meaningful way gives voice to those who will use the school. By adding this perspective, we often find that adults gain a better perspective of the needs of those learning as well as those teaching in schools. It also gives the community a better sense of real student needs, helping to get through old barriers community members sometimes can carry from past knowledge and “the way things have always been done.”

Meaningful student engagement can take a variety of forms. We have developed separate exercises that work for younger and older audiences. Younger, elementary audience exercises often allows learning through play with the building blocks of a school.

Older, junior high/high school exercises can be in the form of a photo essay assignment, wherein the students can create or find images and/or write about what is important to them in their learning environment. We have learned from the schools we work with to include as many learning styles as possible in these engagements. This facilitates the best and more thorough information to be gained in the process.

5 Develop the Project Scope & Budget. Through detailed needs assessment, programming, design, estimating, and community input, the team will collaboratively set the project scope, budget, and design.

Floor plans, elevations, renderings, budgets, and phasing options are all explored until the right solutions are found. We focus on the key materials and information that will create a thorough understanding of the proposed project to the community and create the tools needed for the development of the appropriate solution.

Enhanced Design Services

Energy modeling used during the design phase helps to maximize building efficiency through iterative analysis of key factors such as building position, daylight, and space use.

HIGH-PERFORMANCE BUILDING DESIGN

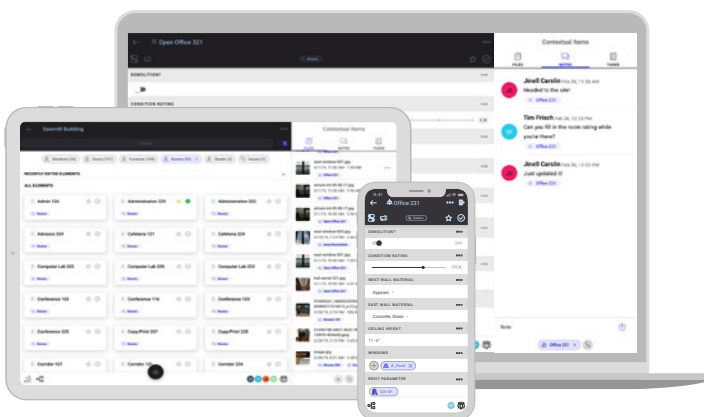

The narrative surrounding our renewable resources has focused design intently on protecting natural resources. Our dedication to achieving this level of sustainability is modeled in our commitment to the [Architecture 2030 Challenge](#) and its goal to achieve carbon-neutral design. We utilize several strategies in our work to move toward this goal, including: predictive climate modeling which allows us to design for the life of the building, not just current standards; controlled site conditions such as building placement and grading; utilizing passive systems first before supplementing with traditional mechanical systems; and leveraging renewable resources where possible to achieve an overall net-positive result.

ENVIRONMENTAL ART, GRAPHIC DESIGN, & BRANDING

BVH's in-house graphic designers are regularly integrated on our teams. We find the complementary discipline allows us to enrich the spaces we design, and more fully serve our clients. Whether it be custom artwork, environmental graphics, or project-focused print publications, our graphic design team naturally enhances our full-service design team.

THE LAYER APP

BVH has developed a proprietary BIM plug-in which allows multiple teams to collaborate and provide survey information from existing conditions to be synced with modeling software to increase documentation efficiency and accuracy. Learn more at [layer.team](#).

The Layer App is a cross-platform project management tool built to simplify and improve how building data is collected, shared, and utilized across project teams.

Relevant Experience

Boone Central Schools

LOCATION /
Albion, NE

PROJECT TYPE /
Elementary and High School Renovations

YEAR /
2017

SIZE /
47,000 sf Addition
36,500 sf Renovation

COST /
\$14.25 Million

The 47,000 SF addition consisted of a competition gymnasium, including locker rooms, a new wrestling room, weight room, large commons space, kitchen and administrative offices. The last phase of the project consisted of classroom wing renovations. The elementary wing, built in 1953, comprised the largest portion of the renovation, which consisted of a total interior demolition and remodel of 21,860 SF. The 1996 wing (10,100 SF) received mechanical upgrades and the 1972 science wing (4,500 SF) was completely renovated and retrofitted with updated fixtures, finishes and equipment. A fire sprinkler system was also installed throughout the existing building over the summer of 2017.

Cross County Community School

LOCATION /
Stromsburg, NE

PROJECT TYPE /
New Build PK–High School

YEAR /
2009, 2013, 2016

SIZE /
112,500 sf

COST /
\$15.5 Million

The Cross County Community School campus was designed with four distinct teaching zones—elementary, middle school, high school and shared spaces including media center, family consumer science, vocational education, art and computer labs. Activity and community access spaces for the 450-student school are zoned separately around a central commons ‘spine’ with gymnasiums, kitchen/servery, auditorium, administrative offices and a central commons. Individual entrances separate traffic flows on the site as well as keeping younger students from the middle and high school areas.

The project was completed under a fast-track construction manager delivery process. Precast concrete was utilized for the structural system to expedite composing the exterior shell for interior work to commence. Traditional masonry was included to retain a human scale to the overall facility. The site development included a full track and field complex as well as parking for academic and events uses.

In 2013, BVH was commissioned to add a CTE suite to the campus. The programs focus on woods, metals and Voc Ag, including large animal areas. In 2016, BVH assisted to renovate the Specialized Education suite to accommodate changes in the SPED approach within the school.

Wisner-Pilger Public School

LOCATION /
Wisner, NE

PROJECT TYPE /
Addition, PK–12 School

YEAR /
2017

55,000 sf Addition

COST /
\$10.8 Million

AWARDS /
2019 Wood Design Regional Excellence Award
2018 AIA NE Architectural Honor Award
2018 Education Design Showcase Project of Distinction

After twin tornadoes devastated the small town of Pilger, NE, in 2014, BVH Architecture was brought in by the school district to assess the damage and help the school determine how to rebuild. After extensive studies, consolidating all operations to a single PK-12 campus was the consensus solution. A PK-6 addition to the Jr/Sr High School facilitated the consolidation and opened up unique educational opportunities. The new facilities create an accessible and adaptable core of specialized education spaces to compliment surrounding classrooms. This model was directly inspired by the educational approach utilized by the district, and enables teachers and students to thrive within the unique educational approach.

The building itself has been designed as an educational tool, complete with daylighting, supervision and acoustics balanced against views and accessibilities. The exterior blends with the existing building's character while elevating the campus experience with outdoor gathering spaces that commemorate local history. Inside, upper elementary classrooms feature break-out spaces to allow dynamic class settings to merge with adjacent student groups. Unique core spaces are highlighted with materials that add visual texture and depth, as well as opportunities for displaying student work. Several metal panels are laser cut with designs inspired by language, math, music, local topography, and the solar system.

The result is an invigorated 21st century learning environment that creates opportunities for students to learn first-hand from the built environment.

Gibbon Public Schools PK-12

LOCATION /
Gibbon Public Schools
Gibbon, NE

PROJECT TYPE /
New Build PK-12

YEAR /
2009

SIZE /
112,900 sf

COST /
\$17.9 Million

A need to modernize outdated classrooms and the desire to provide a more central location for its students were the driving factors behind Gibbon Public Schools decision to commission BVH Architecture to design a new PK-12 school.

As part of a multi-phased discovery process, BVH conducted extensive facility condition audits of existing buildings and then developed multiple renovation and addition schemes to address the program deficiencies. Alternatives to renovate the existing middle and elementary schools, while providing new complementary facilities, were ultimately ruled out due to inefficiencies in cost and educational delivery systems.

A new K-12 school was the overwhelming favorite due to land availability and site location, allowing the greatest number of students to be centrally located in all grades. The new multi-grade building was designed to accommodate up to 500 students and includes music and fine arts classrooms, weight and fitness rooms with lockers, full-size gymnasium, science labs, full kitchen and cafeteria, and a 300-seat auditorium.

Leigh Community Schools Jr & Sr High

LOCATION /
Leigh, NE

PROJECT TYPE /
New Build, PK-12 Campus

YEAR /
Ongoing

SIZE /
41,800 sf New; 8,000 sf Renovation

BUDGET /
\$11 Million

BVH was commissioned to assist the school to consolidate PK-12 classrooms to a single site. The school determined the high school building was past its useful life and is consolidating all activities to the elementary site with a 40,000+ sf Junior/Senior High addition. BVH was brought in due to our extensive expertise in the broad needs of PK-12 design. The expanded campus will house core junior/senior high classrooms, a performance gymnasium, a CTE suite with Vocational Agriculture and STEM focus areas, new administrative offices and a fitness center that has community access. The addition is being designed to allow the existing media center, special education and other general education classrooms to be shared between primary and secondary education areas while keeping the younger and older student zones distinct.

The site presents challenges for the design team. A steep slope and existing geothermal well field limit the area in which the building can economically be sited. Traffic flow and site access is limited due to neighboring houses and a church. The BVH/Hausmann design-build team is working diligently to create a cost effective solution which maximizes the new school amenities while minimizing the costs spent on site grading and utilities.

Johnson Crossing Academic Center

LOCATION /
Fremont Public Schools
Fremont, NE

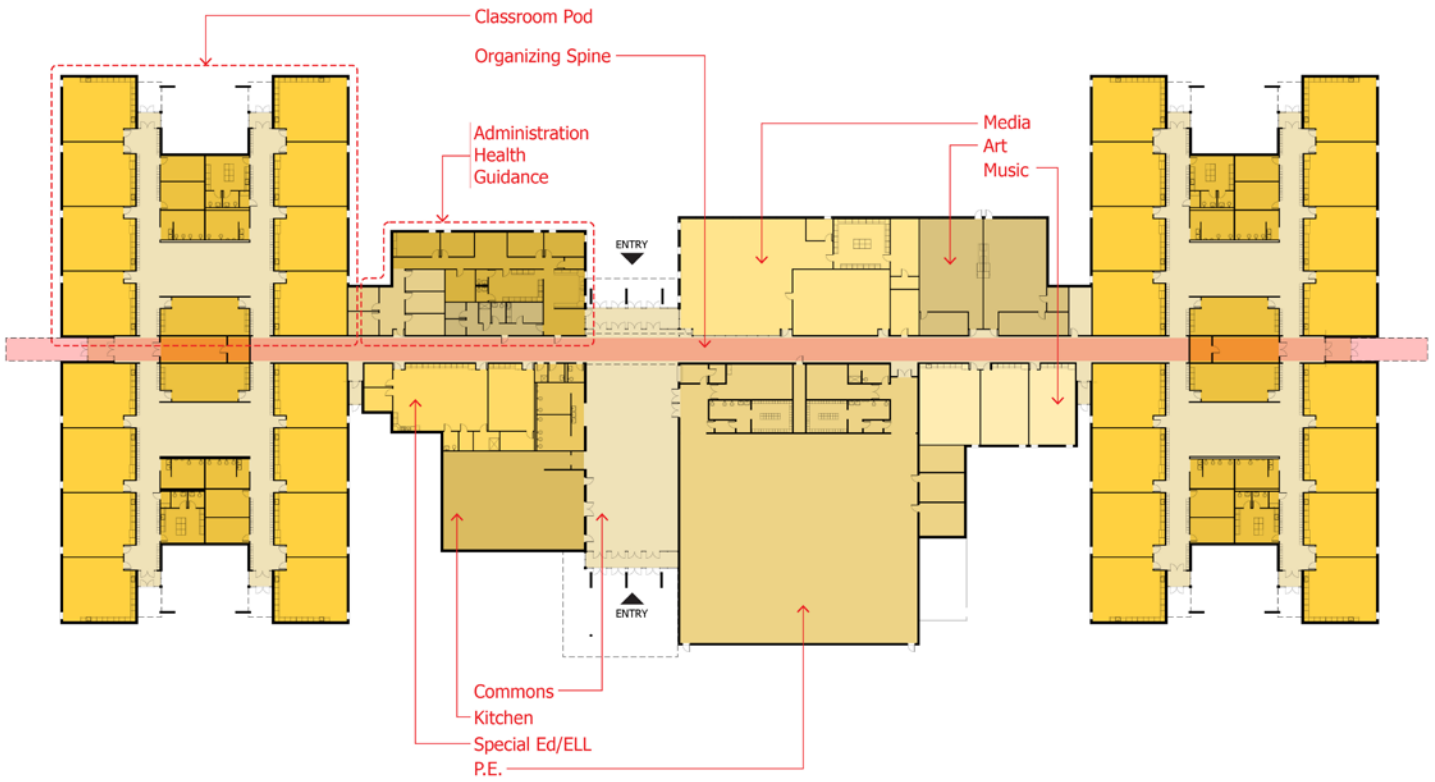

PROJECT TYPE /
New Build 5–6

YEAR /
2012

SIZE /
102,150 sf

COST /
\$12.5 Million

Johnson Crossing, a 102,150 square-foot, single-level school, provides a unique learning environment for 900 fifth and sixth graders. This school is the first and only dedicated split middle school in the state. The new building was created out of a need to move 5th graders out of the elementary school, which needed space for elementary-level growth. The shift to engage 5th graders in middle school programming introduced specialized education and moving classrooms away from a homeroom setting. This not only prepared students for the 7th and 8th grade experience, it also removed any stigma that might exist for English-learning students and others with special needs. The new building includes two identical classroom wings, a generous gymnasium, multi-purpose commons, administration area, media center, science, art, and music rooms, kitchen and community spaces.

Board Report - Craig Theis
as of **October 14, 2019**

Elementary Principal's Update

1. BCES Parent Teacher Conferences

- a. Conferences were held on September 26th. We had a great turnout for conferences. Below are the numbers for each grade level:
 - i. Kindergarten: 29/30 (97%)
 - ii. 1st Grade: 47/48 (98%)
 - iii. 2nd Grade: 34/35 (97%)
 - iv. 3rd Grade: 31/32 (97%)
 - v. 4th Grade: 47/51 (92%)
 - vi. 5th Grade: 36/36 (100%)
 - vii. Total Conferences : 224/232 (97%)

***Teachers are in contact with parents that weren't able to make it to conferences.**

2. Classroom Updates:

- a. Trina Hellbusch is once again doing AR Books with our students. At the beginning of the year students set a goal for the quarter. Once they reach the goal students are rewarded. Here are a few of the pictures teachers have posted on **Seesaw**.

- b. In science, 3rd graders have been learning about all kinds of forces. In this experiment they put non-touching, magnetic forces into action by making a paper clip float! Well done, 3rd grade!

3. We had our 1st Rockin' Rally on September 27th. We honored a Kind Cardinal from each grade. Students were also honored for being Rockin' Readers. Mrs. Flinn announced our new Student Council Members. We finished our assembly with a group of students and staff demonstrating good **teamwork**.

Upcoming Dates:

- End of 1st Quarter- Friday, October 18, 2019
- Elementary Rockin' Rally- Thursday, October 24th @ 2:45 pm
- No School- Friday, October 25th, 2019

District Description

The Boone Central School district consists of the Albion and Petersburg communities.

We are a PK-12 school district, offering both a 3 and 4 year old section of preschool. We offer a comprehensive list of core college credit courses. The district includes an outdoor education classroom at the Olson Nature Preserve (ONP), which is located between the two communities. The ONP is used by a variety of classroom teachers and community groups for numerous programs. In addition, BCS has a student-managed Theatre in Albion which is tied to the entrepreneurship curriculum in the HS.

Boone Central has built partnerships with many local businesses in a Career Academy model unique to our rural school. This program was recognized by the state of Nebraska as the Rule 47 program of the year in 2016. This program partners with over 50 local businesses and professionals to give students an authentic experience in a career of potential interest.

This description was provided by the district

BCMS Board Report October 14th, 2019

Middle School Update

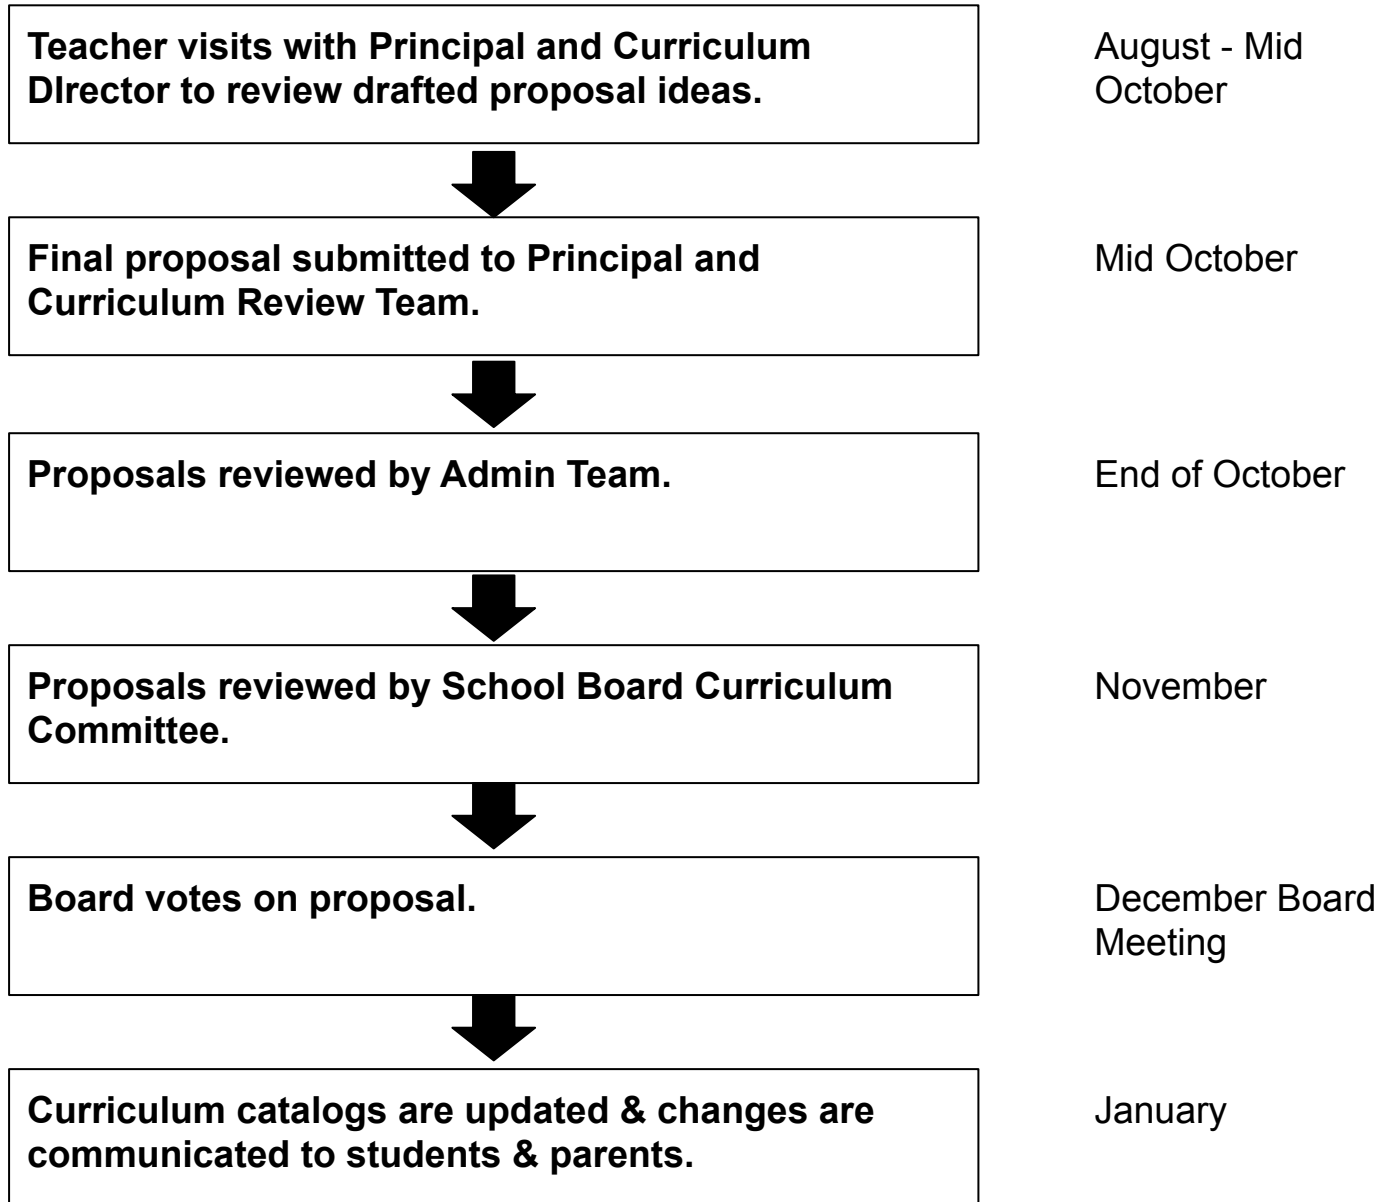

- ★ I attended a Safety & Security Summit in Grand Island 9/30 & 10/1 with the other administrators. We discussed our protocols and procedures, updated our threat assessment form, and initiated an anonymous tip line where anybody can leave a tip for us to follow-up on.
- ★ Football, Cross Country, & Volleyball wrap their fall sports seasons up this month. Wrestling and Basketball will take place soon.
- ★ Fall MAP Testing is complete. Results will be given during my assessment report.
- ★ Students participated in Spirit Week. It was fun to see how creative some of our students decided to get. We averaged over 70% daily student participation in the themed week.
- ★ Student Led Conferences were a success!
 - 6th = 31/34 (91%)
 - 7th = 28/33 (85%)
 - 8th = 34/40 (85%)

Curriculum & District Assessment Update

- ★ Curriculum Adoption & Course Proposal Process Updated
 - Mrs. Bird and I developed a Course Proposal Process and Curriculum Adoption Rubric that we will use to better evaluate curricular requests as well as staff requests for new classes. See Attachment.
- ★ I attended several trainings to better serve in the role of District Assessment Coordinator.
- ★ Fall MAP testing is complete.
- ★ Some HS students will be taking the MAP test again this winter due to their ability to use their score for some college entrance opportunities.
- ★ Policy Change Request: Class Rank vs. Laude System. See presentation.
- ★ NSCAS & AQuESTT Scores are public. See attachment for a breakdown of the results.

Course Proposal Process

Curriculum Adoption Process

Stage	Description	Who	Timeline
1) Review & Recommend	<ul style="list-style-type: none"> Review performance data, current scope & sequence, current resources, and vertical alignment. Request potential materials from vendors. Align potential materials to current or new content standards. Determine new or revised course changes. Determine cost of proposal 	PLC Teams	January
2) Propose & Approve	<ul style="list-style-type: none"> Share proposal with Curriculum Review Team Proposal follows the course proposal process for final approval. 	CRT Team Admin Team School Board	October
3) Order & Train	<ul style="list-style-type: none"> All materials requested and ordered. Training is scheduled. Plan for implementation. 	Curriculum Director, Principal & Superintendent Curriculum Director, Instructional Coach, Teachers	March
4) Implementation	<p>Focus on full implementation of the new curriculum into the classroom. During this stage the following will take place:</p> <ul style="list-style-type: none"> Monitor & analyze material effectiveness through PLC teams 	Teachers, Instructional Coach, Principal	August of Year 1
5) Monitor & Adjust	Continue to monitor and analyze through PLC teams.	Teachers, Instructional Coach, Principal	August of Year 2 - ?

Strategic Plan

See attached

Boone Central Schools Strategic Planning 2018-23

Strategic Process

Working with facilitators from the Nebraska Association of School Boards, we established a Strategic Overview Committee comprised of board members, administrators, teachers, students, parents, and community leaders. The Strategic Overview Committee reexamined our district mission and vision for our future and helped guide the strategic planning process. We conducted meetings with business and community leaders, parents, and students. We met with staff and asked all of these groups to share their thoughts, ideas, and concerns about the district. We listened.

This process allowed us, as a community, to closely examine where we are now as a district. We examined our strengths, but also had frank conversations about what our most pressing needs are today and the challenges we are sure to face in the days ahead. To be clear, while we reaffirmed that we have much to be proud of in our district, we also learned that we have many areas in which we must improve if we are to fulfill our mission.

Opportunities for Students

Dual Credit opportunities will be assessed and maintained. Career and Technical Education will be assessed and the Career Pathways program will go through a transformation to meet the needs of students and attract more students..

Data Driven District

Data Dashboard that includes student assessment, perceptual, demographic, instructional and budget/finance data. Develop a plan of how data will be gathered, used and communicated. Create a systematic approach to decision making based on 4 levels of support. An annual board retreat to examine data will be held.

Teaching and Instruction

Adopt new teacher evaluation tool and procedures to align with district expectations and practices to support effective instruction and improved student achievement. Focus on project-based learning along with continuing to enhance all curricular areas by improving and refining our offerings and programs.

Culture and Learning

A new all hazards plan will be adopted and communicated district-wide. Survey of past graduates will be conducted highlighting strengths and weaknesses. A systematic recruitment and hiring plan will be developed. Parental engagement strategies will be examined.

Finance and Facilities

A budget workshop will be held twice/year. A strategic facilities plan will be created and a transportation plan will be adopted.

**2019-2020
STATE OF NEBRASKA
SCHOOL DISTRICT BUDGET FORM**

County-District #: 06-0001 Class #: 3
Boone Central School District
TO THE COUNTY BOARD AND COUNTY CLERK OF
Boone County

This budget is for the Period **SEPTEMBER 1, 2019** through **AUGUST 31, 2020**

Upon Filing, The School Certifies the Information Submitted on this Form to be Correct:

Levy Limit Compliance

NOTE: The Schedule portion below is to determine if the School District has met the levy limitations.

Line No.		General Fund (Column A)	Bond Funds (Column B)	Special Building Funds (Column C)	Qualified Capital Purpose Undertaking Funds (Column D)
1	Total Personal and Real Property Taxes -Cover Page	7,421,390.00	878,788.00	323,232.00	-
2	Exclusions:				
3	Bonded indebtedness secured by a levy on property (Includes Co. Treasurer Comm.)	-	878,788.00		-
4	Judgments not paid by liability insurance	-			
5	Voluntary termination agreements with certificated staff / employees occurring prior to 9/1/17	-			
6	Voluntary termination agreements with certificated Teachers 9/1/17 and after	-			
7	Voluntary termination agreements from collective bargaining agreement with certificated employees 9/1/18 to 8/31/19 up to 50%	-			
8					
9					
10					
11					
12	Total Exclusions (Line 3 + Line 11)	-	878,788.00	-	-
13	Total Personal and Real Property Tax Requirement Subject to the Levy Limitation (Line 1 minus Line 12)	7,421,390.00	-	323,232.00	-
14	Assessed Valuation	1,471,011,418	1,471,011,418	1,471,011,418	1,471,011,418
15	Levy Subject to Limitation ((Line 13 / Line 14) x 100)	0.504509	0.000000	0.021973	0.000000
16	Total Levy for Compliance	0.526482			

If the total levy on Line 16 is \$1.05, or less, the levy limitation per State Statute Section 77-3442 has been met.

If Total of Line 16 is greater than \$1.05 and you did not hold a successful election to override the levy, you are in violation of the levy lid. The school district must reduce property taxes to meet the levy limitation.

If Total of Line 16 is greater than \$1.05 and you held a successful election to override the levy, which is in effect for the you must attach a copy of the election ballot and the certified election returns to your budget.

Qualified Capital Purpose Undertaking Fund levy. A district may only exceed the maximum levy of five and one-fifth cents per one hundred dollars of taxable valuation in any year if (i) the taxable valuation of the district is lower than the taxable valuation in the year in which the district last issued capital purpose undertaking bonds or (ii) such maximum levy is insufficient to meet the annual principal and interest obligations for all capital purpose undertaking bonds. Projects beginning after April 19, 2016 can only have a maximum levy of three cents per one hundred dollars of taxable valuation in any year. (Statute 79-10,110 & 79-10,110.02).

Special Building Fund levy. Limit on Building Fund levy of 14 cents (Statute 79-10,120)

REMINDER: School districts that have combined levies greater than \$1.20 or the combined levies that exceeded the maximum levy approved at a special election may be subject to petitions for the free holding of territory. Combined levies do not include levies for bonded indebtedness approved by the voters of a school district or levies for the refinancing of such bonded indebtedness.

Voluntary Termination Exclusions

Line 5 Amounts to pay for current and future sums agreed to be paid by a school district to certificated employees in exchange for a voluntary termination of employment occurring prior to 9/1/17

Line 6 Amount levied by school district at maximum levy to pay for current and future qualified voluntary termination incentives for certificated teachers pursuant to statute. Payments cannot exceed \$35,000, must be paid within 5 years, will result in savings to the school, were not included in a collective bargaining agreement

Line 7 Amounts levied by school district at maximum levy to pay for 50% of the current and future sums agreed to be paid to certificated employees in exchange for voluntary termination between 9/1/18 to 8/31/19 as a result of collective bargaining agreement in force on 9/1/17

Levies Expected to be Set by County

NOTE: The Schedule portion below is to assist with the Levy setting process.

Fund	Property Taxes	Valuation	Expected Levy

School District Total Debt Outstanding as of September 1, 2019

The district officers of any school district in Nebraska shall have power, on the terms and conditions set forth in sections 10-702 to 10-716, to issue the bonds of the district for the purpose of (1) purchasing a site for and erecting thereon a schoolhouse or schoolhouses or a teacherage or teacherages, or for such purchase or erection, or purchasing an existing building or buildings for use as a schoolhouse or schoolhouses, including the site or sites upon which such building or buildings are located, and furnishing the same, in such district, (2) retiring registered warrants, and (3) paying for additions to or repairs for a schoolhouse or schoolhouses or a teacherage or teacherages.

School districts also have the ability to issue bonds as set forth in State Statute Section 79-10,110 for the purpose of paying amounts necessary for the abatement of environmental hazards, accessibility barrier elimination, or modifications for life safety code violations, indoor air quality, or mold abatement and prevention.

The District has the following debt outstanding as of September 1, 2019:
(Include Bond fund(s) and Qualified Capital Purpose Undertaking Fund)

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019-2020	\$ 550,000.00	\$ 337,676.00	\$ 887,676.00

- Members of the public shall be permitted to attend and to speak at board meetings. They will not be required to identify themselves as a condition for admission to the meeting. Members of the public will not be required to have their name be placed on the agenda prior to the meeting in order to speak about items on the agenda. Members of the public who desire to address the Board will be required to identify themselves.
- The Board may allow advisors, consultants, and other persons who are not Board members to appear at the meeting via telephone or other similar means.
- The chair has the authority to assure that people conduct themselves in an orderly manner at the meeting. Undue interruption or other interference with the orderly conduct of business will not be allowed. The chair may order persons who are disorderly to be removed from the meeting.
- The board will, upon request, make a reasonable effort to accommodate the public's right to hear the discussion and testimony presented at the meeting.
- Members of the public may use recording devices (tape recorder, video camera, etc.) to record any part of a meeting of a public body, except for closed sessions. No recording, other than note taking, shall be done without informing the President in advance. The President shall control the placement of the recording device so the device does not obstruct the view of Board members or other members of the public attending the meeting and does not otherwise interfere with the meeting.
- At least one copy of all reproducible written material to be discussed at an open meeting will be made available at the meeting for examination and copying by members of the public.
- Members of the public will be permitted to speak at Board meetings at which a public forum is on the Agenda. The board may not forbid public participation at all meetings, but the board is not required to allow citizens to speak at each meeting. Members of the public may also speak when invited to make a presentation or when recognized by the chair.
- The President or chair for the meeting shall have the authority to establish reasonable time limits for individual speakers and for the duration of public forum sessions. It is customary that the board will hear public comment for a maximum of 4 minutes per speaker and 30 minutes total at a meeting. If it appears that more than 6 people wish to address the board, the board president may reduce the number of minutes each person may speak and the board may vote to increase the number of minutes for public comment.
- Speakers will be permitted to address the Board consistent with free speech rights. However, offensive language, defamatory remarks, and hostile conduct will not be tolerated. Further, charges or complaints against a school employee shall not be made for the first time at a public Board meeting without having followed the school's complaint procedure.

Date of Adoption: July 20, 2015

Revised on: July 16, 2018

BVHARCHITECTURE

October 9, 2019

Nicole Hardwick, Superintendent
605 S 6th Street
Albion, NE 68620

Letter of Agreement

Boone Central Performance Criteria Development

Dear Ms. Hardwick

We are pleased to work with you on this study. This Letter-Agreement is made and entered into between Boone Central Schools, hereinafter called the "Owner" or "School" and BVH Architecture, hereinafter called "BVH" or "Architect."

I. DESCRIPTION OF PROJECT

This engagement entails the design study and creation of performance criteria standards development for the future design-build process to consolidate middle school operations to the Albion campus, close W Prairie Street to relocate the playground area located in the space where the middle school is anticipated and move preschool operations to the former Mason's building.

II. SCOPE OF WORK

The Architect shall furnish and perform the following Basic Professional Services required during the project:

Performance Criteria Development

Task A: Existing Facilities Analysis

In this phase the team will analyze the existing K-12 campus, focusing on key areas identified by the School for consideration of how the middle school can be best integrated into the Albion campus. The Mason's building will also be analyzed to determine suitability as an early childhood education center. Typically, the following key information is assessed as needed to inform the Owner as to the needs and suitability of the buildings and spaces considered:

- Code/Life Safety
- Existing Building Condition
- Deferred Maintenance Issues
- Existing Layout Adaptability for the Prospective New Uses
- Drainage, Playgrounds, Parking and Traffic Flows
- Alignment to Educational Approach
- Security & Safety

BVHARCHITECTURE

440 N 8th St, Ste 100 Lincoln, NE 68508 / 402.475.4551 // 901 Jones St Omaha, NE 68102 / 402.345.3060

BVHARCHITECTURE

Included in this phase is one day on site performing building assessments and understanding project constraints, goals and objectives. The findings of this phase will be documented in a report that could be included in the Design-Build RFP. The overall duration is anticipated to last two weeks.

Task B: Programming

In this phase, the Architect will meet with staff and the Board to set the architectural list of spaces and associated requirements for operational needs including intended uses, furniture and equipment. 1 day will be spent on site in meetings. The overall duration is anticipated to last 2 weeks.

Task C: Performance Criteria Development

In this phase, The Architect will develop concept plan drawings for the overall campus site plan (including Prairie Street vacation), new floor plan of the K-12 campus, floor plan of the middle school project as well as the Mason's building reuse. (BVH has plans of the existing K-12 campus, we would need drawings to be provided of the Mason's Building from the school.)

The drainage impact of closing Prairie Street will be studied in conjunction with the Albion City Engineer. Any drainage design would be performed by the City Engineer, BVH would assist with information about anticipated playground, sidewalk, parking and driveway improvements.

Criteria specifications in an outline format will set the design and construction requirements for the Design-Builder.

An estimate of probable cost will be developed in conjunction with the concept drawings. A final document will consolidate all information into an attachment that can be included in the Design-Build RFP.

Other Services Which Could be Added to the Scope of Work:

Task D: Demolition Support for all or part of the Petersburg Campus. This could include demolition drawings, bidding documents, bidding support and construction phase assistance.

Task E: Create existing floor plans of the Mason's building.

Task F: Design-Builder Solicitation and Procurement Support. BVH staff can assist other information not already in the scope of work that may be needed to support KSB Law to create the D-B RFP, D-B contract, fielding questions and providing answers from D-B candidates, to assist the school in RFP, interview and negotiation process.

TASK G: Consulting as Needed during the Design-Build Process. BVH can assist with reviews of design and construction documents, GMP document review and construction phase advice as needed. Services which could be included as needed:

BVH ARCHITECTURE

- Civil Engineering
- Mechanical, Plumbing and Electrical Engineering
- Structural Engineering
- Surveying, Soils/Geotechnical Investigation

III. COMPENSATION FOR PROFESSIONAL SERVICES

1. The basic professional design services specified above in "Scope of Work" will be completed for the fees as follows:

Performance Criteria Development:

Task A: Existing Facilities Analysis	\$3,500 lump sum
Task B: Programming	\$2,750
Task C: Performance Criteria Development	<u>\$22,750</u>

PROFESSIONAL SERVICE FEES **\$29,000**

Other Services which could be added via addendum:

Task D: Demolition Support	\$3,500
Task E: Create Drawings of the Mason's Building	\$3,000
Task F: Design-Builder Solicitation & Procurement Support	Hourly As Needed
Task G: Consulting as Needed During Design-Build Process:	
1. Design Reviews	\$2,500 (each)
2. GMP Document Review	\$5,000
3. Construction Phase Consulting	Hourly As Needed

2. Reimbursable Expenses, which may include but not be limited to printing, staff travel, long-distance telephone calls, photography, reproduction of drawings, postage, delivery/messenger service, lodging, meals, filing fees, miscellaneous supplies, etc. are in addition to the basic professional design services listed above and will be billed at our invoice cost times 1.15.
3. Additional consulting Engineers, should they be required, are in addition to the basic professional design services and fees listed above and will be billed at our invoice cost times 1.15.
4. Any additional work not described in this Letter-Agreement will be performed at our standard hourly rates per the attached schedule.

BVHARCHITECTURE

IV. BILLING

1. Billing is done on a four-week schedule. Payment is due upon receipt of invoice and will be made via electronic funds transfer (EFT). Bank account information will be provided upon execution of this document. A late fee of 1.25% (15% annualized) will be made on unpaid balances twenty-eight (28) days past due.

V. MISCELLANEOUS PROVISIONS

1. **BOONE CENTRAL PCD REQUIREMENT:** The Architect warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Architect, to solicit or secure this agreement and that the Architect has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the Architect, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or the making of this agreement. Upon violation of such provision, the Owner shall have the right to terminate the agreement without liability and, at its discretion, to deduct from the contract price, or otherwise recover, the full amount of such fee, commission, percentage, or consideration.
2. Services required for governmental agency reviews, securing approvals, etc., other than normal review by the City Building Department and the State Fire Marshal will be considered as an Additional Service.
3. It is understood and agreed that this Agreement does not contemplate a design involving in any way any type of hazardous waste material. The Owner hereby agrees to indemnify the Architect for any claims, lawsuits, expenses or damages arising from or relating to the handling, use, treatment, purchase, sale, storage or disposal of any type of hazardous waste materials.
4. **Limitation of Liability:** The Owner agrees to limit the Architect's Liability to the Owner, due to the Architect's negligent acts, errors or omissions, such that the total aggregate liability of the Architect to the Owner, shall not exceed the Architect's total design fee for professional design services rendered on this project.
5. If the Owner authorizes deviations, recorded or unrecorded, from the documents prepared by the Architect without written agreement of the Architect, the Owner shall indemnify and hold harmless the Architect, Architect's consultants and agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting in whole or in part from such deviations, regardless of whether or not such claim, damage, loss or expense is caused in part by a party indemnified hereunder.
6. The Architect's services shall be provided to assist the Owner in making changes to an existing facility for which the Owner shall furnish, in a timely manner, documentation and information upon which the Architect may rely for its accuracy and completeness. Unless specifically authorized or confirmed in writing by the Owner, the Architect shall not be required to perform or to have others perform destructive testing or to investigate concealed or unknown conditions. In the event documentation or information furnished

BVH ARCHITECTURE

by the Owner is inaccurate or incomplete, any resulting damages, losses and expenses, including the cost of the Architect's Additional Services, shall be borne by the Owner.

7. Inasmuch as the remodeling and/or rehabilitation of the existing structure requires that certain assumptions be made by the Architect regarding existing conditions, and because some of these assumptions may not be verifiable without the Owner expending substantial sums of money or destroying otherwise adequate or serviceable portions of the structure, the Owner agrees, to the fullest extent permitted by law, to indemnify and hold harmless the Architect, its officers, directors, employees and subconsultants (collectively, Architect) against all damages, liabilities or costs, including reasonable attorneys' fees and defense costs, arising out of or in any way connected with this Project, excepting only those damages, liabilities or costs attributable to the sole negligence and willful misconduct by the Architect.
8. The Owner acknowledges that the requirements of the Americans with Disabilities Act (ADA), Fair Housing Act (FHA) and other federal, state and local accessibility laws, rules, codes, ordinances and regulations will be subject to various and possibly contradictory interpretations. The Architect, therefore, will use its reasonable professional efforts and judgment to interpret applicable accessibility requirements in effect as of the date of completion of the design phase and as they apply to the Project. The Architect, however, cannot and does not warrant or guarantee that the Owner's Project will comply with all interpretations of the accessibility requirements and/or the requirements of other federal, state and local laws, rules, codes, ordinances and regulations as they apply to the Project.
9. Corporate Protection Clause: It is intended by the parties to this Agreement that the Architect's services in connection with the Project shall not subject the Architect's individual employees, officers or directors to any personal legal exposure for the risks associated with this Project. Therefore, and notwithstanding anything to the contrary contained herein, the Owner agrees that as the Owner's sole and exclusive remedy, any claim, demand or suit shall be directed and/or asserted only against BVH Architecture, a Nebraska corporation, and not against any of the Architect's individual employees, officers or directors.
10. The Drawings, Specifications, and other documents, whether in hard copy or machine readable form (CADD or disk), prepared by the Architect and marked with the copyright symbol for this project are instruments of the Architect's service for use solely with respect to this Project and, unless otherwise provided, the Architect shall be deemed the author of these documents and shall retain all copyright interests. This is to include all sketches and renderings, hand-drawn or computer-generated, and the use or reproduction of same for news releases or any other purposes is to be done only with the permission of and with credit given to the Architect.

BVHARCHITECTURE

We trust this Letter-Agreement meets with your approval. Please sign and return one copy to our office, along with the initial payment noted (edited per job) and retain the second copy for your records. If you have any questions, please contact me.

Sincerely,
BVH Architecture

Ms. Nicole Hardwick
BOONE CENTRAL PUBLIC SCHOOLS
605 So. 6th Street
Albion, NE 68620

Dear Ms. Hardwick:

Thank you for allowing Truck Center Companies the opportunity to propose this new 2021 Thomas Built Bus Saf-T-Liner C2 School Bus. Thomas is the number one selling bus in North America for the fourth year in a row. This proposed school bus meets all current State of Nebraska Rule 92 and FMVSS standards and requirements.

2021 Thomas/Freightliner C2 School Bus-66 Passenger with Air Conditioning
\$100,850
FOB ALBION

Truck Center Companies is a family owned, Nebraska based company and a responsible corporate citizen as we support numerous organizations and charities including the NSAA, Teammates Mentoring Program, Autism Action Partnership, Heart Heroes, Angels Among Us, Boy Scouts of America, Down Home Ranch, and Partnership 4 Kids. Our main corporate charity is Make-A-Wish of Nebraska. We have raised over \$3,000,000 dollars for this very worthwhile organization.

I have included a list of specifications and pricing for some of the newer options. Please feel free to contact me at 800-365-0440 or skreinbring@truckcentercompanies.com. We appreciate your business.

Sincerely
TRUCK CENTER COMPANIES-OMAHA

PROPOSAL FOR

BOONE CENTRAL PUBLIC SCHOOLS

HOME OF THE CARDINALS

2021 THOMAS SAF-T-LINER C2 SCHOOL BUS 66 PASSENGER

AIR CONDITIONING

Carrier 126,000 BTU free blow air conditioning front and rear bulkhead with dual compressors. .

AIR INTAKE

Donaldson PowerCore air cleaner with 32,000 mile /24 month service intervals. Air intake warmer and air restriction gauge

ALTERNATOR

Leece-Neville 320 AMP 12 Volt pad mounted with automatic spring loaded tensioner

AXLES

Set back, 10,000 LB front includes synthetic lube. 19,000 rear axle includes synthetic lube. Magnetic rear axle drain and fill plug. Governed to run 75 MPH

BARRIERS

(2) 39" barriers covered with fire block upholstery and right side modesty panel

BATTERIES

Alliance 2200 CCA- skirt mounted battery box with slide out tray frame mounted

BODY PANELS

Exterior 20 gauge galvanized- Interior 22 gauge Galvalume from belt line to seat rail

BOOK RACKS

Aluminum tube type storage racks with padded ends

BRAKES

Full air brake package includes BW DV-2 Auto drain valve, Bendix AD-IP air dryer with heater, Cummins 18.7 CFM compressor, Meritor 16.5 X 7Q+ cam rear brakes, Meritor double anchor cam front brakes, Gunitite iron hubs, Meritor automatic slack adjusters, steel air brake reservoirs inside frame rails, BW DV-2 auto drain valve, Wabco 4S/4M ABS with traction control, one valve parking brake system with warning indicator

BUMPER

Heavy duty front swept back style matching the hood shape. Rear bumper is 1.6 times stronger than triple profile bumpers. Bumper is formed in shape of roadside guardrail and is tucked into side skirts to prevent catching.

COOLING SYSTEM

805 sq. in. aluminum core radiator equipped with Mylar tank for easy coolant level visibility. All radiator hoses are Gates heavy-duty hoses with constant torque spring clamps. Long life coolant protected to -40 (5 years/150, 00 miles) 25" cooling fan with 9 nylon blades .Horton on/ fan clutch. Low coolant sensor light

CONSTRUCTION

Eight ply rubber body to frame insulators on each cross member. Double bolted body to frame clips. Stamped one-piece wheel wells to reduce dust and water leaks. 14 gauge Galvalume U shaped side skirt reinforcements. Two crash rails installed between interior and exterior roof panels. Roof bows extend below floor line. Interior floor bumper 2" steel plate. Rear body 14 gauge reinforcements. Dual 16 gauge Galvaneel roof rail stringers. Closed section, box type, rear corner post design. Automotive style firewall.

DASH GAUGES

Speedometer, Odometer, Tachometer, Hour meter, Voltmeter, Oil pressure, Fuel, Trip meter, Water temperature, Transmission temperature, High-low beam indicator, turn signal indicators, low coolant light, low oil pressure or high coolant temperature warning light and buzzer

DIAGNOSTICS

SAE 9 pin diagnostics interface connector mounted under dash, electronic engine integral warning and derate protection system. Dash mounted diagnostic panel for electrical system. Multi-plex electronics

DRIVER'S COMMAND CENTER

Mounted left of driver with up to 24 rocker switches with LED backlighting for electrical equipment with rheostat control switch. Large driver's storage compartment and floor mounted clip board holder and storage bin. Cell phone outlet. Two cup holders. Driver side window tinted visor 6" x 30"

DRIVELINE

SPL 100 Dana Spicer main drive line has computerized angle alignment. Lubed for life splines that are booted to prevent contamination from water and road debris. Iron flywheel housing.

ELECTRICAL SYSTEM

12-volt system with color-coded and numbered wiring with matched weatherproof connectors. All that passes through metal is grommets. ECMs are chassis frame mounted. Automatic circuit breakers protected by solid-state technology. Switches are rocker type design and provide "Smart Switch" technology that can be repositioned without rewiring or reprogramming.

ELECTRONIC STABILITY CONTROL

Electronic stability control is a computerized technology that improves a vehicle's stability by detecting and reducing loss of traction and skidding.

ENGINE

Cummins 6.7L turbo charged 250 HP with 660 ft/lb torque in line 6 diesel. 750 watt block heater mounted in bumper, heated fuel/water separator, electronic cruise control. Cummins turbo exhaust brake.

ENTRANCE & REAR DOORS

Toggle switch, air operated outward opening with vandal lock system installed. Four inch header pad installed above door. 86" high clear opening. Stainless steel assist rail. Rear door is located in center rear with 32" x 23" top glass and 32" x 14" bottom glass with protective shields to keep hands and fingers away from sliding components.

EXHAUST

Single right hand horizontal muffler with horizontal tail pipe

FENDERETTES

Mounted over rear wheel wells

FLOOR COVERING

5/8" plywood floor with heavy-duty gray marble vinyl. All floor seam separations sealed and covered with durable rustproofed metal stripping. Cove molding along the wall. Molded rubber wheel housing covers. Rubber covered entrance step also have white nosing installed. Entire floor is sealed with adhesives

FRAME

Dual C channel main frames, full length made of 5/16" x 3" x 10 1/8" steel frame 120,000 PSI, powder coated finish. Class 8 truck type 7.5 "x 33.5" reinforced cross members. Tow hooks front and rear

FUEL TANK

65 gallon capacity safety mounted between frame rails and behind rear axle with protective cage and rear skid plate gives added protection against damage in the event the vehicle is backed over an object.

HEATERS/DEFROSTER

93,000 BTU left front, 53,000 BTU step well, 84,000 BTU rear left side, 84,000 BTU mid bus. Automotive style 4-speed front heater dash vents with automotive style electronic dash mounted controls. Bergstrom booster heat pump, removable filters, shut off ball type valves. Full width ducted air for windshield, driver's window and entrance door glass. (2) Defroster fans mounted over driver's window and windshield.

HEADROOM

78" Interior height

HOOD

Sloping hood design for over the hood visibility at 11 ft. Splashguards are hood mounted for easy engine access. Grill is removable for easy serviceability and hood includes integrated plenum with two expulsion valves to remove moisture and contaminants. Includes winter front.

HORNS

Dual electric with center steering wheel activation

INSULATION/NOISE REDUCTION PACKAGE

1.5 "Fiberglass in ceiling, bulkheads, walls, 2" thick fire resistant thermo-bonded polyester insulation in rafter cavities, sound abatement package, and undercoating. Urethane foam dust control package.

LETTERING

As required by Federal and State requirements in black block lettering including capacity, "BOONE CENTRAL PUBLIC SCHOOLS" in 6" black letters. Unit numbers as needed. Yellow reflective striping as required by state regulations.

LIGHTS

Halogen extended life headlights with daytime running lights, driver's dome light on separate switch, dual row of dome lights on separate switch. LED clearance/marker- red rear/amber rear, back-up- clear, stop/tail- red at belt line. Warning eight lamp warning system flush mounted with Lexan covers 27% bigger than 7" round lights. LED marker/cluster-per FMVSS, clear strobe light third section from rear, centered. Step well-hooded step light, skirt mounted entrance door light, step light switch. Side mounted turn signals on fender and side panels. Light monitor.

MANUALS

Printed operator's maintenance manual including electrical troubleshooting guide, web based service and parts access. Line set ticket

MIRRORS

Rosco 7" X 10" heated & remote controlled side mirrors with extended arms; Rosco Hawkeye heated mirrors with tripod bracket. Interior 6' x 30"

MUD FLAPS

HD Front and rear

PAINT

Exterior painted National School Bus Yellow with black trim using lead free urethane PPG paint, interior painted light gray, undercoated chassis.

RADIO

Delphi AM/FM/CD/ WB stereo with 8 premium speakers offering reverse mute and speed compensated volume.

ROOF HATCHES

(2) Transpec roof hatches with vent installed in self-sealing pre-cut panel

RUB RAILS

Four (4) exterior side rub rails located at window level, seat level, floor, level, and bottom skirt. Seat rail is one piece formed to length, 14 gauge Galvalume. Rub rails are secured with huck rivets. Sealed with Saf-T-Bond structural adhesive.

SAFETY EQUIPMENT

(2) Nebraska first aid kits, one mounted in storage compartment above driver, one mounted at rear of bus. 5 lb chemical type fire extinguisher, moisture proof body fluid clean up kit, triangle safety kit mounted in same storage compartment. 112 DB back-up alarm. Back-up camera system

SAFETY SOLENOID SWITCH

Single switch for complete shutdown of all heaters and radio at railroad crossings

SAF-T-VUE WINDOWS

Upper and lower pane 352 square inches, located in front of the entrance door to provide vision of the blind spot by the right front wheel without the use of a mirror.

SEAT/DRIVER

National, heated, high back, adjustable, with three point retractable shoulder harness, armrests, and adjustable lumbar support.

SEAT/PASSENGER

(22) 39" passenger seats covered with 42 oz. gray leatherette fire block material and pivot cushion for cleaning with powder-coated frames.

STEERING

TRW TAS-55 with full power steering. Gear driven hydraulic pump. 19" diameter padded tilt/telescopic steering wheel. 55 degree wheel cut makes this the most maneuverable of any bus in its class

STOP ARM

Stop arm with wind guard. Highly reflective and equipped with LED high intensity lights. Controlled by an electric switch and door operation in conjunction with 8 lamp warning system

STORAGE COMPARTMENTS

(2) 100" Undercarriage storage compartments with locks and lights located one on each side.

SUSPENSION

9K LB taper leaf front with maintenance free rubber bushings and spring wear pads
21K LB "Airliner" air suspension

TIRES

(2) Michelin 11R22.5 14 ply front
(4) Michelin 11R22.5 14 ply rear

TRANSMISSION

Allison 2500 PTS automatic 6 speed O/D and Fuel Sense programming (see brochure)

WHEELBASE

259"

WHEELS

Accuride 22.5 x 7.5-painted black 10-hole hub piloted
Chicago Rawhide oil wheel seals

WINDOWS

ABS automotive grade technology 12" high x25" wide opening split sash tempered glass. All side and rear passenger windows tinted, bonded, and banded. Four-tinted tempered push out windows, all interior and exterior window frames are flat black. Driver's window and upper windows in entrance door are storm glass

WINDSHIELD

Automotive style one piece, bonded, and curved, slanted to reduce glare and breakage and provide maximum vision. The tinted safety plate laminated glass provides 3362 square inches of windshield area.

WINDSHIELD WIPERS

Electric, intermittent 5 speed heavy duty wipers. Bottom mounted overlapping automotive style pattern resulting in 1537 square inches of wiped windshield for safety. Wiper motor is accessible for service under engine hood.

WARRANTY

Base: Limited 3 year bumper to bumper

Body: Limited 5 years/unlimited miles

Engine: Limited 5 year/100,000 miles

Transmission: Limited 7 years/unlimited miles

Axles: Limited 5 years/unlimited includes king pins

OPTIONAL:
