BYLAWS
OF
EDUCATIONAL SERVICES UNIT COORDINATING COUNCIL

Article I. Authority and Purpose.

Section 1. Introduction. Pursuant to NEB. REV. STAT. § 79-1245, the Educational Services Unit Coordinating Council (hereinafter referred to as "the Council") is a political subdivision of the State of Nebraska.

Section 2. Purpose of Bylaws. The purpose of these Bylaws is to provide operational guidance to the Council and to clarify the Council's relationship with other education entities.

Section 3. Authority. The powers and duties of the Council are set forth in NEB. REV. STAT. §§ 79-1245 to 79-1249 as it may be amended from time to time. These Bylaws shall in no way limit or alter the authority and duties of the Council as provided by law.

Section 4. Mission. The mission of the Council is to provide the most cost-effective educational support for students, teachers, and school districts in each Nebraska educational service unit by facilitating statewide coordination of educational services and strategic planning.

Article II. Membership and Meetings.

Section 1. Number of Members. The Council shall initially have seventeen (17) members, one (1) administrator from each of the seventeen (17) Nebraska educational service units. The Council may involve liaisons from other educational entities and State agencies in its meetings and activities. If, at any time, the number of educational service units changes, the number of members on the Council shall also change so the number of members on the Council remains the same number as the number of existing Nebraska educational service units.

Section 2. Member Responsibilities. Each member is responsible for attending meetings and faithfully and diligently executing any responsibilities or tasks delegated by the Council to carry out its statutory powers and duties.

Section 3. Regular Meetings. In May of each year, the Council shall approve meeting dates, times and locations for the next 12 months. The Council shall meet at least once annually and schedule the number of regular meetings

that it deems appropriate for each 12-month period. The Council shall endeavor to set meetings on dates and at locations that accommodate the schedule of its members and of the State's education community. Regular meetings shall be noticed and held pursuant to the Nebraska Open Meetings Act.

Section 4. Special Meetings. Special meetings of the Council may be called by the President of the Council or by a majority of Council members for any lawful reason. Special meetings shall be noticed and held pursuant to the Nebraska Open Meetings Act.

Section 5. Quorum. No action may be taken on a matter at a Council meeting unless a majority of Council members are present at the meeting either in person or via teleconference pursuant to NEB. REV. STAT. § 84-1411 as may be amended from time to time.

Section 6. Voting. If a quorum is present, the affirmative vote of the majority of Council members present at the meeting and entitled to vote on the subject matter shall be considered an act of the Council unless of a greater vote is required by law. All votes shall be by roll call vote and recorded in the minutes of the Council meeting.

Section 7. Recessed Meeting. A majority of Council members present at any meeting may vote to recess the meeting to a different date, time and/or location. Any business which might have been transacted at the original meeting may be transacted at the rescheduled meeting if a quorum is present at such recessed meeting.

Section 8. Commissioner of Education. The Commissioner of Education shall be invited to attend or to send representatives from the Nebraska Department of Education in his or her stead, to each regular meeting of the Council.

Article III. Officers.

Section 1. Number and Qualification. The initial officers of the Council shall consist of a President, a President-Elect, a Past-President, a Secretary, a Treasurer and such other officers as may be deemed necessary by the Council. Together these officers shall comprise the Executive Committee of the Council.

Section 2. Election and Tenure. The officers of the Council shall be elected at the first regular meeting of the Council. Election may be by either voice vote or written ballot and shall require a majority vote of all members present at the meeting at which the election occurs. Thereafter the officers shall be elected bi-annually at the September meeting or as soon thereafter as convenient. Each officer shall hold office for two years or until his or her successor is duly elected and qualified, unless his or her service is terminated sooner because of death, resignation, removal, disqualification or otherwise.

Section 3. Removal. Any officer of the Council, either elected or appointed, may be removed by a vote of the majority of the Council. Election or appointment of an officer or agent shall not of itself create a contractual relationship between the officer and the Council or give the officer any contract rights.

Section 4. Vacancies. A vacancy in an office due to death, resignation, removal, disqualification or otherwise shall be filled by a vote of the Council in the same manner as provided in Section 2 above, at the Council's next regular meeting after the vacancy becomes known to the Council.

Section 5. Duties and Authority of Officers.

(a) President. The President shall be the principal executive officer of Council. The President shall cause all meetings of the Council to be lawfully noticed and prepare an agenda for each meeting of the Council in accordance with state law. When present, the President shall preside at all meetings of the Council. The President may sign, with the Secretary or any other officer of the agency authorized by the Council, checks, contracts or other instruments which the Council has authorized to be executed, except in cases where the signing and execution thereof is expressly delegated by the Council or these Bylaws to some other officer or agent of the Council or required by law to be otherwise signed or executed. The President shall perform all duties incident to the office of President and such other duties as may be prescribed by the Council from time to time.

(b) President-Elect. In the absence of the President or in the event of his or her death, inability, or refusal to act, the President-Elect shall perform the duties of the President. When so acting the President-Elect, shall have all the powers of, and be subject to all the

The Council shall require each fiscal agent appointed by the Council to provide to the Council quarterly statements of all activity for each project.

Section 3. Agency Agreements and Fiscal Agents. The Council may enter into agency agreements with individual educational service units or other public or private entities. Nebraska Open Meetings Act

§84-1407 Act, how cited Sections 84-1407 to 84-1414 shall be known and may be cited as the Open Meetings Act.

§84-1408 Declaration of intent; meetings open to public It is hereby declared to be the policy of this state that the formation of public policy is public business and may not be conducted in secret. Every meeting of a public body shall be open to the public in order that citizens may exercise their democratic privilege of attending and speaking at meetings of public bodies, except as otherwise provided by the Constitution of Nebraska, federal statutes, and the Open Meetings Act.

§84-1409. Terms, defined For purposes of the Open Meetings Act, unless the context otherwise requires: (1)(a) Public body means (i) governing bodies of all political subdivisions of the State of Nebraska, (ii) governing bodies of all agencies, created by the Constitution of Nebraska, statute, or otherwise pursuant to law, of the executive department of the State of Nebraska, (iii) all independent boards, commissions, bureaus, committees, councils, subunits, or any other bodies created by the Constitution of Nebraska, statute, or otherwise pursuant to law, (iv) all study or advisory committees of the executive department of the State of Nebraska whether having continuing existence or appointed as special committees with limited existence, (v) advisory committees of the bodies referred to in subdivisions (i), (ii), and (iii) of this subdivision, and (vi) instrumentalities exercising essentially public functions. (b) Public body does not include (i) subcommittees of such bodies unless a quorum of the public body attends a subcommittee meeting or unless such subcommittees are holding hearings, making policy, or taking formal action on behalf of their parent body, except that all meetings of any subcommittee established under section 81-15,175 are subject to the Open Meetings Act, and (ii) entities conducting judicial proceedings unless a court or other judicial body is exercising rulemaking authority, deliberating, or deciding upon the issuance of administrative orders;

(2) Meeting means all regular, special, or called meetings, formal or informal, of any public body for the purposes of briefing, discussion of public business, formation of tentative policy, or the taking of any action of the public body; and

(3) Videoconferencing means conducting a meeting involving participants at two or more locations through the use of audio-video equipment which allows participants at each location to hear and see each meeting participant at each other location, including public input. Interaction between meeting participants shall be possible at all meeting locations.

§84-1410. Closed session; when; purpose; reasons listed; procedure; right to challenge; prohibited acts; chance meetings, conventions, or workshops (1) Any public body may hold a closed session by the affirmative vote of a majority of its voting members if a closed session is clearly necessary for the protection of the public interest or for the prevention of needless injury to the reputation of an individual and if such individual has not requested a public meeting. The subject matter and the reason necessitating the closed session shall be identified in the motion to close. Closed sessions may be held for, but shall not be limited to, such reasons as: (a) Strategy sessions with respect to collective bargaining, real estate purchases, pending litigation, or litigation which is imminent as evidenced by communication of a claim or threat of litigation to or by the public body; (b) Discussion regarding deployment of security personnel or devices; (c) Investigative proceedings regarding allegations of criminal misconduct; (d) Evaluation of the job performance of a person when necessary to prevent needless injury to the reputation of a person and if such person has not requested a public meeting; (e) For the Community Trust created under section 81-1801.02, discussion regarding the amounts to be paid to individuals who have suffered from a tragedy of violence or natural disaster, or (f) For public hospitals, governing board peer review activities, professional review activities, review and discussion of medical staff investigations or disciplinary actions, and any strategy session concerning transactional negotiations with any referral source that is required by federal law to be conducted at arms length. Nothing in this section shall permit a closed meeting for discussion of the appointment or election of a new member to any public body.

(2) The vote to hold a closed session shall be taken in open session. The entire motion, the vote of each member on the question of holding a closed session, and the time when the closed session commenced and concluded shall be recorded in the minutes. If the motion to close passes, then the presiding officer immediately prior to the closed session shall restate on the record the limitation of the subject matter of the closed session. The public body holding such a closed session shall restrict its consideration of matters during the closed portions to only those purposes set forth in the motion to close as the reason for the closed session. The meeting shall be reconvened in open session before any formal action may be taken. For purposes of this section, formal action shall mean a collective decision or a collective commitment or promise to make a decision on any question, motion, proposal, resolution, order, or ordinance or formation of a position or policy but shall not include negotiating guidance given by members of the public body to legal counsel or other negotiators in closed sessions authorized under subdivision (1) (a) of this section.

(3) Any member of any public body shall have the right to challenge the continuation of a closed session if the member determines that the session has exceeded the reason stated in the original motion to hold a closed session or if the member contends that the closed session is neither clearly necessary for (a) the protection of the public interest or (b) the prevention of needless injury to the reputation of an individual. Such challenge shall be overruled only by a majority vote of the members of the public body. Such challenge and its disposition shall be recorded in the minutes.

(4) Nothing in this section shall be construed to require that any meeting be closed to the public. No person or public body shall fail to invite a portion of its members to a meeting, and no public body shall designate itself a subcommittee of the whole body for the purpose of circumventing the Open Meetings Act. No closed session, informal meeting, chance meeting, social gathering, email, fax, or other electronic communication shall be used for the purpose of circumventing the requirements of the act.

(5) The act does not apply to chance meetings or to attendance at or travel to conventions or workshops of members of a public body at which there is no meeting of the body then intentionally convened, if there is no vote or other action taken regarding any matter over which the public body has supervision, control, jurisdiction, or advisory power.

§84-1411. Meetings of public body; notice; contents; when available; right to modify; duties concerning notice; videoconferencing or telephone conferencing authorized; emergency meeting without notice; appearance before public body (1) Each public body shall give reasonable advance publicized notice of the time and place of each meeting by a method designated by each public body and recorded in its minutes. Such notice shall be transmitted to all members of the public body and to the public. Such notice shall contain an agenda of subjects known at the time of the publicized notice or a statement that the agenda, which shall be kept continually current, shall be readily available for public inspection at the principal office of the public body during normal business hours. Agenda items shall be sufficiently descriptive to give the public reasonable notice of the matters to be considered at the meeting. Except for items of an emergency nature, the agenda shall not be altered later than (a) 24 hours before the scheduled commencement of the meeting or (b) 48 hours before the scheduled commencement of a meeting of a city council or village board scheduled outside the corporate limits of the municipality. The public body shall have the right to modify the agenda to include items of an emergency nature only at such public meeting.

(2) A meeting of a state agency, state board, state commission, state council, or state committee, of an advisory committee of any such state entity, of an organization created under the Interlocal Cooperation Act, the Joint Public Agency Act, or the Municipal Cooperative Financing Act, of the governing body of a public power district having a chartered territory of more than one county in this state, of the governing body of a public power and irrigation district having a chartered territory of more than one county in this state, of a board of an educational service unit, of the educational service unit coordinating council, of the governing body of a risk management pool or its advisory committees organized in accordance with the Intergovernmental Risk Management Act, or of a community college board of governors may be held by means of videoconferencing or, in the case of the Judicial Resources Commission in those cases specified in section 24-1204, by telephone conference, if: (a) Reasonable advance publicized notice is given; (b) Reasonable arrangements are made to accommodate the public's right to attend, hear, and speak at the meeting, including seating, recordation by audio or visual recording devices, and a reasonable opportunity for input such as public comment or questions to at least the same extent as would be provided if videoconferencing or telephone conferencing was not used; (c) At least one copy of all documents being considered is available to the public at each site of the videoconference or telephone conference; (d) At least one member of the state entity, advisory committee, board, council, or governing body is present at each site of the videoconference or telephone conference; and (e) No more than one-half of the state entity's, advisory committee's, board's, council's, or governing body's meetings in a calendar year are held by videoconference or telephone conference. Videoconferencing, telephone conferencing, or conferencing by other electronic communication shall not be used to circumvent any of the public government purposes established in the Open Meetings Act.

(3) A meeting of a board of an educational service unit, of the educational service unit coordinating council, of the governing body of an entity formed under the Interlocal Cooperation Act, the Joint Public Agency Act, or the Municipal Cooperative Financing Act, of the governing body of a risk management pool or its advisory committees organized in accordance with the Intergovernmental Risk Management Act, of a community college board of governors, of the governing body of a public power district, or of the governing body of a public power and irrigation district may be held by telephone conference call if: (a) The territory represented by the educational service unit, member educational service units, community college board of governors, public power district, public power and irrigation district, or member public agencies of the entity or pool covers more than one county; (b) Reasonable advance publicized notice is given which identifies each telephone conference location at which an educational service unit board member, a council member, a member of a community college board of governors, a member of the governing body of a public power district, a member of the governing body of a public power and irrigation district, or a member of the entity's or pool's governing body will be present; (c) All telephone conference meeting sites identified in the notice are located within public buildings used by members of the educational service unit board, council, community college board of governors, governing body of the public power district, governing body of the public power and irrigation district, or entity or pool or at a place which will accommodate the anticipated audience; (d) Reasonable arrangements are made to accommodate the public's right to attend, hear, and speak at the meeting, including seating, recordation by audio recording devices, and a reasonable opportunity for input such as public comment or questions to at least the same extent as would be provided if a telephone conference call was not used; (e) At least one copy of all documents being considered is available to the public at each site of the telephone conference call; (f) At least one member of the educational service unit board, council, community college board of governors, governing body of the public power district, governing body of the public power and irrigation district, or governing body of the entity or pool is present at each site of the telephone conference call identified in the public notice; (g) The telephone conference call lasts no more than two hours; and (h) No more than one-half of the board's, council's, governing body's, entity's, or pool's meetings in a calendar year are held by telephone conference call, except that a governing body of a risk management pool that meets at least quarterly and the advisory committees of the governing body may each hold more than one-half of its meetings by telephone conference call if the governing body's quarterly meetings are not held by telephone conference call or videoconferencing. Nothing in this subsection shall prevent the participation of consultants, members of the press, and other nonmembers of the governing body at sites not identified in the public notice. Telephone conference calls, emails, faxes, or other electronic communication shall not be used to circumvent any of the public government purposes established in the Open Meetings Act.

(4) The secretary or other designee of each public body shall maintain a list of the news media requesting notification of meetings and shall make reasonable efforts to provide advance notification to them of the time and place of each meeting and the subjects to be discussed at that meeting.

(5) When it is necessary to hold an emergency meeting without reasonable advance public notice, the nature of the emergency shall be stated in the minutes and any formal action taken in such meeting shall pertain only to the emergency. Such emergency meetings may be held by means of electronic or telecommunication equipment. The provisions of subsection (4) of this section shall be complied with in conducting emergency meetings. Complete minutes of such emergency meetings specifying the nature of the emergency and any formal action taken at the meeting shall be made available to the public by no later than the end of the next regular business day.

(6) A public body may allow a member of the public or any other witness other than a member of the public body to appear before the public body by means of video or telecommunications equipment.

§84-1412. Meetings of public body; rights of public; public body; powers and duties (1) Subject to the Open Meetings Act, the public has the right to attend and the right to speak at meetings of public bodies, and all or any part of a meeting of a public body, except for closed sessions called pursuant to section 84-1410, may be videotaped, televised, photographed, broadcast, or recorded by any person in attendance by means of a tape recorder, camera, video equipment, or any other means of pictorial or sonic reproduction or in writing.

(2) It shall not be a violation of subsection (1) of this section for any public body to make and enforce reasonable rules and regulations regarding the conduct of persons attending, speaking at, videotaping, televising, photographing, broadcasting, or recording its meetings. A body may not be required to allow citizens to speak at each meeting, but it may not forbid public participation at all meetings.

(3) No public body shall require members of the public to identify themselves as a condition for admission to the meeting nor shall such body require that the name of any member of the public be placed on the agenda prior to such meeting in order to speak about items on the agenda. The body may require any member of the public desiring to address the body to identify himself or herself.

(4) No public body shall, for the purpose of circumventing the Open Meetings Act, hold a meeting in a place known by the body to be too small to accommodate the anticipated audience.

(5) No public body shall be deemed in violation of this section if it holds its meeting in its traditional meeting place which is located in this state.

(6) No public body shall be deemed in violation of this section if it holds a meeting outside of this state if, but only if: (a) A member entity of the public body is located outside of this state and the meeting is in that member's jurisdiction; (b) All out-of-state locations identified in the notice are located within public buildings used by members of the entity or at a place which will accommodate the anticipated audience; (c) Reasonable arrangements are made to accommodate the public's right to attend, hear, and speak at the meeting, including making a telephone conference call available at an instate location to members, the public, or the press, if requested 24 hours in advance; (d) No more than 25% of the public body's meetings in a calendar year are held out-of-state; (e) Out-of-state meetings are not used to circumvent any of the public government purposes established in the Open Meetings Act; (f) Reasonable arrangements are made to provide viewing at other instate locations for a videoconference meeting if requested fourteen days in advance and if economically and reasonably available in the area; and (g) The public body publishes notice of the out-of-state meeting at least 21 days before the date of the meeting in a legal newspaper of statewide circulation.

(7) The public body shall, upon request, make a reasonable effort to accommodate the public's right to hear the discussion and testimony presented at the meeting.

(8) Public bodies shall make available at the meeting or the instate location for a telephone conference call or videoconference, for examination and copying by members of the public, at least one copy of all reproducible written material to be discussed at an open meeting. Public bodies shall make available at least one current copy of the Open Meetings Act posted in the meeting room at a location accessible to members of the public. At the beginning of the meeting, the public shall be informed about the location of the posted information.

§84-1413. Meetings; minutes; roll call vote; secret ballot; when (1) Each public body shall keep minutes of all meetings showing the time, place, members present and absent, and the substance of all matters discussed.

(2) Any action taken on any question or motion duly moved and seconded shall be by roll call vote of the public body in open session, and the record shall state how each member voted or if the member was absent or not voting. The requirements of a roll call or viva voce vote shall be satisfied by a municipality, a county, a learning community, a joint entity created pursuant to the Interlocal Cooperation Act, a joint public agency created pursuant to the Joint Public Agency Act, or an agency formed under the Municipal Cooperative Financing Act which utilizes an electronic voting device which allows the yeas and nays of each member of such city council, village board, county board, or governing body to be readily seen by the public.

(3) The vote to elect leadership within a public body may be taken by secret ballot, but the total number of votes for each candidate shall be recorded in the minutes.

(4) The minutes of all meetings and evidence and documentation received or disclosed in open session shall be public records and open to public inspection during normal business hours.

EdReady Presentation (Movall)
Chris Valentine (Accelerate NE/Avenue of Scholars) and Nancy Movall were present to present on Accelerate Nebraska. Work is being done on how EdReady can be used to help students prepare on for Career and Technical skills/enrichment exercise. Eighty percent of jobs in Nebraska do not need a higher education degree. Our membership with NROC/EdReady can contextualize towards career pathways (nursing, welding, etc.) There are 141 pathways that are accessible in EdReady. EdReady can be used for Clusters that do not meet the needs of state's performance goals such as hospitality and tourism, law, public safety, security and corrections, etc. Team is ready and willing to do presentations and/or workshops with ESUs and teachers. We continue to look for niche programs where we can help students learn. It was suggested by an Administrators to work with groups at PDO/TLT.

Executive Committee Report
President shared discussions in committee.

Approve ESUCC Rotating Meeting Calendar
Do we align January ESUCC Meetings with PDO Meetings?
January PDO Meeting is currently January 2/3 before we come back, move to following week? Discussion was held to just move the March to a rotational meeting and it will continue to be a DL Meeting. Have there been discussion to reduce meetings? For business purposes we need to keep meetings. Redesign process will help further develop our needs/purpose. Try to decrease the amount of spending/mileage to meetings. DL is a statutory allowance opportunity. When attending via DL could possibly attend regionally.

Approve the ESUCC rotating calendar with approved changes (February and March meeting will be rotational) Passed with a motion by Lofquist ESU 09 and a second by Schnoes ESU 03.

PD Leadership Committee
Executive Director shared the PDO meeting agenda for May 9-10. The outcomes will be to facilitate the direction of the work groups, continue to invest in data driven decision, align the current work and statewide collaboration, put the PD back into PDO. Survey needs to go out right away after event and the PD Committee will do some analysis of that survey. Administrators talk to your staff about their feelings/outcomes from the meeting and share with PD Committee. The PD committee needs to be more informed of the work of PDO. Continue to make our decision data driven. LB 651 - Linehan summer school for reading. Required hours have been removed. This bill has been amended with LB 1081 technical clean-up bill. Would we help to facilitate/coordinate summer school across the state? Look at the work Iowa AEAs did with Iowa with summer school.

Special Populations Committee
Committee Chair reviewed the discussion in committee. SRS is working hard to get moved over to Zend 3 by the end of June. They are working to get some more schools involved in the AAP (alternative schools). Continue to discuss if there should be a Para Conference on the East end of the state. LB 998 - Mental Health bill should be on the floor sometime this week. Assistive Technology RFP will not be out until May.

Legislative Committee
Committee Chair reviewed the discussion in committee regarding legislative bills. In education we had to play a lot of defense this year with the legislative session. There will be about 15 interim studies done, the committee will meet to discuss our interest in those studies. Discussion of Senator Erdman's bill on property tax relief could possibly be on the ballot, discussion regarding on our opposition of the bill. Associations are organization group to work on shedding light on the affect this will have on schools.

2017-2026 STRATEGIC VISION AND DIRECTION

Nebraska State Board of Education and Nebraska Department of Education

12/02/16

Nebraska State Board of Education

The State Board of Education is an elected, constitutional body that is the policy forming and evaluative body for the state school program (79-301(2) R.R.S.) in addition to ensuring the State Department of Education functions effectively within the framework developed by the state Legislature and the Board. The Board is elected on a non-partisan ballot, with one member from each district. Board members serve four-year terms.

District 3: Rachel Wise, President
District 1: Lillie Larsen, Vice President
District 2: Glen Flint
District 4: John Witzel
District 5: Patricia Timm
District 6: Maureen Nickels
District 7: Molly O 'Holleran
District 8: Patrick McPherson

Nebraska Department of Education

The Nebraska Department of Education (NDE) is a constitutional agency comprised of services, programs, Vocational Rehabilitation (Nebraska VR), and Disabilities Determination Section (DDS). The NDE operates under the authority of an elected State Board of Education (Board) and the Commissioner of Education (Commissioner). The NDE is organized into teams that carry out the duties assigned by state and federal statutes and the policy directions of the Board. Teams are organized around distinct functions and responsibilities that encompass leadership and support for Nebraska's system of early childhood, primary, secondary, and postsecondary education; direct services to clients; and internal support to the agency.

The NDE carries out its duties on behalf of Nebraska students and parents involved in public and nonpublic school systems. The NDE staff interacts with schools, parents, businesses, community partners, and institutions of higher education to develop, coordinate, and improve educational programs and services.

Commissioner of Education: Matthew L. Blomstedt, Ph.D.

Strategic Vision and Direction – 2017-2026

Introduction

In January of 2016, the Board and the NDE initiated the development of a Strategic Plan to guide the vision and direction of education in Nebraska for the next ten years. Nebraska's Strategic Plan to be known as ***Nebraska Quality Education Systems for Today and Tomorrow (NEQuESTT)*** represents the evolution of a philosophical and practical approach to supporting education in Nebraska. This commitment unifies and strengthens positive outcomes for each and every Nebraskan through bold and achievable goals. ***NEQuESTT*** not only outlines the critical needs and strengths within the system, but also reflects innovative approaches to ensure each Nebraskan has equitable access to opportunities and are ready for success in postsecondary, career, and civic life. ***NEQuESTT*** is the educational journey that puts forth a new vision and bold agenda for the system of education in Nebraska. This vision will require new and different ways of working together, stretching beyond the status quo, and engaging stakeholders through collaborative processes. The strategic plan defines a direction for accountability and a system of services and supports without losing sight of the importance of ensuring compliance with state and federal policies.

NEQuESTT guides the Board and the NDE to address some of the most urgent priorities within Nebraska. With an intentional and comprehensive focus on ensuring a reduction in educational inequities for the most vulnerable populations, this strategic plan directs focus on student- or client-centered outcomes, high quality opportunities, and a strong system of support **for every student, every day**.

NEQuESTT and AQuESTT

NEQuESTT aligns with Nebraska's accountability system, Accountability for a Quality Education System Today and Tomorrow (*AQuESTT*). The six critical tenets of *AQuESTT* holistically address accountability and quality education in Nebraska. Originally designed to meet statutory accountability requirements, AQuESTT has quickly grown beyond and guides the NDE and its work.

AQuESTT provides a fundamental focus on achievement and opportunity gaps and ensures strategies produce equitable outcomes for each and every learner. As a result, ***NEQuESTT*** includes goals with benchmarks that measure disaggregated data to ensure equity and access.

Roles:

In order to support strategic priorities, a suite of approaches is utilized that reflects the nuance of the work and the many stakeholders, systems, and partners that intersect to support a state education system. The various roles are:

Champion - NDE actively leads the strategic vision, goals, and policy direction to support learning, earning, and living by:

- Engaging key stakeholders and partners on emerging needs in the educational landscape and corresponding policy advocacy approach
- Exercising policy leadership and proactively engaging and partnering with the Unicameral and Governor on priority issues
- Advocating for necessary resources to meet needs and/or address issues to execute the vision

Regulator - NDE leverages policy authority to ensure delivery of high-quality, equitable education and services, beyond compliance with state and federal regulations by:

- Assuring access to fair, equitable, and high-quality education and services
- Monitoring school and districts to ensure adherence to regulations and setting expectations beyond compliance for accountability and growth in learning
- Promoting best practices for leadership and using data and resources to ensure effective continuous improvement

Capacity Builder - NDE directs technical assistance and professional development opportunities and promotes the sharing of best practices by:

- Providing technical assistance and professional development opportunities for educators, staff, and community providers
- Actively engaging with priority and needs improvement schools as well as continuing to support the improvement of all schools
- Identifying schools and districts across the state with effective educational practices to gather data on successful practices
- Acting as a facilitator to connect schools to highlight learnings, share lessons learned, and communicate best practices
- Developing, maintaining, and leveraging strong working relationships with education and community partners to extend and enhance capacity across the state

Connector - NDE helps bridge the divide between learning, earning, and living, connecting schools, families, business, and communities by:

- Connecting, convening, and partnering with schools, businesses, out-of-school programs, postsecondary education, state agencies, and community providers to create a more comprehensive approach to education and service delivery
- Supporting other agencies and organizations in active engagement and relationship building amongst individuals, parents, and families

Change Agent - NDE explores and supports promising new innovations by:

- Researching, promoting, and providing support for promising new initiatives and innovations in education across the state and nation (e.g., promising activities in rural areas, blended learning, personalized learning, adult basic education)
- Providing ongoing training, support, and resources to drive the adoption of new practices and to assure implementation

Strategic Direction:

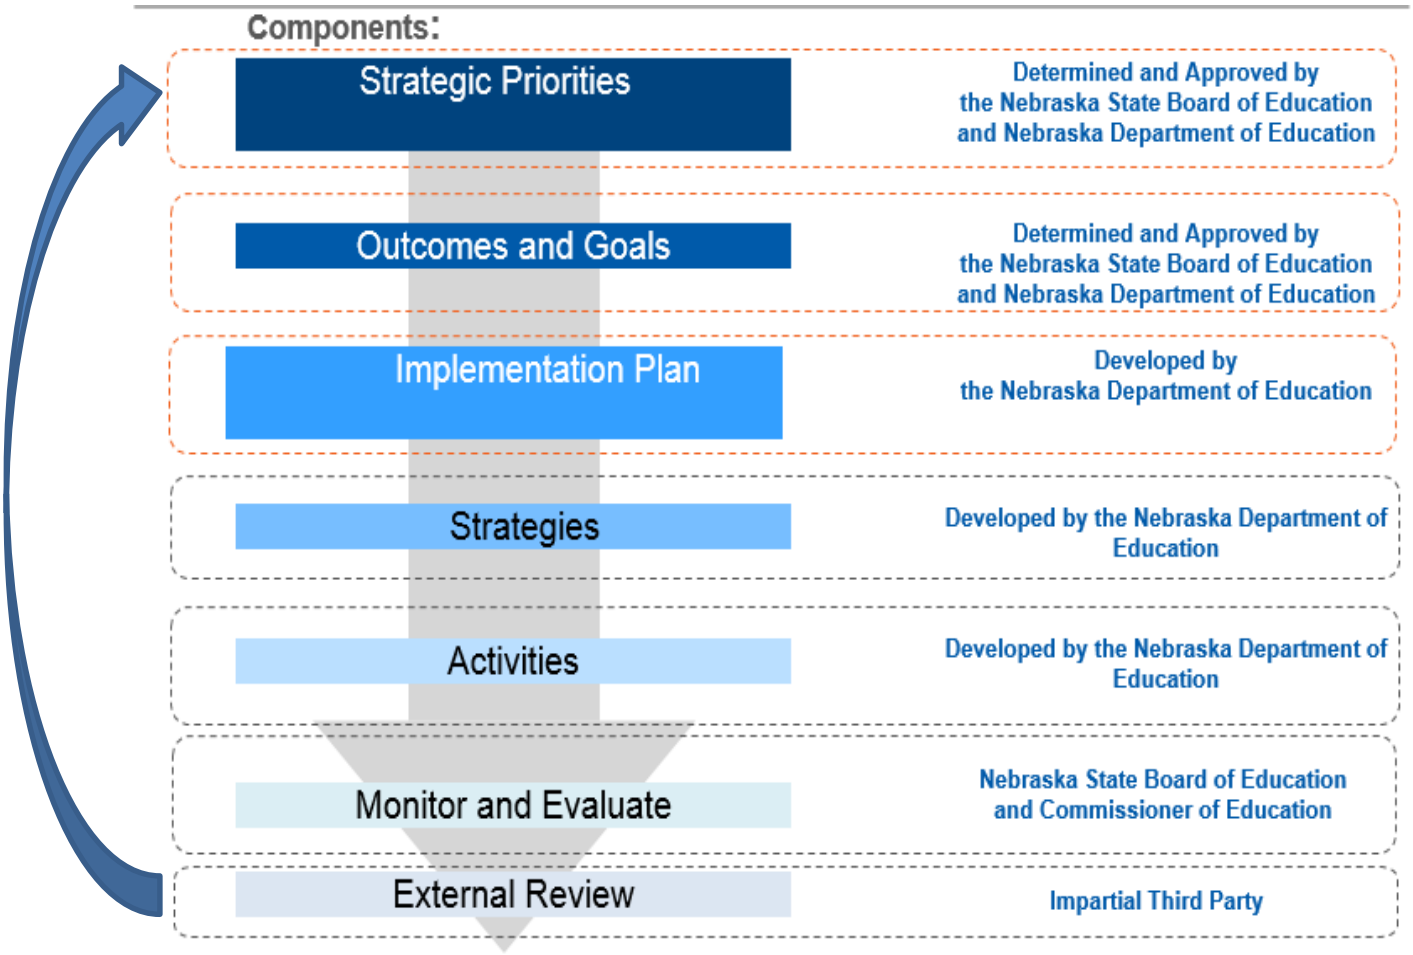
To realize the new strategic vision it can no longer be business as usual.

	FROM	TO
ORGANIZATIONAL STRUCTURE	• Organizational structure primarily oriented around subject area silos • Decision-making authority mostly concentrated in hands of senior agency leadership	• More cross-functional, with collaboration and communication across teams • More distributed decision-making authority, where staff closer to the issue is empowered to make relevant decisions
PERSONNEL & STAFFING	• Staff with very specific skills focused primarily on content knowledge • Traditional focus on regulation and compliance	• Broader staff expertise, including both content knowledge and breadth of experiences (e.g., relationship building, background in business, work with underserved communities) • Focus on leadership, innovation, and learning
STAKEHOLDER ENGAGEMENT	• Sporadic engagement on an as-needed basis • Limited engagement with specific populations or cultural communities	• Consistent and tailored stakeholder engagement plans for specific audiences, allowing authentic relationships and dialogue to develop
DATA & SYSTEMS	• Limited publicly accessible data • Focus on accountability and compliance • Cumbersome website	• Readily available data for all stakeholders from an easy to use, up-to-date platform • Focus on performance management • User-friendly website and an online portal with lessons learned and best practices for practitioners

Moving Forward:

The Board has taken into account the multiple roles of the NDE in the development of this strategic plan and in the expectations set forth for the NDE. This recognition is coupled with the expectation of providing quality, equitable support through a multi-faceted system under the charge of the NDE. The shared responsibility of leadership between the Board and the Commissioner includes developing this plan, monitoring goals, and implementing strategies through the NDE's programs and supports for schools, students, systems and clients across the state. The Board carries out this strategic plan through direction to the Commissioner. The Commissioner has the responsibility to build an implementation plan that makes ***NEQuESTT*** a living document utilizing the aforementioned roles and strategic direction outlined for organizational structure; personnel and staffing; stakeholder engagement; and data and systems.

The strategic plan is multi-layered.



Operational Approach:

NEQuESTT provides a framework for measuring multiple levels and processes to ensure success through standard, quantifiable metrics, artifacts, and evidence-based analyses utilizing a three-tiered approach:

- **NDE Accountability** – Process, regulations, support, interagency collaboration, data systems, fiscal responsibility, and evaluation
- **Service Accountability** – Quality and success of services provided by the agency
- **District and School Accountability** – School and agency progress and improvement

Strategic Priorities, Outcomes, and Goals:

The Board and Commissioner will regularly review these goals as organized by the strategic priorities and outcomes. The NDE goals will include Commissioner and Board activities necessary to build the department's system of accountability and support for services and schools. The NDE will track progress on these goals and other metrics required by state and federal law. The Commissioner will annually report progress on these goals and other measures to report progress and performance to the Board.

Implement, Monitor, and Evaluate:

The Board and the Commissioner share the responsibility to:

- champion and lead the strategic vision and goals.
- serve as change agents and capacity builders.
- ensure progress on the strategic priorities.

The Board and the Commissioner will be responsible for implementing this plan including the development of strategies, and activities, and monitoring on an annual basis. A review will be presented by the Commissioner and appropriate NDE personnel annually or as directed. An objective external review of ***NEQuESTT*** will be conducted by an impartial third-party reviewer two years after adoption and thereafter as determined by the Board with results being presented to stakeholders.

ESUCC Redesign Work with Susan Leddick
February 7, 2018
LPS Admin Building

Design Team Session 1 will be characterized by small group work, reporting out to full group, dialogue, and development of consensus among the group. Susan Leddick will provide templates and protocols to guide the activities. She will also provide written documentation of the work in progress.

Working Agenda:
Welcome members and issue the charter to the Design Team

- Plan or be planned for!
- If we could have what we want, what would it be?

Process

- Help organization **communicate** progress to and **involve** the stakeholder groups.
- Help the organization **organize** the information gathered from the stakeholders and from the Design Team, itself.
- **Develop** the design of ESUCC based on stakeholder information and context.
- Helps the organization plan for **implementation** of the new design.
- Serve as **ambassadors** for the process design.

A Critical Choice

- Improve
    - Start with what is
    - Try to predict the future
    - Look for opportunities and threats in the present
    - Accept incremental change

- Design
    - Start with what you would have right now if you could have what you want
    - Try to create the future you want
    - Understand how the present locks you in
    - Produce order of magnitude change

Thinking together

- Why Design?
    - Improve – locked in; Design process we have access to everything
        - Create our own future – get a say in process

- Improve – reacting; Design – look at what we do and do the design a whole lot better.
- Improve – thinking inside the box; Design – step outside the box and work toward the future.

Why is this important work for the ESUCC right now?

- The aha moment – we are not ESU, we are ESUCC – we used to be a rubber stamp, now we communicate through a process
- Find the data sources that define the ESUCC – how do we check progress?

Too often the case – we do our best but we stay the same.

The job ahead in ESUCC

Design the Next Generation of ESUCC
Make it the best and most exciting set…

Solution

Interconnect challenge; No right answer
Formulate the Set of Interacting Challenges
Participation – exciting limit constrained
Design the preferred solution
Short term wine; remove obstacles for long term wins; leadership is critical
Plan and execute Implementation (Successive approximations)

Working Together….Getting Organized

- ESUCC Context
- Working with stakeholders – how to work with them and seek their voice
- Interacting problems – working proactively
- Design demands leadership for action

Building our Team

- North Action – Just do it!
  - Get stuff done
  - Take time to listen to all ideas
- East – Vision – What are the possibilities?
  - Explain what is important
  - Need to provide opportunity for forgiveness
  - Vision can't help without details, caring
- South – Caring – What do you think?

    - If we care we will step up as good leaders and take care of everyone. For those that don't care – help them find a place where they do care. Take action and do things.
- West – Details – Who? What? When? Where? Why?
    - Harmful – analysis paralysis
    - Need time to provide reason/process

Compass Point:

- Strengths: Our contributions to a group
- Limitations – what should we watch out for
- Requests: what we need to do our best work
- Friction: Others annoy us when they….

Ground Rules – How we want to work together?

1. Treat each other with respect
2. Keep an open mind
3. Listen to understand
4. Balance advocacy and inquiry
5. Maintain confidentiality
6. Take risks
7. Tell the truth
8. Be present
9. Have fun

What happened repeatedly –

- Several things that fit both accomplishments and challenges
    - Stars
    - State Formula
    - Consolidation – ESU 12 and ESU 14

    - Funding
- Being questioned on the role of ESUCC – reaffirming the value to schools (Value Proposition – if we provide these services it provides; financial proposition)
- Helping to define the worth collectively
    - What data do we have to demonstrate our value?
- If we didn't have the ESUs – how does this affect students, teachers?
- Coop – we get vendor price line – the vendor offers the prices outside of that to schools
- In the beginning the group was more social. Important but how to do legally.
- Equity plan – making equitable across the state. Created the Cores Service Formula to make things more equitable. The formula has ebbed and flowed over time.
- Lots of free standing agreements among ESUs, by bringing under one umbrella we have one MSA Agreement. There was no accounting that structure all projects.
- What needs to be a part of ESUCC and what needs to stay at ESU level?
- When it was a loose organization it was dangerous – now there is more structure.

Statewide Functions - Statute

Statewide coordination

State Statute Section 79-1246

The Educational Service Unit Coordinating Council shall work toward statewide coordination to provide the most cost-effective services for the students, teachers, and school districts in each educational service unit. The council's duties include, but are not limited to:

- Preparation of strategic plans to assure the cost-efficient and equitable delivery of services across the state
- Administration of statewide initiatives and provision of statewide services
- Coordination of Distance Education

Brief background on ESUCC, the history of ESUs in Nebraska, ESAs nationally, and the changing demands on the education system and the ESUs in Nebraska

Begin the work of understanding the current system and what holds it in place: What's the context in which ESUCC is operating today?

Success changes the game: How the definition of success is changing for ESUs.

Social System - parts made up of people

- Power - ability to influence decision of value and for others.
- Wealth - what's our worth
- Beauty - relating to each other - belonging
- Values - how we manage conflict - what do we value as a group
- Knowledge - what is our no-how - expertise - how do we measure

Getting Started...Always in the Middle of Something

Context - matters tremendously - what are we in the middle of

Context Map

- Trends
  - Positive
    - valued relationship with NDE - streamline POC
    - stronger solution agent
    - more trust and relationships amongst ESU - as opposed to individual work
    - increased input from affiliates
  - Negative
    - unknown of what we do - tying CC to schools district
    - funding -
      - diminishing revenue sources
      - what needs to be funded
      - what does equitable mean
    - working with NDE Board
      - distrust with NDE/BOE
    - little political clout
- Political
  - legislative term limits
  - institutional knowledge of esus and esucc due to limits
  - legislational assumptions/blinders - lack of awareness
  - lack of trust/respect for ESUCC
  - tax relief
  - charters and vouchers
  - efforts to demise public schools
  - unicameral vs party system
  - Governor wants to do away with NDE and appoint Commissioner - Legislative Resolution - LR285CA
  - National educational agenda
  - Education Chair - no need for ESUs
- Economical Climate
  - conservative/cut spending - legislative disposition
  - legislative - governance of conservatism to cut spending
  - reliance on property tax to funds education - cut schools, ESUS, ESUCC
  - local to fund schools in each ESUs and expectations - locals will support their schools.
  - eroding core service dollars
  - importance of contract services in our ESUs - started with provisioning of SPED services. Are we to be more entrepreneurial?
- Technology
  - having good management of tech at state level
  - who does what/who are main players
  - project completion
  - ease of communication

        - are we looking at more statewide connections/growth
        - transition of looking at 1:1 as tools not the instructions
    - Uncertainty
        - unknown expectation/communications
        - who's responsible
        - roles in projects - who owns what
        - access, ability, time for development (limited)
        - technology plan
        - setting our own priorities - be on the cutting edge
    - Customer Needs

Group - What are we in the middle of?

Look fors:
How structured or organized
Interesting Services
Value proposition

- Communication at Unicameral level - knowing their role
- Uncertainty with great opportunity
    - not be seen as a resource to take up resource but provide solutions
- Use our organization more effectively and share best practices across the state
- Strengths in the number of people in this room - communicate as one voice

Problems
    Technical
    Adaptive

Take a field trip to...

- Iowa AEA System (http://iowaaea.org/)
    - nine aea's
    - members pay to make it run
    - they offer the same type of services -
        - learning online
        - purchasing
        - AEA online
    - bring tech together
    - build the collective and organizational capacity of AEA personnel to delivery quality service as co-owners of every student learner.
    - contract between dept/state for student achievement
    - no state funding
    - advocate for trainers - leadership
- Association of ESDs in Washington State (https://www.waesd.org/)
    - governed by exec board like us
    - board members are elected by local school board members

    - state funded
    - services are much like ours
    - offer the accreditation process
    - impressive website - data, return on investment, charts
    - documents for legislature - executive summary
    - Executive Director - one of the Board members become the director for two years - liaison for state department.
- Ohio ESC Association (https://www.oesca.org/)
    - governance structure similar as ours
    - superintendent of state on the board
    - business partners
    - individual memberships - benefits that they are entitled to
    - pay dues
    - retired member still get benefits
    - standing committees - directly related to goals
    - main goal to increase active membership
    - staff is executive director and executive assistant
    - elevator speech on who/what you are
    - summer school
    - extended school year plans
    - license foreign language
    - vendors vetted through agency for state
- PA Association of IUs (https://www.paiu.org)
    - entrepreneurial
    - similar organization
    - executive direct, program director, and executive assistant
    - high speed educational network
    - keystone catalog - online courses - most have fees
        - program of services
    - management of conflict

What does the virtual trip make you think about our role for the future - implications

- focusing our needs on better or higher quality of the things that we do - websites, education, stuff we do for districts, don't chase things too far if we can do better
- communication with all education organizations in the state : NCSA, NASB, etc
- legislation - is what we doing effectively and timely. Can we communicate with our senators cause we aren't getting message there
- purposeful - coop, legislation - enhance to next level
- defining needs from the legislation - ie: summer school - joint plan
- sharing of PD resources - housing of content, train in other areas that needs that expertise
    - greater as a whole than individually
- more diverse than what our focus has been - initiatives should be based on school needs - face to face conversations meet the needs better than survey

- website, marketing, and accreditation piece
- leadership needed to enact

Stakeholder Analysis: ESUCC

February 8, 2018 8:00 a.m. – 4:00 p.m.

Working Agenda:

✓ Draft the problem formulation: what is the set of interacting and dynamic challenges ESUCC designers face?

✓ Collect design specifications from the Design Team. (Answer the design question, "what would we have if we could have what we want in the next generation of ESUCC?") This activity will serve as a model for subsequent data collection from stakeholder groups. The Design Team will decide which stakeholder groups to include and will use the protocol Leddick provides to conduct these data gathering sessions and document the comments.

✓ Establish next steps, including validation of insights from Session 1, communication plan, collection of specifications from selected stakeholder groups and any additional preparation for Session 2 (May 7-8).

✓ Set a date for a progress check call in late March.

✓ Evaluate the meeting and adjourn

Three things:
What struck you as you thought about your design team's work in the first session?
Share with your partner?

- Many great minds in the room.
- Need to justify our existence through marketing ESUCC
- Like looking at other states
- Open and honest dialog - non-threatening
- Helpful to have the knowledge from peers

    - How to we record the history and retain
- What can ESUCC do that can't ESUs can't do without us (system)
- Why have this level of bureaucracy if it is not needed?
- Impressed with how everyone was willing to share ideas that would not happened in our meetings
- Intriguing to hear all the parts...can we come out with one common story

A System is a set of highly differentiated parts that when working together can produce outcomes no one of them can produce alone. R.L. Ackoff

Summer School Discussion
Summer School Criteria - example
How to act as a model - whole

Parts
individual LEAs/school districts
parents
non-proficient students
AEAs (curriculum directors, tech, business managers, facilities, etc)

Who's responsible?
nine leaders of AEAs working together equivalent of ESUCC

What is the whole system doing?
Consistent message - uniform voice
Pool resources - coordinate resource
Can they do what they do when working together better than what they do in silos?

How would things be different at ESU and ESUCC levels (whole) if we took this approach with the ESUCC on big initiatives?

How to respond to State Initiative?
Picture
Initiative > Identify the Challenges LEAs (customers) will have > Identify how the ESUs can help > Identify the groups of decision makers (solutions provider) > Develop guidelines to coordinate resources; produce guidelines for consist decision at the local level > Deploy > Evaluate > Improve

Avoid "done to you"
Consistent message
**Influence ahead of Initiatives
Gives affiliates a place
When NDE sets an initiative we need to be at the table.
NDE needs to be better about communication initiatives and allow them to decide to how to proceed and who to involve.

Competitive Grants caused more issues...went to State Dept and said we will be the POC and every need met.

- Stakeholder Analysis - finish

Stakeholder Analysis: ESUCC

Purpose - Understand the set of interacting problems

- Problem Formulation

Solution Group Document - both pieces

The Solutions Group

- Take problem and figure out best possible solution.
- The solutions Group (TSG) is a full service education consulting firm
- Clients are the 50 school districts i a four-county area
- TSG offers professional development, technology, media, direct special education services, and a variety of other customized solution.

Themes: (Don't forget feelings) Put each on a sticky note:

- Many areas of focus
- Poverty
- Self Doubt
- Peer to peer support
- Fragmented
- Time Limitations
- No strong knowledge base
- External Demands
- Discipline Issues
- Overwhelmed - no support
- Frustrated

Connect the themes: ie: External Demands - Leads to - Frustration
Create a Mess Map

Group 2
Group 3
Group 4

Possible Outcomes:

- Work on Instructional Models
- Coaching for Principals
- Create a discipline model

Critique List of Recommendations

- Doesn't match list of themes
- being done to principals - without engaging them
- no emotional voting/response
- give them what has always been done

What's the set of interrelated problems facing ESUCC?

- Brainstorm the most important themes you believe to be at work as we begin the ESUCC design process.
- Draw and label arrows that show the dynamic interactions among the themes
- Be ready to post and explain your work

Another Example of Mess Map - more dynamic

Work in Process

ESUCC Mess Maps

Group 1

- Purpose
- Branding/Marketing for the CC
- Relevance

Collect Design Specification

Each group to enter into spreadsheet

Establish next steps

Gathering information from affiliates and NDE
Deb to set a meeting with Affiliates and Susan regarding their specs
Add items as you think of them to the spreadsheet until around the first of May.

Next dates May 7-8 in Kearney

Set a date for progress check call in late March - possible April ESUCC Meeting on April 4

Evaluate the meeting and adjourn
What happened here?
Honest conversations about where we are and where we hope to be
No restrictions on change - everything is on the table
Good involvement from all members of the Design Team
We focused on ESUCC not ESUs
Exciting opportunity to focus on change
Affiliate added good input
Took important step toward increased relevance in the NDE education system.
Promoting engaged leadership

Be ambassadors for this work and remain positive.

What did we do really well and what would we do different?
Made people feel comfortable.
All had similar issues
Fortunate to have affiliate members at the table
All voices were heard
Nice balance of inquiry and advocacy

Change
Brain Breaks

BACKGROUND

The Nebraska Educational Service Unit Coordinating Council (ESUCC) was created in statute to coordinate statewide activities of Nebraska's 17 Educational Service Units (ESUs). The governing body for the ESUCC consists of an administrator representative from each ESU. The ESUCC was created by LB 603 (2007) and officially came into existence according to statute on July 1, 2008. Fiscal year 2008-2009 was the first year of operation for the ESUCC. The duties of the ESUCC are set out at Neb. Rev. Stat §§ 79-1245 to 79-1249 (Reissue 2014, Cum. Supp. 2016). Section 79-1246(1) provides the following:

> *The Educational Service Unit Coordinating Council shall work toward statewide coordination to provide the most cost-effective services for the students, teachers, and school districts in each educational service unit. The council's duties include, but are not limited to:*
>
> *(a) Preparation of strategic plans to assure the cost-efficient and equitable delivery of services across the state;*
> *(b) Administration of statewide initiatives and provision of statewide services; and*
> *(c) Coordination of distance education.*

Prior to the creation of the ESUCC, the legislature passed LB 1208 (2006), which created the Distance Education Council (DEC). The duties and responsibilities of the DEC were transferred to the ESUCC with the passage of LB 603.

While discussing the formation of the ESUCC, the administrators for the ESUs considered the intent of LB 603. In consultation with legal counsel, policy makers, and various State officials, it was decided that all statewide activities offered in partnership by the ESUs would be placed under the umbrella of the ESUCC. In order to transition to the new structure, the ESUCC established a master services agreement with each ESU. Additionally, fiscal agents for each of the projects were continued in the transition to the ESUCC.

In April 2010, the ESUCC held a planning session and adopted a new organizational chart and administrative structure to manage the statewide projects by September 1, 2010. The new organizational structure organized each of the statewide projects under the administration of a single entity and under management of the ESUCC Executive Director. Much of this transition, including centralizing the accounting, policies, and procedures, was completed during the summer of 2010.

Although complete, this transition continues presently with the review of policies and procedures, as well as the development of strategic plans for each project and the ESUCC as a whole. Additionally, Title 92 NAC 84-003.02A1 provides the following:

> *The ESU administrator or his or her designee shall participate in two jointly established meetings with representatives of the Department and the ESU Coordinating Council annually to establish the focus and coordination of necessary core services based on priorities and on needs that are identified through the analysis of data.*

The Nebraska Department of Education (NDE) and the ESUCC meet annually during October and April of each year to identify collaborative efforts to meet the core services needs of ESUs and school districts.

Overview of Statewide Projects and Activities:

- **ESU Professional Development Organization (ESUPDO):** The ESUPDO serves as a collaborative effort to provide statewide training for ESU employees and key NDE Staff statewide. Professional development is among the core services identified by State statute for ESUs. The ESUPDO consists of five affiliate groups comprised of ESU employees across the 17 ESUs with representation from essential NDE Staff. As the NDE and the ESUCC continue with statewide efforts, alignment with the NDE Strategic Plan, as well as the six tenets of AQuESTT (Accountability for a Quality Education System, Today and Tomorrow), will better define the direction for the ESUPDO. These groups are the following:

    - **Staff Development Affiliate (SDA):** Members are responsible for providing staff development for their school districts and have assisted the NDE's efforts on statewide and local assessment as well as school improvement for Nebraska's school districts.

    - **Technology Assistance Group (TAG):** Members provide assistance to school districts in the dissemination and integration of new educational technologies deployed by school districts. Additionally, TAG members may provide assistance to school districts in the use of new software and computer applications, including statewide assessment. The governance structure within the TAG Affiliate is recommended as part of the Teaching and Learning with Technology (TLT) Affiliate with full implementation beginning 2017-2018.

    - **Network Operations Committee (NOC):** NOC supports the extensive communications network within and among the ESUs and school districts. NOC provides network security and protocols for its districts and ESUs and ensures that the communications network for distance education, internet, email, and internet protocol phones are functioning and secure. Statewide, this group establishes common frameworks and capacities for assisting one another to help ensure the education network functions well.

    - **Instructional Materials Affiliate (I-Mat):** I-Mat consists of media professionals from across the State. It serves the dual role of providing for and assisting school districts in using and implementing the statewide I-Mat digital resources. Originally, I-Mat served to ensure that school districts had access to educational films, videos, and DVDs. Currently, I-Mat is developing plans for digital delivery of library and media resources. This service is among the core services identified by State statute. The governance structure within the I-MAT Affiliate is recommended as part of the Teaching and Learning with Technology (TLT) Affiliate, with full implementation beginning 2017-2018.

BACKGROUND
(Continued)

- **Teaching and Learning with Technology (TLT):** Between 2015 and 2017, membership for TAG, I-Mat, and Distance Education began a dialogue regarding combined efforts within the three affiliates/projects based upon the fact that 46% of the membership serve in multiple roles. Formalized discussion began during January of 2016 and, as a result of the membership's efforts, the concept of a newly formed affiliate, TLT, evolved. The initial meeting regarding the development of the TLT began with the following stated purpose:

  Enhance communication through efficient and effective planning, development and implementation while maintaining autonomy of each affiliate.

  The development and implementation of the TLT governance and structure will continue throughout the 2016-17 year, with final approval made by the ESUCC during March of 2017 and full implementation beginning 2017-2018.

- **ESU Special Populations Directors (ESPD):** This affiliate group consists of the special education directors and staff from across the State. It was included in ESUPDO as the need for special education professional development for special education and classroom teachers emerged in the age of standards and assessment, along with the need to develop and share professional development efforts for special education teachers and classroom teachers alike. ESPD is also involved with the NDE in providing leadership for special education training and support.

- **Nebraska ESU Cooperative Purchasing (Coop):** The Coop provides cooperative purchasing services to ESU member schools throughout the State of Nebraska. The service is offered by the ESUCC and Nebraska's 17 ESUs in a joint effort. The ESUCC serves as the governing body for cooperative purchasing.

  Per the ESUCC's website (http://www.esucc.org/COOP-PURCHASING), the Coop's vision is to "provide compliant, competitive, aggregated bidding and purchasing to control and reduce costs to its members by maximizing efficiency of resources and processes in Nebraska and nationwide."

  Additionally, the ESUCC's website provides the following information regarding the Coop:

  ESUCC Cooperative Purchasing represents 17 Educational Service Units statewide who in turn service Nebraska school districts with over 300,000 students and is currently in its 5th decade of operation. ESUCC Cooperative Purchasing is authorized to coordinate purchases for public school districts, nonpublic school systems, other ESUs, and other public agencies, including any county, city, village, school district, or agency of the state government, any drainage district, sanitary and improvement district, or other municipal corporation or political subdivision of the State of Nebraska.

BACKGROUND
(Continued)

- **Distance Education:** Created by LB 1208 (2006), the Distance Education Council began as a State project with ESU 10 serving as the fiscal agent. Coordination of the Distance Education project has since been taken over by the ESUCC, however. In striving to build, improve, and maintain the State's Distance Education network, the ESUCC exercises the powers and duties specified at Neb. Rev. Stat. § 79-1248 (Reissue 2014), as follows:

  (1) Providing public access to lists of qualified distance education courses;

  (2) Collecting and providing school schedules for participating educational entities;

  (3) Facilitation of scheduling for qualified distance education courses;

  (4) Brokering of qualified distance education courses to be purchased by educational entities;

  (5) Assessment of distance education needs and evaluation of distance education services;

  (6) Compliance with technical standards as set forth by the Nebraska Information Technology Commission and academic standards as set forth by the State Department of Education related to distance education;

  (7) Establishment of a system for scheduling courses brokered by the council and for choosing receiving educational entities when the demand for a course exceeds the capacity as determined by either the technology available or the course provider;

  (8) Administration of learning management systems, either through the staff of the council or by delegation to an appropriate educational entity, with the funding for such systems provided by participating educational entities; and

  (9) Coordination with educational service units and postsecondary educational institutions to provide assistance for instructional design for both two-way interactive video distance education courses and the offering of graduate credit courses in distance education.

  The governance structure within the Distance Education project is recommended as part of the TLT Affiliate, with full implementation beginning 2017-2018.

- **Instructional Materials (I-Mat):** I-Mat has a long history of providing services statewide for school districts through Nebraska's network of ESUs. For approximately 40 years, the ESUs have worked together to purchase rights to media resources and make those available through local ESUs. Beginning in 2010-11, the fiscal management was moved under the ESUCC's central accounting system. ESUs contribute to the project for the "spring buy" and "special projects" each year, as needed and defined by the affiliate(s). The purpose of the I-Mat project is designed for research and development of digital resources. The governance structure within the I-MAT project is recommended as part of the TLT Affiliate, with full implementation beginning 2017-2018.

- **BlendED:** Beginning 2015-2016, a statewide committee comprised of NDE, ESUCC, and ESU staff recommended that three learning management systems (LMS) be included within the ESUCC market place. The recommended LMS included Schoology, Canvas, and BlackBoard. In addition to the LMS, the BlendED Advisory Committee was charged with providing a recommendation for a statewide Learning Object Repository (LOR). After a lengthy review, the recommendation included the integration of the current Learn360 project, Amazon Inspire, and the IlliniCloud ISLE program.

BACKGROUND
(Concluded)

The BlendEd Project leadership is comprised of a tiered governance structure that includes a BlendEd/Distance Education Director, co-chairs for the overall BlendEd Initiative, and leadership for the BlendEd Pilot Project. Specific duties for each level of leadership includes: 1) the Director serving as a project manager for the BlendEd Project; 2) the BlendEd co-chairs providing leadership for the BlendEd Initiative; and 3) the BlendEd Pilot leadership providing the vision and guidance for the daily operations of the pilot program. In addition, a BlendEd Advisory Committee comprised of NDE, ESUCC, ESU staff and school district staff provides the direction and input for the BlendEd Project.

- **Special Education (SPED) Projects:** Three special education projects are managed by the ESUCC. The projects also transitioned in 2010-11 to the ESUCC from a fiscal agent management model under ESU 1. The purpose of the SPED Project is for participating parties to pool their resources in connection with the special education services and for the training of special education teachers and other staff members employed by educational institutions within the State of Nebraska. Each participating ESU contributes a $5,500 annual fee in general support of the projects; additionally, each participating school is assessed a fee for services provided under the Student Records System (SRS) fee structure.

    - **Improving Learning for Children with Disabilities (ILCD):** ILCD is a State self-assessment Project that gathers information for Federal reporting requirements. The ILCD Project utilizes parent, teacher, and administration survey assessments. The survey results can be accessed via the ILCD website. The ESUCC's technology role includes purchasing, distributing, and scanning surveys. ESUCC staff provides technical assistance for the ILCD website and survey design.

    - **Project PARA:** Project PARA is a web-based method for school districts to provide introductory training for their para-educators. The project assists schools in meeting the para-educator training requirements of No Child Left Behind, Title 92 NAC 11, and the Individuals with Disabilities Education Act. Project PARA is a collaborative effort between the University of Nebraska, the NDE, and Nebraska ESUs.

    - **Student Records System (SRS):** SRS is an online special education record-keeping system designed to create all special education documents required by Title 92 NAC 51, including IEP, MDT, IFSP, and all required notices. The SRS is a highly secured system that organizes and stores documents and provides easy access to files from anywhere via the internet. SRS training is provided across the State for district staff and college and university staff.

MISSION STATEMENT

The mission of the ESUCC is to provide the most cost-effective educational support for the students, teachers, and school districts in each Nebraska educational service unit by facilitating statewide coordination of educational services and strategic planning.

SUMMARY OF COMMENTS

During our audit of the Educational Service Unit Coordinating Council (ESUCC), we noted certain matters involving the internal control over financial reporting and other operational matters that are presented here.

1. ***Lack of Segregation of Duties:*** In our review of receipts and capital assets, we noted a lack of segregation of duties.

2. ***Accounting Errors:*** Accounting entries were incorrectly recorded on the accounting system. These entries required adjustments to ensure the financial statements were not materially misstated.

More detailed information on the above items is provided hereinafter. It should be noted that this report is critical in nature, containing only our comments and recommendations on the areas identified for improvement.

Draft copies of this report were furnished to the ESUCC to provide its management with an opportunity to review and to respond to the comments and recommendations contained herein. All formal responses received have been incorporated into this report. Responses that indicate corrective action has been taken were not verified at this time, but they will be verified in the next audit.

COMMENTS AND RECOMMENDATIONS

1. Lack of Segregation of Duties

During our review of the ESUCC's receipt and capital asset processes, as well as our testing of selected transactions, we noted a lack of segregation of duties. We also noted compensating controls adopted by the ESUCC. However, these compensating controls do not completely eliminate the risk of errors or fraud occurring and going undetected. We noted the following:

- **Receipts:** There is a lack of segregation of duties over the receipts process due to two employees having the ability to perform all of the following processes: receive checks and record initial control, perform the deposit entry, and reconcile the deposit document to the general ledger. We noted compensating controls in place during the fiscal year, including review of the deposit slip by the person who recorded initial control before taking the deposit to the bank, initials of both the individuals preparing and reviewing the deposit on the deposit slip, and review and approval of deposits, bank statements, and reconciliation reports by the Board.

- **Capital Assets:** There is a lack of segregation of duties over the capital assets process. Five employees had the ability to add capital assets to, as well as remove them from, the accounting records. ESUCC did not have a formal documented review of the capital asset listing and any additions and deletions. ESUCC stated they had compensating controls in place during the fiscal year, including a review of capital asset activity at the monthly staff meetings. ESUCC did perform an annual inventory during the fiscal year.

  It was also noted that the ESUCC lacked formal policies or procedures for capital asset management, including procedures to be followed when adding or deleting assets.

  During testing, 3 of 15 ESUCC assets selected from the ESUCC's capital asset listing could not be located. One asset was moved to ESU No. 3 and should have been removed from the listing, but it was not. A Bluetooth MacBook Pro keyboard selected was identified; however, because it lacked a tag, the APA was unable to verify that it was the asset selected. Lastly, a MacBook Pro selected for testing did not have a tag number to verify that it was the one selected. According to the ESUCC, this asset had been designated for disposal, but the disposal form provided was dated after our initial request was provided.

A good internal control plan involves an adequate segregation of duties to ensure that no one person is in a position both to perpetuate and to conceal errors or irregularities.

A similar finding was noted in the previous reports.

When one individual is able to perform all phases of a transaction, there is an increased risk for errors or fraud to occur and go undetected, resulting in loss or misuse of ESUCC funds.

> We recommend the ESUCC review its staffing and assignments to determine if an adequate segregation of duties can be obtained, so no one individual is able to process a transaction from being to end. If an adequate segregation of duties cannot be obtained, we

COMMENTS AND RECOMMENDATIONS
(Concluded)

1. Lack of Segregation of Duties (Concluded)

> recommend the ESUCC continue monitoring to ensure compensating controls are in place and effective. We also recommend the ESUCC adopt formal capital asset policies that identify the procedures ESUCC employees are to follow when adding and removing capital assets.

ESUCC Response: Receipts - We will continue to monitor and ensure compensating controls are in place and effective. We will also continue to ensure that all transactions are reviewed and approved by multiple personnel. We will continue to review at monthly budget meetings, FAB Committee meetings, and ESUCC Board meetings.

Inventory - We will continue to monitor during monthly budget meetings and scheduled staff meetings for review and documentation.

2. Accounting Errors

During testing, the following accounting errors were identified:

- The ESUCC made two entries in the accounting system that resulted in receipts being understated by $30,754. The ESUCC received an overpayment from an Educational Service Unit (ESU) for $30,754. When repaying this to the ESU, the ESUCC recorded the payment as a reduction to receipts, which is reasonable; however, the initial check was voided, and another check was issued. As a result of the amount being recorded twice, the ESUCC's receipts were understated by $30,754. This was adjusted on the financial statements.

- ESUCC entered into a $295,000 contract with the Nebraska Department of Education to provide more effective and efficient services to students, school districts, and ESUs and their employees through project collaboration. When recording the contract receipts, the ESUCC recorded them as a reduction to disbursements rather than as receipts. Due to this, adjustments were made to increase receipts and disbursements by $295,000.

A good internal control plan requires procedures for ensuring the proper and consistent coding of transactions in the accounting system. Without such procedures, there is an increased risk of material recording errors, resulting in inaccurate financial statements.

> We recommend the ESUCC strengthen its procedures for reviewing accounting transactions to ensure they are correctly recorded in the accounting system.

ESUCC Response: We will continue to work on procedures to ensure compensating controls are in place and effective. We will also continue to ensure that all transactions are properly reviewed, recorded and approved by multiple personnel. We will continue to review transactions at monthly budget meetings, FAB Committee meetings, and ESUCC Board meetings.

EDUCATIONAL SERVICE UNIT COORDINATING COUNCIL

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Educational Service Unit Coordinating Council
LaVista, Nebraska

Report on the Financial Statements
We have audited the accompanying cash basis financial statements of the governmental activities and the General Fund of the Educational Service Unit Coordinating Council, as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise the Educational Service Unit Coordinating Council's basic financial statements, as listed in the Table of Contents.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 1. This includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of

expressing an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective cash basis financial position of the governmental activities and the General Fund of the Educational Service Unit Coordinating Council, as of August 31, 2017, and the respective changes in cash basis financial position thereof for the year then ended in accordance with the cash basis of accounting described in Note 1.

Basis of Accounting and Emphasis of Matter

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the Unites States of America. Our opinion is not modified with respect to these matters.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements, which collectively comprise the Educational Service Unit Coordinating Council's basic financial statements. The Combining Schedule of Cash Basis Receipts and Disbursements – General Fund, Management's Discussion and Analysis, Budgetary Comparison Schedule – Budget and Actual – General Fund, and Notes to the Budgetary Comparison Schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Schedule of Cash Basis Receipts and Disbursements – General Fund is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Schedule of Cash Basis Receipts and Disbursements – General Fund is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Management's Discussion and Analysis, Budgetary Comparison Schedule, and Notes to the Budgetary Comparison Schedule on pages 15 through 20, 34, and 35 herein have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 20, 2018, on our consideration of the Educational Service Unit Coordinating Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Educational Service Unit Coordinating Council's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the Educational Service Unit Coordinating Council (ESUCC) provides the following discussion and analysis of the ESUCC's financial performance, as reflected in the financial report for the fiscal year ended August 31, 2017. Please read it in conjunction with the ESUCC's basic financial statements, which follow.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the ESUCC's financial statements. The provisions of Statement No. 34 (Statement 34) of the Governmental Accounting Standards Board (GASB), "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments," established standards for external financial reporting for all State and local government entities. These standards require three components for the ESUCC's basic financial statements: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other information (Budgetary Comparison Schedule, and Combining Schedule of Cash Basis Receipts and Disbursements – General Fund) in addition to the basic financial statements. These components are described below:

Government-Wide Financial Statements

These statements are intended to provide a broad view of the ESUCC's operations in a manner similar to the private sector, providing both a short-term and a long-term view of the ESUCC's financial position. The ESUCC prepared its government-wide statements on the cash basis of accounting. Under the cash basis, receipts are recognized when collected rather than when earned, and disbursements are recognized when paid rather than when incurred. Accordingly, the ESUCC's government-wide financial statements are not intended to present the financial position and results of operations in conformity with generally accepted accounting principles (GAAP) accepted in the United States of America. The government-wide financial statements include two statements, the Statement of Net Position and the Statement of Activities.

The *Statement of Net Position* on page 21 presents all of the ESUCC's assets on the cash basis, as described above.

The *Statement of Activities* on page 22 presents information showing how the ESUCC's net position changed during the reported year. Changes reported are on the cash basis, as described above. The statement of activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Appropriations and other items not properly included among program receipts are reported, instead, as general receipts.

Fund Financial Statements
This is the second set of financial statements presented in the report. Under GAAP, these statements would be different from the government-wide statements in that these statements would use a different accounting approach and focus on the near-term inflows and outflows of ESUCC operations.

The ESUCC has only one fund, the General Fund. GAAP classifies funds into three categories – Governmental Funds, Proprietary Funds, and Fiduciary Funds. The General Fund of an entity is classified as a Governmental Fund, as it accounts for all basic services. The Fund Financial Statements, which can be found on pages 23 and 24, provide detailed information about the ESUCC's General Fund. A fund is a method of accounting that uses a set of accounts to maintain accountability and control over specific sources of funding and spending for a particular activity or objective. GAAP requires governmental funds to use the modified accrual basis of accounting.

The six projects that make up the General Fund in addition to ESUCC Administration are: ESU Professional Development Organization (ESUPDO); Nebraska ESU Cooperative Purchasing Unit (Coop); Distance Education; Instructional Materials (I-Mat); and Student Records System (SRS).

Notes to the Financial Statements
The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in all of the basic financial statements. The notes can be found beginning on page 25.

Other Information
Following the basic financial statements and the accompanying notes thereto is additional information that further explains and supports the information in such financial statements. The other information consists of the Budgetary Comparison Schedule and notes, and the Combining Schedule of Cash Basis Receipts and Disbursements – General. This information can be found beginning on page 34.

FINANCIAL AND OPERATING HIGHLIGHTS

The ESUCC's Net Position for the fiscal year ended August 31, 2017, compared to the fiscal year ended August 31, 2016, increased by $132,776. This increase is primarily due to the fact that the ESUCC's fiscal year ends in the middle of the Coop Annual Buy timeframe; therefore, its end of the year balance is directly affected by the timing of receipts of vendor administrative fees. The table on the following page provides a more detailed picture of the changes in net position.

FINANCIAL ANALYSIS OF ESUCC AS A WHOLE

Net Position

The ESUCC's assets totaled $1,176,665 at August 31, 2017, as compared to $1,043,889 at August 31, 2016. Due to the preparation of the financial statements on a cash basis for fiscal years ended August 31, 2017, and August 31, 2016, there were no liabilities as of August 31, 2017, and as of August 31, 2016.

Unrestricted net position is all other net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt." The ESUCC's unrestricted net position totaled $1,176,665, as of August 31, 2017.

	Net Position As of August 31	
	Cash Basis 2017	**Cash Basis 2016**
ASSETS:		
Cash and Cash Equivalents	$ 1,176,665	$ 1,043,889
Total Assets	1,176,665	1,043,889
NET POSITION:		
Unrestricted	1,176,665	1,043,889
Total Net Position:	$ 1,176,665	$ 1,043,889

As of August 31, 2017, and as of August 31, 2016, the ESUCC's assets consisted of cash and cash equivalents.

The ESUCC did not have any liabilities as of August 31, 2017, and as of August 31, 2016.

The ESUCC's net position was $1,176,665 and $1,043,889 as of August 31, 2017, and 2016, respectively. The ESUCC's net position may vary based on receipts and disbursements in Cooperative Purchasing as well as other ESUCC projects.

Changes in Net Position

The condensed financial information below was derived from the government-wide Statement of Activities and reflects how the ESUCC's net position changed during the year. Following the table is management's analysis of the changes in net position for the fiscal year ended August 31, 2017.

Changes in Net Position

Net Position - Beginning	1,043,889	1,119,382
Net Position - Ending	$ 1,176,665	$ 1,043,889

Receipts

The largest single source of receipts for the ESUCC is charges for services. Charges for services are primarily receipts generated by the Nebraska ESU Cooperative Purchasing Unit for services provided to ESUs and school districts and program receipts for the various projects. Charges for services for the fiscal year ended August 31, 2017, were $1,778,443 and for the fiscal year ended August 31, 2016, were $1,588,400. As mentioned previously, fluctuations in the timing of the ESUCC's Coop vendor administrative fee receipts are expected given the ESUCC's fiscal year ends in the middle of the Coop annual buy timeframe.

The second largest source of receipts, during fiscal year 2017, is State Appropriations. State Appropriations for the fiscal year ended August 31, 2017, were $565,593 and for the fiscal year ended August 31, 2016, were $565,593.

Disbursements

The largest purpose of disbursements for the ESUCC was for goods and services disbursed by the Nebraska ESU Cooperative Purchasing Unit, which were then provided to ESUs and school districts. Disbursements for these services for the fiscal year ended August 31, 2017, were $800,803 and for the fiscal year ended August 31, 2016, were $569,971. The largest cause of this increase was due to a legal settlement with a software vendor. The Cooperative Purchasing Unit paid this vendor $120,000 during the fiscal year as part of the settlement.

The second largest purpose of disbursements for the ESUCC was for ESU Professional Development Organization (ESUPDO), which provides training for ESU employees statewide. Disbursements for these services for the fiscal year ended August 31, 2017, were $798,063 and for the fiscal year ended August 31, 2016, were $1,127,064. This decrease was caused by a reduction in Federal funds available to be used on the Nebraska Mathematics Professional Development Series.

The remaining disbursements for the ESUCC relate primarily to the various other programs managed by the ESUCC. Disbursements for various programs for the fiscal year ended August 31, 2017, were $1,080,203 and for the fiscal year ended August 31, 2016, were $1,228,442.

ANALYSIS OF ESUCC'S GENERAL FUND VARIATIONS

The table below provides a comparison of budgeted receipts and disbursements to actual receipts and disbursements.

	Budget	Actual	Positive (Negative) Variance
Beginning Balance	$ 1,043,889	$ 1,043,889	$ -
Total Receipts	4,730,807	2,811,845	(1,918,962)
Total Disbursements	4,730,807	2,679,069	2,051,738
Net Increase (Decrease)	-	132,776	132,776
Ending Balance	$ 1,043,889	$ 1,176,665	$ 132,776

The largest variance between budgeted and actual receipts was Local Receipts, which were budgeted to be $3,092,841 but were actually $1,778,443. The majority of this variance can be explained primarily by the budgeted flow-through revenues included in the budget.

The largest variances between budgeted and actual disbursements were due to General Administration, which had budgeted $1,424,165 but incurred actual costs of $262,779.

FACTORS THAT WILL AFFECT THE FUTURE

Several factors influence the future of the ESUCC and its projects. Projects that are based on conditions of ESUs and school districts, as far as purchasing of products and services, tend to vary depending on the levels of participation in Cooperative Purchasing, and professional development. General economics have created an environment where schools and ESUs have fewer resources available to buy goods and services. Additionally, State appropriations have been reduced for support of the ESUCC and the Distance Education program. These reductions will impact overall resources available for the foreseeable future. Long-term trends will include further strategic reorganization of projects and services to address the likelihood of a decrease in future resources. Strategic reorganization efforts impacting the future will include organizing professional development services under a new structure that will allow for the development of new statewide projects. Additionally, existing projects in technology are being organized to most efficiently and effectively manage the changing environment in educational technology. Future fiscal years will continue to combine efforts in instructional materials and distance education under a "BlendEd" initiative. Similarly, professional development efforts will include new statewide projects and services. Future projects and services of the ESUCC will be maintained through expanded partnerships and possibly through statewide grants or contracts facilitated by the ESUCC.

1. Summary of Significant Accounting Policies

A. Organization

The Educational Service Unit Coordinating Council (ESUCC) was created in statute to coordinate statewide activities of Nebraska's 17 Educational Service Units (ESUs). The governing body for the ESUCC consists of an Administrator Representative from each of the 17 ESUs and an Executive Director. The ESUCC was created by LB 603 (2007) and officially came into existence, according to statute, on July 1, 2008. Neb. Rev. Stat. § 79-1246(1) (Reissue 2014) outlines the ESUCC's general responsibilities and duties as follows:

> *The Educational Service Unit Coordinating Council shall work toward statewide coordination to provide the most cost-effective services for the students, teachers, and school districts in each educational service unit. The Council's duties include, but are not limited to:*
>
> *(a) Preparation of strategic plans to assure the cost-efficient and equitable delivery of services across the state;*
> *(b) Administration of statewide initiatives and provision of statewide services; and*
> *(c) Coordination of distance education.*

Prior to the creation of the ESUCC by the Nebraska Legislature, the 17 ESUs worked in partnership to provide statewide activities. Based on the above statutory authority, the ESUCC decided that all statewide activities offered in partnership by the ESUs would be placed under the umbrella of the ESUCC. Although identified separately in the "ESUCC Admin and Professional Development Organization" column of the Combining Schedule, the ESUCC reports the general administrative costs of the ESUCC overall, along with the ESUPDO project costs. The ESUCC contracts with ESU 17 to provide all staff for the ESUCC. This is accomplished annually by ESU 17 developing employment contracts with all ESUCC project employees, including the Executive Director of the ESUCC. Thus, all ESUCC project employees and the ESUCC Executive Director are ESU 17 employees. Through an interlocal agreement, the ESUCC reimburses ESU 17 for all salaries and benefits for these employees.

The following is a brief description of each statewide project budgeted for and administered by the ESUCC:

- **ESU Professional Development Organization (ESUPDO):** The ESUPDO serves as a collaborative effort to provide training for ESU employees statewide. Professional development is among the core services identified by State statute for ESUs.

- **Distance Education:** Distance Education originated with the Distance Education Council, which was formed by legislation in 2006 and has since evolved into a program under the ESUCC. Neb. Rev. Stat. § 79-1248 (Reissue 2014) includes, among the powers and duties of the ESUCC, various responsibilities pertaining to the operation of the State's distance education network.

1. Summary of Significant Accounting Policies (Continued)

- **Nebraska ESU Cooperative Purchasing (Coop):** Coop provides cooperating purchasing services to Educational Service Unit Member schools throughout the State of Nebraska.

- **Instructional Materials (I-Mat):** I-Mat is a statewide project that purchases rights to media materials and makes them available through local ESUs in a variety of formats.

- **Special Education (SPED) Projects:** The purpose of the SPED Projects is for participating parties to pool their resources in connection with the special education services and for the training of special education teachers and other staff members employed by educational institutions within the State of Nebraska.

- **BlendEd Initiative (Technology Direction):** In May 2013, the position of Technology Director was formed to coordinate this work across the ESUCC project areas. Projects involved in this effort are the Distance Education and I-Mat, including Learning Object Repository. Blended education calls for making strategic choices about when face-to-face (synchronous) instruction is needed and when and how online (asynchronous) instruction can be best used to provide elements of student control over time, place, path, and pace and provide more equity, efficiency, and flexibility.

B. Reporting Entity

The ESUCC is a governmental entity established under and governed by the laws of the State of Nebraska. In evaluating how to define the ESUCC for financial reporting purposes, all potential component units have been considered. The basic – but not the only – criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, and the ability to significantly influence operations and accountability for fiscal matters. Based upon the above criteria, the accompanying financial statements include all funds for which the ESUCC has oversight responsibility. The ESUCC does not have any component units and has only one fund – the General Fund. The ESUCC is not considered a component unit of any other governmental entity.

C. Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The reporting model, based on GASB Statement 34, focuses on the ESUCC as a whole in the government-wide financial statements and major individual funds in the fund financial statements. The government-wide financial statements report information on all of the activities of the primary government and any component units. The ESUCC has only one fund – the General Fund – and has no component units. Governmental activities, which normally are supported by taxes and intergovernmental receipts, are reported separately.

1. Summary of Significant Accounting Policies (Continued)

The Statement of Activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Appropriations and other items not properly included among program receipts are reported instead as general receipts.

D. Fund Types

The accounts of the ESUCC are organized on the basis of funds. The ESUCC has only one governmental fund type – the General Fund.

E. Basis of Accounting

The ESUCC prepares its financial statements, both its governmental-wide and fund statements, on the cash basis of accounting. Under the cash basis of accounting, receipts are recognized when collected rather than when earned, and disbursements are recognized when paid rather than when incurred. Consequently, these financial statements are not intended to present financial information in accordance with generally accepted accounting principles.

F. Cash and Cash Equivalents

In addition to the ESUCC's bank account, this classification includes all short-term investments, such as certificates of deposit, and investments in the Nebraska Public Agency Investment Trust (NPAIT), having original maturities of less than two years. NPAIT deposits and investments include certificate of deposits, demand deposit accounts, repurchase agreements, and government agency securities. These investments are valued at amortized cost, which approximates fair value due to the short-term nature of the investments.

G. Basis of Presentation

The ESUCC adopted the provisions of Statement No. 34 (Statement 34) of the Government Accounting Standards Board (GASB), "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments." Statement 34 established standards for external financial reporting for all State and local government entities, which includes government-wide financial statements, fund financial statements, and the classification of net position into three components: (a) invested in capital assets, net of related debt; (b) restricted; and (c) unrestricted. The ESUCC reported only unrestricted net position.

1. Summary of Significant Accounting Policies (Concluded)

H. Net Position Classification

Government-Wide Statements. Net Position is displayed as unrestricted net position. Unrestricted net position is all other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements. Governmental fund equity is classified as fund balance. Fund balances are further classified as committed or unassigned. Commitments of fund balances are established to identify the existence of assets that are intended to be used for specific purposes that are internally imposed by the government through formal action of the Board, and the constraints do not lapse at year-end. The ESUCC had committed fund balance in the amount of $250,000. Unassigned fund balance is the residual classification for the General Fund.

I. Capital Assets

Capital assets are recorded as disbursements at the time of purchase. This differs from generally accepted accounting principles, which require capital assets to be capitalized and depreciated over the life of the asset.

J. Estimates

The preparation of financial statements in conformity with the cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

K. Compensated Absences

The ESUCC contracts with ESU 17, through an interlocal agreement, to provide staffing for the ESUCC. The ESUCC has entered into negotiated agreements with contracted personnel. In those agreements, the ESUCC has agreed to provide benefits for personal and sick leave. In accordance with the cash basis of accounting, these benefits are recorded as a disbursement when paid.

2. Deposits and Investments

Listed below is a summary of the deposit and investment portfolio that comprises the Cash and Cash Equivalents on the ESUCC's August 31, 2017, basic financial statements.

Deposits – Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. At August 31, 2017, the ESUCC held bank deposits and also held funds in certificates of deposits, demand deposits, and money market accounts with the Nebraska Public Agency Investment Trust (NPAIT).

2. Deposits and Investments (Continued)

The NPAIT was established in June 1996 through the Interlocal Cooperation Act and commenced operations on July 25, 1996. The NPAIT was established to assist public bodies throughout the State of Nebraska with the investment of their available cash reserves. Participation in the investment trust is voluntary for its members. The objective of the NPAIT is to provide its owner members with a conservative and effective investment alternative tailored to the needs of its members. The NPAIT currently consists of and operates one portfolio and a fixed-term account. The NPAIT portfolio management generally follows established investment criteria developed by the Securities and Exchange Commission (SEC) for money market funds designed to offer acceptable yield while maintaining liquidity. The NPAIT is not registered with the SEC as an investment company. For a copy of the most recent audit report for the NPAIT, which is as of June 30, 2017, contact David Ludwig, Executive Director, Educational Service Unit Coordinating Council, 6949 South 110th Street, LaVista, Nebraska, 68128. The telephone number is (402) 597-4915, and the email address is dludwig@esucc.org.

The ESUCC's bank balance and carrying amount of cash and cash equivalents at August 31, 2017, are set out below:

	Bank Balance	Carrying Amount
Bank Deposits	$ 46,398	$ (42,059)
NPAIT Investments	1,218,724	1,218,724
Total	**$ 1,265,122**	**$ 1,176,665**

Bank Deposits: The ESUCC does not have a policy for custodial credit risk associated with deposits.

The ESUCC is required by State statute to collateralize bank deposits in excess of federally insured amounts. The bank deposits at August 31, 2017, were covered by the Federal Depository Insurance Corporation (FDIC).

The carrying amount for the Bank Deposit is negative because at August 31, 2017, the outstanding checks exceeded the bank balance. However, the NPAIT account sends funds to the bank account when checks clear the bank.

Investments – The NPAIT may legally invest in direct obligations of, as well as other obligations guaranteed as to principal by, the U.S. Treasury and U.S. Agency and Instrumentalities and in bank repurchase agreements. It may also invest in guaranteed student loans, loans guaranteed by the Small Business Administration, Federal Home Administration, or any other agency of the United States, as well as any other type of investment permitted for public agencies by State law. At June 30, 2017, all of the NPAIT's investments in U.S. agencies and repurchase agreements mature in a period of less than two years.

2. Deposits and Investments (Concluded)

At August 31, 2017, the ESUCC had $1,218,724 in NPAIT investments. These investments consisted of government agency securities and repurchase agreements, which were collateralized by U.S. government securities.

The ESUCC is exposed to the risks noted below in relation to its investments in the NPAIT. The ESUCC does not have a policy for these risks.

Interest Rate Risk – As a means of limiting its members' exposure to fair value losses resulting from rising interest rates, all of the NPAIT's investments have maturities of less than two years.

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. According to the latest audit report on the NPAIT, as of June 30, 2017, the NPAIT's investments in government agency securities were rated as AA+.

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of the failure of the counterparty, the NPAIT will not be able to recover the value of its investment or collateral securities that are in the possession of the outside party.

The ESUCC has no specific policy as to credit risk. All of the underlying securities for the NPAIT investments in repurchase agreements at June 30, 2017, the latest audit report date for the NPAIT, are held by the counterparties in the NPAIT's name.

Concentration of Credit Risk – The NPAIT places no limit on the amount that may be invested in any one issuer.

Reconciliation of deposits and investments for the ESUCC to Cash and Cash Equivalents on the Statement of Net Position, as of August 31, 2017, is as follows:

Carrying Value:		
Bank Deposits	$	(42,059)
NPAIT Investments		1,218,724
Total	$	1,176,665

3. Contingencies and Commitments

Risk Management – The ESUCC is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets, errors, or omissions, injuries to employees, and natural disasters. During the fiscal year, the ESUCC chose to purchase the following commercial insurance policies to cover these risks:

3. Contingencies and Commitments (Concluded)

	Limit	Deductible
Personal Property Coverage (per location)	$ 1,000	$ 500
Electronic Data Processing Equip. (Various Coverage types from $5,000 to $50,000. With limits from $10,000 to $200,000.)	$ 10,000 to $ 200,000	$ 1,000
Commercial General Liability (Each Occurrence limit-$1,000,000, Aggregate Limit-$2,000,000)	$ 2,000,000	$ -
Commercial Umbrella Liability Coverage (Each Occurrence limit-$1,000,000, Aggregate Limit-$1,000,000)	$ 1,000,000	$ -
Employee Benefits Liability (Each Employee Limit-$1,000,000, Aggregate Limit-$3,000,000, & deductible is per employee)	$ 3,000,000	$ 1,000
Automobile (Non-Owned & Hired) Liability	$ 1,000,000	$ -
Automobile (Comprehensive, Collision)	$ 50,000	$ 250
Workers' Compensation Insurance	$ 500,000	$ -
Transportation Coverage	$ 300,000	$ 1,000

No insurance claims resulting from these risks were filed during the fiscal year by the ESUCC. Settled claims resulting from these risks have not exceeded the above coverage in the past three years.

4. School Retirement

Plan Description

The ESUCC contracts with ESU 17 to provide all staff for the ESUCC. Thus, all of the ESUCC project employees and the ESUCC Executive Director are ESU 17 employees. Through an interlocal agreement, the ESUCC agreed to reimburse ESU 17 for all salaries and benefits for these employees. Benefits provided by the ESUCC included retirement benefits, as ESU 17 employees are eligible to be members of the Nebraska School Employees Retirement System. Thus, ESU 17 contributes to the Nebraska School Employees Retirement System on behalf of the ESUCC from retirement contributions collected from the ESUCC. The Nebraska School Employees Retirement System is a cost-sharing, multiple-employer defined benefit pension plan administered by the Nebraska Public Employees Retirement System (NPERS). NPERS provides retirement and disability benefits to plan members and beneficiaries. The School Employees Retirement

4. School Retirement (Concluded)

Act establishes benefit provisions. NPERS issues a publicly available financial report that includes financial statements and required supplementary information for NPERS. That report may be obtained by writing NPERS, 1526 K Street, Suite 400, P.O. Box 94816, Lincoln, NE, 68509-4816, or by calling 1-800-245-5712.

Plan members were required to contribute 9.78% of their annual covered salary from September 1, 2016, to August 31, 2017. The ESUCC is required to contribute 101% of the employee contribution. The contribution requirements of the plan members and the ESUCC are established by the Nebraska statutes. For the fiscal year ended August 31, 2017, the ESUCC employees contributed $101,404, and the ESUCC contributed $102,418, which equaled the required contribution. For the fiscal years ended August 31, 2016, and August 31, 2015, the ESUCC employees contributed $87,171 and $77,074, respectively, and the ESUCC contributed $88,042 and $77,845, respectively, which equaled the required contribution.

5. Lease Commitments

ESUCC leases office facilities under operating leases. The future minimum annual lease payments are as follows:

Year	Governmental Activities
2018	43,430
2019	10,674
2020	3,300
Total	$ 57,404

Operating lease payments for the year ended August 31, 2017, totaled $44,550.

6. Reclassification

The ESUCC records in its general ledger employee salaries and benefits; however, the ESUCC staff are ESU 17 employees, as the ESUCC contracts through an interlocal agreement, with ESU 17 to provide staffing for the ESUCC, making all employees of the ESUCC contract employees. To better reflect the nature of these disbursements, $1,213,469 of salaries and benefits was classified as Purchased Services on the Statement of Cash Receipts, Disbursements, and Changes in Cash Basis Fund Balance.

7. Accounts Receivable

At August 31, 2017, the ESUCC had $147,253 in accounts receivable. In accordance with the cash basis of accounting, these receivables are not recorded on the financial statements. They are recorded as receipts on the financial statements when the ESUCC receives the funds.

8. Unemployment Compensation Insurance

The ESUCC has adopted the reimbursable option of the State's Unemployment Compensation Insurance Program. Under this option, a claimant would receive unemployment compensation from the State. The ESUCC is liable to reimburse the State the actual amount of the claim(s).

9. Related Parties

The governing body for the ESUCC consists of the Administrator from each of the 17 ESUs across the State. The ESUCC coordinates statewide activities and provides services for the 17 ESUs. In turn, the ESUCC bills each of the ESUs for those services.

10. Subsequent Event

In the prior year, the ESUCC was involved in litigation with ESM Solutions Corporation (ESM), a vendor with whom it had contracted. During the fiscal year, ESUCC paid ESM $120,000 as part of a settlement agreement. As part of the settlement agreement, ESUCC is required to pay ESM $33,333 during each of the next three fiscal years. These payments will conclude on September 30, 2019.

EDUCATIONAL SERVICE UNIT COORDINATING COUNCIL

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

Board of Directors
Educational Service Unit Coordinating Council
LaVista, Nebraska

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of the Educational Service Unit Coordinating Council, as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise the Educational Service Unit Coordinating Council's basic financial statements, and have issued our report thereon dated April 20, 2018. The report notes the financial statements were prepared on the cash basis of accounting.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Educational Service Unit Coordinating Council's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Educational Service Unit Coordinating Council's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the Comments and Recommendations section as Comment Number 2 ("Accounting Errors") that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Educational Service Unit Coordinating Council's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Additional items

We noted a certain additional item that we reported to management of the Educational Service Unit Coordinating Council as Comment Number 1 ("Lack of Segregation of Duties") in the accompanying Comments and Recommendations section of this report.

The Educational Service Unit Coordinating Council's Response to our Comments and Recommendations

The Educational Service Unit Coordinating Council's responses to our Comments and Recommendations identified in our audit are described in the Comments and Recommendations section of this report. The Educational Service Unit Coordinating Council's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, not to provide an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Educational Service Unit Coordinating Council's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

ADVISER / Dashboard / SSO Discussion

A workday was held on March 27 to get portal instances created for each school. Discussion will be held regarding the status of each ESU's SSO infrastructure and uPortal app launchers for schools. Please add your ESU's summary here:

ADVISER Workflow Diagram

ESU	SSO product / completion status	uPortal app launcher status (if using alternate app launcher, please list that product and how your district connects to ADVISER)
1	SSO completed to 15 of my 23 school districts using Active Directory and authentication to ADVISER, with 2 or more on the brink to join the 15. We are working on the rest. We have one school using Azure and one that's using open source authentication.	uPortal tenants created for all schools, most schools connecting into ADVISER but more work needs to be done with application launchers.
2	SSO completed using AD/ADFS for all participating districts (10 of 16). 1 additional district is in early phases of onboarding.	In progress. 4 districts are complete.
3	SSO completed for 17 of 18 districts using district Active Directory (1 using Open Directory). Authentication to ADVISER was tested several months back. Currently working with all districts to verify	Not configured
4	SSO completed for all districts using Google authentication. Authentication to the ADVISER dashboard has been tested and currently working.	uPortal tenant instances created for all schools and half have been themed with skin and logo.
5	SSO available using Google Auth. Completed for 3 districts wishing to participate.	Not configured
6	SSO completed for all 16 districts using Google authentication. Authenticate to the ADVISER dashboard has been tested is working.	uPortal tenants created for all schools. School logos have been setup for each district but we are still working on color themes and adding more apps.
7		

8	Completed and “working”. I don’t like the design, I’ll probably change the backend process this summer.	I’m looking into using O365. Starting with PowerAPPs research.
9	SSO configured / complete for 13 of 14 districts. Working on account management interface and automation system. Expect completion summer 2018.	uPortal tenant instances created and themes assigned for all districts. Logos not yet uploaded. Apps not yet configured or assigned to tenants, but creation has begun in the ESU 9 tenant.
10	SSO completed for 37 domains & 34 districts using a combination of Google, Open Directory, Active Directory and OpenLDAP account sources	uPortal tenant instance created for all SSO configured schools with some default and customized apps assigned.
11	SSO completed for all 13 Districts, using SAML to GSuite	uPortal tenants created for all Districts
13	SSO completed for all 21 member districts, as wells as ESU 13 and ESU 13 Alt Ed domain using the ESU 10 IDP.	uPortal tenants created for all districts, ESU 13 and ESU 13 Alt Ed. All tenants are customized with district colors and logo. A limited set of common Apps (Google, Learn360, NebraskAccess, ADVISER) have been added to all tenants, and a more extensive and unique set of apps have been added to a limited number of districts.
15	SSO completed for all 9 districts, using SAML to GSuite; testing in progress	uPortat tenants, very basic apps (4 or 5) created for each district.
16	SSO completed 15 of 16 districts. Using SAML in Google for 13. AD authentication for 2.	uPortal tenants created for 15 of 16 districts. Logos from districts used. Custom app launchers for SIS and Canvas created.

2018-2021
SPECIAL BUY AGREEMENT

THIS AGREEMENT is entered into by and between the Nebraska ESUCC Cooperative Purchasing ("Cooperative"), and World Book Inc. ("Contractor"). The Cooperative is an organization founded in 1968 with the purpose of providing the Educational Service Unit (ESU) member school districts ("Members") of Nebraska an opportunity to secure the maximum procurement value through cooperative synergies. The Educational Service Unit Coordinating Council (ESUCC) Advisory group serves as the steering committee for new and future cooperative buys statewide under its direction. A chief executive officer coordinates the statewide purchasing agreement between service units and their school districts and other serviceable entities. The Director manages the program with the guidance of the ESUCC, Advisory Board, and the Fiscal Agent. Nebraska ESUCC Cooperative Purchasing serves 17 ESUs that provide a statewide network of educational opportunities to approximately 249 school districts and more than 300,000 students.

In consideration of mutual covenants, the parties agree as follows:

1. **Scope of the Contract.** The Contractor shall provide Members the opportunity to purchase the goods and/or services as defined in **Exhibit A,** which is attached hereto and incorporated herein by this reference, at the prices set forth in this Agreement and its Exhibits.

2. **Payment Terms/Payment Schedule.** Members shall pay for services rendered and/or for accepted goods on the terms and payment schedule as set forth in **Exhibit B** which is attached hereto and incorporated herein by this reference. Prices listed in Exhibit B shall remain in effect during the term of this Agreement unless agreed otherwise by the parties in writing.

3. **Administrative Fee.** Contractor shall submit to the Cooperative as an administrative fee a sum equal to two percent (2%) of the total gross dollar volume, less freight of all goods and services and excluding annual support and maintenance purchased by the Cooperative, ESUs, and Members. This fee will be submitted to the Cooperative on a quarterly basis beginning three months from the Effective Date of this Agreement for all transactions completed and paid during said quarter.

4. **Term.** This Agreement is effective on April 5, 2018 ("Effective Date") and shall continue until 12:00 midnight (CST) on June 30, 2021, unless terminated earlier as provided by this Agreement or by law.

5. **Governing Law; Designation of Forum.** This Agreement is governed by and construed in accordance with the laws of the State of Nebraska. Any action to enforce this Agreement must be brought in the state or federal courts of the State of Nebraska. Mandatory and exclusive venue for any disputes shall be in Sarpy County, Nebraska.

6. Termination.

A. The Cooperative may terminate this Agreement in whole or part if funding from federal, state, or other sources for the Cooperative or its Members is not obtained and continued at levels sufficient to allow for purchase of the good and/or services in the indicated quantities or term. The Cooperative shall notify the Contractor as soon as practicable if funds to meet the Cooperative's or Members' obligations become unavailable. The determination of the Cooperative as to the insufficiency of funds is conclusive.

B. Each party may terminate this Agreement if the other party breaches or is in default of any material obligation hereunder which default is incapable of cure, or which, being capable of cure, has not been cured within 30 days after receipt of written notice of such default or such additional cure period as the nondefaulting party may authorize in writing.

C. Each party may terminate this Agreement by written notice if federal or state laws or rules are modified or interpreted in a way that the services are no longer allowable or appropriate for purchase under this contract or are no longer eligible for the funding proposed for payments authorized by this contract.

D. The Cooperative may terminate this Agreement, in whole or in part, by written notice to the Contractor and may regard the Contractor in default of this Agreement if the Contractor becomes:

(1) Insolvent;
(2) Makes a general assignment for the benefit of creditors;
(3) Files a voluntary petition of bankruptcy;
(4) Suffers or permits the appointment of a receiver for its business or assets;
(5) Becomes subject to any proceeding under any bankruptcy or insolvency law, whether domestic or foreign; or
(6) Has wound up or liquidated, voluntarily or otherwise.

E. The Cooperative may terminate this Agreement, in whole or in part, immediately, without notice, if the Contractor is debarred or suspended from performing services on any public contracts.

F. The parties may terminate this Agreement without cause by mutual written consent or by either party with a minimum of 90 days written notice.

G. Upon the termination for any reason or expiration of this Agreement, the Contractor promptly must return to the Cooperative all papers, materials and other property of the Cooperative then in its possession, including but not limited to all work in progress as is appropriate in its then existing form to the Cooperative.

7. Indemnification.

A. The Contractor hereby waives and agrees to indemnify and save harmless the Cooperative and the ESUs and their officials, agents, employees, and volunteers (hereinafter collectively referred to as "Indemnities"), against any and all claims of

injuries, death, damage to property, liabilities, judgments, costs and expenses which may otherwise accrue against Indemnities in consequence of the granting of this Agreement or which may otherwise result therefrom.

B. The Contractor shall, at his or her own expense, appear, defend and pay all charges of attorneys and all costs and other expenses arising therefrom or incurred in connection therewith.

C. If any judgment shall be rendered against the Cooperative or the ESUs in any such action, the Contractor shall, at his or her own expense, satisfy and discharge the same.

D. Any performance bond or insurance protection required by this contract, or otherwise provided by the Contractor, shall in no way limit the responsibility to indemnify and save harmless and defend the Indemnities as herein provided.

E. The Contractor's obligation to indemnify and save harmless any Indemnities will survive the expiration or termination of this Agreement by either party for any reason.

8. **Insurance.** Contractor shall secure and keep in force during the term of this Agreement the following insurance coverages from insurance companies or government self-insurance pools authorized to do business in Nebraska:

A. Commercial general liability, including premises or operations, contractual, and products or completed operations coverages (if applicable), with minimum liability limits of $1,000,000 per person and $5,000,000 per occurrence; and
B. If applicable, workers compensation coverage meeting all statutory requirements.

The Contractor shall furnish a certificate of insurance to the undersigned Cooperative representative prior to commencement of this Agreement. Failure to comply with this provision may be considered a material breach. The Cooperative may suspend or terminate the Contractor, subcontractor, or both if it violates these laws, regulations, or policies or this provision.

12. **Nondiscrimination.** The Contractor and all subcontractors, if any, shall not discriminate against any employee or applicant who is to be employed for performance of this Agreement with respect to his or her hire, tenure, terms, conditions, or privileges of employment, because of his race, color, religion, sex, disability, or national origin.

Follow up with Equal Level has started to internally update some of their processes to address any hiccups encountered this year. (ie. the item file snapshot from GO - making sure the timing is correct for when they take it.).

Reviewing any new requests with Equal Level and providing followup on any items where we have potential development required. Discussed possible solutions to provide a Memo on PO's to make sure vendors are not processing order prior to the May 23 deadline.

Coop Directer shared the updates for the annula and paper buy. We were up 19,000+ this year on the annual buy. He also shared that every month since February has increased in sales.

3.2.2. Specials Buys

3.2.3. AEPA

No new updates outside of contract.

3.3. Future Efforts

3.3.1. Coop School/ESU Advisory Committee
The Coop School/ESU Advisory committee was scheduled to meet on April 27. With only 2 ESUs (ESU 11 & 15) represented we discussed the direction for this advisory committee.

Click here to view Agenda
Coop Advisory only had three or four attendees. The committee decided it is no longer necessary to meet. This year Coop staff has decided to do the month Zoom meeting. They don't have a set agenda, it is run on attendees. He will begin to have two meetings a month to include a vendor Zoom meeting. The meetings last an hour. The committee discussed just keeping the monthly Zoom meeting to one time so not to saturate. The audience makes a difference in the meetings as well.

It is recommended by the ESUCC Coop Committee that the Coop School/ESU Advisory Committee that meets twice a year be dissolved and moved to monthly Zoom meetings based upon need. Passed with a motion by Mowinkel ESU 08 and a second by Calvert ESU 15.

2018-2021
SPECIAL BUY AGREEMENT

THIS AGREEMENT is entered into by and between the Nebraska ESUCC Cooperative Purchasing ("Cooperative"), and World Book Inc. ("Contractor"). The Cooperative is an organization founded in 1968 with the purpose of providing the Educational Service Unit (ESU) member school districts ("Members") of Nebraska an opportunity to secure the maximum procurement value through cooperative synergies. The Educational Service Unit Coordinating Council (ESUCC) Advisory group serves as the steering committee for new and future cooperative buys statewide under its direction. A chief executive officer coordinates the statewide purchasing agreement between service units and their school districts and other serviceable entities. The Director manages the program with the guidance of the ESUCC, Advisory Board, and the Fiscal Agent. Nebraska ESUCC Cooperative Purchasing serves 17 ESUs that provide a statewide network of educational opportunities to approximately 249 school districts and more than 300,000 students.

In consideration of mutual covenants, the parties agree as follows:

1. **Scope of the Contract.** The Contractor shall provide Members the opportunity to purchase the goods and/or services as defined in **Exhibit A,** which is attached hereto and incorporated herein by this reference, at the prices set forth in this Agreement and its Exhibits.

2. **Payment Terms/Payment Schedule.** Members shall pay for services rendered and/or for accepted goods on the terms and payment schedule as set forth in **Exhibit B** which is attached hereto and incorporated herein by this reference. Prices listed in Exhibit B shall remain in effect during the term of this Agreement unless agreed otherwise by the parties in writing.

3. **Administrative Fee.** Contractor shall submit to the Cooperative as an administrative fee a sum equal to two percent (2%) of the total gross dollar volume, less freight of all goods and services and excluding annual support and maintenance purchased by the Cooperative, ESUs, and Members. This fee will be submitted to the Cooperative on a quarterly basis beginning three months from the Effective Date of this Agreement for all transactions completed and paid during said quarter.

4. **Term.** This Agreement is effective on April 5, 2018 ("Effective Date") and shall continue until 12:00 midnight (CST) on June 30, 2021, unless terminated earlier as provided by this Agreement or by law.

5. **Governing Law; Designation of Forum.** This Agreement is governed by and construed in accordance with the laws of the State of Nebraska. Any action to enforce this Agreement must be brought in the state or federal courts of the State of Nebraska. Mandatory and exclusive venue for any disputes shall be in Sarpy County, Nebraska.

6. Termination.

A. The Cooperative may terminate this Agreement in whole or part if funding from federal, state, or other sources for the Cooperative or its Members is not obtained and continued at levels sufficient to allow for purchase of the good and/or services in the indicated quantities or term. The Cooperative shall notify the Contractor as soon as practicable if funds to meet the Cooperative's or Members' obligations become unavailable. The determination of the Cooperative as to the insufficiency of funds is conclusive.

B. Each party may terminate this Agreement if the other party breaches or is in default of any material obligation hereunder which default is incapable of cure, or which, being capable of cure, has not been cured within 30 days after receipt of written notice of such default or such additional cure period as the nondefaulting party may authorize in writing.

C. Each party may terminate this Agreement by written notice if federal or state laws or rules are modified or interpreted in a way that the services are no longer allowable or appropriate for purchase under this contract or are no longer eligible for the funding proposed for payments authorized by this contract.

D. The Cooperative may terminate this Agreement, in whole or in part, by written notice to the Contractor and may regard the Contractor in default of this Agreement if the Contractor becomes:

(1) Insolvent;
(2) Makes a general assignment for the benefit of creditors;
(3) Files a voluntary petition of bankruptcy;
(4) Suffers or permits the appointment of a receiver for its business or assets;
(5) Becomes subject to any proceeding under any bankruptcy or insolvency law, whether domestic or foreign; or
(6) Has wound up or liquidated, voluntarily or otherwise.

E. The Cooperative may terminate this Agreement, in whole or in part, immediately, without notice, if the Contractor is debarred or suspended from performing services on any public contracts.

	LB 420 first adds employment agencies to this general rule. Under LB 420, "employment agency" is defined as any person regularly undertaking with or without compensation to procure employees for an employer or to procure for employees' opportunities to work for an employer and includes an agent of such a person. *The bill also provides an exception to the general rule noted above. LB 420 state that, prior to determining whether an applicant meets the minimum employment qualifications, an employer or employment agency may ask the applicant to disclose, orally or in writing, information concerning the applicant's criminal record or history, including any inquiry on any employment application, if:* *(a) The applicant is applying for a position for which:* *(i) A criminal history record information check is required by federal or state law; or* *(ii) Federal or state law specifically disqualifies an applicant with a criminal background even if such law allows for a waiver that would allow such applicant to be employed; and* *(b) The inquiry or request for disclosure is limited to the types of criminal offenses that the employer or employment agency is required to conduct a check for or that disqualify the applicant.* *Lastly, LB 420 states that if an employer or employment agency inquires about or requests disclosure of an applicant's criminal history record information and the applicant is still eligible for the position under federal or state law, the employer or employment agency must afford the applicant an opportunity to explain the information and the circumstances regarding any convictions, including post-conviction rehabilitation.*				Date of introduction

LB540	(Stinner) Provide for a temporary aid adjustment factor in the Tax Equity and Educational Opportunities Support Act *Requires reductions from allocated income tax rebate and net option funding aid first. Then, if additional reductions in state-aid are needed in order to meet the amount of general funds appropriated for TEEOSA, then equalization aid will be reduced. Accordingly, it appears that approximately 90 school districts that are unequalized will lose all state-aid (net option funds and allocated income tax). 77-2717 (1)(a)(i) For taxable years beginning or deemed to begin before January 1, 2014, the tax imposed on all resident estates and trusts shall be a percentage of the federal taxable income of such estates and trusts as modified in section 77-2716, plus a percentage of the federal alternative minimum tax and the federal tax on premature or lump-sum distributions from qualified retirement plans. The additional taxes shall be recomputed by (A) substituting Nebraska taxable income for federal taxable income, (B) calculating what the federal alternative minimum tax would be on Nebraska taxable income and adjusting such calculations for any items which are reflected differently in the determination of federal taxable income, and (C) applying Nebraska rates to the result. The federal credit for prior year minimum tax, after the recomputations required by the Nebraska Revenue Act of 1967, and the credits provided in the Nebraska Advantage Microenterprise Tax Credit Act and the Nebraska Advantage Research and Development Act shall be allowed as a reduction in the income tax due. A refundable income tax credit

LB829
2018

shall be allowed for all resident estates and trusts under the Angel Investment Tax Credit Act, the Nebraska Advantage Microenterprise Tax Credit Act, and the Nebraska Advantage Research and Development Act. A nonrefundable income tax credit shall be allowed for all resident estates and trusts as provided in the New Markets Job Growth Investment Act.

(ii) For taxable years beginning or deemed to begin on or after January 1, 2014, the tax imposed on all resident estates and trusts shall be a percentage of the federal taxable income of such estates and trusts as modified in section 77-2716, plus a percentage of the federal tax on premature or lump-sum distributions from qualified retirement plans. The additional taxes shall be recomputed by substituting Nebraska taxable income for federal taxable income and applying Nebraska rates to the result. The credits provided in the Nebraska Advantage Microenterprise Tax Credit Act and the Nebraska Advantage Research and Development Act shall be allowed as a reduction in the income tax due. A refundable income tax credit shall be allowed for all resident estates and trusts under the Angel Investment Tax Credit Act, the Nebraska Advantage Microenterprise Tax Credit Act, ~~and~~ the Nebraska Advantage Research and Development Act, and the Property Tax Relief Act. A nonrefundable income tax credit shall be allowed for all resident estates and trusts as provided in the Nebraska Job Creation and Mainstreet Revitalization Act, the New Markets Job Growth Investment Act, the School Readiness Tax Credit Act, the Affordable Housing Tax Credit Act, and section 77-27,238.

(b) The tax imposed on all nonresident estates and trusts shall be the portion of the tax imposed on resident estates and trusts which is attributable to the income derived from sources within this state. The tax which is attributable to income derived from sources within this state shall be determined by multiplying the liability to this state for a resident estate or trust with the same total income by a fraction, the numerator of which is the nonresident estate's or trust's Nebraska income as determined by sections 77-2724 and 77-2725 and the denominator of

LB829
2018

which is its total federal income after first adjusting each by the amounts provided in section 77-2716. The federal credit for prior year minimum tax, after the recomputations required by the Nebraska Revenue Act of 1967, reduced by the percentage of the total income which is attributable to income from sources outside this state, and the credits provided in the Nebraska Advantage Microenterprise Tax Credit Act and the Nebraska Advantage Research and Development Act shall be allowed as a reduction in the income tax due. A refundable income tax credit shall be allowed for all nonresident estates and trusts under the Angel Investment Tax Credit Act, the Nebraska Advantage Microenterprise Tax Credit Act, ~~and~~ the Nebraska Advantage Research and Development Act, and the Property Tax Relief Act. A nonrefundable income tax credit shall be allowed for all nonresident estates and trusts as provided in the Nebraska Job Creation and Mainstreet Revitalization Act, the New Markets Job Growth Investment Act, the School Readiness Tax Credit Act, the Affordable Housing Tax Credit Act, and section 77-27,238.

(2) In all instances wherein a fiduciary income tax return is required under the provisions of the Internal Revenue Code, a Nebraska fiduciary return shall be filed, except that a fiduciary return shall not be required to be filed regarding a simple trust if all of the trust's beneficiaries are residents of the State of Nebraska, all of the trust's income is derived from sources in this state, and the trust has no federal tax liability. The fiduciary shall be responsible for making the return for the estate or trust for which he or she acts, whether the income be taxable to the estate or trust or to the beneficiaries thereof. The fiduciary shall include in the return a statement of each beneficiary's distributive share of net income when such income is taxable to such beneficiaries.

(3) The beneficiaries of such estate or trust who are residents of this state shall include in their income their proportionate share of such estate's or trust's federal income and shall reduce their Nebraska

LB829
2018

tax liability by their proportionate share of the credits as provided in the Angel Investment Tax Credit Act, the Nebraska Advantage Microenterprise Tax Credit Act, the Nebraska Advantage Research and Development Act, the Nebraska Job Creation and Mainstreet Revitalization Act, the New Markets Job Growth Investment Act, the School Readiness Tax Credit Act, the Affordable Housing Tax Credit Act, the Property Tax Relief Act, and section 77-27,238. There shall be allowed to a beneficiary a refundable income tax credit under the Beginning Farmer Tax Credit Act for all taxable years beginning or deemed to begin on or after January 1, 2001, under the Internal Revenue Code of 1986, as amended.

(4) If any beneficiary of such estate or trust is a nonresident during any part of the estate's or trust's taxable year, he or she shall file a Nebraska income tax return which shall include (a) in Nebraska adjusted gross income that portion of the estate's or trust's Nebraska income, as determined under sections 77-2724 and 77-2725, allocable to his or her interest in the estate or trust and (b) a reduction of the Nebraska tax liability by his or her proportionate share of the credits as provided in the Angel Investment Tax Credit Act, the Nebraska Advantage Microenterprise Tax Credit Act, the Nebraska Advantage Research and Development Act, the Nebraska Job Creation and Mainstreet Revitalization Act, the New Markets Job Growth Investment Act, the School Readiness Tax Credit Act, the Affordable Housing Tax Credit Act, the Property Tax Relief Act, and section 77-27,238 and shall execute and forward to the fiduciary, on or before the original due date of the Nebraska fiduciary return, an agreement which states that he or she will file a Nebraska income tax return and pay income tax on all income derived from or connected with sources in this state, and such agreement shall be attached to the Nebraska fiduciary return for such taxable year.

(5) In the absence of the nonresident beneficiary's executed agreement being attached to the Nebraska fiduciary return, the estate or trust shall remit a portion of such beneficiary's income which was

LB829
2018

derived from or attributable to Nebraska sources with its Nebraska return for the taxable year. For taxable years beginning or deemed to begin before January 1, 2013, the amount of remittance, in such instance, shall be the highest individual income tax rate determined under section 77-2715.02 multiplied by the nonresident beneficiary's share of the estate or trust income which was derived from or attributable to sources within this state. For taxable years beginning or deemed to begin on or after January 1, 2013, the amount of remittance, in such instance, shall be the highest individual income tax rate determined under section 77-2715.03 multiplied by the nonresident beneficiary's share of the estate or trust income which was derived from or attributable to sources within this state. The amount remitted shall be allowed as a credit against the Nebraska income tax liability of the beneficiary.

(6) The Tax Commissioner may allow a nonresident beneficiary to not file a Nebraska income tax return if the nonresident beneficiary's only source of Nebraska income was his or her share of the estate's or trust's income which was derived from or attributable to sources within this state, the nonresident did not file an agreement to file a Nebraska income tax return, and the estate or trust has remitted the amount required by subsection (5) of this section on behalf of such nonresident beneficiary. The amount remitted shall be retained in satisfaction of the Nebraska income tax liability of the nonresident beneficiary.

(7) For purposes of this section, unless the context otherwise requires, simple trust shall mean any trust instrument which (a) requires that all income shall be distributed currently to the beneficiaries, (b) does not allow amounts to be paid, permanently set aside, or used in the tax year for charitable purposes, and (c) does not distribute amounts allocated in the corpus of the trust. Any trust which does not qualify as a simple trust shall be deemed a complex trust.

(8) For purposes of this section, any beneficiary of an estate or trust that is a grantor trust of a nonresident shall be disregarded and

LB829
2018

this section shall apply as though the nonresident grantor was the beneficiary.

Sec. 7. Section 77-2734.03, Revised Statutes Cumulative Supplement, 2016, is amended to read:

LB829
2018

taxable years beginning or deemed to begin on or after January 1, 2001, under the Internal Revenue Code of 1986, as amended.

(4) The changes made to this section by Laws 2004, LB 983, apply to motor fuels purchased during any tax year ending or deemed to end on or after January 1, 2005, under the Internal Revenue Code of 1986, as amended.

LB 829 creates the Property Tax Relief Act and amends the Nebraska Revenue Act of 1967.

The bill provides, for tax years on or after January 1, 2019, a refundable credit against Nebraska income tax in the amount of fifty percent of school district taxes levied on the taxpayer's property and paid by the taxpayer during such taxable year.

School district taxes are defined as property taxes levied on property in Nebraska by a school district or multiple-district school system, excluding any property taxes levied for bonded indebtedness and any property taxes levied as a result of an override of limits on property tax levies approved by voters pursuant to Section 77-3444.

The bill allows the Department of Revenue to promulgate rules and regulations.

NOTE: The Department of Revenue and the Legislative Fiscal Office both note areas of the bill that require clarification. First, by requiring the property taxes to be levied and paid in the same tax year, a number of taxpayers will not be able to claim the credit by paying before the end of the tax year and not before the two delinquency dates (May 1 and September 1, except in Douglas, Lancaster, and Sarpy counties where the dates are April 1 and August 1).

The Department of Revenue has estimated the fiscal impact of LB 829 based on the bill as written, and that impact to the General Fund is as follows:

FY2018-19:	($ 262,700,000)
FY2019-20:	($ 636,900,000)
FY2020-21:	($ 652,400,000)
FY2021-22:	($ 668,500,000)
FY2022-23:	($ 685,100,000)
FY2023-24:	($ 702,400,000)
FY2024-25:	($ 720,300,000)

The Department of Revenue also indicates they will require a one-time programming charge of $211,914 paid to the Office of the CIO for development costs. They will also require 1.0 FTE IT Developer/Senior, 1.0 FTE Revenue Operation Clerk II, 0.5 FTE Revenue Agent Senior, 0.5 FTE Accounting Clerk II, and 0.5 FTE Accountant I to implement. PSL for FY2018-19 would be $148,200 and $151,700 for FY2019-20.

We have no basis to disagree with the Department of Revenue estimate of fiscal impact or cost.

The Department of Revenue has also estimated the fiscal impact of the LB 829 if the bill eliminated the requirement that the property taxes be paid in the same year they are levied and, instead, granted the credit for property taxes paid. The fiscal impact to the General Fund would be as follows:

FY2018-19:	($ 233,200,000)
FY2019-20:	($ 800,400,000)
FY2020-21:	($ 1,156,100,000)
FY2021-22:	($ 1,202,300,000)
FY2022-23:	($ 1,250,300,000)
FY2023-24:	($ 1,300,200,000)
FY2024-25:	($ 1,352,200,000)

LB 829 would adopt the Property Tax Relief Act. This Act would provide a refundable income tax credit for taxable years beginning, or deemed to begin, on or after January 1, 2019, equal to 50% of the school district property taxes levied and paid on the taxpayer's property during the taxable year, excluding taxes levied to service bonded indebtedness or pursuant to an override of the levy limits as allowed by Neb. Rev. Stat. § 77-3444. The Department is authorized to promulgate rules and regulations to carry out the Act.

Sections 5, 6, and 7 amend Neb. Rev. Stat. §§ 77-2715.07, 77-2717, & 77-2734.03 to incorporate the new refundable income tax credit into the credits listed for individuals, fiduciaries, beneficiaries of an estate or trust, and corporations.

LB 829 would require clarification in a number of areas. By excluding bonded indebtedness and levy overrides, those items will need to be separately listed in the property tax statements (currently, they are not). There is disagreement over what constitutes bonded indebtedness since schools borrow money through multiple mechanisms.

By requiring the property taxes to be both levied and paid in the same tax year, many taxpayers will not be able to take advantage of the credit by paying before the end of the tax year and well before the two delinquency dates. The Department has estimated the costs of the bill as drafted but also included the costs of LB 829 assuming this requirement is removed.

LB 829 will require a one-time programming charge of $211,914 paid to the OCIO for development costs. The Department would need to hire 1.0 FTE IT Applications Developer/Senior to implement this bill. Currently, most partnerships and limited liability companies are not required to file a return, but under LB 829, approximately 12,500 additional partnerships and LLCs will file a return to claim a refund. For partnerships and LLCs, refunds are issued manually, so the Department would also need to hire 1.0 FTE Revenue Operations Clerks II, 0.5 FTE Revenue Agent Senior, 0.5 FTE Accounting Clerk II, and 0.5 FTE Accountant I to implement LB 829.

The Department estimates the reduction to General Fund Revenue as follows:

Fiscal Year	General Fund
FY 2018-19	$ 262,700,000
FY 2019-20	$ 636,900,000
FY 2020-21	$ 652,400,000
FY 2021-22	$ 668,500,000
FY 2022-23	$ 685,100,000
FY 2023-24	$ 702,400,000
FY 2024-25	$ 720,300,000

If the bill eliminated the requirement that the property taxes paid and levied must occur in the same year, and instead, granted the tax credit for property taxes paid, the Department estimates the reduction to General Fund Revenue as follows:

Fiscal Year	General Fund
FY 2018-19	$ 233,200,000
FY 2019-20	$ 800,400,000
FY 2020-21	$ 1,156,100,000

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

LB 829 is a property tax relief bill. The bill would enable Nebraska property owners to get a credit or refund on their State income tax return equal to 50% of that portion of their property tax bill which goes to fund K-12 education. For most property owners LB 829 will result in a 30% reduction in their property taxes.

The median property tax rate in Nebraska is 1.76% of a property's assessed fair market value. Currently, Nebraska ranks as the 4th highest median property tax rate in the nation. Only New Jersey, New Hampshire and Texas have higher median property tax rates than Nebraska. Nebraskans pay more in property taxes than all of our neighboring states. On average, Nebraska property owners pay $2,164 in property taxes every year.

Property taxes have escalated in recent years while median household incomes have remained stagnant. Since 2006 median household incomes have remained steady near $57,000 per year, according to the Department of Numbers. Meanwhile, property taxes have skyrocketed. For instance, according to the Nebraska Department of Property Assessment & Taxation, in 2006 the total amount of property taxes collected in Morrill County, where I live, was $7,390,027, but by 2016 that number had climbed to $17,569,558. That's an average increase of more than one million dollars per year in a county with only 5,042 residents, according to the 2010 Census. So, property taxes have been increasing at an alarming rate while household incomes have remained stagnant.

It is the responsibility of the State, not local governments, to provide for instruction. The Nebraska State Constitution says, "The Legislature shall provide for the free instruction in the common schools of this state of all persons between the ages of five and twenty-one years." Therefore, the most appropriate place to enact a credit or refund for the purpose of property tax relief comes from that portion of every property tax bill which funds K-12 instruction.
