ESUCC Special Education Committee Update
11/19/14

AAP Website

- We have submitted our Letter of Intent for the AAP Grant
 - We are asking for \$24,937
- We have identified and fixed a few bugs that will improve the site's performance.

Project Para

- Nebraska Paraeducator Conference was held on October 30, 2014 in Kearney.
- The site is now running on a new and improved server, which will increase the site's speed and reliability.

SRS

- Doniphan-Trumball has joined SRS!
- Formed an Ad Hoc committee to update the SRS Accommodations and Modification checklist
 - We have just released a Google Survey for our users to collect feedback on how to improve the usability and functionality of this feature
- We are working on a new Part C form called the "Notice and Consent for Early Intervention Initial Multidisciplinary Evaluation and Child Assessment"
 - It was found that our previous form the "Notice and Consent for Initial Evaluation" was no longer in compliance with the new Rule 52, so this form is quickly being created to satisfy the new requirements.
 - It will be completed by the end of this week.
- Provided trainings for ESU#7, ESU#9 and Doniphan-Trumball
- Met with FTE committee to develop a system to collect FTE report data on SRS.
 - If we can get this right, it will save our users and enormous amount of time and effort.
- The NSSRS report required a great deal of our attention this month.
 - NDE had made some changes to the data export format that resulted in many problems for our users.
 - The data was coming from SRS properly, but when our users attempted to modify the export files, they would lose columns in their data files.
 - The NDE helpdesk was making it sound like this was the fault of SRS, so we felt compelled to help everyone fix these problems.
- We met to review the 7 applicant's resumes for the new Systems Analyst position.
 - The pool of applicants is not very strong (in my personal opinion).
 - We identified the 4 most promising applicants for an initial screening.
 - We will contact their references on Nov 21.
 - We will hold interviews in early December.
 - If these applicants do not meet our needs, we will be patient and expand our search for a programmer that meets our needs.
- In our spare time, we have been evaluating SRS, and writing up instructions for the conversion of the remaining pages to the Zend Framework.

ILCD

- We continue to maintain the ILCD Staff Survey site
 - Our office emails data (along with a summary) to school districts upon request.
