The guidelines are as follows: (1) school breakfast and lunch programs will be offered which meet or exceed the requirements of federal and state law and regulatory authorities and (2) no foods in competition with the school lunch or breakfast program shall be sold or otherwise made available to students anywhere on school premises during the period of one-half hour prior to the serving period for breakfast and lunch and lasting until one-half hour after the serving of breakfast and lunch. The Superintendent or designee shall establish such further nutrition guidelines as are determined appropriate to meet the stated mission.

**3. Assurance for Reimbursable School Meals**

The District gives the assurance that the District's guidelines for reimbursable school meals shall not be less restrictive than regulations and guidance issued by the Secretary of Agriculture pursuant to subsections (a) and (b) of section 10 of the Child Nutrition Act (42 U.S.C. 1779) and sections 9(f)(1) and 17(a) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(f)(1), 1766(a)), as those regulations and guidance apply to the District.

**4. Plan for Measuring Implementation and Designation of Responsible Persons**

measure implementation of the Wellness Policy by conducting periodic reviews or receiving periodic reports.

3. Nutrition Health Events: Educators are encouraged to search for and take advantage of events that promote nutrition education. Activities may include:
  - a. health fairs
  - b. traveling health exhibits
  - c. field trips to farm or food production facilities

The established goal is to implement a curriculum that meets or exceeds the health and physical education objectives established by the Nebraska Department of Education. The administration establishes the following additional goals and actions to achieve such goals:

1. **Curriculum:** Health and physical education will be integrated into other subjects to complement, but not replace, the health and physical education curriculum provided in accordance with NDE Rule 10. Educators are to incorporate physical activity promotion and non-sedentary lifestyles in all subject areas as appropriate.
2. **Physical Activity During the School Day:**
  - a. **Recess:**
    - i. Elementary students will have the opportunity for daily recess. Weather and other conditions permitting, recess will be outdoors. Students who are idle during recess are to be encouraged by supervising staff to engage in physical activity. Daily minimums are as follows: Pre-school: 30 minutes; Grades K-3: 50 minutes (15 for ½ day Kindergarten); Grades 4-6: 35 minutes. Minimums include lunch recess. Minimums are set for “ordinary” days and are subject to modification in the judgment of the educator when events such as field trips, testing, etc. occur during the day.
    - ii. Middle School and High School students will have the opportunity for physical activity during their lunch period. The gym or outside facilities will be open to use during lunch when possible.
  - b. **Class Time:** Physical activity within class periods (e.g. stretching breaks when students are at task for more than 50 minutes) will be encouraged.
3. **Physical Activity To/From School:**
  - a. To encourage biking or walking to school, the administration will work with law enforcement and as appropriate volunteer parent safety monitors to provide safe routes to school. Bike racks will be established commensurate with need.
  - b. In establishing bus pick up/drop off sites, the fact that students will have to walk farther from a particular site will not necessarily be considered as a negative factor.
4. **As Punishment:** Physical activity will not be used as punishment and will not be withheld as punishment. This guideline shall not apply to extra-curricular activities. Educators may use appropriate professional discretion to make exceptions to this guideline. In no event, however, will physical activity be used as a form of corporal punishment.
5. **Display Physical Activity Educational Materials:** The cafeteria, gym and health classrooms shall display posters or other communications suitable to the ages of students served that promote physical activity and non-sedentary lifestyles (e.g., display sports posters, walking fitness posters). Educators are encouraged to incorporate such communications in their classrooms as well.

6. **Physical Activity Health Events:** Educators are encouraged to search for and take advantage of events that promote physical activity education. Activities may include:
  - a. health fairs
  - b. traveling health exhibits
  - c. field trips to physical activity centers
  - d. physical activity speakers (school assemblies or class speakers representing sports figures, medical people)
  
7. **Family:**

  - b. School communications to parents will include information that promotes physical activity. Such communications may include information about the benefits of physical activity to children and the distribution of information about youth sports programs.
  
8. **Staff:** Our employees are encouraged to be healthy role models for students. It is important for students to receive consistent messages. Staff is encouraged to be seen engaging in non-sedentary lifestyles. For example, staff is encouraged to walk or bike to work; use stairs even if an elevator is available; and share as appropriate personal information about physical activities they engage in to remain fit.

### **Other School Activities to Promote Student Wellness**

The established goal is to offer other suitable opportunities to students to engage in health-promoting activities. The administration establishes the following additional goals and actions to achieve such goals:

1. **Extracurricular Programs:** The District will offer athletic and other activity programs subject to and in compliance with the bylaws of the Nebraska School Activities Association. 3. **Advertising:** The administration will monitor advertising that occurs in the school and endeavor to limit messages that promote foods of minimal nutritional value.
  
4. **Staff Development:**
  - a. Professional staff members will be provided with professional development and guidance on appropriate practices and procedures to

implement the school wellness goals and recommendations. Professional development activities will include activities each year related to the integration of physical activities and nutrition education into the academic curriculum, use of food as rewards and denial of physical activities as a disciplinary consequence, and other wellness goals and activities.

- b. The District will provide ongoing training and development for food service staff related to nutrition and wellness goals and activities.

5. Community Resources: The administration will coordinate the school wellness program efforts with those available from medical and other community organizations.

### **Nutrition Guidelines**

The established nutrition guidelines for foods available in each school building during the school day are as follows: (1) school breakfast and lunch programs will be offered which meet or exceed the requirements of federal and state law and regulatory authorities and (2) no foods in competition with the school lunch or breakfast program shall be sold or otherwise made available to students anywhere on school premises during the period of one-half hour prior to the serving period for breakfast and lunch and lasting until one-half hour after the serving of breakfast and lunch.

The administration establishes the following additional nutrition guidelines and actions to meet the guidelines:

1. Conditions for School Meals:
  - a. Scheduling meals. Lunch periods will be scheduled at times when students are in need of nutrition (e.g., in the middle of their school day). Students will be provided adequate time to eat. In general students will, upon arrival in the cafeteria, have at least 10 minutes to eat breakfast and 15 minutes to eat lunch.
  - b. Conditions for meals. Efforts shall be made to establish comfortable and relaxed eating conditions. The factors to promote these conditions will be a clean, orderly environment, pleasant food services staff, adequate seating, enforcement of student conduct rules and adequate supervision.
2. Selection of School Meals:
  - a. School Meals: School meals shall at a minimum meet nutrition requirements established by state and federal law. The school food service staff is to offer meals that are of a nutritional value higher than that required. Emphasis is to be on good menu planning principles that offer healthy food choices including lean meats, a variety of fruits and non-fried vegetables daily, whole grains once each week, and low-fat or nonfat milk daily. Locate these choices where they are readily accessible to students. Limit portion sizes of desserts and fried foods.
  - b. Ala carte selections: Elementary students are to be offered balanced meals. Elementary students are not to be sold individual food or beverage selections except for limited portions of low-fat foods, no-fat milk, fruits, and non-fried vegetables. Middle School and High School students may

be sold foods and beverage ala carte provided the ala carte items not include foods of minimal nutritional value and that the offerings include fruits, non-fried vegetables, and healthy beverages (waters and 100% fruit juices).

3. Student's Meals From Home: Students will be discouraged from sharing food and be prohibited from sharing foods brought from home. Parents will be encouraged via health promotional materials to make healthy choices for student lunches.
4. ~~Closed Campus. To encourage students to eat a nutritious lunch, students will not be permitted to leave school during the school day for the purpose of lunch. Exceptions: Students may leave at lunch time if they will be eating lunch at home, with parent permission. Juniors and Seniors may leave campus for lunch, even if they will not be eating lunch at home, with parent permission. Students who leave campus for lunch may not bring any purchased meals or other food back to school. The administration may grant special exceptions to the closed campus rule as needed (e.g., for students with special dietary needs).~~
5. Vending machines:
  - a. Vending machines will not be available for student use at any school for the period of ½ hour before and ½ hour after breakfast and lunch periods.
  - b. Elementary school students: Vending machines with foods of minimal nutritional value will not be available to use by elementary school students at any time during the school day.

6. Foods available during the school day:
  - a. Water: Students will be allowed access to water during the school day. Water fountains are available. Educators may in their discretion allow students to bring water bottles to classes. Students will not be permitted to bring soda pop or other drinks or food to class.
  - b. Food rewards. Food will not be used as rewards. No foods are to be provided by the school or school staff during instructional time except: healthy foods, foods provided for instructional purposes (e.g., cultural programs, FCS classes, and foods given in accordance with a special education student's IEP).

  - c. Each activity sponsor shall report to the Principal the percentage of total fund-raising receipts from sales of foods of minimal nutritional value as of the end of the each school year.
8. School activities/events:
- a. **Athletes:** Student athletes serve as role models. Coaches are to encourage healthy eating by student athletes. The coaches' conduct rules may limit consumption of foods of minimal nutritional value by their athletes during their sport season.
  - b. **Concessions:** Concession stands will include healthy food choices. Efforts will be made to reduce offerings of foods of minimal nutritional value.
9. Definition of Foods of Minimal Nutritional Value: For purposes of this regulation, "foods of minimal nutritional value" has the same meaning as in the federal regulations for the National School Lunch program. Foods of minimal nutritional value are as follows:

StudentsHomeless Students

This School District will comply with the federal and state law related to homeless students.

A “homeless child” for purposes of this Policy is a child who lacks a fixed, regular, and adequate nighttime residence, as defined by applicable federal and state law related to homeless students. An “unaccompanied youth” is a child who is not in the physical custody of a parent or guardian.

1. Homeless Coordinator: The District’s designated Homeless Coordinator is the Superintendent. The Homeless Coordinator may delegate the specified duties as the Homeless Coordinator determines to be appropriate. The Homeless Coordinator shall serve as the school liaison for homeless children and youth.
  - a. Responsibilities. The responsibilities of the Homeless Coordinator are to assist with identification, enrollment, and placement of homeless children and to provide staff development activities to all school personnel regarding the educational rights and needs of homeless children and youth. The Homeless Coordinator shall ensure that:
    - i. homeless children are identified by school personnel;
    - ii. homeless children enroll in, and have a full and equal opportunity to succeed in school;
    - iii. homeless children and their families receive educational service for which they are eligible and referrals to health, dental, and mental health services and other appropriate services;
    - iv. the parents or guardians of homeless children are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children;
    - v. public notice of the educational rights of homeless children is disseminated where such children receive services under the federal homeless children laws, such as schools, family shelters, and soup kitchens;
    - vi. enrollment disputes are mediated in accordance with law; and
    - vii. the parents or guardians of homeless children, and any unaccompanied youth, are fully informed of transportation services available under law.
  - b. Coordination. The Homeless Coordinator shall coordinate with State coordinators and community and school personnel responsible for the provisions of education and related services to homeless children. Coordination activities with area shelters and other homeless service providers are to be established by the Homeless Coordinator.

- c. **Financial.** The Homeless Coordinator shall ensure that financial records are maintained to show expenditures are for authorized activities. Title I, Part A homeless set-aside funds are also to be used for services for homeless children. Materials and equipment purchased with grant funds are properly identified and inventoried.
  - d. **Program Activities.** The Homeless Coordinator shall design program activities to meet the greatest need as determined by the District and homeless service providers.
  - e. **Documentation.** The Homeless Coordinator shall document the number of homeless children and youth receiving services.
  - f. **Student Records.** The Homeless Coordinator shall ensure that any record ordinarily kept related to students, including immunization or medical records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, are to be maintained so that the records of a homeless child are available, in a timely fashion, when the child enters a new school or school district and in a manner consistent with the Federal Education Rights and Privacy Act.
2. **Enrollment and Placement of Homeless Children:** The enrollment and placement of homeless children shall be in compliance with federal and state law.
- a. **Enrollment.** A homeless child shall be immediately enrolled even if the child is unable to produce records normally required for enrollment. Lack of previous school records, immunization and medical records, birth certificate, or other documentation from the previous school will not delay the enrollment of a homeless child or youth. Guardianship issues, uniform or dress code requirements, and residency requirements will not be obstacles to delay or deny enrollment. The District may nonetheless require the parent or guardian of the homeless child to submit contact information.
  - b. **Obtaining Records.** The District shall immediately contact the school last attended by the homeless child to obtain relevant academic and other records. If the homeless child needs to obtain immunizations or medical records, the District shall immediately refer the parent or guardian of the homeless child to the Homeless Coordinator, who shall assist in obtaining necessary immunizations or medical records.
  - c. **Placement.** Placement decisions for a homeless child shall be made according to the District's determination of the child's best interests.
    - i. The placement shall be at either:

1. The child's "school of origin," which is the school that the child attended when permanently housed or the school in which the child was last enrolled; or
2. The school of the attendance area in which the child is actually living.
  - ii. If placed in the school of origin, the placement shall continue for the duration of the child's homelessness. If the child becomes permanently housed (no longer homeless) during the school year, the placement in the school of origin will be continued for the remainder of that school year.
  - iii. To the extent feasible the placement shall be in the school of origin except when such is contrary to the wishes of the homeless child's parent or legal guardian. If the placement is not in the school of origin or a school requested by the homeless child's parent or legal guardian, the District shall provide a written explanation of the placement decision and a statement of appeal rights to the parent or guardian.
  - iv. If the homeless child is an unaccompanied youth, the Homeless Coordinator shall assist in the placement decision, consider the views of the unaccompanied youth, and provide the unaccompanied youth with notice of the right to appeal.
  - v. The grade placement for the homeless child will be the appropriate grade level as determined by the building principal or designee using the same procedures that are used for placing non-homeless children attending that school.
3. Educational Services and Stigmatization or Segregation: It is the District's policy that homeless children not be stigmatized or segregated on the basis of their status as homeless. Homeless children will be provided the same free, appropriate public education as other students. Homeless students will be provided services comparable to services offered to other students in the school in which the homeless child has been placed, including the following: transportation services, educational services for which the student meets the eligibility criteria, such as services provided under Title I, educational programs for children with disabilities, and educational programs for students with limited English proficiency, programs in vocational and technical education, programs for gifted and talented students, and school nutrition programs.
4. Transportation: Transportation will be provided to homeless students to the extent required by law.
  - a. Comparable Service. Transportation will be provided to a homeless student comparable to that provided to students who are not homeless.
  - b. School of Origin. When the homeless student attends the school of origin, transportation will be provided to and from the school of origin upon request of the parent or guardian of the homeless child, or upon request of the Homeless Coordinator in the case of an unaccompanied youth. If the homeless child relocates out of the District but continues to be enrolled in this School District based on it being the school of origin, this School District will negotiate with the

school district in which the child is residing to develop a method to apportion the responsibility and costs for providing the child with transportation to and from the school of origin. If agreement is not reached, the responsibility and cost for transportation shall be shared equally.

- c. Eliminate Barriers. Transportation will be provided when necessary to eliminate barriers to school enrollment and the retention of students experiencing homelessness.
5. Dispute Resolution. The process to resolve disputes concerning the enrollment or placement of a homeless child is as follows:
- a. The homeless child and the parent, guardian or other person having legal or actual charge or control of the homeless child shall be referred to the Homeless Coordinator. The Homeless Coordinator shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute. The dispute resolution process is as follows:
    - i. The homeless child and parent/guardian will submit a written dispute statement to the Homeless Coordinator. The District's Dispute Resolution Form shall be used if such is available.
    - ii. When it is determined that additional information would be helpful, the Homeless Coordinator will schedule a meeting within 10 days, or such time as practicable, at which the homeless child and parent/guardian will be given the opportunity to provide information in support of their position.
    - iii. The Homeless Coordinator will contact school officials and others as determined appropriate to obtain information to corroborate the information provided in support of the positions of the homeless child and parent/guardian and the District.
    - iv. The Homeless Coordinator will provide a written response and explanation of a decision regarding the dispute within 30 calendar days after receiving the dispute statement.
    - v. The written response and explanation of the decision will include a notice of the right to appeal using the appeal process provided for in the Nebraska Department of Education Rule 19.
  - b. In the event of an enrollment dispute, the homeless child's placement shall be at the school in which enrollment is sought pending resolution of the dispute in accordance with the dispute resolution process. In the case of an unaccompanied youth, the homeless liaison shall ensure that the youth is immediately enrolled in school pending resolution of the dispute.

StudentsStudent Privacy Protection Policy

It is the policy of Elm Creek Public Schools to develop and implement policies which protect the privacy of students in accordance with applicable laws. The District's policies in this regard include the following:

- A. Right of Parents to Inspect Surveys Funded or Administered by the United States Department of Education or Third Parties  
Parents shall have the right to inspect, upon the parents request, a survey created by and administered by either the United States Department of Education or a third party (a group or person other than the District) before the survey is administered or distributed by the school to the parent=s child.
- B. Protection of Student Privacy in Regard to Surveys of Matters Deemed to be Sensitive  
The District will require, for any survey of students which contain one or more matters deemed to be sensitive (see section headed Definition of Surveys of Matters Deemed to be Sensitive), that suitable arrangements be made to protect student privacy (that is, the name or other identifying information about a particular student). For such surveys, the District will also follow the procedures set forth in the section entitled: Notification of and Right to Opt-Out of Specific Events.
- C. Right of Parents to Inspect Instructional Materials  
Parents shall have the right to inspect, upon reasonable request, any instructional material used as part of the educational curriculum for their child. Reasonable requests for inspection of instructional materials shall be granted within a reasonable period of time after the request is received. Parents shall not have the right to access academic tests or academic assessments, as such are not within the meaning of the term Instructional materials for purposes of this policy.
- The procedures for making and granting a request to inspect instructional materials are as follows: the parent shall make the request, with reasonable specificity, directly to the building principal. The building principal, within five school days, shall consult with the teacher or other educator responsible for the curriculum materials. In the event the request can be accommodated, the building principal shall make the materials available for inspection or review by the parent, at such reasonable times and place as will not interfere with the educator=s intended use of the materials. In the event there is a question as to the nature of the curriculum materials requested or as to whether the materials are required to be provided, the building principal shall notify the parent of such concern, and assist the parent with forming a request which can reasonably be accommodated. If the parent does not formulate such a request, and continues to desire certain curriculum materials, the parent shall be asked to make their request to the Superintendent.
- D. Rights of Parents to be Notified of and to Opt-Out of Certain Physical Examinations

or Screenings

The general policy and practice of the District is to not administer physical examinations or screenings of students which require advance notice or parent opt-out rights under the applicable federal laws, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions: (1) hearing, vision, or scoliosis screenings; (2) physical examinations or screenings that are permitted or required by an applicable State law; and (3) surveys administered to students in accordance with the Individuals with Disabilities Education Act. For physical examinations or screenings which do not fit into the applicable exceptions, the District will follow the procedures set forth in the section entitled: Notification of and Right to Opt-Out of Specific Events.

E. Protection of Student Privacy in Regard to Personal Information Collected from Students

The general policy and practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. The District will make reasonable arrangements to protect student privacy to the extent possible in the event of any such collection, disclosure, or use of personal information.

Personal information for purposes of this policy means individually identifiable information about a student including: (1) a student or parent's first and last name, (2) home address, (3) telephone number, and (4) social security number. The term personal information, for purposes of this policy, does not include information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions. This exception includes the following examples: (i) college or postsecondary education recruitment, or military recruitment; (ii) book clubs, magazines, and programs providing access to low-cost literary products; (iii) curriculum and instructional materials used by elementary schools and secondary schools; (iv) tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about student, or to generate other statistically useful data for the purpose of securing such tests and assessments, and the subsequent analysis and public release of the aggregate data from such tests and assessments; (v) the sale by student of products or services to raise funds for school-related or education-related activities; (vi) student recognition programs.

F. Parent Access to Instruments used in the Collection of Personal Information

While the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information, parents shall have the right to inspect, upon reasonable request, any instrument which may be administered or distributed to a student for such purposes. Reasonable requests for inspection shall be granted within a reasonable period of time after the request is received.

The procedures for making and granting such a request are as follows: the parent shall make the request, with reasonable specificity, directly to the building principal and shall identify the specific act and the school staff member or program responsible for the collection, disclosure, or use of personal information from students for the purpose of marketing that information. The building principal, within five school days, shall consult with the school staff member or person responsible for the program which has been reported by the parent to be responsible for the collection, disclosure, or use of personal information from students. In the event such collection, disclosure, or use of personal information is occurring or there is a plan for such to occur, the building principal shall consult with the Superintendent for determination of whether the action shall be allowed to continue. If not, the instrument for the collection of personal information shall not be given to any students. If it is to be allowed, such instrument shall be provided to the requesting parent as soon as such instrument can be reasonably obtained.

#### Annual Parental Notification of Student Privacy Protection Policy

The District shall provide parents with reasonable notice of the adoption or continued use of this policy and other policies related to the student privacy. Such notice shall be given to parents of students enrolled in the District at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in such policies.

#### Notification to Parents of Dates of and Right to Opt-Out of Specific Events

The District shall directly notify the parents of the affected children, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when any of the following activities are scheduled, or are expected to be scheduled:

1. The collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. (Note: the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information);
2. Surveys of students involving one or more matters deemed to be sensitive in accordance with the law and this policy; and
3. Any nonemergency, invasive physical examination or screening that is required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student or of other students. (Note: the general practice of the District is to not engage in physical examinations or screenings which require advance notice, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions to the advance notice requirement and parent opt-out right: (1) hearing, vision, or scoliosis screenings; (2) physical examinations or screenings that are permitted or required by an applicable State law, and (3) surveys administered to students in accordance with the Individuals with Disabilities

Education Act).

Parents shall be offered an opportunity in advance to opt their child out of participation in any of the above listed activities. In the case of a student of an appropriate age (that is, a student who has reached the age of 18, or a legally emancipated student), the notice and opt-out right shall belong to the student.

Definition of Surveys of Matters Deemed to be Sensitive

Any survey containing one or more of the following matters shall be deemed to be sensitive for purposes of this policy:

1. political affiliations or beliefs of the student or the student's parent;
2. mental or psychological problems of the student or the student's parent;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating or demeaning behavior;
5. critical appraisals of other individuals with whom the student has close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers; or
7. Religious practices, affiliations, or beliefs of the students or the student's parent;
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

StudentsDating Violence

Elm Creek Public Schools strives to provide physically safe and emotionally secure environments for all students and staff. Positive behaviors are encouraged in the educational program and are required of all students and staff. Dating violence will not be tolerated.

For purposes of this policy “dating violence” means a pattern of behavior where one person uses threats of, or actually uses, physical, sexual, verbal, or emotional abuse to control his or her dating partner. “Dating partner” means any person, regardless of gender, involved in an intimate relationship with another person primarily characterized by the expectation of affectionate involvement whether casual, serious, or long term.

Incidents of dating violence involving students at school will be addressed as the administration determines appropriate, within the scope and subject to the limits of the District’s authority.

Staff training on dating violence shall be provided as deemed appropriate by the administration. The dating violence training shall include, but need not be limited to, basic awareness of dating violence, warning signs of dating violence, and the District's dating violence policy.

Dating violence education that is age-appropriate shall be incorporated into the school program. Dating violence education shall include, but not be limited to, defining dating violence, recognizing dating violence warning signs, and identifying characteristics of healthy dating relationships.

The administration will be responsible for ensuring that this dating violence policy is published in the school district’s student-parent handbook or an equivalent such publication. Parents and legal guardians shall be informed of the dating violence policy by such other means as the administration determines appropriate. If requested, parents or legal guardians shall be provided a copy of the dating violence policy and relevant information.

StudentsUse of Restraints and Seclusion

This policy sets forth the requirements, restrictions and procedures related to the use of physical restraints and seclusions at Elm Creek Public Schools.

1. Definitions

- A. Physical Restraint. Physical restraint means one or more persons using a physical hold to restrict a student's freedom of movement as a response to student behavior. A light touching of a student while conducting a physical escort or a touching to provide instructional assistance is not a physical restraint for purposes of this Guidance.
- B. Seclusion. Seclusion is the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving as a response to student behavior.

Seclusion is distinguishable from an in-school suspension, in which other students or adults may be present. While students are required to remain in the in-school suspension area, the students are not physically prevented from leaving.

2. Physical Restraint

- A. When Physical Restraint May be Used. Physical restraint may be used in the following circumstances:
- To prevent a student from completing an act that would result in injury to the student or others when there is a substantial risk that the student would commit the act.
    - A verbal threat by a student does not present a substantial risk that a student would commit an aggressive act unless the student also demonstrates the ability and intent to carry out the threat.
    - Destruction of or damage to property does not present a substantial risk of personal injury unless personal injury would be caused as a result of the destructive act (for example, throwing sharp or heavy objects when others are present, or the person whose property is about to be destroyed is likely to react physically if the person's property were destroyed). (Note: If a student is about to destroy or damage property, the act of grasping the student's arm or leg solely to prevent the striking, throwing or kicking of the item is not prohibited).
  - To move a student to a seclusion room, or to remove a student to another location because the student is creating a substantial disruption to others, in

circumstances where the student is unable to be moved or removed without the use of physical restraint; and

- In circumstances where the student's IEP or a Behavioral Plan provides for the use of physical restraint in circumstances other than the foregoing. If it is anticipated that physical restraint may need to be used with a special education student, the IEP team is to discuss and include use of physical restraint in the student's IEP if the IEP team determines use of physical restraint to be appropriate. (Note: IEPs or Behavioral Plans should not provide for such physical restraint except in those circumstances where the professional staff determines that non-aversive or positive intervention strategies would not be effective).

Physical restraint may not be used:

- When a known medical or psychological condition contraindicates its use.
- As a form of punishment.

- B. Conditions. Use of physical restraint shall take into consideration the safety and security of the student.

In determining whether a student who is being physically restrained should be removed from the area where such restraint was initiated, the staff shall consider the potential for injury to the student, the student's privacy interests, and the educational and emotional well-being of other students in the vicinity.

If physical restraint is imposed upon a student whose primary mode of communication is sign language or an augmentative mode, the student shall be permitted to have his or her hands free of restraint for brief periods, unless staff determines that such freedom appears likely to result in harm to the student or others.

- C. Timeline. Physical restraint is to be used only as long as necessary to resolve the reason for which it was initiated.

- D. Training. Physical restraint shall be applied only by individuals who have received systematic training that includes all the elements described below. An individual who applies physical restraint shall use only techniques in which he or she has received such training within the preceding two (2) years.

Training with respect to physical restraint may be provided either by the School District or by an external entity and shall include, but need not be limited to:

- Appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship-building, and the use of alternatives to restraint;

- A description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;
- The simulated experience of administering and receiving a variety of physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;
- Instruction regarding the effects of physical restraint on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;
- Instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and
- Demonstration by participants of proficiency in administering physical restraint.

An individual may provide training to others in a particular method of physical restraint only if he or she has completed training in that technique that meets the foregoing requirements within the preceding one-year period.

### 3. Seclusion

- A. When Seclusion May be Used. Seclusion may be used in the following circumstances:
- When a student's behavior is so out of control that the student's behavior creates a risk of injury to the student or others;
  - When a student's behavior is so out of control that the student is causing a substantial disruption to school activities and there is no other technique and no other place the student may be moved to prevent continued disruption;
  - When a student's behavior is so out of control that the student is unable to engage in educational activities and there is no other technique that could reasonably be employed to allow the student's emotions to cool down and engage in appropriate behaviors and educational activities; and
  - The student has an IEP or a Behavioral Plan which provides for the use of seclusion in circumstances other than the foregoing. If it is anticipated that seclusion may need to be used with a special education student, the IEP team is to discuss and include use of seclusion in the student's IEP if the IEP team determines use of seclusion to be appropriate. (Note: IEPs or Behavioral Plans should not provide for use of seclusion except in those circumstances where the professional staff determines that non-aversive or positive intervention strategies would not be effective).

Seclusion may not be used:

- When a known medical or psychological condition contraindicates its use.
- As a form of punishment.

B. Conditions. Use of seclusion shall take into consideration the safety and security of the student.

Enclosures used for seclusion, other than enclosures used on a temporary basis, shall:

- Have the same ceiling height as the surrounding room or rooms and be large enough to accommodate not only the student being isolated but also any other individual who is required to accompany that student.
- Be constructed of materials that cannot be used by students to harm themselves or others, be free of electrical outlets, exposed wiring, and other objects that could be used by students to harm themselves or others, and be designed so that students cannot climb up the walls (including walls far enough apart so as not to offer the student being isolated sufficient leverage for climbing).
- If an enclosure used for isolated time out is fitted with a door, the door shall either be a steel door or a wooden door of solid-core construction. If the door includes a viewing panel, the panel shall be unbreakable.
- Be designed to permit visual monitoring of and communication with the student sufficient to ensure the student's safety and security. For students who do not communicate verbally, arrangements shall be made to permit the student to periodically communicate the student's needs.
- If a locking mechanism is used on the enclosure, the mechanism shall be constructed so that it will engage only when a key, handle, knob, or other similar device is being held in position by a person, unless the mechanism is an electrically or electronically controlled one that is automatically released when the building's fire alarm system is triggered. Upon release of the locking mechanism by the supervising adult, the door must be able to be opened readily.

The procedures for use of seclusion include:

- An adult who is responsible for supervising the student shall remain within close proximity of the enclosure.
- The adult responsible for supervising the student must periodically check on the student visually if possible.

- C. **Timeline.** A student shall not be kept in seclusion for more than 20 minutes after the student ceases presenting the specific behavior for which isolated time out was imposed or any other behavior for which isolated time out would be an appropriate intervention.
- D. **Training.** Orientation will be provided to staff members who are anticipated to be involved in the use of seclusion. The orientation shall cover the procedures contained in this Guidance.
4. **Documentation and Evaluation**
- A. **Documentation of Use of Physical Restraint or Seclusion.** A written record of each use of seclusion or physical restraint shall be prepared and maintained in the student's temporary record. The student's case manager, if any, shall also maintain a copy of each such record. Each such record shall include:
- The student's name;
  - The date of the incident;
  - The beginning and ending times of the incident;
  - A description of any relevant events leading up to the incident;
  - A description of any interventions used prior to the implementation of physical restraint or seclusion;
  - A description of the incident and/or student behavior that resulted in implementation of physical restraint or seclusion;
  - A log of the student's behavior during physical restraint or seclusion, including a description of the restraint technique(s) used and any other interaction between the student and staff;
  - A description of any injuries (whether to students, staff, or others) or property damage;
  - A description of any planned approach to dealing with the student's behavior in the future;
  - A list of the school personnel who participated in the implementation, monitoring, and supervision of physical restraint or seclusion;
  - The date on which the parent or guardian was notified.
- The record shall be completed by the beginning of the school day following the use of seclusion or physical restraint.
- B. **Notification of Administration.** The Superintendent or Superintendent's designee shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.
- C. **Notification of Parent or Guardian.** Within 24 hours after use of seclusion or physical restraint, the Superintendent or Superintendent's designee shall send written notice of the incident to the student's parents or guardians, unless the parent or guardian has provided the District a written waiver of this requirement for notification. The parent or guardian shall be informed of the date of the

incident, a description of the intervention (physical restraint or seclusion) used, and who at the school may be contacted for further information.

- D. Evaluation. An evaluation shall be conducted whenever a physical restraint exceeds 15 minutes or results in physical injury, whenever a seclusion exceeds 30 minutes, or use of physical restraint or seclusion is repeated with an individual student during any three-hour period:
- A certified staff person trained in the use of physical restraint, or knowledgeable about the use of seclusion, as applicable, shall evaluate the situation.
  - The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).
  - The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the Superintendent or Superintendent's designee.

StudentsSafe Pupil Transportation Plan**Elm Creek Public Schools Safe Pupil Transportation Plan**

This Safe Pupil Transportation Plan sets forth the District's plan for providing safe transportation to students being transported in pupil transportation vehicles.

1. **Weapons-** Vehicles shall not transport any items, animals, materials, weapons or look-a-like weapons, explosive devices, or bomb-related materials or equipment, which could endanger lives, health, or safety of the children, other passengers, and the driver. Look-a-like weapons associated with a school-sponsored or approved activity may be transported with written permission of an administrator of the District. If possible, these items must be secured and not visible or accessible to students while in the vehicle.

Upon becoming aware of a weapon aboard a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of the situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location. Examples of a safe haven include, but are not limited to, any school building site, emergency service station (law enforcement or fire department), community service agency, etc.
- B. Pull vehicle over to safe and secure area.
- C. Confiscate weapon (if it doesn't jeopardize student or driver safety).
- D. Give description of weapon and participating parties to dispatch.
- E. Dispatch will immediately notify appropriate law enforcement agencies and school administration.

2. **Pupil behavior-** Students are expected to follow student conduct rules while in a pupil transportation vehicle. The pupil transportation driver is responsible for controlling behavior which affects safety and for reporting rule violations to school administration. In the event a student's behavior **violates Board policy regarding student conduct standards or otherwise engages in behavior that** jeopardizes safety, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- B. First seek to resolve incident through discussion with the student(s) involved.
- C. Activate emergency flashers.
- D. Bring vehicle to a safe stop. Seek to resolve the incident, using physical force only as necessary to protect students or yourself.
- E. Report and document discipline problems to the school administrator on a Bus Conduct Report/Incident Form.

3. **Terrorist threats-** A person commits a terroristic threat if the person threatens to commit a crime of violence with the intent to terrorize another or with the intent of causing evacuation of

a building, place of assembly or facility of public transportation or in reckless disregard of the risk of causing such terror or evacuation. Upon becoming aware of a terroristic threat relating to a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- B. Make every attempt to keep passengers calm (this may mean complying with the terrorist).
- C. Dispatch will immediately notify appropriate law enforcement agencies and school administration.
- D. Driver should wait for instructions from dispatch *if possible*.

**4. Severe weather-** Upon becoming aware of severe weather while aboard a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- B. Return to the school if less than five minutes away and follow the directions of the school administrator.
- C. If more than five minutes away from school, go to the nearest school and follow the directions of the school administrator.
- D. If more than five minutes away from the nearest school or there is immediate danger, get to the nearest basement or underground shelter with all students.
- E. If there is no shelter and there is immediate danger the driver and passengers are to follow evacuation procedures and get everyone off the vehicle into the nearest ditch or culvert at least 100 feet away from the vehicle.

**5. Hazardous materials-** Upon becoming aware of a hazardous material aboard a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- B. Pull vehicle over to safe and secure area.
- C. Give description of hazardous materials in question to dispatch.
- D. Dispatch will immediately notify appropriate law enforcement and school administration.
- E. Driver should wait for instructions from dispatch *if possible*.

**6. Medical emergencies-** Upon becoming aware of a medical emergency aboard a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.

- B. Dispatch will immediately notify appropriate medical agencies and school administration.
- C. Driver should follow instructions from dispatch, school officials, and parents when such information can be obtained quickly enough. If not available, follow emergency first aid procedures.
- D. **Only if necessary**, the driver should move passengers only enough to get them out of danger of traffic or fire. If moved, the driver and aide are to keep them where placed until a medical agency arrives, unless a parent has taken charge of their child.
- E. Driver should try to keep student passengers as calm as possible.

**7. Procedures in the event of mechanical breakdowns of the vehicle-** Upon becoming aware of a mechanical breakdown aboard a Pupil transportation vehicle, the driver will make every attempt to:

- A. Pull vehicle over to safe and secure area *if possible*
- B. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- C. Activate emergency flashers and place warning flares/reflectors in accordance with safety guidelines, if not in secure area.
- D. Driver should try to keep student passengers as calm as possible.
- E. Dispatch will arrange for assistance and a relief vehicle *if needed*.

**8. Procedures in the event the drop-off location is uncertain or appears unsafe to leave students.** In the event the drop-off is uncertain or appears unsafe to leave students, the drivers will make every attempt to:

- A. Contact or otherwise communicate with dispatch to notify them of the situation if possible.
- B. Release children only if an adult responsible for the children is present. If not, keep children who are to be released in the vehicle, continue with the route, and return children who were to be released to the school.
- C. Dispatch will notify appropriate law enforcement agencies and school administration if appropriate given the circumstances.

**9. Documentation under Safe Pupil Transportation Plan.** Each pupil transportation driver is required to complete and submit to the school administration a bus conduct report or incident report involving the pupil transportation vehicle operated by the driver or any pupils transported in it. Documentation is to include the occurrence of any of the following events: weapons, student behavior which affects safety, terroristic threats, severe weather, hazardous materials, or medical emergencies. Documentation of such events shall be completed and submitted as soon as practicable after the incident.

**10. Transportation of Unsafe Items.** Drivers shall not permit pupil transportation vehicles to transport any items, animals, materials, weapons or look-a-like weapons or equipment which in any way would endanger the lives, health or safety of the children or other passengers and the driver. Look-a-like weapons associated with a school sponsored or approved activity may be

transported only with written permission of a school administrator. Any items that would break or could produce injury if tossed about inside the pupil transportation vehicle when involved in an accident or sudden stop shall be secured.

**11. Supplemental Information.** A copy of this plan shall be placed in each pupil transportation vehicle, kept at each school building, and made available upon request. Supplemental information with respect to operational and procedural guidelines used to administer this plan can be found in the District's safety and security plan adopted pursuant to 92 NAC10 and in the Nebraska Department of Education Pupil Transportation Guide.

**12. Vehicle drivers of small vehicles on Activity Trips.** The District will provide drivers of small vehicles with instruction on guidance for emergency evacuation procedures, first aid, and emergency equipment. Drivers of small vehicles are generally expected to follow this Plan in the event of an emergency evacuation. The District may provide additional guidance for drivers of small vehicles to increase student safety.

**13. Student Instruction.** At least twice during each school year, each pupil who is transported in a school vehicle shall be instructed in safe riding practices and participate in emergency evacuation drills.

**14. Driver Capacity.** To confirm a driver has the ability to conduct daily tasks and emergency evacuations, drivers must: (a) pass a prescribed physical examination by a Certified Medical Examiner at least every two years and provide the employer with a copy of the medical certificate; (b) pass a transportation screening every year; (c) participate in required in-service training which includes emergency evacuation training; and (d) if required, to have a Commercial Driver's License (CDL) to operate the vehicle, participate in the drug and alcohol testing program as required by federal law. Should a driver have a medical concern throughout the year, the Superintendent or Superintendent's designee will work with the driver to confirm a driver's ability to conduct daily tasks and emergency evacuations prior to transporting students.

StudentsAsthma and Allergic Reaction Protocol

~~*This is a required policy under NDE Rule 59.*~~

The District will adopt and implement the Emergency Response to Life-Threatening Asthma or Systemic Allergic Reactions (Anaphylaxis Protocol as required by the Nebraska Department of Education.

The Superintendent, in conjunction with licensed health personnel, shall establish administrative regulations for the implementation of this policy. The regulations established shall comply with NDE rules regarding the protocol to follow in case of a life-threatening asthma or systemic allergic reaction and use of an EpiPen and albuterol. Also, these shall ensure that each school building will procure and maintain the equipment and medication necessary under the protocol in the case of any student or school staff emergency. Staff training in using the protocol shall occur periodically. Records of such training and occurrences of administering medication under the protocol shall be maintained.

**B. Prohibited Harassment, Discrimination, and Retaliation of Employees, Students and Others.****1. Purpose:**

The Elm Creek Public School District is committed to offering employment and educational opportunity to its employees and students in a climate free of discrimination. Accordingly, unlawful discrimination, harassment and retaliation of any kind by District employees, including, co-workers, non-employees (such as volunteers), third parties, and others is strictly prohibited and will not be tolerated.

Harassment is a form of discrimination and includes verbal, non-verbal, written, graphic, or physical conduct relating to a person's race, color, national origin, religion, disability, age, sex, or other protected category, that is sufficiently serious to deny, interfere with, or limit a person's ability to participate in or benefit from an educational or work program or activity, including, but not limited to:

- a. Conduct that is sufficiently severe or pervasive to create an intimidating, hostile, or abusive educational or work environment, or

Educational programs and activities include all academic, educational, extracurricular, athletic, and other programs of the school, whether those programs take place in a school's facilities, on a school bus, at a class or training program sponsored by the school at another location, or elsewhere.

- d. Physical contact or touching of a sexual nature, including touching intimate body parts and inappropriate patting, pinching, rubbing, or brushing against another's body,

- f. Requiring sexual favors or contact in exchange for aids, benefits, or services, such as grades, awards, privileges, promotions, etc., or
- g. Gender-based harassment; acts of verbal, nonverbal, written, graphic, or physical conduct based on sex or sex-stereotyping, but not involving conduct of a sexual nature.

If the District knows or reasonably should know about possible harassment, including violence, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred (see section entitled "Grievance Procedures," below), and take appropriate interim measures, if necessary. If the District determines that unlawful harassment occurred, the District will take prompt and effective action to eliminate the harassment, prevent its recurrence, and remedy its effects, if appropriate. If harassment or violence that occurs off school property creates a hostile environment at school, the District will follow this policy and grievance procedure, within the scope of its authority.

All District employees are expected to take prompt and appropriate actions to report and prevent discrimination, harassment, and retaliation by others. Employees who witness or become aware of possible discrimination, including harassment and retaliation, must immediately report the conduct to his or her supervisor or the compliance coordinator designated to handle complaints of discrimination (designated compliance coordinator).

**2. Anti-retaliation:**

The District prohibits retaliation, intimidation, threats, coercion, or discrimination against any person for opposing discrimination, including harassment, or for participating in the District's discrimination complaint process or making a complaint, testifying, assisting, or participating in any manner, in an investigation, proceeding, or hearing. Retaliation is a form of discrimination.

The District will take immediate steps to stop retaliation and prevent its recurrence against the alleged victim and any person associated with the alleged victim. These steps will include, but are not limited to, notifying students, employees, and others, that they are protected from retaliation, ensuring that they know how to report future complaints, and initiating follow-up contact with the complainant to determine if any additional acts of discrimination, harassment, or retaliation have occurred. If retaliation occurs, the District will take prompt and strong responsive action, including possible discipline, including expulsion or termination, if applicable.

The District will not terminate or retaliate against any employee for inquiring about or sharing compensation information for the purpose of determining whether the District gives equal pay for equal work. However, an employee with authorized access to wage information as part of their job function who discloses the wages of other employees to those who do not have authorized access to other employee's compensation information, may be disciplined for such disclosure, up to and including termination, unless the disclosure is made in response to a complaint or investigation proceeding, hearing, or other similar action.

**3. Grievance (or Complaint) Procedures:**

Employees or students should initially report all instances of discrimination, harassment or retaliation to their immediate supervisor or teacher or to the compliance coordinator designated to handle complaints of discrimination (designated coordinator). If the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student may report the alleged discrimination, harassment or retaliation ("discrimination") to the designated coordinator, or in the case of students, to another staff person (such as a counselor or principal).

Other individuals may report alleged discrimination to the designated coordinator. If the designated coordinator is the person alleged to have committed the discriminatory act, then the complaint should be submitted to the Superintendent for assignment. A discrimination complaint form is attached to this grievance procedure and is available in the office of each District building, on the District's website, and from the designated coordinators.

District employees, supervisors and administrators must immediately report any complaints, reports, observations, or other information of alleged discrimination to the designated coordinator, even if that District employee is investigating the alleged discrimination as part of the District's student or employee disciplinary process, and provide the complainant with information for filing a complaint of discrimination, including a complaint form if requested, and contact information for the District's designated coordinator. If the District uses its disciplinary procedures to investigate and resolve an alleged discrimination complaint, those disciplinary procedures will comply with the District's standards for a prompt and equitable grievance procedure outlined in section B.2., below.

Under no circumstances will a person filing a complaint or grievance involving discrimination be retaliated against for filing the complaint or grievance.

*i. Level 1 (Investigation and Findings):*

Once the District receives a grievance, complaint or report alleging discrimination, harassment, or retaliation, or becomes aware of possible discriminatory conduct, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred. If necessary, the District will take immediate, interim action or measures to protect the alleged victim and prevent further potential discrimination, harassment, or retaliation during the pending investigation. The alleged victim will be notified of his or her options to avoid contact with the alleged harasser, such as changing a class or prohibiting the alleged harasser from having any contact with the alleged victim pending the result of the District's investigation. The District will minimize any burden on the alleged victim when taking interim measures to protect the alleged victim.

The District will investigate all complaints of discrimination, even if an outside entity or law enforcement agency is investigating a complaint involving the same facts and allegations. The District will not wait for the conclusion or outcome of a criminal investigation or proceeding to begin an investigation required by this grievance procedure. If the allegation(s) involve possible criminal conduct, the District will notify the complainant of his or her right to file a criminal complaint, and District employees will not dissuade the complainant from filing a criminal complaint either during or after the District's investigation.

The District will complete its investigation within **ten (10) working days** after receiving a complaint or report, unless extenuating circumstances exist. Extenuating circumstances may include the unavailability of witnesses due to illness or incapacitation, or additional time needed because of the complexity of the investigation, the need for outside experts to evaluate the evidence (such as forensic evidence), or multiple complainants or victims. Extenuating circumstances do not include summer vacation, and if a designated compliance coordinator or investigator is unavailable, another coordinator or trained employee will be designated to conduct the investigation. If extenuating circumstances exist, the extended timeframe to complete the investigation will **not exceed ten (10) additional working days without the consent of the complainant**. Periodic status updates will be given to the parties, if necessary.

The District's investigation will include, but is not limited to:

- a. Providing the parties with the opportunity to present witnesses and provide evidence.
- b. An evaluation of all relevant information and documentation relating to the alleged discriminatory conduct.
- c. For allegations involving harassment, some of the factors the District will consider include: 1) the nature of the conduct and whether the conduct was unwelcome, 2) the surrounding circumstances, expectations, and relationships, 3) the degree to which the conduct affected one or more students' education, 4) the type, frequency, and duration of the conduct, 5) the identity of and relationship between the alleged harasser and the suspect or suspects of the harassment, 6) the number of individuals involved, 7) the age (and sex, if applicable) of the alleged harasser and the alleged victim(s) of the harassment, 8) the location of the incidents and the context in which they occurred, 9) the totality of the circumstances, and 10) other relevant evidence.
- d. A review of the evidence using a "preponderance of the evidence" standard (based on the evidence, is it more likely than not that discrimination, harassment, or retaliation occurred?)

The designated compliance coordinator (or designated investigator) will complete an investigative report, which will include:

- a. A summary of the facts,
- b. An analysis of the appropriate legal standards applied to the specific facts,
- c. Findings regarding whether discrimination occurred, and
- d. If a finding is made that discrimination occurred, the recommended remedy or remedies necessary to eliminate discrimination, including harassment and retaliation, prevent its recurrence, and remedy its effects, if applicable.

If someone other than the designated compliance coordinator conducted the investigation, the compliance coordinator will review, approve, and sign the investigative report. The District will ensure that prompt, appropriate, and effective remedies are provided if a finding of discrimination, harassment, or retaliation is made (see the Remedies section, below, for additional information about remedies). The District will maintain relevant documentation obtained during the investigation and documentation supportive of the findings and any subsequent determinations, including the investigative report, witness statements, interview summaries, and any transcripts or audio recordings, pertaining to the investigative and appeal proceedings.

The District will send concurrently to the parties written notification of the decision (findings and any remedy) regarding the complaint within **ten (10) working days** after the investigation is completed. The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 11232g; 34 C.F.R. Part 99, permits the District to disclose to a student who was discriminated against or harassed (victim), information about the sanction imposed upon a student who was found to have engaged in discrimination or harassment (student who discriminated) when the sanction directly relates to the victim. This includes an

order that the student who discriminated stay away from the victim, or that the student who discriminated is prohibited from attending school for a period of time, or transferred to other classes.

*ii. Level 2 (Appeal to the Superintendent):*

If a party is not satisfied with the findings or remedies (or both) set forth in the decision, he or she may file an appeal in writing with the Superintendent **within ten (10) working days** after receiving the decision. The Superintendent will review the appeal and the investigative documentation and decision, conduct additional investigation, if necessary, and issue a written determination about the appeal **within ten (10) working days** after receiving the appeal. The party who filed the appeal will be sent the Superintendent's determination at the time it is issued, and a copy will be sent to the designated compliance coordinator. [If the Superintendent is the subject of the complaint, the party will file the appeal directly with the Board.]

*iii. Level 3 (Appeal to the Board):*

If the party is not satisfied with the Superintendent's determination, he or she may file an appeal in writing with the Board of Education **within ten (10) working days** after receiving the Superintendent's determination. The Board of Education will review the appeal, the Superintendent's determination, the investigative documentation and decision, and allow the party to address the Board at the next scheduled Board meeting to present his or her appeal. The Board will issue a written determination about the appeal **within thirty (30) working days** after receiving the appeal. The party who filed the appeal will be sent the Board's determination at the time it is issued, and a copy will be sent to the designated compliance coordinator. The Board's determination, and any actions taken, will be final on behalf of the District.

**4. Remedies:**

If the District knows or reasonably should know about possible discrimination, including harassment or violence, the District will take immediate, interim action or measures to protect the alleged victim, ensure the safety of the school community, and prevent further potential discrimination, harassment, or retaliation during the District's pending investigation. These interim measures will be prompt, age-appropriate, effective, and tailored to the specific situation, and may include a change in the student's seating assignment or class, a change in an employee's work area, prohibiting the alleged harasser from having any contact with the alleged victim pending the result of the District's investigation, and other remedies, such as those listed below.

The District will minimize any burden on the alleged victim when taking interim measures. For instance, the District generally will not remove the alleged victim from his or her class or work area and allow the alleged harasser to remain. In addition the District will ensure that the complainant is aware of his or her Title IX rights, including a strong prohibition against retaliation for reporting discrimination or harassment or cooperating with any investigation or proceeding, and any available resources, such as counseling, health, and mental health services, and the right to file a complaint with local law enforcement, if applicable.

If the District determines that unlawful discrimination or harassment occurred, the District will take prompt and effective action to eliminate the discrimination or harassment, prevent its recurrence, and remedy its effects on the complainant and others, if appropriate. The remedies will be tailored to the specific allegations and facts of each situation, including, but not limited to, the following remedies:

- a. Providing an escort to ensure the complainant can move safely between classes and activities.
- b. Ensuring the complainant and alleged harasser do not attend the same classes.
- c. Moving the alleged harasser to another school or work area within the District.
- d. Providing counseling services or reimbursement, if appropriate.
- e. Providing medical services or reimbursement, if appropriate.
- f. Providing academic support services, such as tutoring.
- g. Arranging for the complainant to re-take a course or withdraw from a class without penalty, including ensuring that any changes do not adversely affect the complainant's academic record.

The District may provide remedies for the broader student population as well, including but not limited to:

- a. Offering counseling, health, mental health, or other holistic and comprehensive victim services to all students or employees affected by sexual harassment or sexual violence, and notifying students and employees of campus and community counseling, health, mental health, and other student services.
- b. Designating an individual from the District's counseling center to be "on call" to assist victims of sexual harassment or violence whenever needed.
- c. Providing additional training to the District's designated compliance coordinators and other employees who are involved in addressing, investigating, or resolving complaints of discrimination, harassment, and retaliation, to better respond to specific types of harassment and violence.
- d. Informing students and employees of their options to notify proper law enforcement authorities, including school and local police, and the option to be assisted by District employees in notifying those authorities.
- e. Creating a committee of students or employees and District officials to identify strategies for ensuring that students and employees:
  - i. Know the school's prohibition against discrimination, harassment, and retaliation.
  - ii. Recognize acts of discrimination, harassment (including acts of violence), and retaliation when they occur.
  - iii. Understand how and to whom to report any incidents of discrimination.
  - iv. Know the connection between alcohol and drug abuse and harassment or violence based on sex or other protected characteristics.
  - v. Feel comfortable that District officials will respond promptly and equitably to reports of discrimination, harassment (including violence) and retaliation.

- f. Conducting periodic assessments of student or employee activities to ensure that the practices and behavior of students or employees do not violate the District's policies against anti-discrimination, anti-harassment, and anti-retaliation.
- g. Conducting in conjunction with students or employees, a "climate check" to assess the effectiveness of efforts to ensure that the District is free from discrimination, harassment (including violence), and retaliation, and using the resulting information to inform future proactive steps that will be taken by the District.

In addition to these remedies, the District may impose disciplinary sanctions against the student or employee who discriminated, harassed, or retaliated against the complainant, up to and including possible expulsion or termination or cancellation of employment.

**5. Confidentiality:**

The identity of the complainant will be kept confidential to the extent permitted by state and federal law. The District will notify the complainant of the anti-retaliation provisions of applicable laws and that the District will take steps to prevent retaliation and will take prompt and strong responsive actions if retaliation occurs.

If a complainant requests confidentiality or asks that the complaint not be pursued, the District will take all reasonable steps to investigate and respond to the complaint consistent with the request for confidentiality or the request not to pursue an investigation, as long as doing so does not prevent the District from responding effectively to the harassment and preventing harassment of other students. If a complainant insists that his or her name or other identifiable information not be disclosed to the alleged perpetrator, the District will inform the complainant that its ability to respond may be limited. Even if the District cannot take disciplinary action against the alleged harasser, the District will pursue other steps to limit the effects of the alleged harassment and prevent its recurrence, if warranted,

At the same time, the District will evaluate a confidentiality request in the context of its responsibility to provide a safe and nondiscriminatory environment for all students. Thus, the District may weigh the confidentiality request against factors such as: the seriousness of the alleged harassment, the complainant's age; whether there have been other harassment complaints about the same individual and the alleged harasser's rights to receive information about the allegations if the information is maintained by the District as an "education record" under FERPA. In some cases, the District may be required to report alleged misconduct or discrimination, such as sexual harassment involving sexual violence, to local law enforcement or other officials, and the District may not be able to maintain the complainant's confidentiality. The District will inform the complainant that it cannot ensure confidentiality, if applicable.

**6. Training:**

The District will ensure that District employees, including but not limited to officials, administrators, teachers, substitute teachers, counselors, nurses and other health personnel, coaches, assistant coaches, paraprofessionals, aides, bus drivers, and school law enforcement officers, are adequately trained so they understand and know how to

identify acts of discrimination, harassment, and retaliation, and how to report it to appropriate District officials or employees. This training will include, at a minimum, the following areas:

- a. The current legal standards and compliance requirements of anti-discrimination, anti-harassment, and anti-retaliation federal, state, and any local laws and regulations, including several specific examples of discrimination, harassment (including acts of violence because of a person's sex or other protected characteristics), and retaliation.
- b. The District's current anti-discrimination, anti-harassment, and anti-retaliation notice, policies, grievance procedure, and discrimination complaint form, including the specific steps and timeframes of the investigative procedures, and the District's disciplinary procedures.
- c. Identification of the District's designated compliance coordinators and their job responsibilities.
- d. Specific examples and information regarding how to report complaints or observations of discrimination, harassment, or retaliation to appropriate District officials or employees. In addition, the District will emphasize that employees, students, third parties, and others should not be deterred from filing a complaint or reporting discrimination. For instance, if a student is the victim of sexual violence, a form of sexual harassment, but the student is concerned that alcohol or drugs were involved, school staff should inform the student that the District's primary concern is student safety, that any other rules violations will be addressed separately from the sexual violence allegation, and that the use of alcohol or drugs never makes the victim at fault for sexual violence.
- e. Potential consequences for violating the District's anti-discrimination, anti-harassment, and anti-retaliation policies, including discipline.
- f. Potential remedies, including immediate, interim remedies, to eliminate the discrimination, harassment, and retaliation, prevent its recurrence, and remedy its effects.
- g. A description of victim resources, including comprehensive victim services, to address acts of discrimination and harassment, including acts of violence because of a person's sex or other protected characteristics, and a list of those resources for distribution to trainees.

In addition, the District shall ensure that employees designated to address or investigate discrimination, harassment, and retaliation, including designated compliance coordinators, receive additional specific training to promptly and effectively investigate and respond to complaints and reports of discrimination, and to know the District's grievance procedures and the applicable confidentiality requirements.

**7. Designated Compliance Coordinators:**

Designated compliance coordinators will be responsible for:

- a. Coordinating efforts to comply with anti-discrimination, anti-harassment, and anti-retaliation laws and regulations.
- b. Coordinating and implementing training for students and employees pertaining to anti-discrimination, anti-harassment and anti-retaliation laws and regulations, including the training areas listed above.

- c. Investigating complaints of discrimination (unless the coordinator designates other trained individuals to investigate).
- d. Monitoring substantiated complaints or reports of discrimination, as needed (and with the assistance of other District employees, if necessary), to ensure discrimination or harassment does not recur, and that retaliation conduct does not occur or recur.
- e. Overseeing discrimination complaints, including identifying and addressing any patterns or systemic problems, and reporting such patterns or systemic problems to the Superintendent and the Board of Education.
- f. Communicating regularly with the District's law enforcement unit investigating cases and providing current information to them pertaining to anti-discrimination, anti-harassment, and anti-retaliation standards and compliance requirements.
- g. Reviewing all evidence in harassment or violence cases brought before the District's disciplinary committee or administrator to determine whether the complainants are entitled to a remedy under anti-discrimination laws and regulations that was not available in the disciplinary process.
- h. Ensuring that investigations address whether other students or employees may have been subjected to discrimination, including harassment and retaliation.
- i. Determining whether District employees with knowledge of allegations of discrimination, including harassment and retaliation, failed to carry out their duties in reporting the allegations to the designated compliance coordinator and responding to the allegations.
- j. Recommending changes to this policy and grievance procedure.
- k. Performing other duties as assigned.

The designated compliance coordinators will not have other job responsibilities that may create a conflict of interest with their coordinator responsibilities.

**8. Preventive Measures:**

The District will publish and widely distribute on an ongoing basis a notice of nondiscrimination (notice) in electronic and printed formats, including prominently displaying the notice on the District's website and posting the notice at each building in the District. The District also will designate an employee to coordinate compliance with anti-discrimination laws (see Designated Compliance Coordinator section, above, for further information on compliance coordinator), and widely publish and disseminate this grievance procedure, including prominently posting it on the District's website, at each building in the District, reprinting it in District publications, such as handbooks, and sending it electronically to members of the school community. The District will provide training to employees and students at the beginning of each academic year in the areas (B.6.a-g) identified in the Training section, above.

The District also may distribute specific harassment and violence materials (such as sexual violence), including a summary of the District's anti-discrimination, anti-harassment, and anti-retaliation policy and grievance procedure, and a list of victim resources, during events such as school assemblies and back to school nights, if recent incidents or allegations warrant additional education to the school community.

StudentsHealth Inspections

The school district shall cause every child under its jurisdiction to be separately and carefully inspected, except as otherwise provided by law, to ascertain if such a child is suffering from (1) defective sight or hearing, (2) dental defects, or (3) other conditions as prescribed by the Department of Health and Human Services (“Department”). Such inspections shall be conducted on a schedule prescribed by the Department and shall be based on current medical and public health practice. In lieu of conducting the inspections, the school board may employ regularly licensed physicians to make such inspections.

If such inspection determines that any child has defective sight or hearing, dental defects, or other condition for which screening is required, the school shall notify the parent of the child in writing of such condition and explain to the parent the necessity of professional attendance for such child.

Whenever a child apparently shows symptoms of any contagious or infectious disease, such child shall be sent home immediately or as soon as safe and proper conveyance can be found and the school board shall be at once notified. Such student may be excluded from school as provided in the Student Discipline Act.

A child shall not be required to submit to an inspection required by this policy if his or her parent or guardian provides school authorities with a statement signed by a physician, a physician assistant, or an advanced practice registered nurse practicing under and in accordance with his or her respective credentialing act or other qualified provider as identified by the Department’s applicable rules and regulations, stating that such child has undergone such required inspection within the past six months. StudentsCommunicable DiseasesCommunicable Disease Control

Elm Creek Public Schools shall cooperate with county and state health department officials in developing procedures for the control of communicable diseases in the schools. All procedures shall conform to the regulations for communicable disease control set up by the state health department.

In general, a student with a communicable condition will be allowed to attend school in the student's usual class setting only after written approval has been secured from the student's physician stating that the disease is not in a communicable stage. Without such a written statement, a student with a communicable condition is subject to an emergency exclusion. The school reserves the right to consult with a second physician to secure another opinion if a second opinion is deemed necessary by school personnel.

In general, a district employee with a communicable condition will be allowed to work only after securing a physician's written statement indicating that the disease is not in a communicable stage. The school reserves the right to secure an independent second opinion if such is deemed necessary.

Students' Communicable Conditions

- A) The school principal and the Student Assistance Team will function as liaisons with the student's physician as necessary, and will coordinate the health management procedures within the school building.
- B) The decision to exclude a student from school shall be made by the Superintendent, after consultation with the appropriate building principal. Decisions regarding the type of educational setting for students who are not excluded from classes will be based on the behavior, neurological development and physical condition of the student and the expected type of interaction within others in that setting. Educational plans for these students will be developed by the Student Assistance Team, with the help of parents or guardians and the appropriate medical personnel.
- C) The privacy of the student and family must be protected, and knowledge that a student has a communicable condition should be confined to persons with a direct need to know. If it becomes necessary to inform others, these persons will be provided with information concerning necessary precautions, and they will be made aware of confidentiality requirements.
- D) Students who present a high risk of disease transmission may be temporarily excluded from school by the administration after consultation with the Student Assistance Team, the student's physician, parents, and/or their representative, school nurse, or the school's physician.

- E) A student might be considered at high risk if the student: exhibits behaviors that may spread the disease (e.g., biting, lacks toilet training or is incontinent) or has an open sore that cannot be concealed or hygienically covered, any of which could result in direct spreading of the condition or disease.
- F) During the time a student is excluded from the classroom, an appropriate alternative or adjustment to the student's education will be provided. The Student Assistance Team will review long-term cases at least monthly, or more often if necessary.

#### Employees' Communicable Conditions

- A) Any employee who contracts a communicable condition should report the same to the building principal who should, in turn, report to the Superintendent in a confidential manner. The Superintendent shall then consult with the employee and appropriate medical personnel to evaluate the medical and psychological condition of the employee. The Superintendent shall recommend reasonable accommodations so that the employee may continue in employment as long as the student is physically able to do so.
- B) The privacy of the employee must be protected, and knowledge that an employee has a communicable condition should be confined to persons with a direct need to know. If it becomes necessary to inform others, these persons will be provided with information concerning necessary precautions and will be made aware of confidentiality requirements.
- C) Employees who present a high risk of disease transmission will be temporarily excluded from work after consultation with appropriate medical authorities.

- (2) When a Principal or other school official releases a minor student to a peace officer (e.g., police officer, sheriff, and all other persons with similar authority to make arrests) for the purpose of removing the minor from the school premises, the Principal or other school official will take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken. An exception applies when a minor has been taken into custody as a victim of suspected child abuse; in that event the Principal or other school official shall provide the peace officer with the address and telephone number of the minor's parents or guardian.
- (3) In an effort to demonstrate that student behavior is always subject to possible legal sanctions regardless of where the behavior occurs it shall be the policy of the Elm Creek Public Schools to notify the proper legal authorities when a student engages in any of the following behaviors on school grounds or at a school sponsored event:
  - (a) Knowingly possessing illegal drugs or alcohol.

When a principal or other school official releases a minor student to a peace officer (e.g., police officer, sheriff, and all other persons with similar authority to make arrests) for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parents or guardian.

StudentsMissing Persons

A missing person shall mean a person sixteen (16) years or younger reported to any law enforcement agency as abducted or lost.

Upon notification by the Nebraska State Patrol of a missing student, the school will flag the student's records in such a way that any personnel looking at such birth certificate or record shall be alerted to the fact that the birth certificate or record is of a missing person. If the record has been flagged as that of a missing person, and a request for transfer of the student's records is received, school personnel shall not forward such records to the requesting school, but shall instead notify the Principal, who shall notify the Sheriff's Department of the request and that the student is a reported missing person.

StudentsRequests to Contact Students and Student Interviews by Non-School PersonnelA. Removals of Students and Interviews of Students

In dealing with law enforcement officials, Elm Creek Public Schools' employees are not to obstruct government operations or unreasonably refuse or fail to aid a peace officer, but are also to attempt to prevent undue interference with District operations or educational programming.

1. Removals of Students by Law Enforcement Officials

Law enforcement officers should not be permitted to remove a child from school while the child is properly in attendance, without permission of the child's parent or guardian, except when legally authorized to do so. For purposes of this policy, a law enforcement officer is defined as: sheriffs, coroners, jailers, marshals, police officers, state highway patrol officers, members of the National Guard on active service by direction of the Governor during periods of emergency, and all other persons with similar authority to make arrests. (Neb. Rev. Stat. §49-801).

Law enforcement officers may in the line of duty require a student to accompany him or her for questioning or detention either with or without an arrest warrant. A peace officer has the lawful authority to take immediate temporary custody of children under the age of 18 with an arrest warrant, or without a warrant or order of the court when:

- (a) the child has violated a state law or a municipal ordinance and the officer has reasonable grounds to believe the child committed such violation;
- (b) the child is seriously endangered in his or her surroundings and immediate removal appears to be necessary for the child's protection;
- (c) the officer believes the child to be mentally ill and dangerous as defined in Neb. Rev. Stat. §71-908 and that the harm described in that section is likely to occur before proceedings may be instituted before the juvenile court;
- (d) the officer has reasonable grounds to believe that the juvenile has run away from his or her parent, guardian, or custodian;
- (e) a probation officer has reasonable cause to believe that a juvenile is in violation of probation and that the juvenile will attempt to leave the jurisdiction or place lives or property in danger; or
- (f) the officer has reasonable grounds to believe the juvenile is truant from school. (Neb. Rev. Stat. §§43-418 and 43-248).

If a peace officer or probation officer requests to take custody of a student who is at that time under the control and jurisdiction of Elm Creek Public Schools, the following action is to be taken:

- (a) Establish Authority to Remove. The student should be released after appropriate measures are taken and documented to ensure that the officer has the authority to take the student. The form attached as Exhibit "A" to this Policy may be used for this purpose.
- (b) Notify Local Law Enforcement. In some instances there may be orders for custody of a student served by the officers with authority to arrest from outside the jurisdiction of Elm Creek Public Schools. Local law enforcement should be contacted and requested to participate in or monitor the removal.
- (c) Notify Parent of Removal. When a principal or other school official releases a minor student to a peace officer for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor student to the officer and the place to which the student is reportedly being taken. Provided, however, when a minor student has been taken into custody as a victim of suspected child abuse, the principal or other school official is not required to notify the parent or guardian, but shall provide the peace officer with the address and telephone number of the minor student's parents or guardian.

A student should not be released to a private detective or "special police officer" who is not an officer of a Nebraska political subdivision or an officer of an agency of the federal government without consent of the student's parent, guardian or custodian.

## 2. Interviews of Students by Law Enforcement Officials

Law enforcement officers and other law authorities should be urged to contact students for questioning outside the instructional day and off school premises whenever possible. When it is appropriate that such questioning occur, the following guidelines are to be followed:

- (a) Interviews not related to District Events. If an interview of a student is requested during school hours concerning an ongoing investigation of a crime not related to Elm Creek Public Schools, questioning should not take place until the student's parent, guardian or custodian has been contacted and permission is given for such interview. The consent should be documented. The

presence of a school employee during the interview is not necessary.

- (b) Interviews not related to District Events. If the investigation relates to an incident which took place on school premises or during instructional time, it is not necessary to obtain consent of the student's parent, guardian or custodian. In these situations, an employee of the District should be present during the interview to ensure that the interview relates only to the incident which took place on school premises or during instructional time or something which is directly related thereto.
- (c) Child Abuse or Neglect. If an investigator represents that an interview is necessary to collect information concerning an allegation of child abuse or neglect or an offense involving a family relation and it is clear that obtaining parental consent for the interview would be impossible or counter-productive, the interview may be conducted without consent of the student's parent, guardian or custodian. In these situations, an employee of Elm Creek Public Schools should be present during the interview to ensure that the interview relates only to those matters.
- (d) Probation Officer Interview. A probation officer assigned to a student by a court may be allowed the opportunity, on request, to interview a student on school premises. In such situations, it is neither necessary nor desirable that a District employee be present during the interview. It also is not necessary to obtain the consent of the parent, guardian, or custodian.

3. Disclosure of Student Records

School employees shall not, in the course of dealing with a peace officer or probation officer, disclose any confidential student records or information from such student records other than in response to a court order or subpoena or as otherwise authorized by state law and the Family Educational Rights and Privacy Act (FERPA).

4. Removals and Interviews by Persons other than Law Enforcement Officials

A person who comes to school premises to interview a student or remove a student prior to the end of the student's instructional day must obtain permission of an administrator or designee.

Permission to remove is not to be granted without consent of the student's parent, guardian or custodian, or a person authorized by the student's parent, guardian or custodian to give such permission.

Permission to interview on subjects not related to school matters is not to be granted unless there is a clearly valid and proper reason for the interview and such is not disruptive to school operations or the student's educational program. Ordinarily such contacts shall be restricted to the student's parent, guardian or custodian or a friend of the family when an emergency or other similar circumstance exists.

The administration and staff are to implement strategies and practices to identify and prevent inappropriate behaviors by all students, including anti-bullying education for all students. StudentsStudent Fees Policy

The Board of Education of Elm Creek Public Schools adopts the following student fees policy in accordance with the Public Elementary and Secondary Student Fee Authorization Act.

The District's general policy is to provide for the free instruction in school in accordance with the Nebraska Constitution and state and federal law. This generally means that the District's policy is to provide free instruction for courses which are required by state law or regulation and to provide the staff, facility, equipment, and materials necessary for such instruction, without charge or fee to the students.

The District does provide activities, programs, and services to children which extend beyond the minimum level of constitutionally required free instruction. Students and their parents have historically contributed to the District's efforts to provide such activities, programs, and services. The District's general policy is to continue to encourage and, to the extent permitted by law, to require such student and parent contributions to enhance the educational program provided by the District.

Under the Public Elementary and Secondary Student Fee Authorization Act, the District is required to set forth in a policy its guidelines or policies for specific categories of student fees. The District does so by setting forth the following guidelines and policies. This policy is subject to further interpretation or guidance by administrative or Board regulations which may be adopted from time to time. The Policy includes Appendix "1," which provides further specifics of student fees and materials required of students for the 2012-2013 school year. Parents, guardians, and students are encouraged to contact their building administration or their teachers or activity coaches and sponsors for further specifics.

(1) Guidelines for non-specialized attire required for specified courses and activities. Students have the responsibility to furnish and wear non-specialized attire meeting general District grooming and attire guidelines, as well as grooming and attire guidelines established for the building or programs attended by the students or in which the students participate. Students also have the responsibility to furnish and wear non-specialized attire reasonably related to the programs, courses and activities in which the students participate where the required attire is specified in writing by the administrator or teacher responsible for the program, course or activity.

The District will provide or make available to students such safety equipment and attire as may be required by law, specifically including appropriate industrial-quality eye protective devices for courses of instruction in vocational, technical, industrial arts, chemical or chemical-physical classes which involve exposure to hot molten metals or other molten materials, milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials, heat treatment, tempering, or kiln firing of any metal or other materials, gas or electric arc welding or other forms of welding processes, repair or servicing of any vehicle, or caustic or explosive materials, or for laboratory classes involving caustic or explosive materials, hot liquids or solids, injurious

radiations, or other similar hazards. Building administrators are directed to assure that such equipment is available in the appropriate classes and areas of the school buildings, teachers are directed to instruct students in the usage of such devices and to assure that students use the devices as required, and students have the responsibility to follow such instructions and use the devices as instructed.

(2) Personal or consumable items & miscellaneous

(a) Extracurricular Activities. Students have the responsibility to furnish any personal or consumable items for participation in extracurricular activities.

(b) Courses

(i) General Course Materials. Items necessary for students to benefit from courses will be made available by the District for the use of students during the school day. Students may be encouraged, but not required, to bring items needed to benefit from courses including, but not limited to, pencils, paper, pens, erasers, notebooks, trappers, protractors and math calculators. A specific class supply list will be published annually in a Board-approved student handbook or supplement or other notice. The list may include refundable damage or loss deposits required for usage of certain District property.

(ii) Damaged or Lost Items. Students are responsible for the careful and appropriate use of school property. Students and their parents or guardian will be held responsible for damages to school property where such damage is caused or aided by the student and will also be held responsible for the reasonable replacement cost of school property which is placed in the care of and lost by the student.

(iii) Materials Required for Course Materials. Students are permitted to and may be encouraged to supply materials for course projects. Some course projects (such as projects in art and shop classes) may be kept by the student upon completion. In the event the completed project has more than minimal value, the student may be required, as a condition of the student keeping the completed project, to reimburse the District for the reasonable value of the materials used in the project. Standard project materials will be made available by the District. If a student wants to create a project other than the standard course project, or to use materials other than standard project materials, the student will be responsible for furnishing or paying the reasonable cost of any such materials for the project.

(iv) Music Course Materials. Students will be required to furnish musical instruments for participation in optional music courses. Use of a musical instrument without charge is available under the District's fee waiver policy. The District is not required to provide for the use of a particular type of musical instrument for any student.

(v) Parking. Students may be required to pay for parking on school grounds or at school-sponsored activities, and may be subject payment of fines or damages for damages caused with or to vehicles or for failure to comply with school parking rules.

(3) Extracurricular Activities-Specialized equipment or attire. Extracurricular activities means student activities or organizations which are supervised or administered by the District, which do not count toward graduation or advancement between grades, and in which participation is not otherwise required by the District. The District will generally furnish

students with specialized equipment and attire for participation in extracurricular activities. The District is not required to provide for the use of any particular type of equipment or attire. Equipment or attire fitted for the student and which the student generally wears exclusively, such as dance squad, cheerleading, and music/dance activity (e.g. choir or show choir) uniforms and outfits, along with T-shirts for teams or band members, will be required to be provided by the participating student. The cost of maintaining any equipment or attire, including uniforms, which the student purchases or uses exclusively, shall be the responsibility of the participating student. Equipment which is ordinarily exclusively used by an individual student participant throughout the year, such as golf clubs, softball gloves, and the like, are required to be provided by the student participant. Items for the personal medical use or enhancement of the student (braces, mouth pieces, and the like) are the responsibility of the student participant. Students have the responsibility to furnish personal or consumable equipment or attire for participation in extracurricular activities or for paying a reasonable usage cost for such equipment or attire. For musical extracurricular activities, students may be required to provide specialized equipment, such as musical instruments, or specialized attire, or for paying a reasonable usage cost for such equipment or attire.

(4) Extracurricular Activities-Fees for participation. Any fees for participation in extracurricular activities for the 2012-2013 school year are further specified in Appendix "1." Admission fees are charged for extracurricular activities and events.

(5) Postsecondary education costs. Students are responsible for postsecondary education costs. The phrase "postsecondary education costs" means tuition and other fees only associated with obtaining credit from a postsecondary educational institution. For a course in which students receive high school credit and for which the student may also receive postsecondary education credit, the course shall be offered without charge for tuition, transportation, books, or other fees, except tuition and other fees associated with obtaining credits from a postsecondary educational institution.

(6) Transportation costs. Students are responsible for fees established for transportation services provided by the District as and to the extent permitted by federal and state laws and regulations.

(7) Copies of student files or records. The Superintendent or the Superintendent's designee shall establish a schedule of fees representing a reasonable cost of reproduction for copies of a student's files or records for the parents or guardians of such student. A parent, guardian or student who requests copies of files or records shall be responsible for the cost of copies reproduced in accordance with such fee schedule. The imposition of a fee shall not be used to prevent parents of students from exercising their right to inspect and review the students' files or records and no fee shall be charged to search for or retrieve any student's files or records. The fee schedule shall permit one copy of the requested records be provided for or on behalf of the student without charge and shall allow duplicate copies to be provided without charge to the extent required by federal or state laws or regulations.

(8) Participation in before-and-after-school or pre-kindergarten services. Students are responsible for fees required for participation in before-and-after-school or pre-kindergarten

services offered by the District, except to the extent such services are required to be provided without cost.

(9) Participation in summer school or night school. Students are responsible for fees required for participation in summer school or night school. Students are also responsible for correspondence courses.

(10) Breakfast and lunch programs. Students shall be responsible for items which students purchase from the District's breakfast and lunch programs. The cost of items to be sold to students shall be consistent with applicable federal and state laws and regulations. Students are also responsible for the cost of food, beverages, and personal or consumable items which the students purchase from the District or at school, whether from a "school store," a vending machine, a booster club or parent group sale, a book order club, or the like. Students may be required to bring money or food for field trip lunches and similar activities.

(11) Waiver Policy. The District's policy is to provide fee waivers in accordance with the Public Elementary and Secondary Student Fee Authorization Act. Students who qualify for free or reduced-price lunches under United States Department of Agriculture child nutrition programs shall be provided a fee waiver or be provided the necessary materials or equipment without charge for: (1) participation in extracurricular activities and (2) use of a musical instrument in optional music courses that are not extracurricular activities. Participation in a free-lunch program or reduced-price lunch program is not required to qualify for free or reduced price lunches for purposes of this section. Students or their parents must request a fee waiver prior to participating in or attending the activity, and prior to purchase of the materials.

(12) Distribution of Policy. The Superintendent or the Superintendent's designee shall publish the District's student fee policy in the Student Handbook or the equivalent (for example, publication may be made in an addendum or a supplement to the student handbook). The Student Handbook or the equivalent shall be provided to every student of the District or to every household in which at least one student resides, at no cost.

(13) Student Fee Fund. The School Board hereby establishes a Student Fee Fund. The Student Fee Fund shall be a separate school district fund not funded by tax revenue, into which all money collected from students and subject to the Student Fee Fund shall be deposited and from which money shall be expended for the purposes for which it was collected from students. Funds subject to the Student Fee Fund consist of money collected from students for: (1) participation in extracurricular activities, (2) postsecondary education costs, and (3) summer school or night school.

Dear Elm Creek Jr. - Sr. High School Students and Parents/Guardians,

We are excited to welcome you back for the 2020-2021 school year at Elm Creek Jr - Sr High. We are thrilled to have students in the classroom, and we look forward to strengthening our relationships with you and helping you along in your educational journey. Our school has excellent academic opportunities available. Each student will find the course work challenging and will be asked to master the skills and standards of each class in which they enroll. Additionally, we will encourage you to grow your gifts and talents as a student-participant as well. We hope you enjoy the many athletic teams, fine arts groups, clubs, and other academic competitions that are available for you to participate. Take the time this and every year to rise to the occasion and maximize your opportunities.

A point of emphasis each school year is going to be placed on positive behavior and interactions. We are going to work hard at modeling and setting high expectations for students and staff to:

- Be Kind
- Be Respectful
- Be Responsible
- Be Trustworthy
- Be Accountable
- Be Honest
- Give Great Effort

These character traits are our Gold Standard and exhibiting them demonstrates what it looks like to "Live **Gold**".

We are planning to continue weekly messages that share upcoming events and highlights from previous weeks. Look for these communications on Sunday evenings during the school year in the form of emails, texts, and social media posts.

The first day of school for students in grades 7-12 will be August 13th. This day will begin at 8:00 am sharp and be an early dismissal at 1:00 pm. We ask that all students enter this and every other day through the main entrance by the buffalo. Attendance is extremely important. Make sure your students arrive at school well before the 8:00 am start time to avoid either a tardy or an absence.

On Monday, August 10, Tuesday, August 11th, and Wednesday, August 12th, we will host open houses for specific grade levels. We will communicate out the details of these events by July 15th. We look forward to seeing you all at these events.

**We are looking forward to working with you throughout this school year. If concerns arise, please contact me at any time.**

**GO BUFFALOES!!**

Cory Spotanski

7-12 Principal and Activities Director

**Mission Statement:** At Elm Creek Schools we will: Be Kind, Be Respectful, Be Responsible, Be Trustworthy, Be Accountable, Be Honest, and Give Great Effort. We will Love **Blue**, Live **Gold**.

## Section 1 Intent of Handbook

This handbook is intended to provide general information about the operation, practices, and procedures of the school district. It is not a contract and should not be relied upon as such; however, it sets forth the rules and regulations of the school and the behavioral standards for students. The Board of Education may change policies at any time, and the administration may change rules, regulations or handbook provisions at any time. Copies of board policies are available in each school building, and those who have questions about the handbook should refer to the policies, or direct their questions to the building principal or superintendent of schools.

Each year, the Board of Education shall adopt Parent-Student Handbooks. The rules, procedures, and practices adopted in the Parent-Student Handbooks shall have the effect of Board Policy.

# Mission and Goals

The Elm Creek School District uses a whole child approach to help all young people become productive and engaged citizens. Our students will be problem solvers, creative thinkers, and be able to make positive choices about their education, future, and the community.

In order to develop good citizens and lifelong learners, we realize the importance of all aspects of our school: academic and co-curricular programs, as well as school climate and student services. In order to develop capable, responsible young adults who are prepared to aid in global changes, all of our school community members must be confident and resilient in the face of change. In order to develop the full potential of capable, responsible, lifelong learners, our students, staff, families, and community (law enforcement, social services, medical services and private business) need to cooperate fully to support these outcomes.

## Section 1 Operating Principles

We embrace the following operating principles

As an educational community we know children learn when

- they are actively engaged in a variety of tasks including exploration, play, reading, research, conversation, and invention;
- they are in an environment where they feel safe and supported, where their and physical, intellectual, emotional and social needs are met, and where they are not afraid to fail knowing they will be given more chances to succeed;
- they have a personal connection to or interest in what they are learning and can see how it applies in the world in which they live;
- they are encouraged to think for themselves, to reflect upon their work, to make appropriate choices and to build connections to prior learning;
- they receive ongoing feedback, see and share models of expected outcomes, feel competent and not overwhelmed, and are provided with time for monitored practice;
- they are exposed to a wide variety of learning experiences, materials, technologies, and environments.

In responding to how children learn, our classrooms will be...

- child centered, flexible learning environments with multiple resources and technologies, and full of displays of student work;
- learning communities where children feel respected, safe, and well-known;
- environments that enhance communication, collaboration, engagement and enjoyment;
- flexible, but with established routines and shared norms, and a balance of learning activities;
- comfortable places for students to ask questions, learn to make choices, and engage in both individual and group work;
- utilizing authentic and performance assessments in order to modify and adapt instruction and reporting student progress to parents in ways that are easily understood and reflect student development;
- inviting to parents, family members, and our communities as they too are valued resources in the learning process.

To support such classrooms, our schools will be...

- filled with the voices of kids and where their natural excitement and curiosity is nurtured and accepted;
- places where teachers are encouraged to collaborate and are provided time to do so, hold consistent beliefs on how children learn and share a collective responsibility for the welfare of all students;
- exemplified by a climate of mutual respect and trust among all community members, focused on positive behavior as opposed to punishment;
- flexible in terms of age-grouping, schedules, classrooms, and curriculum, all based on student needs;
- focused on the whole-child, her/his physical, intellectual, emotional and social well-being;
- filled with exhibitions of student work and activities in all areas with regular times for school-wide gatherings and celebrations;
- concerned with more than just test scores, knowing that every child is more than a test score;
- open and welcoming to all parents, encouraging their active involvement;
- supportive of teachers, providing focused professional development to help teachers create, develop, and expand child-centered, thought provoking and engaging classroom practices using a wide range of instructional strategies and educational technologies.

The district in support of these schools, is committed to...

- nurturing and encouraging a purposeful, common vision across our district through focused goals and action plans that allow for staff to do their work well;
- utilizing available resources and searching for additional resources to support this common vision as well as to provide appropriate staffing, teaching resources (including technology, texts, materials, and access to the world outside of school), and time for teachers to collaborate;
- listening to and responding to the needs of staff to carry out our shared visions;
- supporting the development of an infrastructure where teachers and students have access to current technologies, learning tools, and the world beyond the schools;
- encouraging and expecting that staff will take unique and flexible approaches to our shared goals and vision;
- providing a focused, district-wide professional development program consistent with our vision that is effective, meaningful, and sustainable;
- communicating with our community and with policy makers about our schools' programs, successes, and needs;
- supporting the economic and civic health of our community;
- communicating regularly with our educational community in ways that include all staff and provides the information necessary for collaborative decision making.

## Section 2 School Mission Statement

Our Mission is create an environment where staff and students work to:

be kind, be respectful, be responsible, be trustworthy, be accountable, be honest, and to give great effort.

### Through this, we aim to:

educate all students based on high educational standards, support a safe environment that welcomes diversity and mutual respect among adults and students, prepare all students, in cooperation with staff, family and community, to be well-rounded contributing members of society.

## **Section 3 Mutual Respect**

Elm Creek Jr. - Sr. High School expects every staff member and student to be treated with respect and dignity. A show of disrespect in words or actions by a student towards a staff member or insubordination on the part of the students will not be tolerated.

## **Section 4 Complaint Procedures (Chain of Command)**

Good communication helps to resolve many misunderstandings and disagreements, and the board encourages patrons and school staff to discuss their concerns with appropriate school personnel in an effort to resolve problems. Should an issue arise concerning a school employee, a school program, or a school activity, the complainant should follow the procedures set forth below:

1. The first step is for the complainant to speak directly to the person with whom he or she is dissatisfied, or who is responsible for the practice or regulation with which he or she is dissatisfied. For example, a parent who is unhappy with a classroom teacher should initially discuss the matter with the teacher. This matter should be addressed via a scheduled conference.
2. The second step is for the complainant to speak to **(a)** the building principal, **(b)** superintendent of schools, or **(c)** the president of the board of education, as set forth below.
  - a. Complaints about the operation, decisions, or personnel within a building should be submitted to the principal of the building.
  - b. Complaints about the operations of the school district or a building principal should be submitted to the superintendent of schools.
  - c. Complaints about the superintendent of schools should be submitted to the president of the board of education.
3. When a complainant submits a complaint to an administrator, the administrator shall:
  - a. Determine whether the complainant has discussed the matter with the staff member involved.
    - i. If the complainant has not, the administrator will urge the complainant to discuss the matter directly with that staff member.
    - ii. If the complainant refuses to discuss the matter with the staff member, the administrator shall, in his or her sole discretion, determine whether the complaint should be pursued further.
  - b. Strongly encourage the complainant to reduce his or her concerns to writing.
  - c. Interview the complainant to determine:
    - i. All relevant details of the complaint;
    - ii. All witnesses and documents which the complainant believes support the complaint;
    - iii. The action or solution which the complainant seeks.
  - d. Respond to the complainant.
4. A complainant who is not satisfied with the building principal's decision regarding a complaint may appeal the decision to the superintendent.
  - a. This appeal must be in writing.
  - b. The superintendent will investigate as he or she deems appropriate.
  - c. Upon completion of this investigation, the superintendent will inform the complainant in writing of his or her decision.
5. A complainant who is not satisfied with the superintendent's decision regarding a complaint may appeal the decision to the board.
  - a. This appeal must be in writing within five (5) days of the Superintendent's decision.
  - b. The board may, but is not required to, receive statements from interested parties and witnesses relevant to the complaint appeal.
  - c. The board will notify the complainant in writing of its decision.
  - d. There is no appeal from a decision of the board.
6. When a formal complaint about the superintendent of schools has been filed with the president of the board, the president shall:
  - a. Determine whether the complainant has discussed the matter with the superintendent.
    - i. If the complainant has not, the board president will urge the complainant to discuss the matter directly with the superintendent.
    - ii. If the complainant refuses to discuss the matter with the superintendent, the board president may encourage the complainant to reduce his or her concerns to writing.
    - iii. The board president, in his or her sole discretion, may determine whether the complaint should be placed on a future board meeting agenda to be discussed by the entire board in executive session.

### Conditions applicable to all levels of complaint procedure

All information to be considered at each appeal step should be placed in writing in order to be most effective. Appeal decisions shall be expedited as quickly as possible. A decision at any level should be rendered within ten (10) calendar days, unless a legal hearing is requested or required.

## **Section 5 Surveys**

School personnel rarely administer surveys of students. In the event that an external survey is conducted, the Principal or designee shall notify parents/legal guardians of students to be surveyed; the nature of the survey, the date and time when the survey shall be administered, and the purposes or uses for the survey results. School officials shall honor any parental/legal guardian's request to have his/her student exempt from participation in the survey.

## Section 3 Severe Weather and School Cancellations

The superintendent of schools is authorized by the board of education to close public schools in case of severe weather. Representatives of the superintendent's staff will notify local news media when inclement weather warrants such action. The information is broadcast regularly by radio and television stations.

### Decision to Close Schools

A decision to close school is made when forecasts by the weather service and civil defense officials indicate that it would be unwise for students to go to school. If possible, a decision about the next school day will be made by 9 p.m. for announcement during the 10 p.m. news. An early decision is not always possible because of uncertain weather conditions. School officials will make periodic assessments of conditions during the night and will decide early in the morning (by 6 a.m. if possible). In any case, **an announcement will be made to the news media when schools will be closed.** In some instances, schools will be open, but certain services (such as preschool, bus transportation, or school activities) may be cancelled. Postings of our closings or cancellations can be found on our school Facebook page, KRVN, NTV and we will send out an all call including a phone message, email, and text message.

### After School Starts

Every attempt will be made to avoid closing school once classes are in session. In some instances closing school during the day is inevitable if children are to safely return home before the brunt of a major storm hits. In these cases as much advance notice as possible will be given to parents. If school is closed during the day, the notice will be broadcast by the media and parents should have a plan in place to accommodate these circumstances.

### Parental Decisions

Parents may decide to keep their children at home in inclement weather because of personal circumstances. Students absent because of severe weather when school is in session will be marked absent. The absence will be treated like any other absence for legitimate causes provided parents properly notify the school of their decision. Parents may pick up their children in inclement weather at any time during the school day.

### What Not To Do

Parents should not attempt to come to school during a tornado warning. School officials are not permitted to release students from the school building during a tornado warning. Tornado safety procedures are practiced regularly by students and staff members. Also, parents are urged not to call radio and television stations and school buildings during severe weather. Every effort will be made to provide accurate and timely information through the media.

### Emergency Conditions

Elm Creek Public Schools has a signal which, when activated, includes the necessity to either evacuate the building or to move to safer areas of the building. All regular drills are held as required by law through the school year. In a crisis situation, personnel in charge of the building will determine the appropriate level of lockdown if a lockdown is necessary. In certain situations, parents may not be allowed to enter the building and/or pick up their children.

## Section 4 Closed Campus

All students are required to remain on campus and in the building during the school day. Exceptions to this include:

1. lunch time assigned to that student (with [signed parent approval](#))
2. students attending college classes
3. students leaving for work experience
4. student participating in school activity or school trip
5. parent signing a student out

## Section 5 Gifts

Due to disruptions of office procedure, disruptions of educational process and equity issues, gifts shall not be delivered to the office for students. This includes - but is not limited to; flowers, balloons, cakes and candy.

# Use of Building and Grounds

## Section 1 Entering and Leaving the building

### Beginning of School

Students should not be on school grounds prior to 7:15 am. Students are to stay in the building commons area or gymnasium. Students are not to go into the hallways, media center, or classrooms without prior permission.

### During the School Day

Students are to remain on campus unless excused in accordance with school policies. Upon returning to school during the day, students are to report to the school office.

### End of School

Our regular school day ends at 3:35 pm. Club meetings and other school activities begin at 3:45 pm. It is important that students who are involved in any of these activities report to the designated area on time. All other students should leave the building as soon as possible.

### Essential Period

The Essential Period will run from 3:20 to 3:35, Monday through Friday. The overall purpose of Essential Period is to provide time for students to have access to staff, and all teachers are required to be available during the Essential Period. Here are the basic guidelines of Essential Period:

1. Students will be assigned to an Essential Time Period as part of their regular school day, therefore, no jobs or appointments should be made during the Essential Period. Failure to show up for Essential is an automatic detention (30 min) served after the Essential Period the next school day.
2. Essential Period is an opportunity for "all" students to go to their teachers and receive extra help. So, each student MUST report to their essential time teacher every day.
3. Students who are failing a class or missing any assignments are REQUIRED to stay during Essential Time with their assigned teacher. Students should not be allowed to leave the room or to roam the hallways during this time frame.
4. Students who have no failing grades or missing assignments are free to leave after taking attendance.
5. Practices can start at 3:45 PM.
6. All Detentions are to begin after the Essential Period is over.
7. Students must leave school at the conclusion of Essential Time unless they have arrangements made with a teacher or a school official

## Section 2 Visitors

All visitors must report to the office upon entering the school to sign in and receive a visitor's pass. Visitors are required to enter our building using the southeast entrance (by the Buffalo). Prior to exit, visitors are asked to sign out at the office near the southeast entrance to the school.

Parents/Guardians will be permitted, within district procedures, to attend and observe courses, assemblies, counseling sessions, and other instructional activities.

1. Parents/guardians are invited to make appointments with the building principal to visit classes, assemblies and other instructional activities. The principal shall give permission after determining that parental/guardian observation would not disrupt the activity. Observations that last more than 60 minutes or occur on consecutive days are typically disruptive and will not be permitted absent unusual circumstances, at the sole discretion of the building principal.
2. Parents/guardians may contact the building principal to request permission to attend counseling sessions in which their child is involved. (Reference Board Policy 6400)

Students may request to bring an "outside date or guest" to a school activity such as a dance. However, the administration has the final authority to approve or deny any such request for any reason. Forms are available in the office.

## Section 3 Smoke/Electronic Nicotine Delivery Systems or Products-Free Building

The use of tobacco/electronic nicotine delivery systems or products is prohibited in all school buildings and all school vehicles.

Smoking/electronic nicotine delivery systems or products shall also be prohibited in any area where school staff, students or members of the public may be present or may be affected by smoke, including without limitation the stands and bleachers of outdoor athletic fields and near the entry of school buildings. For purposes of this policy, tobacco means any tobacco product (including but not limited to cigarettes, cigars, and chewing tobacco), electronic nicotine delivery systems or products includes but is not limited to e-cigarettes or juul devices. This section prohibits alternative nicotine products, tobacco look-alikes, and products intended to replicate tobacco products either by appearance or effect.

## Section 4 Care of School property

Students are responsible for the proper care of all books, equipment, supplies and furniture supplied by the school. School-issued items, devices, or computers that are stolen or damaged are the responsibility of the student to whom they are issued. Students must pay all fines before they can receive school publications such as transcripts and report cards. Students, who disfigure property, break windows or do

other damage to school property or equipment will be required to pay for the damage done or replace the item.

## Section 5 Lockers and Backpacks

Each student will be assigned a locker and a lock. Students must use school issued padlocks unless stated otherwise in an IEP or 504 plan. Students should not share a locker with other students since they are responsible for the contents and cleanliness of their locker. Students may be assessed a fine for damage to lockers.

Backpacks will be allowed to move with a student from one class to another unless the backpack or it's contents interfere with the learning environment.

School officials may inspect lockers or its contents without any particular suspicion or reasonable cause.

## Section 6 Use of Surveillance and Searches

The Board of Education has authorized the use of video cameras on School District property to ensure the health, welfare and safety of all staff, students and visitors to District property, and to safeguard District facilities and equipment. Video cameras may be used in locations as deemed appropriate by the Superintendent. Notice is hereby given that video surveillance may occur on District property. In the event a video surveillance recording captures a student or other building user violating school policies or rules or local, state or federal laws, the video surveillance recording may be used in appropriate disciplinary proceedings against the student or other building user and may also be provided to law enforcement agencies.

The school owns and exercises exclusive control over the student lockers, desks, computer equipment and other such school property. Students should not expect privacy regarding usage of or items placed in or on school property, including student vehicles parked on school property, because school property is subject to search at any time by school officials. Periodic, random searches (including the use of a police dog) of lockers, desks, computers and other such property may be conducted at the discretion of the administration.

The following rules shall apply to searches of students and of a student's personal property and to the seizure of items in a student's possession or control:

1. School officials may conduct a search if there is a reasonable basis to believe that the search will uncover evidence of a crime or a school rule violation. The search must be conducted in a reasonable manner under the circumstances.
2. Illegal items or other items reasonably determined to be a threat to the safety of others or a threat to educational purposes may be taken and kept by school officials. Any firearm or other weapon shall be confiscated and delivered to law enforcement officials as soon as possible.
3. Items that have been or are reasonably expected to be used to disrupt or interfere with the educational process (that is, "nuisance items") may be removed from student possession.

## Section 7 Use of School Telephone

Use of the office phone will be allowed in an emergency or when a student is ill. It may be allowed in other circumstances at the discretion of the office staff. However, the office phone is NOT to be used during class time and use of the phone is not an excuse to be tardy.

## Section 8 Bicycles

Bicycles must be parked in the rack provided in the front of the building. They should be equipped with locks to secure them. The school is not responsible for damage or theft of parts while bicycles are on school property.

## Section 9 Vehicles

Vehicles must be parked in designated areas. Students are to park in the parking lot to the South of the main HS entrance, to the East of the HS or in the street to the east and south of the school. Vehicle related violations may result in loss of privilege of driving or parking on school property. Students are required to register their vehicle(s) in the High School office.

## Section 10 Student Valuables

Students, not the school, are responsible for their personal property. Students are cautioned not to bring large amounts of money or items of value to school. If it is necessary to bring valuable items or more money than is needed to pay for lunch, leave the money or valuables with a staff member in the school office for temporary and safe-keeping. Even then, the school is not in a position to guarantee that the student's property will not be subject to loss, theft, or damage.

## Section 11 Lost and Found

Students who find lost articles are asked to take them to the office so the owner can claim the articles. If articles are lost at school, report that loss to office personnel. Items will be stored in the Lost and Found area for 2 weeks.

## Section 12 Accidents

Every accident in the school building, on the school grounds, at practice sessions or at any athletic event sponsored by the school must be reported immediately to a school administrator.

## Section 13 Laboratory Safety Glasses and Safety Equipment

As required by law, approved safety glasses and safety equipment will be required of every student, teacher and visitor while participating in or observing vocational, technical, industrial technology, science and art classes when the risk of potential injury is present.

## Section 14 Insurance

Under Nebraska law, the district may not use school funds to provide general student accident or athletic insurance. The district encourages all student participants in athletic programs to have injury and accident insurance and encourages all students who are in classes with risk of personal injury or accident to have insurance coverage. The district does not make recommendations, nor handle the premiums or claims for any insurance company, agent or carrier. Information about student insurance providers will be available in the school office.

## Section 15 Bulletins and Announcements

Bulletin boards and display cases are available for school-related and approved materials to be posted and displayed. Posters to be used in the halls or materials for distribution will need to be approved by the principal's office. Posters/Signs can only be placed in the locations designated by the administration. The person or organization responsible for distributing the posters is responsible to see that all posters are removed within 48 hours after the event.

## Section 16 Copyright and Fair Use Policy

It is the school's policy to follow the federal copyright law. Students are reminded that, when using school equipment and when completing coursework, they also must follow the federal copyright laws. The federal copyright law governs the reproduction of works of authorship. Copyrighted works are protected regardless of the medium in which they are created or reproduced; thus, copyright extends to digital works and works transformed into a digital format. Copyrighted works are not limited to those that bear a copyright notice.

The "fair use" doctrine allows limited reproduction of copyrighted works for educational and research purposes. The relevant portion of the copyright statute provides that the "fair use" of a copyrighted work, including reproduction "for purposes such as criticism, news reporting, teaching (including multiple copies for classroom use), scholarship or research" is not an infringement of copyright. The law lists the following factors as the ones to be evaluated in determining whether a particular use of a copyrighted work is a permitted "fair use," rather than an infringement of the copyright:

1. The purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes
2. The nature of the copyrighted work
3. The amount and substantiality of the portion used in relation to the copyrighted work as a whole.
4. The effect of the use upon the potential market for or value of the copyrighted work.

Although all of these factors will be considered, the last factor is the most important in determining whether a particular use is "fair." Students should seek assistance from a faculty member if there are any questions regarding what may be copied.

# Attendance and Participation

## Section 1 Attendance Policy

Regular and punctual student attendance is required by [school board policy 5008](#) and state law. The administration is responsible for developing further attendance rules and regulations, and all staff are expected to implement this policy and administrative rules and regulations to encourage regular and punctual student attendance. The Principals and teachers are required to maintain an accurate record of each student's attendance.

## Section 2 Attendance and Absences

### Required Attendance

Every person residing in the school district who has legal or actual charge or control of any child who is of mandatory attendance age shall cause that child to regularly attend a public or private school unless the child has graduated from high school or has been disenrolled by the child's parent or guardian.

### Mandatory Attendance Age

A child is of mandatory age if the child will reach the age of six (6) years prior to January 1 of the then-current school year and has not reached the age of eighteen (18) years.

### Exceptions for Younger Students

A child who will not reach age 7 before January 1 of the current school year may be excused from mandatory attendance if the child's parent or guardian completes an affidavit affirming that alternative educational arrangements have been made for the child. Click [here](#) to access the required affidavit.

### Exceptions for Older Students

Attendance is not mandatory for a child who:

1. has obtained a high school diploma by meeting statutory graduation requirements;
2. has completed the program of instruction offered by a school which elects pursuant to law not to meet accreditation or approval requirements;
3. has reached the age of 16 years and has been withdrawn from school in the manner prescribed by law.

### Attendance Officer

The superintendent is designated as the attendance officer for the district. The superintendent, at his or her discretion, may delegate these responsibilities to any other qualified individual. The attendance officer is responsible for enforcing the provisions of state law and board policy relating to compulsory attendance. Compensation for the duties of attendance officer is included in the salary for the superintendent or designee.

### Attendance/Absences

An absence from school will be reported as: 1. an excused absence or 2. an unexcused absence.

### Excused Absences

Absences should be cleared through the principal's office in advance whenever possible. **An absence or tardy, even by parent approval, may not be excused unless it is specifically excused by board policy. Please call the High School office at 308-856-4300-2988 before 8:30 am to report a student absence.** Below are reasons for absence that may be excused if proper procedures have been followed unless otherwise permitted by board policy, this handbook, or state law:

1. Attending a funeral of an immediate family member (parent, sibling, or grandparent),
2. Illness (physical or mental) which causes a student to be absent from school (a physician's verification is required for documentation of absence for illness)
3. Medical appointments (doctor, vision, or dental) for the student
4. Appearance at court or for other legal matters
5. School sponsored activities which require students to be absent from school
6. Family trips in which the student accompanies parent(s)/legal guardian(s)
7. College planning visits, and
8. Other absences which have received prior approval from the Principal.

The Principal shall have the discretion to deny approval for any of the foregoing reasons, depending on circumstances such as the student's number of other absences, the student's academic status, the tests or other projects which may be missed.

For excused absences, two school days will be allowed to make up the work for each day missed with a maximum of ten (10) days allowed to make up work. **Students who will be absent for a school activity must make arrangements with their teachers prior to the absence.** If requested, assignments will be prepared for students who are ill. If parents and /or students request assignments, the school should be contacted by no later than 9 a.m. A student will be considered absent until a parent/guardian contacts the school. After two days with no parent or guardian contact, the absence will be considered unexcused even if the absence would otherwise be excused.

If a student is absent, a parent or guardian must call the Elm Creek High School office that day with the reason for the absence. The call must be made each day a student is absent, unless other arrangements have been made, such as pre-arranged absences or an extended period of absence for the same cause. **In the event of an appointment(s) or medical visit, please bring a note, from the doctor to the high school office for documentation.**

### Unexcused Absences

An absence which is not excused is unexcused. A student who engages in unexcused absences may be considered truant as per Neb. Rev. Stat. 79-201. Students are subject to disciplinary action for trancies. **A student will not be allowed to enter class after an absence until an admit slip, based upon a written or verbal parental excuse, is issued by the Principal's office.**

#### Excessive Absences - Notification and Collaborative Plan Process

Excessive absenteeism refers to any student that is absent 5 days or more per 9 weeks period. Such absences shall be determined on a per class basis. **ECHS may use excused and unexcused absences to calculate this total.** The following procedures will act as a guide for Elm Creek High School to address excessive absenteeism.

1. Verbal (@ 3 days) or written (@ 5 days) communication by school officials with the person or persons who have legal or actual charge or control of the student.
2. One or more meetings between the school (school administrator/designee, and/or school counselor and/or social worker), the student, the student's parent/guardian when appropriate to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan/attendance contract to reduce barriers identified to improve regular attendance. The plan/contract shall consider, but not limited to:
  - a. Illness related to physical or behavioral health of the child
  - b. Educational counseling
  - c. Educational evaluation
  - d. Referral to community agencies for economic services
  - e. Family or individual counseling
  - f. Assisting the family in working with other community services.
3. If the parent/guardian refuses to participate or attend such a meeting the principal shall place documentation of such refusal in the student's attendance records.
4. Reporting Excessive Absenteeism to the County Attorney-The School may report to the county attorney of the county in which the person resides when the school efforts to address excessive absences, the collaborative plan/contract to reduce barriers identified to improve regular attendance have not been successful, and the student has accumulated more than twenty (20) absences per year. The school will notify the student's family in writing prior to referring the child to the county attorney.

#### Credit Loss due to Absenteeism

Unless otherwise arranged and approved in advance, after three (3) days of absence during a term, a phone call discussing our attendance policy will be made to the parent and/or guardian. We will discuss any discrepancies and parent/guardian will be asked to provide any necessary absence documentation. When a student has exceeded five (5 Excused/Unexcused) absences during any Term, a letter will be sent home informing the student and his/her parents/guardians of the possible revocation of academic credits and possible need to provide documentation and/or setup an attendance review at the end of the term. This letter may coincide with a student conference and/or follow up phone call and/or meeting with the student and/or parents, in addition to any of the aforementioned interventions. The following terms and processes govern credit loss due to absenteeism:

1. Absences related to school activities, suspensions, court appearances, medical/legal documented appointments/absences, bad roads, two (2) college visits, school suspensions, Elm Creek state activity contests with (pre-arranged absence form filled out in advance) and any other reason contained in board policy are excluded from a student's absence total when considering revoking class credits.
2. At the end of the semester, students that have exceeded nine (9) or more Excused/Unexcused absences during the term will be sent a letter regarding the revocation of academic credits and procedures to request an attendance review and present documentation or information to support their contention that the individual situation deserves special consideration and that credit should not be lost. Failure to request a review within five (5) days will result in the student being denied credit in the designated classes.
3. An attendance committee appointed by the superintendent will review the circumstances during the review and determine whether or not to grant credit. Extraordinary or unusual circumstances, which may have caused a student to have an absence, may be presented to the committee, which may allow the student to earn credit despite his or her absence. The committee may consider such factors as: whether the reasons are contrary to the spirit of this policy; whether the student is failing in any class; whether the student has been a disruptive, undisciplined student, whether the student has repeatedly failed to comply with school rules and regulations; and /or other similar factors deemed appropriate by the committee.

### **Section 3 Explanation of Attendance Types/Reasons and Codes**

In Powerschool, the District may identify many different codes that provide greater definitions to the circumstances of a child's absence. All of the codes are identified below:

Absence Codes		Present Codes	
Absent = A	Bereavement = B	Present	
Illness = L	College Visit = C	Tardy - Unexcused = T	Tardy - Excused = Y
Excused = E	Unexcused = U	School Event = S	In School Suspension = I
Medical = M	Out of School Suspension = O	Alternative Placement = PT	
Medical Verified = V			

## Section 4 Tardiness

Punctuality is a good work habit. Being tardy is defined as arriving to class after the tardy bell has rung. A student detained by a teacher, a counselor, or administrator must bring verification. This verification will excuse the tardy. When a student arrives late to school, he/she must report to the office for a pass. Once a student is in school and is tardy to a different class, the teacher of that class will handle the discipline for that tardy. A student will be counted tardy when late ten minutes or less; when more than ten minutes, the infraction is considered an absence. The following are guidelines for tardies:

1. Being tardy to first period will result in a 30 minute lunchtime detention which does not allow the student to leave campus that day during the lunch period.
2. When a student is tardy to any class after period 1, he/she will be required to serve a thirty (30) minute detention after school that day. All teachers will adhere to this policy with no exceptions made for students who need to go to work, athletics, appointments, etc. Bus students will be required to attend the next morning.
3. Tardies will count in the overall attendance policy as every three (3) tardies will be counted as a day's absence, which will be included in the five-day attendance limit.

## Section 5 Leaving School

Students who must leave school for any reason during the school day must check out at the office before leaving. Students leaving school must be cleared in advance by a note or phone call from the student's parent or legal guardian. Upon returning to school that same day, students are expected to enter into the main entrance and sign in at the office with a staff member. Students who leave without permission and without signing out in the proper manner will be considered truant and dealt with accordingly. Because of safety and security concerns, when students must leave the building during the school day, they must be picked up by their parents or legal guardian when possible.

## Section 6 Attendance is required to Participate in Activities

Students must attend school all day (all periods prior to the departure time or end of day) on the day of any scheduled school activity in order to participate in the activity. This includes sports contests, practices and dances. Failure to attend on that day will result in a student being withheld from participation in the activity. The principal retains the right to grant participation should extenuating circumstances, such as doctor/dentist appointments and funerals prevail. Sleeping in to rest up for the game will not be considered an extenuating circumstance, nor will going home ill and then returning to play in the contest later that day. Athletes are expected to be at all practices scheduled by the coach. Non attendance at practice may result in additional sanctions.

If Elm Creek High School participates in a conference, district, or state competition in an activity, students who want to attend and support ECHS participants will need to access a form from the office and acquire approval from their teachers, parents, and administrators ahead of time. The administration will determine the amount of time that will be excused based on when ECHS competes. Failure to complete the form will result in an unexcused absence and no participation in extracurricular activities. Students that complete the form will be granted an excused absence and allowed to participate in extracurricular activities for the day. [Conference, District, State Excused Absence Form](#)

Teachers, coaches, and sponsors will publish a list of students who will miss school for an activity or school related trip. This list will be distributed to the office staff, administration, and teachers at least **two school days** in advance of the activity. An attendance list will be distributed by the office each morning, via email, to staff accounts. Coaches will be asked to enforce the policy of attendance to practice or participate.

## Section 7 P.E. and Sports Participation

If a student is injured in P.E. or sports practice, he or she needs to alert the teacher or coach so the staff member can complete an accident report. If a student receives a note from medical personnel indicating they are injured, the student may not participate in P.E. or sports until they receive medical clearance. The school district will need a copy of the release prior to the student returning to P.E. or sports practice. If a student has a minor injury that does not require medical attention, a parent may excuse their child from P.E. or sports practice for a maximum of two (2) days. The school district will need a note from the parent or the child will be expected to participate.

## Section 8 Make-up Work

Make-up work may be assigned for each day missed regardless of the type of absence. The time each student is allowed to complete the make-up work is two (2) days for each day missed. However, the time may be extended by mutual agreement between the student and teacher. If make-up work is not complete, students will receive an "incomplete or I" for the work required. Students who will be absent for a school activity should make arrangements with their teachers prior to the absence. The student has the responsibility to contact teachers, initially, regarding make-up assignments. Teachers may require students to make up work before or after school. Assignments will be sent for extended absences such as hospitalization or prolonged illnesses upon request.

## Section 9 Transferring from Elm Creek High School

If a student should find it necessary to withdraw from school, it is very important that he/she secure a checkout form from the principal's office and have it signed by all of his/her teachers and parent/guardian. The slip is to be returned to the office after all individuals have signed it. Failure to check out of school in this manner will cause records to remain incomplete, making it impossible to send credits to another school.

## Section 10 Withdraw from School

A person who has legal or actual charge or control of a child who is at least sixteen years of age but less than eighteen years of age may withdraw such child from school before graduation must have an exit interview with the superintendent's designee. Any withdrawal form signed by the person making the written request shall be valid only if the child signs the form unless the withdrawal is being requested due to an illness of the child making attendance impossible. The superintendent's designee signs the form that the interview was held, the required information was provided and discussed at the interview, and, in the opinion of the superintendent's designee the person making the written request does in fact have legal guardianship and the child is experiencing either financial hardship requiring the child to be employed to support the child's family or one or more dependents of the child or an illness making attendance impossible or impracticable. (Nebraska law LB -996)

# Scholastic Achievement

## Section 1 Grading System

Elm Creek Jr. - Sr. High School will use the letter grading scale as follows:

Grade	GPA PTS	Percent
A+	4.0	100-97
A	4.0	96-93
B+	3.5	92-89

Each teacher will outline the grading practices in his/her classroom and make them available in the syllabus found on each teacher's website. Grades for courses will be based on Summative scores counting for 90% of a student's final grade and Formative assignments counting for 10%.

## Section 2 Commencement Ceremony/Graduation Requirements

The district shall conduct a commencement ceremony for members of the senior class at the end of the school year. Participation in the ceremony is a privilege, not a right, and the superintendent or his/her designee may prohibit students who have violated conduct rules from participating in the ceremony as a consequence for the misconduct.

Only those students who have completed all graduation requirements (i.e., completed the required coursework or achieved the goals set in the student's individual education plan) will be allowed to participate in commencement exercises.

Students who graduate from the School District of Elm Creek must fully complete all requirements for graduation prior to the official commencement exercises and complete all administrative requirements or conditions. 240 hours are required by the Elm Creek School district to meet academic graduation requirements. The total academic graduation requirements must include the following curriculum:

English	=	40 Credit Hours
Science	=	30 Credit Hours
Math	=	30 Credit Hours
Social Studies	=	30 Credit Hours (Am. History and Am. Government Required)
P.E. or Health	=	5 Credit Hours
Speech	=	5 Credit Hours
Art/Band/Music	=	5 Credit Hours
Required Core Classes	=	145 Credit Hours
+Electives Courses	=	95 Credit Hours
Total	=	240 Credit Hours

### [Early Graduation Plan \(Board Policy 5206\)](#)

Elm Creek Public Schools supports the concept of early completion as a means of accelerating students toward the achievement of lifetime plans. The following guidelines have been established for students to be eligible for early completion:

1. Students must meet all completion requirements established by the Board of Education in order to be eligible for early graduation as well as the credit hour requirements in each specific subject matter area. Only 20 hours of transfer credit will be applied toward graduation requirements.
2. A student who decides to opt for early graduation or completion is not eligible to participate in school sponsored activities following the last day he/she attends classes. The effective date for participation will end with the last day that the student is enrolled in classes. The only school activities that the applicant is eligible for will be the regularly scheduled graduation ceremony and the **Jr./Sr. prom.**

3. This policy shall be evaluated annually by the high school principal and appropriate revisions shall be recommended to the Board for its consideration.

#### **Selection of Graduation Speakers**

Students who are selected as the Valedictorian and Salutatorian for the graduating class will be selected as speakers at graduation. The student's will be required to submit a draft of their speech to the H.S. Principal on or before April 10th for review. The final draft of the speech will be collected and ready for the speakers on the morning of graduation. Students must be enrolled in Elm Creek Public Schools for the entirety of their Junior and Senior year to be considered for this recognition.

### **Section 3 Grade Placement/Promotion/Retention**

The professional staff at Elm Creek Public Schools will place students at the grade level and in the courses best suited to them academically, socially and emotionally. Students will typically progress annually from grade to grade. A student may be retained at a grade level or be required to repeat a course or program when such is determined in the judgment of the professional staff to be appropriate for the educational interests of the student and the educational program. High School students must have earned a minimum of the following credits to advance to the next grade level:

10th grade = 60 credit hours minimum

11th grade - 120 credit hours minimum

12th grade = 180 hours minimum

### **Section 4 Schedule Changes**

Students needing schedule changes should notify their school counselor. The school counselor and all teachers involved must agree to all schedule changes. Due to the efforts in how we build the master schedule based upon student requests to maximize our staffing, schedule changes will be very limited and will take place within the first week of the class term. Students who drop a class or are removed per behavior after the first week of the class term will be given an Withdrawal/F on their transcript for the course. The principal reserves the right to make the final decision on all schedule changes and dropped course transcript grades. Click [here](#) to access the schedule change form.

### **Section 5 Progress Reports/Failing Grade Reports**

Progress reports are issued at the end of each 9 week period. Letter grades as well as percentages will be used to designate a student's progress in each course. Student progress may be reviewed by parent(s) or legal guardian on-line with the PowerSchool grade program. Confidential passwords will be issued to each parent(s) or legal guardian each fall. A hard copy of a report card will be delivered upon request.

Various supplemental reports may be sent to parents throughout the school year concerning student's performance. These reports may describe student work of an exceptional nature or work which needs improving. These reports will be sent as the teacher determines. Included in the academic improvement report will be a request from the teacher for parents to contact the teacher by phone to discuss the student's academic progress. Teachers will arrange with the parents for days when the student can meet with the teacher outside the regular class period until the student returns to satisfactory academic standing.

Failing grade reports will be issued via the Swift K-12 alert system each Friday at 4:00 PM starting the third week of each term. This system utilizes contact information provided by parents/guardians. Please make sure we have all updated cell phone and email information at the beginning of each school year and that it is updated in our office if changed during the school year.

### **Section 6 Report Cards**

Report cards are issued at the end of each semester. Letter grades and percent grades are used to designate a student's progress. Incompletes shall be designated by an "I" for the term. Students have one (1) week after the end of the term 1 to make up incomplete work if given an "I" for the term. Failure to do so may cause the grade to change to an "F" or "NC" (no credit, 0). No incompletes will be given at the end of the final term, as all course work must be completed by the last day of the second semester.

### **Section 7 Parent-Teacher Conferences**

Parent - Teacher conferences will be held once each semester. Parents and their children will be required to attend this conference each semester to meet with teachers face-to-face. Refer to the school calendar for the schedule. Specific conferences with teachers, at any other time, are possible by calling the school office and making arrangements with one or more teachers as needed.

### **Section 8 Honor Roll and Honorable Mention**

The Honor Roll will be determined by grade point average (GPA). All students with a GPA of 92.5% and above, with no grades below a B, will qualify for Honor Roll recognition. This list will be defined at the end of each 9 week period. Dual credit classes, taught by ECHS Faculty, will factor into the GPA.

The Honorable Mention will be determined by grade point average (GPA). All students with a GPA between 84.5% and 92.4%, with no grades below a C will qualify for Honorable Mention recognition. This list will be defined at the end of each 9 week period. Dual credit classes, taught by ECHS Faculty, will factor into the GPA.

## Section 9 National Honor Society

### Membership

Membership in this chapter is an honor bestowed upon a student. Selection for membership is by a faculty council and is based on outstanding scholarship, character, leadership, and service. Once selected, members have the responsibility to continue to demonstrate these qualities. Membership of this chapter shall be known as active and graduate. Active members shall become graduate members at graduation. Graduate members shall have no voice or vote in chapter affairs. The faculty council shall reserve the right to award honorary membership to school officials, principals, teachers, NHS advisers, or adults in recognition of outstanding service rendered to the school in keeping with the purpose of the National Honor Society.

Candidates become members when inducted at a special ceremony.

Members who are seniors in good standing are eligible to be nominated by their chapters to compete in the National Honor Society Scholarship Program.

A National Honor Society member who transfers to Elm Creek High School and brings a letter from the former principal or chapter adviser shall be accepted automatically as a member in the Elm Creek Chapter. Transfer members must meet Elm Creek Chapter's standards within one semester in order to retain membership.

Members who resign or are dismissed are never again eligible for membership or its benefits.

### Selection of Members

To be eligible for membership the candidate must be a member of the sophomore, junior, or senior class. (Freshmen [ninth graders] are not eligible.) Candidates must have been in attendance at the school the equivalent of one semester. In special cases, the principal may seek a recommendation from the previous school principal pursuant to the candidate's selection. On the basis of the recommendation of the previous principal, the faculty council may waive the semester regulation.

The selection of each member to the chapter shall be by a majority vote of the faculty council.

### Dismissal

Members who fall below the standards that were the basis for their selection shall be promptly warned in writing by the chapter adviser and given a reasonable amount of time to correct the deficiency, except that in the case of flagrant violation of school rules or civil laws a member does not necessarily have to be warned. The faculty council shall determine when an individual has exceeded a reasonable number of warnings.

In all cases of impending dismissal, a member shall have a right to a hearing before the faculty council. A member who has been dismissed may appeal the decision of the faculty council under the same rules for disciplinary appeals in the school district within ten (10) business days of the date of the letter.

The following is the Elm Creek High School Chapter of the National Honor Society eligibility, election and membership requirements.

### Eligibility

1. The student must have an overall academic average of 90% or higher.
2. The student must be recommended by a faculty member.

### Election to Membership

The student must be approved by the majority of the faculty council in each of the following areas.

1. LEADERSHIP
2. CHARACTER
3. SERVICE

This is done by the faculty council voting yes or no in each of these three areas. For a student to be a member in good standing they must maintain an academic average of 90%.

## Section 10 Academic Integrity

Policy Statement: Students are expected to abide by the standards of academic integrity established by their teachers and school administration. Standards of academic integrity are established in order for students to learn as much as possible from instruction, for students to be given grades which accurately reflect the student's level of learning and progress, to provide a level playing field for all students, and to develop appropriate values. Cheating and plagiarism violate the standards of academic integrity. Sanctions will be imposed against students who engage in such conduct.

The following definitions provide a guide to the standards of academic integrity:

1. "Cheating" means intentionally misrepresenting the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. Such misrepresentations may, but need not necessarily, involve the work of others. Cheating includes, but is not limited to:
  - a. **Summative Assessments (includes tests, quizzes and other examinations or academic performances)**
    - i. Advance Information: Obtaining, reviewing or sharing copies of tests or information about a test before these are distributed for student use by the instructor. For example, a student engages in cheating if, after having taken a test, the student informs other students in a later section of the questions that appear on the test.

- ii. Use of Unauthorized Materials: Using notes, textbooks, pre-programmed formulas in calculators, or other unauthorized material, devices or information while taking a test except as expressly permitted. For example, using internet access to aid in the completion of a question or to procure information is not allowed.
  - iii. Use of Other Student Answers: Copying or looking at another student's answers or work, or sharing answers or work with another student, when taking a test, except as expressly permitted. For example, a student engages in cheating if the student looks at another student's paper during a test. A student also engages in cheating if the student tells another student answers during a test or while exiting the testing room, or knowingly allows another student to look at the student's answers on the test paper or shares the answers of a test with another student who will take the exam.
  - iv. Use of Other Student to Take Tests. Having another person take one's place for a test, or taking a test for another student, without the specific knowledge and permission of the instructor.
  - v. Misrepresenting Need to Delay Test. Presenting false or incomplete information in order to postpone or avoid the taking of a test. For example, a student engages in cheating if the student misses class on the day of a test, claiming to be sick, when the student's real reason for missing class was because the student was not prepared for the test.
- b. **Papers (includes papers, essays, lab projects, and other similar academic work):**
- i. Use of Another's Paper: Copying another student's paper, using a paper from an essay writing service, or allowing another student to copy a paper, without the specific knowledge and permission of the instructor.
  - ii. Re-use of One's Own Papers: Using a substantial portion of a piece of work previously submitted for another course or program to meet the requirements of the present course or program without notifying the instructor to whom the work is presented.
  - iii. Assistance from Others: Having another person assist with the paper to such an extent that the work does not truly reflect the student's work. For example, a student engages in cheating if the student has a draft essay reviewed by the student's parent or sibling, and the essay is substantially re-written by the student's parent or sibling. Assistance from home is encouraged, but the work must remain the student's.
  - iv. Failure to Contribute to Group Projects: Accepting credit for a group project in which the student failed to contribute a fair share of the work.
  - v. Misrepresenting Need to Delay Paper: Presenting false or incomplete information in order to postpone or avoid turning in a paper when due. For example, a student engages in cheating if the student misses class on the day a paper is due, claiming to be sick, when the student's real reason for missing class was because the student had not finished the paper.
  - vi. Alteration of Assigned Grades. Any unauthorized alteration of assigned grades by a student in the teacher's grade book or the school records is a serious form of cheating.
2. "Plagiarism" means to take and present as one's own a material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works. Plagiarism includes, but is not limited to:
- i. Failure to Credit Sources: Copying work (words, sentences, and paragraphs or illustrations or models) directly from the work of another without proper credit. Academic work frequently involves use of outside sources. To avoid plagiarism, the student must either place the work in quotations or give a citation to the outside source.
  - ii. Falsely Presenting Work as One's Own: Presenting work prepared by another in final or draft form as one's own without citing the source, such as the use of purchased research papers or use of another student's paper.
  - iii. "Contributing" to academic integrity violations means to participate in or assist another in cheating or plagiarism. It includes but is not limited to allowing another student to look at your test answers, to copy your papers or lab projects, and to fail to report a known act of cheating or plagiarism to the instructor or administration.

The following sanctions will occur when a student engages in cheating, plagiarism, or contributing to an academic integrity offense.

1. Academic Sanction. The instructor will refuse to accept the student's work in which the academic integrity offense took place, assign a grade of "I" or zero (0) for the work, and require the student to complete a test or project in place of the work within such time and under such conditions as the instructor may determine appropriate. In the event the student completes the replacement test or project at a level meeting minimum performance standards, the instructor will assign a grade which the instructor determines to be appropriate for the work.
2. Report to Parents and Administration. The instructor will notify the Principal of the offense and the instructor or Principal will notify the student's parents or guardian.
3. Student Discipline Sanctions. Academic integrity offenses are a violation of school rules. The Principal may recommend sanctions in addition to those assigned by the instructor, up to and including suspension or expulsion. Such additional sanctions will be given strong consideration where a student has engaged in serious or repeated academic integrity offense or other rule violations, and where the academic sanction is otherwise not a sufficient remedy, such as for offenses involving altering assigned grades or contributing to academic integrity violations.

## Section 11 Academic Accountability

There is an expectation for students to succeed in learning the content instructed in classes. Each week on Wednesday, we will compile a list of failing grades. This list will function as follows:

1. First week name is on the list - **WARNING**. Students on the warning list have the week to improve their grades. They will be REQUIRED to attend Essential time until all grades are passing and ALL classwork is handed in for ALL classes.
2. Second or subsequent weeks with name on the list - **INELIGIBLE**. Students on the ineligible list will remain ineligible for participation, leaving campus for lunch, attending games, or traveling to away contests until ALL grades are passing. They will be REQUIRED to attend Essential time until all grades are passing and ALL classwork is handed in for ALL classes.

## Section 12 Homework

Homework is designed to offer independent practice opportunities, increase background information on topics, and compliment classroom experiences. At ECPS, work will be sent home periodically to practice a skill, allow students to review essential learnings, and challenge students to prepare for upcoming assessments. **Practice that is sent home for kids to complete will be reviewed together the following class period to check for understanding and provide direct feedback to students.**

Homework, although a useful tool for learning, should not have a significant impact on a student's academic grade because it is practice. This practice will be aimed at increasing the student's capacity to meet a standard or learning objective. Additionally, it is not possible to verify that the student who is assigned the homework completed the homework on his/her own. As a result, homework will be used for formative feedback only and only Zero (0 - No evidence), one,(1 - Practice was attempted but incomplete), or two (2-Practice was completed) will be included in the formation of the academic grade. This will account for a maximum of 10% of a students grade. All work assigned is to be completed by the student as it is vital to their growth in the content area.

Work at home does promote responsibility, self-discipline and lifelong learning habits. Elm Creek Public Schools recognizes the importance of developing these skills and will periodically assign relevant and meaningful homework assignments designed to reinforce classroom-learning objectives.

### Homework assignments

- reinforce skills and concepts addressed in classroom instruction
- extend assignments to transfer new skills or concepts to new situations
- provide opportunities for creative activities that integrate a variety of skills
- demonstrate additional evidence of student understanding

### Time

Actual time required to complete assignments will vary with students' study habits, academic skills, and selected course loads. If a parent believes their child is spending an excessive amount of time completing their homework, they should contact their child's teacher.

### Reading

Elm Creek staff believe that additional reading for enjoyment assists in developing students' reading skills at any age and helps develop life-long readers who learn to seek additional information and read for enjoyment. Students are encouraged to read every night for at least 20 minutes.

## Section 13 Transcripts

**Students requesting transcripts must provide the counselor's office with a 24-hour notice. Students are responsible for making sure they have the necessary courses and credits to meet graduation requirements and college entrance requirements.**

## Support Services

### Section 1 Special Education Services

Special education means specially designed instruction and related services adapted as appropriate to the needs of an eligible student with a disability. Special education is provided at no cost to the parent to meet the unique needs of a child with a disability.

#### Students Who May Benefit

A student verified as having autism, behavior disorders, deaf-blindness, developmental delay, hearing impairments, mental handicaps, multiple disabilities, orthopedic impairments, other health impairments, specific learning disabilities, speech-language impairments, traumatic brain injury or visual impairments, who because of those impairments need special education and related services.

#### How are Students With Disabilities Identified?

Referrals are made by teachers or parents to a Student Assistance Team. If the student assistance team or comparable problem solving team feels that all viable alternatives have been explored, a referral for multidisciplinary evaluation is completed. An evaluation is conducted to assist in the determination of whether a student has a disability and the nature and extent of the special education and related services the student needs. The evaluation is conducted only with written consent of a parent or guardian. A multidisciplinary evaluation team (MDT) will then meet to determine whether the student is eligible for special education.

#### Independent Evaluation

If a parent disagrees with an evaluation completed by the school district, the parent has a right to request an independent educational evaluation at public expense. Parents should direct inquiries to school officials to determine if the school district will arrange for further evaluation at public expense. If school district officials feel the original evaluation was appropriate and the parents disagree, a due process hearing may be initiated. If it is determined that the original evaluation was appropriate, parents still have the right to an independent educational evaluation at their own expense.

#### Reevaluation

Students identified for special education will be reevaluated at least every three (3) years by the IEP team. The IEP team will review existing evaluation data on the student and will identify what additional data, if any, are needed. The school district will obtain parental consent prior to conducting any reevaluation of a student with a disability.

#### Individual Education Program (IEP)

Upon a student being verified as having a disability, a conference will be held with parents. At the conference, an Individualized Education Program (IEP) will be developed specifying programs and services which will be provided by the schools. Parent consent will be obtained prior to a student being placed for the first time in a program providing special education and related services or early intervention services to infants and toddlers. Once in place, the IEP is reviewed on an annual basis, or more frequently as needed. Parents are given a copy of the IEP.

#### Special Education Placement

The student's placement in a special education program is dependent on the student's educational needs as outlined in the Individual Education Program (IEP). To the maximum extent appropriate, students with disabilities are educated with students who are not disabled. Special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. Determination of a student's educational placement will be made by the IEP team.

Written notice shall be given to parents a reasonable time before the school district: 1. Proposes to initiate or change the identification, evaluation, verification or educational placement of a child or the provision of a free appropriate public education; or 2. Refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child.

#### More Information

Anyone interested in obtaining a copy of the District's special education policy, the Parental Rights in Special Education brochure, or a copy of the Nebraska Department of Education Rule 51 (special education regulations and complaint procedures) or Rule 55 (special education appeal procedures) may contact the Superintendent. A notice of parental rights, Rules 51 and 55 and more information about special education are also available at the Nebraska Department of Education's website: <https://www.education.ne.gov/sped/>

### Section 2 Students with Disabilities: Section 504

Accommodations and related services are made available to students with disabilities under Section 504 of the Rehabilitation Act of 1973.

Under Section 504, parents have the following rights:

1. Have your child take part in, and receive benefits from, public education programs without discrimination because of your child's disability.
2. Have the school district advise you of your rights under federal law.
3. Receive notice with respect to identification, evaluation or placement of your child.
4. Have your child receive a free appropriate public education. This includes the right to be educated with non-disabled students to the maximum extent appropriate. It also includes the right to have the school district make reasonable accommodations to allow your child an equal opportunity to participate in school and school-related activities.
5. Have your child receive services and be educated in facilities which are comparable to those provided to students without disabilities.
6. Have your child receive an individualized evaluation and receive special education and related services if your child is found eligible under Section 504.
7. Have evaluation, eligibility, educational and placement decisions made based on a variety of information sources and by persons who know your child and who are knowledgeable about the evaluation data and placement options.
8. Have transportation provided to and from an alternative placement setting at no greater cost to you than would be incurred if your child were placed in a program operated by the school district.
9. Have your child be given an equal opportunity to participate in nonacademic and extracurricular activities offered by the school district.
10. Examine all relevant records relating to decisions regarding your child's identification, evaluation and placement. Obtain copies of

educational records at a reasonable cost on the same terms as records are provided students without a disability unless the fee would effectively deny you access to the records.

11. Receive a response from the school district to reasonable requests for explanations and interpretations of your child's records.
12. Request amendment of your child's educational records if there is reasonable cause to believe that they are inaccurate, misleading or otherwise in violation of the privacy rights of your child. If the school district refuses this request, it shall notify you within a reasonable time, and advise you of the right to a hearing.
13. File a local grievance in accordance with school policy.
14. Request an impartial hearing related to decisions regarding your child's identification, eligibility, and educational program or placement with opportunity for participation by the person's parents or guardian and representation by counsel, and a review procedure. This is provided in the local grievance procedure.

### Section 3 Guidance Services

Elm Creek Public Schools employs a counselor for the purpose of assisting with the District's assessment program, with students post secondary planning, and scheduling. Additionally, the counselor provides students with a safe place to discuss problems and strategies to resolve conflicts. If you wish to see a counselor, stop by the counselor's office and make arrangements for an appointment.

### Section 4 Health Services

#### Student Illnesses

School health personnel will notify parents when a student needs to be sent home from school due to illness. Conditions requiring a student be sent home include: Temperature greater than 100°F., vomiting, diarrhea, unexplained rashes, live head lice (see "Guidelines for Head Lice" below), or on determination by the school nurse that the child's condition prevents meaningful participation in the educational program, presents a health risk to the child or others, or that medical consultation is warranted unless the condition resolves.

Please include emergency daytime phone numbers on your child's enrollment card so that you can be reached if your child becomes ill or injured while at school. Please also inform your school health office staff of health-related information you feel is important for your student's success in the classroom and/or safety at school.

#### Guidelines for Administering Medication

Whenever possible, your child should be provided medications by you outside of school hours. In the event it is necessary that your child take or have medication available at school, the parents/guardians must provide a signed written consent for the child to be given medication at school. A consent form is available at the main office. If your child has asthma or diabetes and is capable of self-managing his or her health condition, contact the office to develop a self-management plan. Medications must be provided to the school by the parent/guardian in the pharmacy-labeled or manufacturer-labeled bottle. Repackaged medications will not be accepted. All medications also require a physician's authorization to be given at school. Prescription medications that are to be given for a period longer than two weeks need to have a written prescription from the prescribing doctor on file in the nurse's office (e.g. inhalers, ADHD meds given at school, etc).

#### Asthma and Allergic Reaction Protocol (Elm Creek Public Schools BOE Policy 5601)

The District will adopt and implement the Emergency Response to Life-Threatening Asthma or Systemic Allergic Reactions (Anaphylaxis Protocol as required by the Nebraska Department of Education.

The Superintendent, in conjunction with licensed health personnel, shall establish administrative regulations for the implementation of this policy. The regulations established shall comply with NDE rules regarding the protocol to follow in case of a life-threatening asthma or systemic allergic reaction and use of an EpiPen and albuterol. Also, these shall ensure that each school building will procure and maintain the equipment and medication necessary under the protocol in the case of any student or school staff emergency. Staff training in using the protocol shall occur periodically. Records of such training and occurrences of administering medication under the protocol shall be maintained.

The Emergency Protocol shall be implemented, and the equipment and medication necessary to implement the Emergency Protocol shall be maintained, at each school building while school is in session. For purposes of the Emergency Protocol, the phrase "while school is in session" is defined as the core instructional school day. The "core instructional school day" is defined as that portion of each day school is in session during which teachers are on duty to provide and students are scheduled to receive instruction in the School District's curriculum, generally beginning at 8:00 a.m. and ending at 3:35 p.m. The Emergency Protocol shall not be required to be implemented other than in the school buildings while school is in session, and as such is not required to be implemented at extracurricular activities, on school buses, or during school field trips. Implementation of the Emergency Protocol at such non-mandatory times or places shall be made at the discretion of the administration and shall be subject to the availability of the employees designated or trained in implementation of the Emergency Protocol and the availability of the necessary equipment and medication at such times or places.

#### School Health Screening

?????

#### Physical and Visual Examination

?????

#### Immunizations

State law requires that all children must be adequately immunized with a minimum of 3 DTP (Diphtheria, Tetanus, Pertussis), 3 OPV (Oral Polio Vaccine) and/or IPV (Injectable Polio Vaccine), 2 MMR (Measles, Mumps & Rubella after 12 months of age), and chicken pox vaccine by the first day they enroll in school. All 7th grade students and out-of-state transfers must also have three (3) Hepatitis B. Students must show proof of immunization, and those who do not meet the requirements will not be permitted to begin school.

Exemptions are as follows: 1. Medical exceptions for health reasons substantiated by a signed statement from a physician. 2. Religious conflict substantiated by a signed affidavit from the student or the student's legal guardian, if the student is a minor. 3. Students can enroll with verification of having received 1 DTP, MMR and Hepatitis B. Failure to complete the series as scheduled will result in immediate removal from school until the requirement has been met. Unimmunized students may be excluded from school in the event of a disease outbreak.

#### Birth Certificate Requirements

State law requires that a certified copy of a student's birth certificate be provided within 30 days of enrollment of a student in school for the first time. You may obtain a certified copy from the Bureau of Vital Statistics in the state in which your child was born. Assistance in obtaining birth certificates may be obtained from Health Records Management, P.O. Box 95065, Lincoln, NE 68509-5065. There is a fee per certificate.

Please note: The document parents receive from the hospital looks like a birth certificate, but it is not a certified copy. A certified copy has the raised seal of the state of Nebraska on it and is signed by the director of vital statistics.

If a birth certificate is unavailable, other reliable proof of a student's identity may be used. These documents would include naturalization or immigration documents showing date of birth or official hospital birth records, a passport, or a translation of a birth certificate from another country. The documents must be accompanied by an affidavit explaining the inability to produce a copy of the birth certificate.

#### Guidelines for Head Lice

The following guidelines are in place to: better control a nuisance condition; reduce absenteeism due to head lice; and involve parents as partners with the school in control efforts:

1. Children will be sent home from school for live head lice. In the event a child has two (2) cases of live lice in a semester, the child will be sent home until free of both live lice and nits (eggs).
2. The school nurse or other office staff will provide written treatment information and instructions, including how to check and identify head lice\*.
3. A child who is sent home from school for head lice should miss no more than two (2) school days.
4. A child who has been sent from school due to head lice must come to the office for inspection before returning to class.
5. A child who returns to class with nits (eggs) will be checked again in 7-10 days.
6. Families are encouraged to report head lice to the school health office.
7. Classroom-wide or school-wide head checks will be conducted as needed in order to control the condition at school.

\*Nit removal will be emphasized for effective management of the condition. For more information call the nurse at your child's school.

## **Section 5                      Transportation Services**

Transportation to and from school is provided to students in accordance with law and Board policy. Students may also be provided transportation on field trips and when participating in school activities. Students are expected to follow the behavioral expectations for riding school buses.

#### Behavior on School Buses

General Conduct Rules Apply: While riding school buses you are expected to follow the same student conduct rules which apply when you are on school property or attending school activities, functions or events. There are additional special conduct rules for riding school buses. These rules also apply to riding other school vehicles.

Special Conduct Rules for Riding School Buses:

1. Rules for Getting On and Off the Bus
  - a. Be on time to be picked up. As a general rule, get to your bus stop five (5) minutes before your scheduled pick up time. If you miss the bus, immediately return to your home and tell your parents so they can get you to school.
  - b. While waiting for the bus, stay at least five (5) feet away from the street, road or highway. Wait until the bus comes to a complete stop before approaching the bus.
  - c. You may exit the bus only at your approved destination (your school or your approved bus stop). Exit the bus as directed by the driver. Do not run.
  - d. If you must cross the street after exiting the bus, always cross in front of the bus where the driver can see you. Wait for the driver to signal to you before crossing the street.
2. Rules on the Bus
  - a. Be respectful of the bus driver. Immediately follow all directions of the driver and any paraeducator or adult on the bus.
  - b. Sit in your seat facing forward. Use seat belts in vehicles in which they are available.
  - c. Talk quietly and use appropriate language.
  - d. Keep all parts of your body inside the bus.
  - e. Keep your arms, legs and belongings to yourself.
  - f. No fighting, harassment, bullying, intimidation or horseplay.
  - g. Do not throw any object.
  - h. No eating, drinking, use of tobacco, alcohol, drugs or flammables.
  - i. Do not bring any weapon (real or imitation) or dangerous objects on the school bus.
  - j. Do not damage the school bus.

Getting the Driver's Assistance: If you need assistance from the driver, wait until the bus is at a full stop. If you are close enough, tell the driver what you need. If you are too far away for the driver to hear you, ask a student in front of you to get the driver's attention. If necessary, walk up to the driver, while the bus is at a full stop. If you need immediate assistance for an emergency, take all action needed to safely get the help of the driver.

Consequences for Rule Violations: Consequences for school bus misconduct may include restriction or suspension of bus privileges and other

disciplinary measures, up to and including expulsion from school.

## **Section 6 Admission Requirements/Exempt Students/Option Enrollment**

Students shall be admitted to the school district who are:

1. legal residents of the school district or otherwise entitled by Nebraska law to attend the schools of the district tuition-free;
2. approved for option enrollment pursuant to policy;
3. approved as a foreign exchange student pursuant to policy; or
4. legal residents of a district that has contracted with this district for their educational services.
5. statutorily entitled to attend the schools of the district on a part-time basis subject to this policy and the regulations of the district.

Students who seek to enroll in the district must comply with each board policy, state statute and regulation that applies to their situation.

### [Full Time and Part-time Enrollment Policy \(5004\)](#)

#### Enrollment of Expelled Students

If a student has been expelled from any public school district in any state, and the student has not completed the terms or time period of expulsion, the student shall not be permitted to enroll in this school district until the expulsion period from such other school has expired, unless the school board of this district in its sole and absolute discretion upon a proper application approved by a majority vote the enrollment of such student prior to expiration of the expulsion period. As a condition of enrollment, the school board may require attendance in an alternative setting, class or educational program pursuant to Nebraska law until the terms or time period of the original underlying expulsion are completed. A student expelled from a private, denominational, or parochial school or from any public school in another state, will not be prohibited from enrolling in the public school district in which the student resides or in which the student has been accepted pursuant to the enrollment option program for any period of time beyond the time limits place on expulsion, pursuant to the Student Discipline Act, or for any expulsion for an offense for which expulsion is not authorized for a public school student under such Act. For purposes of this policy, the term expulsion or expelled includes any removal from any school for a period in excess of twenty (20) school days.

Students considering transferring to a different school must keep in mind the May 1 deadline as set by the Nebraska School Activities Association. The NSAA has strict rules which govern student eligibility; not only at their home school district, but also at the district they intend to transfer to. # Students Rights, Conduct, Rules and Regulations

## Section 1 Student Conduct-Discipline Policies/Procedures

Student Conduct and Discipline Policies ([ECPS Board of Education Policy 5101](#)) Development of Uniform Discipline System. It shall be the responsibility of the Superintendent to develop and maintain a system of uniform discipline. The discipline which may be imposed includes actions which are determined to be reasonably necessary to aid the student, to further school purposes, or to prevent interference with the educational process, such as (without limitation) counseling and warning student, parent contacts and parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling upon written consent of the parent or guardian, or in-school suspension. The discipline may also include out-of-school suspension (short-term or long-term) and expulsion.

## Section 2 Discipline Definitions

### Short-Term Suspension

Short-Term suspensions may range from one (1) to five (5) days. The following process will apply to short-term suspensions.

- The Principal or the Principal's designee will make a reasonable investigation of the facts and circumstances. A short-term suspension will be made upon a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
- Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
- Within 24 hours or such additional time as is reasonably necessary following the suspension, the Principal or administrator will send a written statement to the student and the student's parent or guardian describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken.
- An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal or administrator ordering the short-term suspension before or at the time the student returns to school. The Principal or administrator shall determine who in addition to the parent or guardian is to attend the conference.
- A student who on a short-term suspension shall not be permitted to be on school grounds without the express permission of the Principal.

Students may be excluded by the Principal or the Principal's designee from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

- Conduct that constitutes grounds for expulsion, whether the conduct occurs on or off school grounds; or
- Other violations of rules and standards of behavior adopted by the Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

### Long-Term Suspensions

A long-term suspension means an exclusion from school and any school functions for a period of more than five (5) school days but less than twenty (20) school days. A student who on a long-term suspension shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends a long-term suspension. The notice will include a description of the procedures for long-term suspension; the procedures will be those set forth in the Student Discipline Act.

### Expulsion

Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred

- within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or
- within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or
- unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein.

Such action may be modified or terminated by the school district at any time during the expulsion period. A student who has been expelled shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends an expulsion. The notice will include a description of the procedures for expulsion; the procedures will be those set forth in the Student Discipline Act.

### Suspensions Pending Hearing

When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the superintendent, the student may be suspended by the principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if no hearing is requested or, if a hearing is requested, the date the hearing examiner makes the report of his or her findings and a recommendation of the action to be taken to the superintendent, if the principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of

- interference with an educational function or school purpose or
- a personal injury to the student himself or herself, other students, school employees, or school volunteers.

### Summer Review

Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year in accordance with law.

### Alternative Education

Students who are expelled may be provided an alternative education program that will enable the student to continue academic work for credit toward graduation. In the event an alternative education program is not provided, a conference will be held with the parent, student, the Principal or another school representative assigned by the Principal, and a representative of a community organization that assists young people or that is involved with juvenile justice to develop a plan for the student in accordance with law.

### Suspension of Enforcement of an Expulsion

Enforcement of an expulsion action may be suspended (i.e., "stayed") for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect. As a condition of such suspended action, the student and parents will be required to sign a discipline agreement.

### Students Subject to Juvenile or Court Probation

Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal's designee shall meet with the student's probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal's designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.

## **Section 3 Student Conduct Expectations**

Students are not to engage in conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in, or material interference with, any school function, activity, or purpose or interfere with the health, safety, well being or rights of other students, staff or visitors.

The following conduct has been determined by the Board of Education to have the potential to seriously affect the health, safety or welfare of students, staff and other persons or to otherwise seriously interfere with the educational process. Such conduct constitutes grounds for long-term suspension, expulsion, or mandatory reassignment, and any other lesser forms of discipline. The conduct is subject to the consequence of long-term suspension, expulsion, or mandatory reassignment when it occurs on school grounds, in a vehicle owned, leased, or contracted by the school and being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or an employee's designee, or at a school-sponsored activity or athletic event.

- Willfully disobeying any reasonable written or oral request of a school staff member, or the voicing of disrespect to those in authority.
- Use of violence, force, coercion, threat, intimidation, harassment, or similar conduct in a manner that constitutes a substantial interference with school purposes or making any communication that a reasonable recipient would interpret as a serious expression of an intent to harm or cause injury to another.
- Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, repeated damage or theft involving property, or setting or attempting to set a fire of any magnitude.
- Causing or attempting to cause personal injury to any person, including any school employee, school volunteer, or student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person shall not constitute a violation.
- Threatening or intimidating any student for the purpose of or with the intent of obtaining money or anything of value from such student or making a threat which causes or may be expected to cause a disruption to school operations.
- Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon or that has the appearance of a weapon or bringing or possessing any explosive device, including fireworks.
- Engaging in selling, using, possessing or dispensing of alcohol, tobacco (nicotine), narcotics, drugs, controlled substance, or an inhalant; being under the influence of any of the above; possession of drug paraphernalia, or the selling, using, possessing, or dispensing of an imitation controlled substance as defined in section 28-401 of the Nebraska statutes, or material represented to be alcohol, narcotics, drugs, a controlled substance or inhalant. Tobacco means any tobacco product (including but not limited to cigarettes, cigars, and chewing tobacco), vapor products (such as e-cigarettes), alternative nicotine products, tobacco product look-alikes, and products intended to replicate tobacco products either by appearance or effect. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation. The term "under the influence" has a less strict meaning than it does under criminal law; for school purposes, the term means any level of impairment and includes even the odor of alcohol or illegal substances on the breath or person of a student; also, it includes being impaired by reason of the abuse of any material used as a stimulant.

Note: The term "under the influence" for school purposes has a less strict meaning than it does under criminal law. For school purposes, the term means any level of impairment and includes even the odor of alcohol/tobacco/drugs on the breath or person of a student. Also, it includes being impaired by reason of the abuse of any material used as a stimulant. In addition, "possession" of alcohol or drugs may be

considered to have occurred for purposes of school rules if the student is in such close proximity to alcohol or drug (for example, a student being in a car where alcohol is in the back seat and no adults are present in the car) or to others who are consuming alcohol or drugs (for example, being at a student party at which other students are drinking) that school officials may reasonably determine the student was in "possession" of the items as well. Because of the complexity of this issue, "possession" will be determined on a case-by-case basis.

- Public indecency or sexual conduct.
- Engaging in bullying, which includes any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or a school employee's designee, or at school- sponsored activities or school-sponsored athletic events.
- Sexually assaulting or attempting to sexually assault any person. This conduct may result in an expulsion regardless of the time or location of the offense if a complaint alleging such conduct is filed in a court of competent jurisdiction.
- Engaging in any activity forbidden by law which constitutes a danger to other students or interferes with school purposes. This conduct may result in an expulsion regardless of the time or location of the offense if the conduct creates or had the potential to create a substantial interference with school purposes, such as the use of the telephone or internet off-school grounds to threaten.
- A repeated violation of any rules established by the school district or school officials if such violations constitute a substantial interference with school purposes.
- Truancy or failure to attend assigned classes or assigned activities; or tardiness to school, assigned classes or assigned activities.
- The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, disability, national origin, or religion.
- Dressing or grooming in a manner which is dangerous to the student's health and safety or a danger to the health and safety of others or repeated violations of the student dress and grooming standards; dressing, grooming, or engaging in speech that is lewd or indecent, vulgar or plainly offensive; dressing, grooming, or engaging in speech that school officials reasonably conclude will materially and substantially disrupt the work and discipline of the school; dressing, grooming, or engaging in speech that a reasonable observer would interpret as advocating illegal drug use.
- Willfully violating the behavioral expectations for riding school buses or vehicles.
- A student who engages in the following conduct shall be expelled for the remainder of the school year in which it took effect if the misconduct occurs during the first semester, and if the expulsion for such conduct takes place during the second semester, the expulsion shall remain in effect for the first semester of the following school year, with the condition that such action may be modified or terminated by the school district during the expulsion period on such terms as the administration may establish:
  - The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self- defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or
  - The knowing and intentional possession, use, or transmission of a dangerous weapon other than a firearm.

Knowingly and intentionally possessing, using, or transmitting a firearm on school grounds, in a school-owned or utilized vehicle, or during an educational function or event off school grounds, or at a school-sponsored activity or athletic event.

This conduct shall result in an expulsion for one calendar year. "Firearm" means a firearm as defined in 18 U.S.C. 921, as that statute existed on January 1, 1995. That statute includes the following statement: "The term 'firearm' means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device." The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing.

Additional Student Conduct Expectations and Grounds for Discipline.

The following additional student conduct expectations are established. Failure to comply with such rules is grounds for disciplinary action. When such conduct occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event, the conduct is grounds for long-term suspension, expulsion or mandatory reassignment.

Student Appearance

Students are expected to dress in a way that is appropriate for the school setting. Students should not dress in a manner that is dangerous to the health and safety of anyone or interferes with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- Clothing that shows an inappropriate amount of bare skin or underwear (midriiffs, spaghetti straps, sagging pants) or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground.
- Shorts, skirts, or skorts that do not reach mid-thigh or longer.
- Clothing, jewelry, or accessories that advertises or promotes beer, alcohol, tobacco, illegal drugs, pornography, nudity, makes sexual references or carries lewd, indecent, or vulgar double meanings.
- Clothing, jewelry, or accessories that could be used as a weapon (chains, spiked apparel) or that would encourage "horse-play" or that would damage property (e.g. cleats).
- Head-wear including hats, caps, bandanas, and scarves.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

On a first offense of the dress code, the student may call home for proper apparel. If clothes cannot be brought to school, the student will be assigned to in-school suspension for the remainder of the day. Students will not be allowed to leave campus to change clothes. Continual violations of the dress code will result in more stringent disciplinary actions, up to expulsion. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), a first offense of the dress code may result in more stringent discipline, up to expulsion.

## **Section 5 Drugs, Alcohol, Tobacco, and Electronic Nicotine Delivery Systems or Products**

### Drug-Free Schools

The District implements regulations and practices which will ensure compliance with the Federal Drug-Free Schools and Communities Act and all regulations and rules promulgated pursuant thereto. The administration shall investigate the matter. If the administrator determines there is reasonable cause to believe that a student at school has a drug prohibited by school rule or state law, they shall have the authority to conduct a search that shall include, but is not limited to, the student's locker, possessions, vehicle if on school property and person. Any item discovered in the search, which is unlawful or constitutes a violation of a school rule will be confiscated. Those items, which are unlawful to possess shall be turned over to an appropriate law enforcement agency. As an alternative to searching the student's person, the administration may contact an appropriate law enforcement agency regarding the search.

### Determining a Violation Has Occurred

- protect against unauthorized access, including so- called “hacking,” and other unlawful activities online;
- protect against unauthorized online disclosure, use, or dissemination of personal identification information of minors; and
- implement measures designed to restrict minors’ access to materials (visual or non-visual) that are harmful to minors.

### Definitions

Key terms are as defined in CIPA. “Inappropriate material” for purposes of this policy includes material that is obscene, child pornography, or harmful to minors. The term “harmful to minors” means any picture, image, graphic image file, or other visual depiction that:

- taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
- taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

### Access to Inappropriate Material

To the extent practical, technology protection measures (or “Internet filters”) shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information. Specifically, as required by the CIPA, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors. Subject to staff supervision, technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes. Inappropriate Network Usage. To the extent practical, steps shall be taken to promote the safety and security of users of the District’s online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications. Specifically, as required by CIPA, prevention of inappropriate network usage includes:

- unauthorized access, including so- called ‘hacking,’ and other unlawful activities; and
- unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

### Supervision and Monitoring

It shall be the responsibility of all members of the District staff to supervise and monitor usage of the online computer network and access to the Internet in accordance with this policy and CIPA. Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of the Superintendent and the Superintendent’s designees.

### Social Networking

Students shall be educated about appropriate online behavior, including interacting with others on social networking websites and in chat rooms, and cyberbullying awareness and response.

### Adoption

This Internet Safety Policy was adopted by the Board at a public meeting, following normal public notice.

## Section 3 Computer Acceptable Use Policy

This computer acceptable use policy is supplemental to the District's Internet Safety Policy.

### Technology Subject to this Policy

This Computer Acceptable Use Policy applies to all technology resources of the District or made available by the District. Technology resources include, without limitation, computers and related technology equipment, all forms of e-mail and electronic communications, and the internet.

### Access and User Agreements

Use of the District technology resources is a privilege and not a right. The Superintendent or designee shall develop appropriate user agreements and shall require employees, students (and their parents or guardians), and others to sign such user agreements as a condition of access to the technology resources, as the Superintendent determines appropriate. Parents and guardians of students in programs operated by the District shall inform the Superintendent or designee in writing if they do not want their child to have access. The Superintendent and designees are authorized and directed to establish and implement such other regulations, forms, procedures, guidelines, and standards to implement this Policy. The technology resources are not a public forum. The District reserves the right to restrict any communications and to remove communications that have been posted.

Acceptable Uses. The technology resources are to be used for the limited purpose of advancing the District's mission. The technology resources are to be used, in general, for educational purposes, meaning activities that are integral, immediate, and proximate to the education of students as defined in the E-rate program regulations. The following are unacceptable uses of the technology resources:

### Personal Gain

Technology resources shall not be used, and no person shall authorize its use, for personal financial gain other than in accordance with prescribed constitutional, statutory, and regulatory procedures, other than compensation provided by law.

### Personal Matters

Technology resources shall not be used, and no person shall authorize its use, for personal matters. Occasional use that the Superintendent or designee determines to ultimately facilitate the mission of the District is not prohibited by this provision. Examples of occasional use that may be determined to ultimately facilitate the mission of the

District: sending an email to a minor child or spouse; sending an email related to a community group in which an employee is a member where the membership in the community group facilitates the District's mission. This occasional use exception does not permit use by employees contrary to the expectations of their position. For example, employees may not play games or surf the net for purposes not directly related to their job during duty time; nor may students do so during instructional time. The occasional use exception also does not permit use of the technology resources for private business, such as searching for or ordering items on the internet for non-school use; or sending an email related to one's own private consulting business.

### Campaigning

Technology resources shall not be used, and no person shall authorize its use, for the purpose of campaigning for or against the nomination or election of a candidate or the qualification, passage, or defeat of a ballot question.

### Technology-Related Limitations

Technology resources shall not be used in any manner which impairs its effective operations or the rights of other technology users. Without limitation, users shall not use another person's name, log-on, password, or files for any reason, or allow another to use their password (except for authorized staff members). Users shall not erase, remake, or make unusable another person's computer, information, files, programs or disks. Users shall not access resources not specifically granted to the user or engage in electronic trespassing.

## Section 4 Unacceptable Uses

### Disclaimer

The technology resources are supplied on an "as is, as available" basis. The District does not imply or expressly warrant that any information accessed will be valuable or fit for a particular purpose or that the system will operate error free. The District is not responsible for the integrity of information accessed, or software downloaded from the Internet.

### Filter

A technology protection measure is in place that blocks and/or filters access to prevent access to Internet sites that are not in accordance with policies.

- Users shall not engage in "hacking" to gain unauthorized access to the operating system software or unauthorized access to the system of other users.
- Users shall not copy, change, or transfer any software without permission from the network administrators.
- Users shall not write, produce, generate, copy, propagate, or attempt to introduce any computer code designed to self-replicate, damage, or otherwise hinder the performance of any computer's memory, file system, or software. Such software is often called a bug, virus, worm, Trojan horse, or similar name.
- Users shall not engage in any form of vandalism of the technology resources.
- Users shall follow the generally accepted rules of network etiquette. The Superintendent or designees may further define such rules.

## Section 5 Other Policies and Laws

Technology resources shall not be used for any purpose contrary to any District policy, any school rules to which a student user is subject, or any applicable law. Without limitation, this means that technology resources may not be used:

- to access any material contrary to the Internet Safety Policy; or to create or generate any such material.
- to engage in unlawful harassment or discrimination, such as sending emails that contain sexual jokes or images.
- to engage in violations of employee ethical standards and employee standards of performance, such as sending emails that are threatening or offensive or which contain abusive language; use of end messages on emails that may imply that the District is supportive of a particular religion or religious belief system, a political candidate or issue, or a controversial issue; or sending emails that divulge protected confidential student information to unauthorized persons.
- to engage in or promote violations of student conduct rules.
- to engage in illegal activity, such as gambling.
- in a manner contrary to copyright laws.
- in a manner contrary to software licenses.

In addition to blocks and/or filters, the District may also use other technology protection measures or procedures as deemed appropriate. Notwithstanding technology protection measures, some inappropriate material may be accessible by the Internet, including material that is illegal, defamatory, inaccurate, or potentially offensive to some people. Users accept the risk of access to such material and responsibility for promptly exiting any such material. The technology protection measure that blocks and/or filters Internet access may be disabled only by an authorized staff member for bona fide research or educational purposes:

- who has successfully completed District training on proper disabling circumstances and procedures,
- with permission of the immediate supervisor of the staff member requesting said disabling, or
- with the permission of the Superintendent. An authorized staff member may override the technology protection measure that blocks and/or filters Internet access for a minor to access a site for bona fide research or other lawful purposes provided the minor is monitored directly by an authorized staff member.

### Monitoring

Use of the technology resources, including but not limited to internet sites visited and e-mail transmitted or received, is subject to monitoring by the administration and network administrators at any time to maintain the system and insure that users are using the system responsibly, without notice to the users. Users have no privacy rights or expectations of privacy with regard to use of the District's computers or Internet system. All technology equipment shall be used under the supervision of the Superintendent and the Superintendent's designees.

### Sanctions

Violation of the policies and procedures concerning the use of the District technology resources may result in suspension or cancellation of the privilege to use the technology resources and disciplinary action, up to and including expulsion of students and termination of employees. Use that is unethical may be reported to the Commissioner of Education. Use that is unlawful may be reported to the law enforcement authorities. Users shall be responsible for damages caused and injuries sustained by improper or non-permitted use.

## Section 6 Procedures For The Use Of Electronic Resources Classroom Use

Classroom use is defined as student use of Internet resources under the direction and supervision of a teacher or compacting paraprofessional whether in the classroom, computer lab or media center. Students are to abide by the procedures and policies set in the Acceptable Use Policy. Students are to act in a considerate and responsible manner when using electronic resources and only use these resources when given explicit permission by the classroom teacher or paraprofessional.

## Section 7 Photographs and Recordings

Photographs and Recordings that are made without the prior consent of individuals being photographed or recorded outside of public areas, may be punishable up to expulsion.

## Section 8 Consequences

Students may be subject to a series of consequences should they choose not to follow the established guidelines. The consequences of unacceptable use are:

- **Restricted access on their school issued device**
- Suspension and/or termination of electronic resource use privileges.
- And/or additional disciplinary action as determined at the building level in line with existing practice regarding unacceptable language and/or behavior.
- And/or referral to law enforcement authorities for criminal or civil prosecution.

### Independent Use

Independent use is defined as student use of the Internet during the school day for independent study and or research. Follow all of the guidelines established for classroom use. Obtain parental permission prior to seeking independent access to electronic resources. Recognize that classroom work takes precedence over independent use. Understand that independent use may be restricted or revoked if a student's academic performance is unsatisfactory.

## Section 9 Cellphone, smartwatch, and other personal electronic device expectations

Cell phones and smartwatches are permitted at school as long as they are silenced or otherwise kept from being a distraction to learning in the classroom. Teachers and other staff members have collection locations in each room. Students are expected to place their cell phone in that location at the beginning of each class period. All other electronic devices are not allowed and staff members can confiscate these devices if they become a distraction to learning in any way.

In the event of an electronic device becoming a distraction, the following will occur:

### First offense

Students' phones will be held by the teacher until the end of the day, and the student will be issued a detention of 30 minutes to be served with that teacher prior to the phone being returned. A phone call will be made by the teacher to the parent to inform them of this issue. Phone will be returned to the student at the conclusion of their 30 minute detention.

### Any subsequent offense

Students' phones will be held by the teacher until the end of the day, and the student will be issued **in school suspension**. A phone call will be made by the teacher to the parent to inform them of this issue and the phone will be turned back to a parent or guardian.

Cell phones may only be used outside of the school before and after school hours and inside the school during that student's lunch period, passing periods, or if directed for instructional purposes by their teacher. Cell phones are not to be used in restrooms or locker rooms.

**Personal electronic devices including, but not limited to, Ipads, tablets, computers, laptops, etc are not allowed at school without prior permission from administration.**

# Extra-Curricular Activities - Rights, Conduct, Rules and Regulations

## Section 1 Extra-Curricular programs

Elm Creek Public Schools provides a comprehensive, co-curricular activity program for all students grades 7-12. The activity programs will always be in conformity with the objectives of the school district and serve to enrich the curriculum. The administration of activities will be in accordance with the policies of Elm Creek Public Schools, by-laws of the Fort Kearney Conference, and the guidelines and regulations of the Nebraska School Activities Association of which we are a member.

## Section 2 Activity Philosophy

Elm Creek Schools believes that extra-curricular activities are an extension of the classroom. They complement and enhance the educational endeavors of our students. Activities are considered an integral part of the school's program of education and provide experiences that will help boys and girls physically, mentally and emotionally. The element of competition and winning, though it exists, is controlled to the point it does not determine the nature or success of the program. This is considered to be educationally and psychologically sound because of the training it offers for living in a competitive society. Students are stimulated to want to win and excel, but the principles of good sportsmanship prevail at all times to enhance the educational values of contests. We believe that participation in activities, both as a player and as a student spectator, is an integral part of the students' educational experiences. Such participation is a privilege that carries with it responsibilities to the school, to the team, to the student body, to the community and to the students themselves. In their play and their conduct, students are representing all of these groups. Such experiences contribute to the knowledge, skill and emotional patterns that they possess, thereby making them better people and citizens. We will strive to have a common focus of having a positive, lasting IMPACT on the lives of our students.

### Safety

The district's philosophy is to maintain an activities program that recognizes the importance of the safety of the participants. To ensure safety, participants are required to become fully familiar with the dangers and safety measures established for the activity in which they participate, to adhere to all safety instructions for the activity in which they participate, and to exercise common-sense. In addition, the school requires that activity team members travel to and from out-of-town events as a unit. Any exceptions to this rule must be approved by both the parents and the coach/sponsor and should be done in writing prior to the departure of the event or prior to releasing the student to the parent/guardian. The note should be given to the Principal, Activities Director, or their designee. **Only those people directly involved with the activity will be allowed to travel in the school vehicle.**

### Warning for Participants and Parents

The purpose of this warning is to bring your attention to the existence of potential dangers associated with athletic injuries. Participation in any intramural or athletic activity may involve injury of some type. The severity of such injury can range from minor cuts, bruises, sprains and muscle strains to more serious injuries to the body's bones, joints, ligaments, tendons, or muscles, to catastrophic injuries to the head, neck and spinal cord. On rare occasions, injuries can be so severe as to result in total disability, paralysis or death. Even with appropriate coaching, appropriate safety instruction, appropriate protective equipment and strict observance of the rules, injuries are still a possibility.

## Section 3 Activity Fees/Pre-Participation Requirements

At this time, Elm Creek Public Schools does not require a fee for participation in activities. However, an all season pass can be purchased by any student at the cost of \$30. This will allow for students to attend any and all games at home (exceptions FKC tournament, District/Playoff Events)

All participants must complete the following requirements before they begin practice:

1. Return a [medical physical card](#) to the office
2. Complete a [Student and Parent Medical Release - Consent form](#)
3. Complete the [NSAA consent](#) form
4. IMPACT concussion test for specific activities
5. Sign (both parent and student) Handbook agreement form

## Section 4 Activity Code of Conduct

This activity code of conduct is supplemental to the Elm Creek Public School student code of conduct which is detailed in this handbook and any action taken hereunder may be in addition to any action under the student code of conduct said policy.

### Grounds for Extracurricular Discipline

The grounds for suspension from practices, participation in interscholastic competition, or other participation in extracurricular activities and competitions are set forth below. In becoming familiar with the conduct rules for extracurricular activities, participants need to remember that they are not only representing themselves, but also, their school and community in all of their actions. Special conduct rules exist for the reasons that:

### Participants in Activities Assume Responsibility for Leadership and are Representatives of Our School

Participants in extra-curricular activities assume a leadership role. The student body, the community and other communities judge our school on the students' conduct and attitudes, and how they contribute to our school spirit and community image. The students' performance and

devotion to high ideals make their school and community proud.

### Activities are a Privilege

Extra-curricular activities have an important place in the educational program of the Elm Creek Public School district. It is a privilege for the students who choose to participate. Students who participate and are accepted into the program are expected to demonstrate cooperation, patience, pride, character, self-respect, self-discipline, teamwork, sportsmanship, and respect for authority. It is the belief that accepting responsibility for one's actions is a part of that philosophy.

The conduct rules apply to conduct of the student, regardless of whether the conduct occurs on and off school grounds. (If the conduct occurs on school grounds, at a school function or event, or in a school vehicle, the student may also be subject to further discipline under the general student code of conduct). The conduct rules apply to conduct which occurs at any time during the school year, and also includes the time frame which begins with the official starting day of the fall sports season established by the NSAA and extends to the last day of the spring sports season established by the NSAA, whether or not the student is a participant in an activity at the time of such conduct.

1. Willfully disobeying any reasonable written or oral request of a school staff member, or the voicing of disrespect to those in authority.
2. Use of violence, force, coercion, threat, intimidation, or similar conduct in a manner that constitutes a substantial interference with school purposes.
3. Sexual assault or attempting to sexually assault any person.
4. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, or repeated damage or theft involving property.
5. Causing or attempting to cause personal injury to a school employee, to a school volunteer, to any student, or to any other person.
6. Threatening or intimidating any student for the purpose of, or with the intent of, obtaining money or anything of value from such student.
7. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon.
8. Engaging in the selling, using, possessing or dispensing of alcoholic beverages, tobacco, narcotics, drugs, controlled substance, inhalants (including vapor products) or being under the influence of any of the above; or possession of drug paraphernalia.

Note: The term "under the influence" for school purposes has a less strict meaning than it does under criminal law. For school purposes, the term means any level of impairment and includes even the odor of alcohol/tobacco/drugs on the breath or person of a student. Also, it includes being impaired by reason of the abuse of any material used as a stimulant. In addition, "possession" of alcohol or drugs may be considered to have occurred for purposes of school rules if the student is in such close proximity to alcohol or drug (for example, a student being in a car where alcohol is in the back seat and no adults are present in the car) or to others who are consuming alcohol or drugs (for example, being at a student party at which other students are drinking) that school officials may reasonably determine the student was in "possession" of the items as well. Because of the complexity of this issue, "possession" will be determined on a case-by-case basis.

1. Engaging in the selling, using, possessing, or dispensing of an imitation controlled substance as defined in section 28-401, of the Nebraska statutes, or material represented to be alcoholic beverages, narcotics, drugs, controlled substances, electronic nicotine delivery systems or products, or inhalants.
2. Truancy or failure to attend assigned classes or assigned activities.
3. Tardiness to school, assigned classes or assigned activities.
4. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, national origin, or religion.
5. Public indecency.
6. Repeated violation of any of the rules adopted by the school district or the school.
7. Engaging in any unlawful activity as determined by the United States or the State of Nebraska.
8. Dressing in a manner wherein such dress is dangerous to the student's health and safety or to the health and safety of others or is distracting or indecent to the extent that it interferes with the learning and educational process.
9. Willfully violating the behavioral expectations for those students riding Elm Creek Public Schools buses.
10. The knowing and intentional possession, use, or transmission of a firearm or other dangerous weapon in a place where such items are prohibited.
11. The knowing and intentional use of force in causing, or attempting to cause, personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary.
12. Failure to report for the activity at the beginning of each season; reporting for one activity may count as reporting on time if there is a change in activity within the season approved by the coach or the supervisor.
13. Failure to participate in regularly scheduled classes on the day of an athletic/activity event.
14. Failure to attend all scheduled practices and meetings. If circumstances arise to prevent the participant's attendance, the coach will determine the validity of the reason. Every reasonable effort should be made to notify the coach or supervisor prior to all missed practices or meetings.
15. All other reasonable rules or regulations adopted by the coach or supervisor of an extracurricular activity shall be followed, provided that participants shall be advised by the coach or supervisor of such rules and regulations by written handouts or posting on bulletin boards prior to the violation of the rule or regulation.
16. Failure to comply with any rule established by the Nebraska School Activities Association, including, but not limited to, the rules relating to eligibility.
17. The NFHS Sports Medicine Advisory Committee strongly opposes the use of dietary supplements for the purpose of obtaining a

competitive advantage (November 21, 2014). Elm Creek Public Schools discourage the use of these supplements, rather ECPS encourages a balanced diet to obtain the necessary nutrition to compete at the highest level. It is ultimately the parents decision to allow their son/daughter to use dietary supplements but the school district will not allow students to possess or consume them at school. Supplements will be prohibited on ECPS grounds.

18. Any violation of any other school rule, requirement, coach/sponsor rule, or lawful directive of any sponsor, coach, administrator, or other district staff member.

### Hazing

The School District of Elm Creek believes that all individuals should be treated with respect and dignity. Students should be able to participate in school-sponsored programs in an environment free from any behavior that is intimidating, hostile, offensive, or dangerous. Students found to be in violation of this policy are subject to the Activity Code of Conduct, as well as all other applicable school policies.

### Nebraska Code 28-311.06 defining Hazing:

(1) For purposes of this section and section 28-311.07: (a) Hazing shall mean any activity by which a person intentionally or recklessly endangers the physical or mental health or safety of an individual for the purpose of initiation into, admission into, affiliation with, or continued membership with any organization as defined in subdivision (1)(b) of this section. Such hazing activity shall include whipping, beating, branding, forced and prolonged calisthenics, prolonged exposure to the elements, forced consumption of any food, liquor, beverage, drug, or harmful substance not generally intended for human consumption, prolonged sleep deprivation, or any brutal treatment or the performance of any unlawful act which endangers the physical or mental health or safety of any person; and (2) It shall be unlawful to commit the offense of hazing. Any person who commits the offense of hazing shall be guilty of a Class II misdemeanor.

### Drug (including tobacco and electronic nicotine delivery systems or products) and Alcohol Violations

Guidelines for reporting and violations of this nature are described on pages 27 and 28 of this document.

### Procedures for Extracurricular Discipline

Students may be suspended by the Principal or the Principal's designee from practices or participation in interscholastic competition or participation in extracurricular activities for violation of rules and standards of behavior adopted by the Elm Creek Public Schools Board of Education or the administrative staff of the school. The following procedures will be followed with regard to suspension:

1. The school official(s) considering the suspension will make a reasonable investigation of the facts and circumstances and determine whether the suspension will help the student or other students, further school purposes, or prevent an interference with school purposes.
2. Prior to the suspension, the student is to be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the school has, and be given the opportunity to explain the student's version of the facts.
3. If the student is not readily available to meet with the school official for this purpose before the suspension is to begin, then the suspension may be imposed at that time so long as the opportunity for the student to hear the charges and evidence and for the student to tell his or her side of the story occurs as soon as reasonably practicable. An effort to schedule a meeting for this purpose should be made by the student and the student's parent or guardian as well. Given the fact that extracurricular activity suspension actions at times need to be taken outside the regular school day, a telephone conference may be used to give the student the opportunity to provide the student's position.
4. Within two school days or such additional time as is reasonably necessary following the suspension, the Principal or Principal's designee will send a written statement to the student and the student's parents, or guardian describing the student's conduct, misconduct or violation of the rule or standard and the reason for the action taken and the right to a hearing upon request on the specified charges.
5. An opportunity will be afforded the student, parents, or guardian of the student, at their request, to confer on an informal basis with regard with the school official who has imposed the suspension and to give that school official any further information in the student's defense.
6. If the student or student's parents or guardian are not satisfied with the determination of the school official, an informal hearing may be requested before the Superintendent. A form to request such a hearing must be signed by the parent or guardian will either be provided with the initial notice letter or be made available in the Principal's office. This request must be received by the building principal within five days of receiving the initial written notice of suspension.
7. If a hearing is requested, it shall be held within ten calendar days of the request. The Superintendent will notify the participants of the time and place of the hearing within five days of receiving the request. There will be no stay of the penalty imposed pending an appeal.
8. Upon conclusion of the hearing, a written decision will be rendered within five school days. The written decision will be mailed or otherwise delivered to the participant, parent or guardian. A record of the hearing (copies of documents provided at the hearing and a tape recording or other recordation of the hearing itself) shall be kept by the school.
9. Nothing contained in this regulation shall prevent the participant, parents, guardian or representative from discussing and settling the matter with the appropriate school personnel at any stage.

During a suspension period, students will not be allowed to practice for, participate in, or attend a school activity.

## Section 5 Academic Grade Standards for Activities Eligibility

Participation in extra-curricular school activities is encouraged and desirable for all students. At the same time, the principal mission and responsibility for each student is to establish a firm academic foundation. A student participating in extra-curricular school activities must therefore adhere to the following academic guidelines.

### Eligibility

The school will adhere to the rules of the Nebraska Schools Activities Association, of which we are a member, with regard to eligibility for participation in extracurricular activities. Complete rules will be posted on a bulletin board and are included in this [NSAA eligibility document](#).

### Maintain passing grades in all classes - Academic Eligibility

Eligibility is checked every week, usually on Wednesday at 12:00 PM, beginning the start of the third week of each term. If a student is passing all enrolled courses, s/he is eligible, academically, to participate. If a student is failing any (1 or more) class(es), they will be placed on a warning list for the first week that a grade is failing. Names will remain on the list from one week to the next week. If a student is failing the same class for a second consecutive week, they will be deemed ineligible. If a student is ineligible, they may become eligible to participate by coming in before school or after school to do the work necessary to earn a passing grade. Once all grades are passing, a student will be eligible to participate immediately. Students will be required to attend essential time while grades are failing.

Students who are academically ineligible cannot travel with any team, suit up for any event, or participate in any special school activity (such as homecoming or prom). Activity practice is permitted, however, teachers or coaches/sponsors may require students to stay after school to complete missing work. Practice is secondary to completing necessary course work.

### Eligibility requirements shall not apply to:

- (A) Instructional field trips, which are a part of the scheduled course learning experience;
- (B) Activities or events, which are a part of the students' grade requirements.

### Attendance and Academics

Student participants are expected to apply themselves academically by following these expectations:

1. Attend school regularly and show evidence of sincere effort towards scholastic achievement.
2. Be on time for all scheduled practices, contests and departure for contests. In the event a participant is unable to attend a practice or contests he/she should contact the coach or sponsor in advance.
3. **A full day of attendance, the day of a contest or practice, is required to be eligible for the contest or practice on that day.** Arrangements in advance for extenuating circumstances, such as doctor/dentist appointments, funerals or other activities, can be made with the building Principal in writing. Every attempt should be made to be in attendance the day of a contest. Sleeping in to rest up for the game will not be considered an extenuating circumstance, nor will going home ill and then returning to play in the contest later that day.
4. Appearance: Participants will dress appropriately for the activity in which they are involved and will at all times maintain a neat, clean and well groomed appearance.

## Section 6 Team Selection, Playing Time, Conflicts, and Transportation

**“Team selection”** and **“playing time”** decisions are the responsibility of the individual coach or sponsor of the activity.

Consistent, however, with the purpose of the activities program, the coaches and sponsors shall follow the following established guidelines for team selection and playing time decisions, along with such other guidelines as each individual coach and sponsor may develop which are not inconsistent with these established guidelines:

1. Student participants must demonstrate that they can and will represent themselves and their school in a manner that reflects the development of high ideals and appropriate values, which shall include good citizenship in the school and in the community.
2. Student participants must demonstrate that they can make the activity program more successful, both from a standpoint of competitive success and success in promoting a positive school spirit. Characteristics for purposes of these criteria include the student's: (1) talent or skill, (2) desire to improve the student's own skills or talents as well as those of others in the activity, and (3) attitude of respect towards teammates, the coach, the school, and the community.
3. At the reserve level, the emphasis will be on fundamental skill development and teamwork. At the junior varsity level, the emphasis will be on preparation for varsity competition. However, coaches will determine the amount of playing time for individual athletes.
4. When the situation arises where a student is involved in two school activities and the schedules conflict, the administration will make the final determination in regards to which event the student will participate. Some of the factors that will be considered are: the level of competition ex. varsity versus non-varsity; importance of competition ex. state versus districts versus conference versus regular season; the type of event ex. academic versus athletic; student's role on the team; coach or sponsor's input; student's input.
5. Transportation will be provided by the District for all team members and student managers (if traveling) when a team is participating. Students are expected to ride school transportation to and from all school-sponsored activities. In the event of extenuating circumstances (2 events in one day with overlapping time, illness, or family death), if a student needs to ride home with parents, arrangements should be made ahead of time. Students may not drive themselves to or from activities.

### General Lettering Criteria and Post-Season Awards

Lettering in a school activity is for those participants who have met stated levels of performance. Each time an individual letters at the high school level, they will be awarded a letter certificate by the coach of that activity. The first time, and only the first time, that an individual letters in any sport at the Sr. High level, s/he will be awarded by the coach of that sport, the standard chenille letter and a pin representative of the activity. For each additional letter, participants will be awarded a bar to place below their pin.

These general considerations govern lettering in Elm Creek activities:

1. The participant must be in good standing (member of the organization) at the end of the season to receive a letter.
2. Participants injured and who must drop out of a school activity, may be given special consideration.
3. Sponsors who believe there are special conditions or unusual situations (other than alcohol, tobacco or drug and/or criminal activity suspensions) for a participant s/he may letter that participant.
4. Students who participate in an activity for four years, may letter in that activity.
5. Students must participate in 25% of the varsity contests, or score in a major Track and Field meet. Coaches may use discretion for seniors who have met all criteria with the exception of the participation requirement.
6. A sponsor may revoke a letter for disciplinary reasons.
7. A violation of team training rules prohibits an athlete from lettering.

## Section 7 Relationships Between Parents and Coaches/Sponsors

Both parenting and coaching are very difficult vocations. By establishing an understanding between coaches and parents, both are better able to accept the actions of the other and provide a more positive experience for everyone.

Parents have the right to know the expectations placed on them and their children. Coaches and sponsors have the right to know that if parents have a concern, they will discuss it with the coach at the appropriate time and place. Following a contest is not an appropriate time or place for this conversation. Please abide by the standard 24 hour rule, do not make contact with the coach until 24 hours after the game/contest. A coach or sponsor shall not be approached at any time immediately prior to, during, or immediately after a game or practice with a complaint.

### Lines of Communication

Students are encouraged to visit with their coach/sponsor if they have questions about playing time or role on the team. If the student does not have their questions answered, the parent may contact the head coach as s/he is next level for communication. If an issue is still not resolved, the parent may request a meeting with the Activity Director, coach, and student-athlete. The chain of command will continue to the building principal followed by the superintendent. All concerns should follow the proper chain of command. **A written Activities Complaint form is found in the appendix of this document. All complaints that advance to the administrative meeting stage will need to be written out and presented at the meeting to be acted upon.** Text messages, social media posts, emails, or phone calls to coaches are not an acceptable forum for grievances.

### Parents' Role in Interscholastic Athletics and Other Extracurricular Activities Communicating with your children

1. Make sure that your children know that win or lose, scared or heroic, you love them, appreciate their efforts and are not disappointed in them. This will allow them to do their best without fear of failure. Be the person in their life they can look to for constant positive reinforcement.
2. Practice saying this to your child, "I love to watch you play".
3. Try your best to be completely honest about your child's athletic ability, competitive attitude, sportsmanship and actual skill level.
4. Be helpful but don't coach them. It's tough not to, but it is a lot tougher for the child to be flooded with advice and critical instruction.
5. Teach them to enjoy the thrill of competition, to be "out there trying," to be working to improve their skills and attitudes. Help them develop the feeling for competing, for trying hard, for having fun.
6. Try not to relive your athletic life through your child in a way that creates pressure. If they are comfortable with you win or lose, then they are on their way to maximum enjoyment.
7. Don't compete with the coach. If your child is receiving mixed messages from two different authority figures, he or she will likely become disenchanted.
8. Don't compare the skill, courage, or attitude of your child with other members of the team.
9. Get to know the coach(es). Then you can be assured that his or her philosophy, attitudes, ethics, and knowledge are such that you are happy to have your child under his or her leadership.
10. Always remember that children tend to exaggerate, both when praised and when criticized. Temper your reaction and investigate before overreacting.

### Communicating with the coach

1. Communication you should expect from your child's coach includes:
  - a. Philosophy of the coach
  - b. Expectations the coach has for your child
  - c. Locations and times of all practices and contests
  - d. Team requirements
  - e. Procedure should your child be injured
  - f. Discipline that results in the denial of your child's participation
2. Communication coaches expect from parents
  - a. Concerns expressed directly to the coach
  - b. Notification of any schedule conflicts well in advance
  - c. Specific concerns in regard to a coach's philosophy and/or expectations
3. Appropriate concerns to discuss with coaches:
  - a. The treatment of your child, mentally, and physically
  - b. Ways to help your child improve
  - c. Concerns about your child's behavior
  - d. Injuries or health concerns. Report injuries to the coach immediately!! Tell the coach about any health concerns that may

make it necessary to limit your child's participation or require assistance from trainers. Students are sometimes unwilling to tell coaches when they are injured, so please make sure the coach is told.

4. Issues not appropriate to discuss with coaches:
  - a. Playing time
  - b. Team strategy
  - c. Play calling
  - d. Another parent's child(ren)
5. Appropriate procedures for discussing concerns with the coaches:
  - a. Be sure your child has discussed the issue with the coach
  - b. Call to set up an appointment with the head coach and your child
  - c. Do not confront a coach before or after a contest or practice (these can be emotional times for all parties involved and do not promote resolution)
6. What should a parent do if the meeting with the head coach did not provide satisfactory resolution?
  - a. Call the athletic director to set up a meeting with the athletic director, coach, parent, and student present.
  - b. At this meeting, an appropriate next step can be determined, if necessary.

## Section 8 Good Sportsmanship - Behavior Expectations of Spectators

Good sportsmanship is expected to be exhibited by all coaches, sponsors, students, parents and other spectators. The school can be punished by NSAA for a lack of good sportsmanship at NSAA sanctioned events. More importantly, activities are more enjoyable for the students when good sportsmanship is displayed.

### Responsibilities of Spectators Attending Interscholastic Athletics and Other Extracurricular Activities

1. Show interest in the contest by enthusiastically cheering and applauding the performance of both teams.
2. Show proper respect for opening ceremonies by standing at attention and remaining silent when the National Anthem is played.
3. Understand that a ticket is a privilege to observe the contest, not a license to verbally attack others, or to be obnoxious. Maintain self-control.
4. Do not "boo," stamp feet, or make disrespectful remarks toward players or officials.
5. Learn the rules of the game, so that you may understand and appreciate why certain situations take place.
6. Know that noise makers of any kind are not proper for indoor events.
7. Obey and respect officials and faculty supervisors who are responsible for keeping order. Respect the integrity and judgment of game officials.
8. Stay off the playing area at all times.
9. Do not disturb others by throwing material onto the playing area.
10. Show respect for officials, coaches, cheerleaders and student-athletes.
11. Pay attention to the half-time program and do not disturb those who are watching.
12. Respect public property by not damaging the equipment or the facility.
13. Ensure other spectators' behavior is appropriate.
14. Avoid vulgar language, rude comments, or conduct that takes attention from the game or reflects poorly our school and community
15. Know that the school officials reserve the right to refuse attendance of individuals whose conduct is not proper.

**Consequences: Violation of the sportsmanship guidelines may result in removal from the contest and future contests.**

## Section 9 Nebraska School Activities Association Concussion Guidelines/Recommendations

Concussion has been reported to account for approximately 4-5% of all injuries in high school sports. Football is the most common sport for concussion. Although most concussions are short lived, experience has shown that if a second injury occurs during the recovery phase of the initial injury, a phenomenon known as the "second-impact syndrome" can occur. This second injury can occur from a very minor blow which under normal circumstances might not cause injury at all. Although uncommon, the second-impact syndrome is often fatal and if an individual survives they are rarely neurologically normal. This abnormal mental state usually remains for life. The second-impact syndrome has only been described in athletes younger than 20 years old (except in boxers). These recommendations are offered with the goal of reducing the potential for serious neurologic/ brain injury in Nebraska high school athletes.

Concussion/ mild traumatic brain injury (mTBI) can be defined as a brief and usually short-lived neurological impairment, which occurs after a direct or indirect blow to the head or body. The impairment is often immediate, and symptoms typically resolve spontaneously. Acute clinical symptoms represent a functional disturbance rather than a structural injury to the brain. The clinical symptoms that occur may or may not include loss of consciousness. Typical signs and symptoms of concussion include confusion, headache, and amnesia. More subtle problems may include difficulties with concentration and attention, behavioral changes, and ataxia (inability to coordinate the muscles in voluntary movement).

When a player shows ANY sign or symptom of a concussion

1. Perform an on-field mental status evaluation.
2. The player should not be allowed to return to play in the current game or practice.
3. The player should not be left alone; and regular monitoring for deterioration is essential over the initial few hours following injury.
4. The player should be medically evaluated (by an appropriate health care provider) following the injury.
5. Return to play should follow a medically supervised stepwise process.

A player should never return to play while symptomatic. "When in doubt, sit them out!"

Return to Play Protocol

The majority of injuries will be simple concussions and such injuries recover spontaneously over several days. In these situations, it is expected that an athlete will proceed rapidly through the stepwise return to play strategy.

During this period of recovery in the first few days following an injury, it is important to emphasize to the athlete that physical AND cognitive rest is required. Activities that require concentration and attention may exacerbate the symptoms and result in a delayed recovery. This concept of "cognitive rest" appears to be of significant importance in student athletes.

The return to play following a concussion follows a stepwise process:

1. No activity, complete rest. Once asymptomatic, proceed to step 2.
2. Light aerobic exercise such as walking or stationary cycling, no resistance training.
3. Sport specific exercise (e.g., running) or progressive addition of resistance training.
4. Non-contact training drills.
5. Full contact training after medical clearance.
6. Game play.

With this stepwise progression, the athlete should continue to proceed to the next level if asymptomatic at the current level. If any post-concussion symptoms occur, the patient should drop back to the previous asymptomatic level and try to progress again after 24 hours. In cases of complex concussion, the rehabilitation will be more prolonged and return to play advice should be more circumspect. It is recommended that complex cases be managed by physicians with a specific expertise in the management of such injuries. An additional consideration in return to play is that concussed athletes should not only be symptom free but also should not be taking any pharmacological agents/ medications that may affect or modify the symptoms of concussion. Neuropsychological testing is being used more frequently as a clinical assessment tool and provides objective measurement of cognitive function. Cognitive function may be impaired despite resolution of symptoms. Ideally, neuropsychological testing would be compared with pre-injury baseline testing.

Injuries where outside treatment/care is sought will require a medical clearance to return to competition.

## Section 1 Notice of Nondiscrimination

## Section 2 Designation of Coordinators

Inquiries regarding compliance with Title IX, Section 504, Title VI or the Nebraska Equal Opportunity in Education Act may be directed to Dr. Bret Schroder, 230 East Calkins Avenue, Elm Creek, NE 68836, (308) 856-4300 or in the case of Title IX and the Section 504 Rehabilitation Act to the Director of the Region VII Office for Civil Rights, 10220 North Executive Hills Boulevard, 8th Floor, Kansas City, Missouri 64153 or call (816) 891-8026.

## Section 3 Anti-discrimination & Harassment Policy

### Elimination of Discrimination

Elm Creek Public Schools hereby gives this statement of compliance and intent to comply with all state and federal laws prohibiting discrimination or harassment and requiring accommodations. This school district intends to take necessary measures to assure compliance with such laws against any prohibited form of discrimination or harassment or which require accommodations.

### Preventing Harassment and Discrimination of Students

Purpose: Elm Creek Public Schools is committed to offering employment and educational opportunities to its employees and students in a climate free of discrimination. Accordingly, unlawful discrimination or harassment of any kind by administrators, teachers, co-workers, students or other persons is prohibited. In addition, Elm Creek Public Schools will try to protect employees and students from reported discrimination or harassment by non-employees or others in the workplace and educational environment.

For purposes of this policy, discrimination or harassment based on a person's race, color, national origin, sex, disability, religion, age, pregnancy, childbirth or related medical condition, or other protected status, is prohibited. The following are general definitions of what might constitute prohibited harassment.

In general, ethnic or racial slurs or other verbal or physical conduct relating to a person's race, color, national origin, sex, disability, religion, age, pregnancy, childbirth or related medical condition, or other protected status constitute harassment when they unreasonably interfere with the person's work performance or create an intimidating work, instructional or educational environment.

Age harassment (40 years of age and higher) has been defined by federal regulations as a form of age discrimination. It can consist of demeaning jokes, insults or intimidation based on a person's age.

Sexual harassment is defined by federal and state regulations as a form of sex discrimination. It can consist of unwelcome sexual advances, requests for sexual favors, or physical or verbal conduct of a sexual nature by supervisors or others in the workplace, classroom or educational environment.

Sexual harassment may exist when:

1. Submission to such conduct is either an explicit or implicit term and condition of employment or of participation and enjoyment of the school's programs and activities;
2. Submission to or rejection of such conduct is used or threatened as a basis for employment related decisions, such as promotion, performance, evaluation, pay adjustment, discipline, work assignment, etc., or school program or activity decisions, such as admission, credits, grades, school assignments or playing time.
3. The conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile, or offensive working, class room or educational environment.

Sexual harassment may include explicit sexual propositions, sexual innuendo, suggestive comments, sexually oriented "kidding" or "teasing", "practical jokes", jokes about gender-specific traits, foul or obscene language or gestures, displays of foul or obscene printed or visual material, and physical contact, such as patting, pinching or brushing against another's body.

### Complaint and Grievance Procedures

Employees or students should initially report all instances of discrimination or harassment to their immediate supervisor or classroom teacher. However, if the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student is encouraged to go to the next level of supervision. In the case of a student, the Principal would be the next or alternative person to contact.

If the employee or student's complaint is not resolved to his or her satisfaction within five (5) to ten (10) calendar days, or if the discrimination or harassment continues, or if as a student you feel you need immediate help for any reason, please report your complaint to the Superintendent of Elm Creek Public Schools. If a satisfactory arrangement cannot be obtained through the Superintendent, the complaint may be processed to the Board of Education.

The supervisor, teacher or the Superintendent will thoroughly investigate all complaints. These situations will be treated with the utmost confidence, consistent with resolution of the problem. Based on the results of the investigation, appropriate corrective action, up to and

including discharge of offending employees, and disciplinary action up to expulsion against a harassing student, may be taken. Under no circumstances will any threats or retaliation be permitted to be made against an employee or student for alleging in good faith a violation of this policy.

#### **Section 4 Multicultural Policy (Board Policy 6370)**

The philosophy of the multicultural education program is that students will have improved ability to function as productive members of society when provided with: (a) an understanding of diverse cultures and races, the manner in which the existence of diverse cultures and races have affected the history of our Nation and the world, and of the contributions made by diverse cultures and races and (b) with the ability and skills to be sensitive toward and to study, work and live successively with persons of diverse cultures and races.

The mission of the multicultural education program is to prepare students to: (a) value and respect their own culture and race and cultures and races other than their own and (b) eliminate stereotypes and different treatment of others based on culture and race. The mission shall also include preparing students to eliminate stereotypes and discrimination or harassment of others based on ethnicity, religion, gender, socioeconomic status, age, or disability.

A parent or eligible student has the right to refuse to let the District designate information about the student as directory information. The period of time within which a parent or eligible student has to notify the District in writing that he or she does not want information about the student designated as directory information is as follows: two (2) weeks from the time this information is first received. ### Elm Creek Public Schools Adult Code of Conduct

Athletic programs play an important role in promoting the physical, social, and emotional development of our children. It is essential for parents/guardians to encourage athletes to embrace the values of good sportsmanship. In order to do this, adults involved or attending athletic events should be models of good sportsmanship and should lead by example by demonstrating fairness, respect and self control.

- I/we will demand a sports environment free from drugs, tobacco, and alcohol and will refrain from use at all athletic activities.

A SUMMARY OF THE MAJOR RULES IS GIVEN BELOW. CONTACT THE PRINCIPAL OR ACTIVITIES DIRECTOR FOR AN EXPLANATION OF THE COMPLETE RULE.**

- 2.2.1 Student must be a bona fide student of their member school and have not graduated from any high school.
- 2.2.2 After a student's initial enrollment in grade nine, he/she shall be ineligible after eight semesters of school membership beginning with his/her enrollment in grade nine.
- 2.3 Student is ineligible if nineteen years of age before August 1 of current school year—age 21 for non-contact Unified Sports athletes. (Student in grades 7 or 8 may participate on a high school team if he/she was 15 years of age prior to August 1 of current school year.)
- 2.4.1 Student must be enrolled in some high school on or before the eleventh school day of the current semester.
- 2.5.1 Student must be continually enrolled in at least twenty credit hours per semester and regular in attendance, in accordance with the school's attendance policy at the school he/she wishes to represent in interscholastic competition.
- 2.5.2 Student must have been enrolled and received twenty hours of credit in school the immediate preceding semester.
- 2.6.2.1 Guardianship does not fulfill the definition of a legal parent. If a guardian has been appointed for a student, the student is eligible in the school district where his/her legal parent(s) have their domicile. Individual situations involving guardianship may be submitted to the Executive Director for review and a ruling.
- 2.6.3 A student entering grade nine for the first time after being promoted from grade eight of a two-year junior high, or a three-year middle school, or entering a high school for the first time after being promoted to grade ten from a three-year junior high school is eligible. After a student makes an initial choice of high schools, any subsequent transfer, unless there has been a change of domicile by his/her parents, shall render the student ineligible for ninety school days. (See May 1 Transfer List bylaw below.) If a student has participated on a high school team at any level as a seventh, eighth, or ninth grade student, he/she has established his/her eligibility at the high school where he/she participated. If the student elects to attend another high school upon entering ninth or tenth grade, he/she shall be ineligible for ninety school days. **Student eligibility related to domicile can be attained in the following manners:**
- 2.6.9.1 If the change in domicile by the parents occurs during a school year, the student may remain at the school he/she is attending and be eligible until the end of the school year or transfer to a high school located in the school district where the parents established their domicile and be eligible.
- 2.6.9.2 If the domicile is changed during the summer months and the student is in grade twelve and the student has attended the high school for two or more years, the student may remain at the high school he/she has been attending and retain eligibility.
- 2.6.9.3 If a student elects to remain at the high school where he/she initially enrolled after being promoted from grade eight of a middle or junior high school, or grade nine of a junior high school, he/she is eligible at that school, or is eligible at a high school located within the school district in which the parents established their domicile.
- 2.6.10 If the legal parents of a student change their domicile from one school district that has a high school to another school district that has a high school, the student shall be eligible immediately in the school district where the parents established their domicile.
- 2.7.7 Nebraska transfer students whose name appears on the NSAA transfer list prior to May 1 shall be eligible immediately in the fall at the transfer high school. Those students whose name does NOT appear on the NSAA transfer list prior to May 1 shall be ineligible for ninety school days, with such transfers being subject to hardship waiver guidelines.
- 2.7.8 Nebraska transfer students must have signed and delivered all forms necessary to make such transfer to the school in which he/she intends to enroll for the 2019-2020 school year prior to May 1, 2019; for the student to be eligible. The school to which the transfer is being made must have notified the NSAA office via an NSAA online transfer form, no later than May 1, 2019. The student would become ineligible for ninety school days the next fall if the student were to change his/her mind and decide not to transfer. If such student were to transfer to the new school, but later decides to return to his/her former district before 90 school days have elapsed, such student will be ineligible in the former district for the remainder of the 90 school days, with the ineligibility period commencing at the start of the fall semester. Those students, who did not have their enrollment forms signed, delivered and accepted prior to May 1, 2019, shall be ineligible for ninety school days, with such transfers being subject to hardship waiver guidelines.
- 2.7.9 Transfer to Home School District. Any student entering high school for the first time after promotion from grade eight who did not initially enroll in the high school located in the school district where the student's parents have their domicile, or a student who transfers back to a high school located in the school district where his/her legal parent(s) have established their domicile shall be ineligible for ninety school days.
- 3.5 / 3.1 Once the season of a sport begins, a student shall participate in practices and compete only in athletic contests/meets in that sport that are scheduled by his/her school. Any other competition will render the student ineligible for a portion of, or all of, the season in that sport. The season of a sport begins with the first date of practice as permitted by NSAA rules.
- 3.5.1 During the season of a particular sport, athletes participating in that sport for a high school may attend, but may not physically take part, either as an individual or as a member of a team, in the sport activity in which instruction is being offered in the clinic, camp or school. \*(Refer to 3.5.1.1 for exception in Swimming & Diving.)
