Roll Call

Approval of Agenda

Discussion and Action Items

This meeting is an opportunity to discuss specific questions. It also reflects our ongoing commitment to ensuring that our district programs reflect the values and wisdom of our local community. As we look to prepare our students for college and careers, we want to be sure we understand our community's perspectives as follows:

- a. Identify the challenges that may impact the district in the next 3-5 years
- b. Identify what you believe are the top two most important areas the district might focus on to improve and expand learning facilities and grounds. (Functionality of learning space, safety

and security, building access and parking, capacity to support student enrollment, building maintenance, extracurricular facilities, and grounds, etc)

c. How can the board/district improve communication to inform patrons of the district's needs and priorities?

The input we receive from the community will influence all future, development, and existing initiatives and innovations. We believe that when citizens deliberate about an issue and when a community is engaged in decision-making, the directions chosen are often better and more sustainable. We would very much appreciate your input and hope you are able to attend.
