### **Explanation of School District Funds**

**GENERAL FUND** - The General Fund finances all facets of services rendered by the school district. General Fund receipts are analyzed according to source while its disbursements are classified according to specific functions. The General Fund is maintained by all operating school districts in the State. General Fund expenditures are limited by statute. The tax levy for this fund is restricted.

**SPECIAL BUILDING FUND** - A Special Building Fund shall be established when a school board decides to acquire or improve sites and/or to alter or improve buildings. Tax receipts are the primary source of revenue for the Special Building Fund. Special Building Fund accounting provides a more effective means of identifying those expenditures associated with construction activities. The tax levy for this fund is restricted.

**DEPRECIATION FUND** - A Depreciation Fund may be established in order to facilitate the eventual purchase of costly capital outlay by reserving such moneys from the General Fund. The purpose of this fund is to spread replacement costs over a period of years in order to avoid a disproportionate tax effort in a single year to meet such an expense. This fund is restricted by statute as part of the Allowable Reserve limitation.

**SCHOOL NUTRITION FUND** - The School Nutrition Fund is required to accommodate the financial activities of all Nutrition Programs operated by the school district. The School Lunch Fund shall reflect a record of all revenues and expenditures incident to the operation of all Nutrition Programs. If a deficit is incurred in the operation, the deficiency shall be covered by funds transferred from the General Fund.

**EMPLOYEE BENEFIT FUND** - An employee Benefit Fund may be established in order to specifically reserve General Fund money for the benefit of school district employees (unemployment compensation, early retirement, association dues deductions, etc.) To allocate moneys from the General Fund, a school district will show the movement of revenue as an expense from the General Fund. The cash reserve of this fund is restricted by statute as part of the Allowable Reserve limitation.

**ACTIVITY FUND** - The Activity Fund is required to account for the financial operations of quasi-independent student organizations, inter-school athletics, and other self-supporting or partially self-supporting school activities. The Activities Fund shall not be used to record general operation revenues or expenditures, nor shall this fund be used as a clearinghouse for the General fund. The school district may divide this fund into more than one account to allocate a portion of this fund for different purposes.

The financial operations of all school-connected activities are a legal responsibility of the board of education. If deficits in such activities are incurred, they shall be covered by funds transferred from the General Fund. Such revenue shall finance only those projects, which qualify for approval under policies established by the school district board of education for such activities.

**BOND FUND** - A Bond Fund shall be established in order to retire bonds and pay the interest of a capital improvement project. Tax receipts and interest are the primary sources of revenue for the Bond Fund. The repayment of bonds is set on a payment schedule through the bonding agent.

**STUDENT FEE FUND** - A Student Fee Fund has been established to account for fees collected through policies and procedures established by the Board of Education. The fund is a separate School District fund that is not funded by tax revenue. The fund will serve as a depository for all moneys collected from students for (1) participation in activities, (2) post secondary education costs, and (3) summer school or night courses. Moneys in the fund shall be expended for the purposes for which they were collected.

**BUDGET SUMMARY**

September 9, 2019

**GENERAL FUND EXPENDITURES** - The General Fund finances all facets of services rendered by the school district. General Fund receipts are analyzed according to source while its disbursements are classified according to specific functions. 80% of expenditures are in salaries and benefits. Between 10% and 15% are required expenditures. General Fund expenditures are limited by statute.

## Letter of Transmittal

The school budget is an organized plan representing the financial picture of the school district. It is based on past performance, but it also can provide a tool for planning the educational future of the school district.

The school budget should explain to the public why certain expenditures are necessary and why the specified amounts are requested. In this sense, the budget is a public relations instrument.

It may represent a compromise between what the staff requests for instructional materials and what principals think they can really use; between what the administration want to spend and what the community thinks it should spend; between what a fiscally dependent board thinks it needs and what community financial officers declares it should accept.

With this purpose in mind, I submit the Annual Budget for the Gothenburg Public School District #20 for the 2019-20 fiscal year. This budget reflects a sincere effort to be responsible to the financial concerns of the community and still maintain and improve educational opportunities for the children of District #20.

Respectfully submitted,

Dr. Todd Rhodes,  
Superintendent
