Activities committee meeting on 3-2-2020 at Exeter with their activities committee.

Paul S. Scot S. and Jamie T. filling in for Scott V. attended.

Adam Erdkamp started off by asking how we felt the different activities we were doing together were going. Jr high football, High school football, FFA, Purple ribbon meats program and teacher sharing. We discussed these things and then he went on to say that they had a work session the previous week and from that came that they wanted to ask Friend if they would be interested in cooping all 7-12 sports. He then went on to say they had visited as a board some about a possible whole school consolidation after the results of the curriculum feasibility study that both districts participated in last fall and we received the final draft in January. It was also said that the deadline to coop fall sports is June 1st. We as a Friend board had a work session on February 27th not knowing completely all their discussion and we as a board felt that if it is only sports we would not be very interested but would like to visit about possible consolidation of districts to best give the kids of both districts best offering of classes and also have larger classes in the secondary to help with the learning and participation in class. There was further discussion on different variables on the whole aspect but both committees knew it would be best to take it back to their boards and to the patrons of each district and school employees to comment on and give their thoughts. The Friends boards first discussion as a board on this topic was the 27th at our work session. We both will receive public comments at our March meeting and then we will decide if we want to continue having talks on this subject or not.

Students

Full-Time and Part-Time Enrollment

Full-Time Enrollment

Students must be enrolled in Friend Public Schools on a full-time basis. Full-time basis is defined as attending classes for the full instructional day within the public school system.

Exceptions are permitted only for:

1. enrolled students attending another state accredited institution such as a vocational-technical school or a college or university for school credit;
2. enrolled students taking the limited number of credits needed to graduate in the school year;
3. enrolled students in need of modified school attendance as an accommodation for a disability or similar unique circumstance;
4. enrolled students receiving special education services where the student's IEP requires a modified schedule, or non-enrolled students receiving special education services or other legally mandated services required to be provided to eligible resident children under state and federal laws and regulations;
5. students from other school districts participating in programs offered by the District pursuant to an interlocal agreement or other arrangement approved by the School Board; and
6. non-public school students in accordance with the policies and procedures set forth in this policy.

Part-Time Enrollment of Non-Public School Students

The School Board shall allow the part-time enrollment of students who are residents of the school district and who are also enrolled in a private, denominational, or parochial school or in a school which elects pursuant to section 79-1601 not to meet accreditation or approval requirements. Such students are referred to herein as "non-public school students."

The School Board establishes the following guiding principles for enrollment of non-public school students:

- (1) The primary school for a non-public school student is the student's private, denominational, parochial or home school.
- (2) Enrollment of a non-public school student in Friend Public Schools is allowed for the purpose of providing enhanced educational opportunities not otherwise available to the non-public school student. It is not to supplant programming of the student's primary school.
- (3) Non-public school students are not to be given priority over full-time students.
- (4) Non-public school students are to be enrolled only in programs or courses that are educationally appropriate for the student.
- (5) Enrollment of non-public school students is not to negatively affect the educational services to be provided to full-time students.

The School Board establishes the following specific policies and procedures for enrollment of non-public school students. In the event the specific policies and procedures require interpretation or do not fully resolve an issue, the above established guiding principles are to be considered.

A. Non-Public School Student Enrollment Application Procedures.

1. Application. Parent or guardian must submit an Application of Non-Public School Student for Part-Time Enrollment to the principal of the school the student desires to attend.
2. Deadline for Applications. The application must be received by August 1st preceding the school year the student wishes to enroll.
 - a. Change of Residence Exception: The application deadline for a student who becomes a resident of the District after the school year has commenced is: 20 calendar days after the student becomes a resident of the District. The principal may delay enrollment until the next following quarter or semester starts, or at such other time as determined to be educationally appropriate.
 - b. High School Course Exception: The application deadline for a student who desires to enroll in a second semester high school course is December 1st.
3. Action on Applications. The principal will review the application and will notify the parent of the approval or denial of the application within 2 weeks of receipt of the application or 2 weeks prior to the start of school or 2 weeks prior to the start of the next semester, whichever is later.
4. Appeals. The parent or guardian may appeal the principal's action to deny their application. Any such appeal must be submitted to the Superintendent within 14 calendar days from the date of the principal's action. The appeal shall be in writing and shall be decided on the basis of the written submission. The Superintendent may request the parent or guardian to provide further explanation or information and the appeal may be denied in the event the parent or guardian fails to fully respond on a timely basis. The Superintendent shall decide the appeal within 10 calendar days of the submission of the appeal. The Superintendent may make a decision later than the 10 days in the event good reason for delay exists. Good reason includes but is not limited to the Superintendent being unable to gather the information the Superintendent determines necessary to make the decision within the decision period.
5. Annual Applications. Part-time enrollment is determined annually. Application must be made each school year. There will be no guarantee that enrollment will be continued from one year to the next.

B. Non-Public School Student Admission

1. Admission Requirements. Students must meet the normal admission requirements. This include the requirements that the student: be a resident of the District, be of school attendance age and not have graduated or have received a GED.
2. Admission Process. Students must complete the normal enrollment process and forms required by the District and/or the building for enrollment of all children. This includes the requirements relating to: birth certificates, immunizations, physical examinations, and visual evaluations.

C. Non-Public School Student Enrollment Standards

1. Maximum Enrollment. Students may not enroll in more than 2 middle school or high school courses during any one semester. Elementary students may not enroll in programming of greater than 90 minutes of instruction each day. A student who is attending an exempt school and who is enrolled on a part-time basis in the District's middle school or high school will be permitted to enroll in 20 semester credit hours of classes in the event the student has an interest in participating in extracurricular activities.
2. Capacity Limits. Enrollment will be subject to capacity limits. Any grade level, program, or course which has been determined to be at capacity for option enrollment purposes shall not be available for non-public school students. The respective building administrators and counselor, in consultation with the superintendent of schools and the board of education, shall also establish capacity limits for particular courses each semester. Students will not be permitted to enroll in courses beyond the established capacity limits.
3. Integrated Courses. Students must meet prerequisite requirements to be enrolled in a course by appropriate credits earned through an accredited program. The principal may on a discretionary basis allow prerequisite requirements to be satisfied where the student provides reasonable indications that the academic criteria have been met, such as results from achievement tests or other indications of adequate preparation.
4. Educationally Appropriate Programs and Courses. Students will not be allowed to enroll in programs or courses which the school administration determine to not be educationally appropriate for the student. Determination of whether a program or course is educationally appropriate will be made based on the standards the District uses for making academic placement decisions.

5. Essential versus Non-Essential Elective Courses. Non-public school students are not permitted to enroll in essential courses. Essential courses are those which are required to be offered by the student's private, denominational, parochial or home school. For non-public school students attending an approved school, essential courses are: language arts, social studies, science, mathematics, vocational education, foreign language, visual and performing arts, and personal health and physical fitness. For non-public school students attending an exempt school, essential courses consist of a sequential program of instruction designed to lead to basic skills in the language arts, mathematics, science, social studies, and health. A non-public school student will not be precluded by this provision from enrolling in non-essential elective courses.

D. Non-Public School Student Policies

1. General Standard. Non-public school students who are enrolled part-time are to be subject to the same standards as full-time enrolled students except where appropriate to reflect their part-time status.
2. Building assignment. Students must enroll in the attendance center that serves the student's residence, provided that the administration reserves the authority to make a different attendance center assignment. A student may request assignment to an attendance center other than that of the student's residence under the intra-district transfer procedures.
3. No Partial Part-Time Enrollment. Students must apply for enrollment and attend the entire school year for which enrollment is made or, for high school courses, for the full length of the course. Once enrolled, part-time students will be required to participate in all activities, programs, and tests related to the program or course for which the student is enrolled, including as applicable State or District-wide assessments, as full-time students.
4. Student Conduct Policies. Students enrolled on a part-time basis shall be required to follow all school policies that apply to other students at any time the part-time student is present on school grounds or at a school-sponsored activity or athletic event. This includes the District's student conduct policies. Students enrolled on a part-time basis shall be subject to discipline, including suspension or expulsion, for violation of student conduct rules.
5. Attendance. Students enrolled on a part-time basis are not exempt from the compulsory attendance laws or from the District's attendance policies. Students who engage in excessive absenteeism as defined in Board policy are to be reported under the truancy laws.
6. Presence on School Grounds. Students enrolled on a part-time basis are to be present on school grounds during the school day only at the times

required for their attendance in the program or course in which they are enrolled. Exceptions may be made in the discretion of the principal or the principal's designee. Students must sign in and out of the school by following the building level procedure. Students are responsible for being aware of any changes in the school schedule during inclement weather or for other reasons.

7. Transportation. Students enrolled on a part-time basis are not entitled to transportation or transportation reimbursement. Full-time students will be given first consideration for parking on the high school campus.
8. Academic Honors. Students enrolled on a part-time basis will not be eligible to graduate or receive a diploma from the District or receive academic honors (for example, class rank and honor roll) except to the extent the student meets all requirements of the District's policies for such, including attainment of minimum credits and semesters of attendance.
9. Extracurricular Activities. Students enrolled on a part-time basis may be permitted in the discretion of the principal and athletic director to participate in extracurricular activities. Participation in activities that are subject to the bylaws of the Nebraska School Activities Association (NSAA) will be limited to those students who meet the NSAA bylaws.

StudentsStudent Residence, Admission and Contracting for Educational Services

1. This School District will admit resident students without charge, provided other admission requirements are met, under the following circumstances:

- (a) Upon request, a student who resides within the boundaries of the School District or a student with at least one (1) of the student's parents residing in the District.
- (b) Upon request, a student residing in the School District who is a ward of the state or a ward of any court.
- (c) Upon request, a homeless student. The following definition shall be used as a guide to determine which students fit this category:

A homeless individual is one who (1) lacks a fixed, regular, and adequate nighttime residence and (2) has a primary nighttime residence in a supervised publicly or privately operated shelter designed to provide for temporary accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill), an institution providing temporary residence for individuals intended to be institutionalized, or a public or private place not designated for, or ordinarily used as, a regular sleeping accommodation for human beings. The term "homeless" or "homeless individual" does not include any individual imprisoned or otherwise detained by an Act of Congress or State law.

- (d) Upon request, a student who is residing in a residential setting not located in this School District, provided that the student is residing in the residential setting for reasons other than to receive an education, such residential placement is located in a School District other than this School District, and the student resided in this School District immediately prior to the time the student was placed in a residential setting. In such circumstances, this School District will contract with the School District in which such residential setting is located, to the extent required by law, for the provision of educational services to the student.

2. The School District may admit certain nonresident students, provided other admission requirements are met, under the following circumstances:

- (a) Upon the request of an enrolled student whose residency in the District ceases during the school year; such continued enrollment may, in the discretion of the Superintendent or designee, be for the remainder of that school year.

- (b) Upon the request of a student who is a resident of Nebraska, pursuant to a contract between the Boards of Education of this School District and the resident School District and upon the collection of tuition pursuant to such contract.
- (c) Pursuant to the option enrollment program.
- (d) Upon the request of a student from another state and the approval of the Superintendent or designee, and the collection of tuition in advance at a rate determined by the Board of Education.

Admission pursuant to paragraph (b) or (d) shall be permitted in exceptional cases only, and upon recommendation of the Superintendent. The amount of tuition shall be no less than the average cost per pupil as determined by the previous year's financial report.

StudentsForeign Exchange Students

Friend Public Schools recognizes the value of cultural exchange for students. The District will consider applications for the admission of foreign exchange students from host parents/legal guardians of students currently enrolled in the Friend Public Schools. The administration shall review each application and determine whether to grant such based on administrative regulations or standards and determine whether such admission may be made without payment of tuition.

Friend Public Schools is also certified Homeland Security Student and Exchange Visitor Program (SEVP) School. As a condition for participation in the SEVP program, Friend Public Schools is fully compliant with SEVIS (Student and Exchange Visitor Information) system rules and regulations. SEVIS is the Internet-based system that the United States Department of Homeland Security (DHS) uses to maintain information on SEVP-certified school.s

With the administrative approval, a foreign exchange student and/or a SEVP student may participate in commencement exercises and they would receive a Certificate of Attendance, in lieu of a graduation diploma.

StudentsStudent AttendanceAttendance Policy and Excessive Absenteeism

Regular and punctual student attendance is required. The administration is responsible for developing further attendance rules and regulations, and all staff are expected to implement this policy and administrative rules and regulations to encourage regular and punctual student attendance. The Principals and teachers are required to maintain an accurate record of student attendance.

A. Attendance and Absences.

1. Absences from School - Definitions. An absence from school will be reported as:
 - (a) an excused absence or (b) an unexcused absence.
 - a. Excused Absence. Absences should be cleared through the Principal's office in advance whenever possible. All absences, except for illness and/or death in the family, require advance approval.

An absence for any of the following reasons may be excused, provided the required procedures have been followed:

- (1) Attendance at a funeral for a member of the immediate family (parents, siblings, and grandparents),
- (2) Illness which causes a student to be absent from school,
- (3) Doctor or dental appointment which require student to be absent from school,
- (4) Court appearances that are required by a court order,
- (5) School sponsored activities which require students to be absent from school,
- (6) Family trips in which student accompanies parent(s)/legal guardian(s), and
- (7) Other absences which have received prior approval from the Principal.

The Principal shall have the discretion to deny approval for any of the foregoing reasons, depending on circumstances such as the student's number of other absences, the student's academic status, the tests or other projects which may be missed, and in the case of a family trip, whether the trip could be taken during non-school time and the educational nature of the trip.

- b. Unexcused Absence. An absence which is not excused is unexcused. A student who engages in unexcused absences may be considered truant as

per state law Neb. Rev. Stat. ' 79-201. Truancy is a violation of school rules. Students are subject to disciplinary consequences for trancies.

2. Absence Procedure. A student will not be allowed to enter class after an absence until an admit slip, based upon a written or verbal parental excuse, is issued by the Principal's office.

Two school days will be allowed to make up work for each day missed, with a maximum of 10 days allowed to make up work.

3. Mandatory Ages of Attendance. A child is of mandatory age if the child will reach age 6 prior to January 1 of the then-current school year and has not reached 18 years of age.

Exceptions for Younger Students. Attendance is not mandatory for a child who has reached the age of 6 years of age prior to January 1 of the then-current school year, but will not reach age 7 prior to January 1 of such school year, if the child's parent or guardian has signed and filed with the school district in which the child resides an affidavit stating either: (1) that the child is participating in an education program that the parent or guardian believes will prepare the child to enter grade one for the following school year; or (2) that the parent or guardian intends for the child to participate in a school which has elected or will elect pursuant to law not to meet accreditation or approval requirements and the parent or guardian intends to provide the Commissioner of Education with a statement pursuant to section 79-1601(3) on or before the child's seventh birthday.

Exceptions for Older Students. Attendance is also not mandatory for a child who: (1) has obtained a high school diploma by meeting statutory graduation requirements; (2) has completed the program of instruction offered by a school which elects pursuant to law not to meet accreditation or approval requirements; or (3) has reached the age of 16 years and has been withdrawn from school in the manner prescribed by law.

Early Withdrawal for Students Enrolled in Accredited or Approved Schools. A person who has legal or actual charge or control of a child who is at least 16 but less than 18 years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements if an exit interview is conducted and a withdrawal form is signed.

Exit Interview. The process is initiated by a person who has legal or actual charge or control of the child submitting a withdrawal form. The form is to be as prescribed by the Commissioner of Education. Upon submission of the form, the Superintendent or Superintendent's designee shall set a time and place for an exit interview if the child is enrolled in [Name] Public Schools or resides in [Name] Public Schools and is enrolled in a private, denominational, or parochial school.

The exit interview shall be personally attended by:

- The child, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable;
- the person who has legal or actual charge or control of the child who requested the exit interview;
- the Superintendent or Superintendent's designee;
- the child's principal or the principal's designee if the child at the time of the exit interview is enrolled in a school operated by the school district; and
- any other person requested by any of the required parties who agrees to attend the exit interview and is available at the time designated for the exit interview which may include, for example, other school personnel or the child's principal if the child is enrolled in a private school.

At the exit interview, the person making the written request must present evidence that (a) the person has legal or actual charge or control of the child and (b) the child would be withdrawing due to either:

- financial hardships requiring the child to be employed to support the child's family or one or more dependents of the child, or
- an illness of the child making attendance impossible or impracticable.

The Superintendent or Superintendent's designee shall identify all known alternative educational opportunities, including vocational courses of study, that are available to the child in the school district and how withdrawing from school is likely to reduce potential future earnings for the child and increase the likelihood of the child being unemployed in the future. Any other relevant information may be presented and discussed by any of the parties in attendance.

At the conclusion of the exit interview, the person making the written request may sign a withdrawal form provided by the school district agreeing to the withdrawal of the child OR may rescind the written request for the withdrawal.

Withdrawal Form. Any withdrawal form signed by the person making the written request shall be valid only if:

- the child also signs the form, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable, and
- the Superintendent or Superintendent's designee signs the form acknowledging that the interview was held, the required information was provided and discussed at the interview, and, in the opinion of the Superintendent or Superintendent's designee, the person making the written request does in fact have legal or actual charge or control of the child and the child is experiencing either (i) financial hardship, or (ii) an illness making attendance impossible or impracticable.

Early Withdrawal for Students Enrolled in an Exempt School (Home Schools). A person who has legal or actual charge or control of a child who is at least 16 but less than 18 years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements if such child has been enrolled in a school that elects not to meet the accreditation or approval requirements by filing with the State Department of Education a signed notarized release on a form prescribed by the Commissioner of Education.

4. Reporting and Responding to Truant Behavior. Any administrator, teacher, or member of the board of education who knows of any failure on the part of any child of mandatory school attendance age to attend school regularly without lawful reason, shall within three days report such violation to the superintendent or such person(s) who the superintendent designates to be the attendance officer (hereafter, “attendance officer”). The attendance officer shall immediately cause an investigation into any such report to be made. The attendance officer shall also investigate any case when of his or her personal knowledge, or by report or complaint from any resident of the district, the attendance officer believes that any child is unlawfully absent from school. The school shall render all services in its power to compel such child to attend some public, private, denominational, or parochial school, which the person having control of the child shall designate, in an attempt to address the problem of excessive absenteeism. Such services shall include, as appropriate, the services listed below under “Excessive Absenteeism” and “Reporting Excessive Absenteeism.”
5. Excessive Absenteeism. Students who accumulate five (5) unexcused absences in a quarter shall be deemed to have “excessive absences.” Such absences shall be determined on a per day basis for elementary students and on a per class basis for secondary students. When a student has excessive absences, the following procedures shall be implemented:
 - a. One or more meetings shall be held between a school attendance officer, school social worker, or the school principal or a member of the school administrative staff designated by the school administration, if the school does not have a school social worker, the child’s parent or guardian and the child, if necessary, to report and to attempt to solve the excessive absenteeism problem. If the parent/guardian refuses to participate in such meeting, the principal shall place documentation of such refusal in the child’s attendance records.
 - b. Educational counseling to determine whether curriculum changes, including but not limited to, enrolling the child in an alternative education program that meets the specific educational and behavioral needs of the child, would help solve the problem of excessive absenteeism.
 - c. Educational evaluation, which may include a psychological evaluation, to assist in determining the specific condition, if any, contributing to the

problem of excessive absenteeism, supplemented by specific efforts by the school to help remedy any condition diagnosed.

- d. Investigation of the problem of excessive absenteeism by the school social worker, or if such school does not have a school social worker, the school principal or a member of the school administrative staff designated by the school administration, to identify conditions which may be contributing to the truancy problem. If services for the child and his or her family are determined to be needed, the person performing the investigation shall meet with the parent/guardian and the child to discuss any referral to appropriate community agencies for economic services, family or individual counseling, or other services required to remedy the conditions that are contributing to the problem of excessive absenteeism.

6. Reporting Excessive Absenteeism to the County Attorney.

- a. **Twenty Excused Absences.** If the student accumulates more than twenty (20) absences per year and all of the absences are due to documented illness that makes attendance impossible or impracticable or are otherwise excused by school authorities, the attendance officer may report such information to the county attorney of the county in which the person having control of the student resides.

- b. **More than Twenty Excused Absences.** If the student accumulated more than twenty (2) absences per year, and any of the absences are not excused, the attendance officer shall file a report with the county attorney of the county in which the person having control of the student resides. The report shall be made on a form which includes the following two statements, one of which must be designated by the school representative signing the report: (a) the school representative requests additional time to work with the student prior to intervention by the county attorney; and (b) the school representative believes that the school has used all reasonable efforts to resolve the student's excessive absenteeism without success and recommends county attorney intervention. If further action is necessary to address the child's attendance, the initial meeting between the parent or guardian of the child, the school, and the county attorney or his or her designee shall be at a location determined by the school.

- c. **Other.** A report to the county attorney may also be made when a student otherwise accrues excessive absences as herein defined.

7. Reporting to the Commissioner. The Superintendent or designee shall report on a monthly basis to the Commissioner of Education as directed by the Commissioner regarding the number of and reason for any long-term suspension, expulsion, or excessive absenteeism of a student; referral of a student to the office of the county attorney for excessive absenteeism; or contacting of law enforcement officials (other than law enforcement officials employed by or contracted with by the

District as school resource officers) by the District relative to a student enrolled in the District.

StudentsAttendance During School Day (Dismissals and Field Trips)

Students may not be permitted to leave school prior to the regular dismissal time except by permission of the Principal.

No student may be permitted to leave school prior to the dismissal hour at the request of or in the company of any one other than a school employee, police officer, court official, or parent of the child, unless permission of the parent has been first secured. If any police or court official requests the dismissal of a student, the student's parents should be notified as soon as possible.

Field trips or excursions off school grounds must have the approval of the Principal in advance and administrative requirements may be established for such activities.

StudentsMilitary Recruiters

The District will provide access to routine directory information to each student in a high school grade upon a request made by a military recruiter, unless the student's parent or guardian has submitted a written request that the student's information not be shared with a military recruiter. The District will provide military recruiters with the same access to a student in a high school grade as the District provides to postsecondary educational institutions or to prospective employers of such students.

If a parent or guardian does not want his or her student's information to be provided to a military recruiter, the parent must submit a written request to the Superintendent.
