### I.H. Business Operations and Human Relations

#### I.H.1. 2019-2020 Budget Wrap Up

Mr. Kay shared the details of wrapping up the 19-20 budget. He said that over 97% of the property taxes have been collected, the next round will be in November. We will be a little ahead in the bottom line. He also talked about the ways we will be utilizing the CARES Act funding for items paid for because of the pandemic.

#### I.H.2. Streaming School Events

In the event that we have activities, there will be restrictions. Mr. Kay has received a quote for our district from Striv Broadcasting, it would be a 3-year commitment for \$3,800.00/year. This service would give us tremendous access to our activities. He was happy to say the CPS Foundation has stepped up to pay the fee, they will get advertisers and make 70% back. We can get permission from the home school to send our crew to stream the activity. This will also work hand in hand with the curriculum for two new classes at CHS. We have some of the equipment and ideas for getting any needed items.

### I.I. Buildings & Sites/Technology

#### I.I.1. Kramer Education Center Discussion

Leonard Kwapnioski talked about the Kramer Early Childhood Building and summarized each phase. Phase I is the Preschool which also includes the gym because that space will be needed for cold weather and a space CPS can utilize as an extra facility. Phase II is the training center and curriculum offices. Phase III is the daycare area. He also shared the renovation cost summary, playground area, and the use of natural light throughout the building. Mr. Kwapnioski said getting the preschool area and outer shell built at the same time would save the district some money on this project.

#### I.I.2. Elementary Upgrades

Dr. Loeffelholz talked about the fact that our elementary schools are filling back up after we moved 5th grade to CMS. We have seen growth of up to 120 students per school year in the last few years. The largest student numbers are coming from the east side of our district at this time. District attendance boundaries will need to be addressed. Board members feel that adding on to the current buildings is just a band aid. Adding more classrooms is not the only issue, those buildings then need larger libraries, lunchrooms and gyms.

### I.I.3. Future Growth Plans

In discussing future growth for the district this is what we see, largest growth year has been about 120, lowest 60. The question is where can we add 300 seats, K-12? This means we will need to add 450 in 5 years. We need to look at the breakdown of how many students come over from the private schools and when? Largest student number from east side of the district where there is affordable housing.

### I.I.4. Financing

Mr. Kay said that Jay Spearman will be presenting at the regular meeting about refinancing bonds. This could knock 4.8 million off the principal which would allow CPS to pay off ahead of schedule and retire the bond early.

## I.J. Curriculum and Instruction

### I.J.1. First Semester Instruction

Dr. Amy Romshek shared the plans to prepare students for remote learning. Using an ABABC schedule, allows teachers to work closely with half the class at one time. This set up is so teachers are only focused on half of each class. C days will be an additional support day for struggling students, and a 3- hour block to prepare for remote learning. She also talked about how Clever works with students having just one sign-on for all the platforms they are using. A high priority checklist has been created which contains all resources and links, teachers will go through the checklist to prepare students for classroom and remote learning. There has also been a flow chart created so that teachers can work through students who may not be checking in.

### I.J.2. Staffing

There are a couple of teachers that will not be able to teach in a normal classroom setting, these teachers will be monitoring/teaching any remote learning that will need to be done.

### I.J.3. Enrollment Growth

## I.K. Social/Emotional

### I.K.1. Staff Return to School

Jason Harris, Director of Student Services/SPED shared that each building is handling how to support their staff. The Crisis Team is reaching out and calling. Mr. Harris said that he has received calls if more support is needed on site. Encouraging all staff to practice self-care and make sure everyone knows who their support is at each building. He also talked about the nurses and their plan for speaking to students about wearing masks and staying safe.

## I.L. Marketing

### I.L.1. Methods of Communication

Nicole Anderson, Director of Marketing/Foundation presented to the group and let them know that there is a 48 page document with information dealing with COVID-19. She also

talked about the two staff surveys and the knowledge gained from that. We know that Spanish speakers prefer in this order text messages, automated call, and finally mail. English speakers prefer text messages, automated call and email. Mrs. Anderson shared that Wordware will be used for lunch accounts, and teachers will use Remind, they have had a good response with this. Google classroom is being used at CMS and CHS. Seesaw is being used at Elementary.

## II. Other Items For Discussion

#### **GUIDES TO SCHOOL/GROUP FUND RAISING PROJECTS**

A school/group's money-earning methods should reflect basic values. Whenever your school or group is planning a money-earning project, this checklist should serve as your guide. If you answer "Yes" to all the questions that follow, it is likely the project conforms to district standards and will be approved.

**1. Do you really need a fund raising project?**

There should be a real need for raising money based on your school's programs. Groups should not engage in money-earning projects merely because someone has offered an attractive plan. Remember that individual students are expected to earn their own way. The need should be beyond normal budget items covered by building budgets.

**2. If any contracts are to be signed, will they be signed by an individual without reference to the Columbus Public Schools or the Board of Education?**

Before any person in your school/group signs a contract, he/she must make sure the venture is legitimate and worthy. If a contract is signed, he/she is responsible. He/she may not sign on behalf of Columbus Public Schools nor may he bind the Board of Education without its written authorization. If you are not sure, check with the Director of Business.

**3. Will your fund raiser prevent promoters from trading on the name and goodwill of Columbus Public Schools?**

Because of the district's good reputation, customers rarely question the quality or price of products we sell.

**4. Will the fund raising activity uphold the good name of Columbus Public Schools? Does it comply with the district's policy on games of chance and gambling?**

All items sold or awarded in connection with a fund raising activity must not detract from the ideals and principles of Columbus Public Schools and its Board of Education. Holding a lottery with gross
