3. Items of Business

3.A. Provide a recommendation to the City Council on enacting Ordinance 2154: An ordinance relating to historic preservation.

City Attorney Kyle Manley explained the ordinance and how having a Historic Preservation Commission would work. The Commission would review applications for buildings or parts of town that would like to be considered a landmark or landmark district. After reviewing and discussing the applications, the Commission would make a recommendation to the City Council, who would designate the structure or area of town as a landmark or landmark district. Manley clarified that if an area applied to be a landmark district, and one or more of the building owners do not want to be a part of it, they can protest. If a landmark district gets protested, individual structures may still apply to be landmarks. City Administrator Tom Ourada

mentioned that Kelly Bacon from the State Historic Preservation Office has been down before to discuss the process in more depth, and would come again if the Committee thought it was beneficial. The Committee decided to table the ordinance and request Kelly to come down for a presentation.

Table this until Kelly Bacon with SHPO is able to come down to give a presentation on the historic preservation process. Carried with a motion by Jack Oelschlager and a second by Kyle Frans.

3.B. Discuss (1) amending the land use plan and future land use maps in the Comprehensive Plan and (2) changing the zoning of the vacant land at 29th Street and Iris Avenue.

City Administrator Tom Ourada stated that when you change the zoning somewhere, you really want it to conform with your Comprehensive Plan. At their last meeting, the Planning Commission voted to recommend amending the land use plans and changing the zoning. A developer would like to come in and make use of the property, needing both commercial and residential zoning, and this zoning change would allow for those plans.

3.C. Discuss the creation of a rental property inspection and registration process.

City Administrator Tom Ourada informed the Committee that the city had a less inclusive program like this in the past. It came to a halt in order to make changes to the program, and it just never got reinstated. The Committee would like to look into different ways this could be done and the most efficient ways to help ensure renter safety.

4.H. Consider enacting Ordinance 2154: An ordinance relating to historic preservation.

City Administrator Tom Ourada informed the Council that the city has been working on this ordinance for some time now. SHPO (State Historic Preservation Office) has been down to speak on the subject a couple of times and the Planning Commission has seen it as well. The Planning Commission voted to recommend it at their last monthly meeting. The Legislative and Economic Development Committee met on this tonight and would like some more time to review it and to see if SHPO will come down to talk to the Committee and Council. The Committee's recommendation was to table it until SHPO can come down to answer any questions about it.

Table this item until a SHPO representative can come down to give a presentation and answer questions. Carried with a motion by Ryan Hinz and a second by Jack Oelschlager.

If a public hearing is held, notice shall be given in the same manner as prescribed in subsection (4). Designations shall be made by ordinance or resolution.

This Landmark Overlay District shall be in addition to the existing underlying principal zoning district and any other overlay districts that may apply. Zoning regulations may be enacted that apply solely to Landmark Overlay Districts.

Section 11. That a new Chapter 2, Article 18, Section 2-1810 of the Crete Municipal Code shall be enacted to read as follows:

2-1810 Landmarks and landmark districts; actions subject to review; certificate of appropriateness; procedure.

- (1) No person shall carry out or cause to be carried out any action, for which a building or demolition permit is required by the City, on a landmark or property within a landmark district unless a certificate of appropriateness has been issued. All such actions shall be subject to the controls, standards, and procedures set forth in this section.

- (a) For the purposes of this section, action includes, but is not limited to, (i) any act or process that changes, obstructs, or is incompatible with the historic character of a landmark or property within a landmark district; (ii) changes to one or more of the significant historical features of any landmark or property within a landmark district; (iii) demolition or partial demolition of a landmark or property within a landmark district; (iv) changes to noncontributing properties within a landmark district; (v) the construction of new structures within a landmark district; or (vi) additions to existing structures.
- (2) Prior to the commencement of any work requiring a certificate of appropriateness, the property owner shall file an application for such a certificate with the City in the form and manner prescribed by the City Administrator. All applications shall be reviewed by the City for completeness before being forwarded to the Historic Preservation Commission for action.
 - (a) All plans, projects, proposals, evaluations, specifications, sketches, and other information required by the application shall be made available to the Commission by the property owner or the City, along with a copy of the applications for a building or demolition permit and certificate of zoning compliance.
- (3) The Historic Preservation Commission shall review every request for a certificate of appropriateness at a public meeting and may hold a public hearing if deemed necessary. Notice of the public meeting and any associated public hearing shall be mailed to the property owner not less than ten days prior to the date of the meeting.
- (4) The Historic Preservation Commission shall apply the following criteria when evaluating a request for a certificate of appropriateness:
 - (a) Actions taken on a landmark shall be compatible with its historic character and meet the Secretary of the Interior's *Standards for Rehabilitation* and such other landmark design guidelines as may have been adopted.
 - (b) Actions taken on property within a landmark district shall be compatible with the historic character of the district and meet the Secretary of the Interior's *Standards for Rehabilitation* and such other district design guidelines as may have been adopted.
 - (c) New construction in a landmark district shall be compatible with all city design standards and any additional zoning regulations that apply to Landmark Overlay Districts.
- (5) The Historic Preservation Commission may approve, approve with modifications, or deny an application for a certificate of appropriateness. In considering the appropriateness of any actions and whether any modifications shall be required, the Commission shall consider the following items:
 - (a) The purposes of this Act, any state laws relating to historic preservation, and the National Historic Preservation Act of 1966;
 - (b) The historic and architectural value and the significance of the landmark or properties within the landmark district;
 - (c) The integrity of design, location, setting, feeling, association, materials, or workmanship of the property and its accessory structures;
 - (d) Any alterations, additions, or new construction, including accessory structures, to the property;

- (e) The relationship of the property's historic features to similar features of other properties within the neighborhood or landmark district; and
 - (f) The relationship of the property to the public streets and rights-of-way.
- (6) The Historic Preservation Commission shall, after applying the criteria specified in subsection (4) and considering the items listed in subsection (5), take one of the following actions:
- (a) If the proposed actions meet the criteria specified in subsection (4) and are determined to be appropriate under subsection (5), the Commission shall issue a certificate of appropriateness.
 - (b) If certain modifications or conditions are required by the Commission in order for the proposed actions to meet the criteria specified in subsection (4) or be appropriate under subsection (5) and the property owner agrees to such modifications or conditions, the Commission shall issue a certificate of appropriateness with modifications.
 - (c) If the proposed actions cannot meet the criteria specified in subsection (4) or are not appropriate under subsection (5) or if the property owner does not agree to any required modifications or conditions, the Commission shall deny a certificate of appropriateness.
- (7) The decision of the Historic Preservation Commission to issue or deny a certificate of appropriateness shall be accompanied by written findings of fact, which shall become part of the permanent record specified in Section 2-1807(5).
- (8) The Historic Preservation Commission shall provide a copy of the decision to issue or deny a certificate of appropriateness, the written findings of fact, and a detailed description of any required modifications or conditions to the Building Inspector within five days after the decision is made. The Building Inspector shall not permit any actions to be taken on the property unless a certificate of appropriateness, and any modifications or conditions associated therewith, has been issued for such actions. No changes shall be made in the property owner's application for a building or demolition permit after a certificate of appropriateness has been issued unless the changes have been resubmitted to the Commission and approved in the same manner as provided herein.

Section 12. That a new Chapter 2, Article 18, Section 2-1811 of the Crete Municipal Code shall be enacted to read as follows:

2-1811 Landmarks and landmark districts; unsafe structure; deliberate acts or neglect unlawful.

- (1) The Historic Preservation Commission shall issue a certificate of appropriateness for the demolition of a landmark or a structure within a landmark district if the Building Inspector determined the structure is an unsafe structure, an administrative hearing was held, and the hearing officer ordered demolition of the structure. In such case, the Commission may forgo the procedures specified in Section 2-1809.
- (2) It shall be unlawful for a property owner to, by deliberate acts or deliberate neglect, allow a landmark or a structure within a landmark district to become an unsafe structure with the intent of avoiding the requirements of this Act.

Section 13. That a new Chapter 2, Article 18, Section 2-1812 of the Crete Municipal Code shall be enacted to read as follows:

The Historic Preservation Commission shall, in the administration and enforcement of the provisions of this Act, take into account all economic factors presented to it and shall strive to fairly balance historic preservation objectives with potential economic detriments.

Section 16. That the changes specified in the above sections shall be codified as part of the Crete Municipal Code as stated herein.

Section 17. That all ordinances or parts of ordinances in conflict herewith shall be repealed and that any partial repeal shall not affect the other parts of ordinances or codified sections that can be given effect without the repealed parts.
