Newcastle High School / DRIVE Academy

Request: Board approval and signatures for the application to operate our alternative education program under **OAC 210:35-29-2** to allow for a deregulated school day.

Although our district and alternative education program follow the same calendar, school days, and instructional hours as the rest of the district, we are still required to apply for deregulation due to operating fewer than five days per week. This application ensures that we remain in compliance with state regulations while continuing to provide high-quality, flexible learning opportunities for our students.

Approval of this request will ensure our district remains compliant with state regulations while maintaining an effective, research-based model for alternative education that better serves our students.

Missy Corn, M.Ed.

Project Manager, Alternative Education
Office of Accreditation
Oklahoma State Department of Education

Dear Ms. Corn,

Our district is requesting statutory deregulation to provide greater flexibility in meeting the needs of our alternative education students. This request aims to allow our program to continue operating on a schedule aligned with our regular education calendar while incorporating a blended learning approach tailored to the unique needs of alternative education students.

Deregulation will enable us to improve attendance, participation, and academic outcomes by offering personalized instruction and flexible scheduling, which are essential for the success of these students. This approach ensures compliance with state standards while fostering equitable access to education and supporting student achievement.

Sincerely

Cathy Walker, Ed.D.

NAME OF WAIVER _____

- A. Reason for the Waiver request. Please include distance from your alternative education site to the closest possible district to co-op with, what alternative means will have to be employed if your waiver was to be denied, and what percentage of your student population will benefit from the waiver if approved.

Newcastle Public Schools is requesting this deregulation to provide a more flexible and customized educational experience for our alternative education students. The distance from our alternative education site to the closest possible district to co-op with is approximately 11 miles.

If this deregulation were to be denied, we would consider alternative means such as restructuring the current school day, reducing available instructional time for individualized programming, or reallocating district resources.

Approval of this deregulation will benefit approximately 2% of our student population by allowing us to implement tailored schedules, provide targeted instruction, and allocate resources efficiently to better support student success.

- B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students, graduation rate if a waiver has been awarded prior to this year, and learning achievement. The deregulation has demonstrated clear benefits for our students, including improved attendance and increased participation in their educational programs. Many alternative students participate in a blended learning model, allowing them to receive instruction both at the High School campus and through flexible, personalized approaches. This structure not only ensures they meet their educational goals but also fosters higher levels of engagement by catering to their unique needs.

By offering this flexibility, our district can maintain a strong focus on learning achievement and graduation success. In previous years, this model has positively impacted our graduation rate, with students in the program consistently showing progress toward earning their diplomas. The deregulation ensures we can continue to deliver meaningful and effective instruction to some of our most vulnerable learners, helping them overcome barriers to success.

- C. Have you participated in an alternative education co-op previously? Have you been awarded this waiver before and what was the educational impact to the district: Results of the Statutory Waiver, i.e., effect on student performance levels, impact of plan on other sites in the district. No, our district has not participated in an alternative education co-op previously, nor have we been awarded this deregulation before.

D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

Schedule of hours of instruction:

Numbers of days taught per week:

5 days per week (first week of every month)

4 days per week the rest of the month

*District calendar included

E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation?
If positive please describe where the available would be reallocated.

F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.
Teacher and Leader Effectiveness (TLE): Staff effectiveness will be measured using the TLE evaluation system, which assesses instructional strategies, student engagement, and overall classroom management.
Graduation Rates: We will track the percentage of alternative education students who successfully complete their coursework and earn their diplomas.
ACT Scores and Academic Progress: Student performance on standardized assessments, including ACT scores and other district-approved assessments, will be monitored to gauge academic growth.

** You will be contacted if more information is needed to process this request.
