Joann Wilson, teacher of Intro to Business, reported that her class is focusing on many aspects of business including basic economic concepts and personal finance. Students have been busy developing entrepreneurship projects such as creating a line of bandannas, a soap line, as well as wizard putty. When they have mastered their trade, the students' projects will be voted on by their peers. The top three ideas will go on to the "Shark Tank" made up of members from the faculty. Pearl Johnson, teacher of Intro to Medical Science, discussed topics including health careers, leadership, history of health care and economics. She is expecting presentations from local medical professionals regarding their careers. The courses that represent the career academy are designed to introduce students into fields of study. This is to help students decide the specialized classes they would like to attend in the future. Beth Still, a Technology and Social Studies teacher, had a presentation showing the websites her students created. Each of her students have created a website and are to keep the classroom assignments organized through their personal site. Her focus is to have the students make a digital portfolio which students can continue to learn and grow through technology.

GERING PUBLIC SCHOOLS  
GERING, NE**

**CERTIFICATED EMPLOYEE DEFINED**

Certificated employees, including administrators, are those employees required to hold an appropriate certificate from the Nebraska Department of Education for their position as required by the Professional Practices Commission or others with professional licenses. Certificates required for a position will be considered met if the employee meets the requirements established by the Nebraska Department of Education.

It shall be the responsibility of the Superintendent to establish job specifications and job descriptions for certificated employees' positions, other than the position of the superintendent. Job descriptions may be approved by the board.

Certificated employees must present evidence of current certificate to the Superintendent prior to September 15 and before any payment of salary each year.

**POLICY 406.2**  
**GERING PUBLIC SCHOOLS**  
**GERING, NE**

**CERTIFICATED EMPLOYEE QUALIFICATIONS, RECRUITMENT, SELECTION**

Persons interested in a certificated position, other than administrative positions which will be employed in accordance with board policies in Series 300, "Administration," shall have an opportunity to apply and qualify for certificated positions in the school district without regard to age, race, creed, color, sex, national origin, religion, disability, veteran status, pregnancy, or childbirth or related medical condition. Job applicants for certificated positions shall be considered on the basis of the following:

- Training, experience, and skill;
- Nature of the occupation;
- Demonstrated competence; and
- Possession of, or ability to obtain, state certificate or license if required for the position.

Announcement of the position shall be in a manner which the superintendent believes will inform potential applicants about the position. Applications for employment may be obtained from and completed applications shall be returned to the school district administrative office. Whenever possible, the preliminary screening of applicants shall be conducted by the administrator who will be directly supervising and overseeing the person being hired.

In the initial employment process, including on the initial application, the applicant shall not be asked to disclose, orally or in writing, information concerning the applicant's criminal record or history, until it has been determined that the applicant meets the minimum employment qualifications. This does not prohibit the requirement to disclose an applicant's criminal record or history relating to sexual or physical abuse. Following a determination that the applicant meets minimum employment qualifications, a criminal history information check and questions regarding the applicant's criminal record or history are allowed.

A minimum of three reference checks made by telephone and using a standard list of questions shall be used in the screening process. These checks shall be documented and filed with the employee's records.

The board shall take action regarding employment of certificated applicants after receiving a recommendation from the superintendent. However, the superintendent shall have the authority to employ a certificated employee on a temporary basis until a recommendation can be made and action can be taken by the board on the position.

The requirements stated in the Negotiated Contract between employees in that certified collective bargaining unit and the board regarding qualifications, recruitment and selections of such employees shall be followed.

If the student has previously had an option enrollment accepted in any district, the application shall be rejected unless a statutory exception to this rule applies for that student.

Application for option enrollment option shall be made between September 1 and March 15 for enrollment during the following and subsequent school years. Upon agreement of the school boards of the resident district and the option (receiving) district, deadlines for application and approval of the option may be waived. Following the March 15 deadline, applications requesting admittance must contain a release approval from the resident district prior to the option district's consideration for acceptance.

The application for option enrollment does not require a release from the resident district and the receiving district has forty-five days to issue acceptance or rejection if:

1. After February 1 the student relocated to a different resident district, or
2. The student's option district merged with another district effective after February 1<sup>st</sup> and

The tuition rate shall be the current per pupil cost of the school district as computed by the superintendent.

**ACCEPTABLE USE OF COMPUTERS, TECHNOLOGY AND THE INTERNET**

The Board supports the use of computers, technology and the Internet in the District's instructional program as a resource to educate and inform. The use of these resources shall be consistent with the curriculum adopted by the School District and shall be employed in an appropriate and responsible manner to meet the varied instructional needs, learning styles, abilities and developmental levels of students.

Technology resources of the district shall not be used for personal use unless the user has entered into an agreement with the district that makes such use compliant with the law.

**Procedures and Guidelines**

The Superintendent shall develop and implement appropriate procedures to provide guidance for computer use and Internet access. Guidelines shall address teacher supervision of computer use, ethical use of electronic media, and the District's ownership and right of administrative review of electronic files and communications. The term "electronic media" includes, but is not limited to, the Internet, e-mail and other technological resources.

The guidelines shall prohibit utilization of networks for inappropriate or illegal activities, the intentional spreading of imbedded messages (viruses) or the use of other programs with the potential of damaging or destroying programs, data or equipment. The guidelines will describe the District's limitation of liability and will establish that the use of computers, technology and the Internet is a privilege, not a right. Violation of the procedures and guidelines will result in cancellation of those privileges and appropriate disciplinary action.

**Technology Protection Measure**

The District will implement a technology protection measure that will block or filter Internet access to visual depictions that are obscene, pornographic or of a harmful nature to minors. Operation of this measure will be monitored and enforced during use of computers by minors.

### **Audit of Use**

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system. Participation in chat rooms is prohibited without specific prior approval by the system administrator. The Superintendent shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law or for accessing prohibited materials. The process may include, but not be limited to:

1. Utilizing blocking/filtering software.
2. Turning off the "auto load images" feature of the Internet browser.
3. Using a proxy server to control accessible websites.

### **Appropriate Internet Behavior On Social Websites**

The district recognizes its responsibility to educate students regarding appropriate behavior on social networking and chat room sites about cyberbullying. Therefore, students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

### **Student Use**

A written parental permission and agreement form will be required prior to the student being granted access to electronic media involving District technological resources. The form will specify acceptable uses, rules of on-line behavior, access privileges and penalties for procedural violations. It must be signed by the parent or legal guardian of

minor students (under age 18) and by the student. This document will be kept on file as a legal, binding document. In order to rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

The district will obtain verifiable parental consent prior to allowing third parties to collect personal information online from students in compliance with the Children's Online Privacy Protection Act.

### **Staff Use**

A written staff agreement form will be required for all employees having access to electronic media. Staff shall confine e-mail use to work-related purposes and a reasonable, appropriate and limited personal use that does not interfere with their district duties. The agreement form will refer to the procedures and guidelines for use of computers and the Internet, describe prohibitions and limitations on the use of these resources and state the employee's responsibility for the security of individual passwords.

### **Community Use**

On recommendation of the Superintendent, the Board will determine the conditions and limits under which equipment and services will be made available to the community. Upon request to the Building Principal, community members may have access to electronic resources and programs available through the District, provided they attend any required training and abide by the rules of usage established by the Superintendent. A written agreement form will be required for all community members having access to these resources indemnifying the District from claims by community users.

### **Disregard of Rules**

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using computers, technology or the Internet and related resources.

### **Responsibility for Damages**

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care.

### **Responding to Concerns**

School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

It is the policy of the district to provide full access to the parent and family members of any student of the district to review textbooks, tests, curriculum and instructional materials; records of a student of any such parent, unless otherwise prohibited by law; and to any surveys of students done by the school district. Summary information regarding the district's curriculum, testing, and surveys will be provided at the beginning of each school year. Requests for access to specific instructional materials should be addressed to the teacher or building principal.
