6.1. Recognition of our November 'Bulldog Staff Member Of the Month'

Representing Gering Junior High, Julie Siebke read a heartfelt letter nominating Jan Zitterkopf as the Bulldog Staff Member of the month for November. Mrs. Siebke highlighted that not only is Mrs. Zitterkopf an exceptional, dedicated member of their team, but also a teacher who engages and inspires her students. For this reason, Mrs. Zitterkopf's FCS classes remain popular and often times scheduled full. Board President B.J. Peters acknowledged that for Mrs. Zitterkopf, teaching isn't a job, it's her passion as he expressed his appreciation for her valued role in what makes Gering Public Schools great.

6.2. Gering Tennis/Pickleball Court Revitalization Committee

Zac Karpf addressed the board on behalf of the Gering Tennis/Pickleball Court Revitalization organization. As he introduced several members in attendance, he described their group simply as citizens who care about the community. Area resident Dr. George Schlothauer was credited for initiating conversations and channeling efforts in a casual manner as they "sat on his porch and visited about it" which later grew with momentum from the community support. Photos that were presented highlighted safety concerns such as trip and fall hazards from the deteriorating condition of the courts. Drainage issues were also addressed. In comparison to the new high school, Zac stated this facility, located at the entrance, doesn't present well, as he encourage attendees to stop by and see it if they hadn't recently. Next, Mr. Karpf shone a spotlight many of the positive things happening with the GPS tennis team. Last fall all three of the team's senior boys were offered collegiate scholarships. Unfortunately the girl's season was cut short this spring due to covid. This year, two of the boy's team members advanced past the first round of State competition. Mr. Karpf congratulated coaches Ron Swank, Tim Nagaki, and April Carlson on their team's accomplishments as he recognized them as "great coaches." In addition to school usage, Gering tennis club, consisting of approximately 30 individuals of all ages, utilize these courts. Over past 90-days the revitalization committee had been in discussion with GPS and the City of Gering. Dr. Schlothauer had donated the family's entire sweet corn crop this fall raising over \$1,000 in funds to assist with minimizing the cost of the project. There are several grants they believe may be available to further support the initiative. The group was

approaching the school board seeking direction before they move forward. Two proposals were presented. The first was a revitalization entailing complete removal of the existing courts and fencing. Drainage concerns would be addressed, and four post-tension concrete courts would be installed. The existing lighting would be kept. A spectator area would be added along with new fencing. The total cost was projected at \$350,000. In contrast, a second option, one that Mr. Karpf noted had already been used in the past, would be resurfacing the courts which carried a price tag of approximately \$58,000. This would offer a temporary fix and did not address drainage concerns. From a community/economic impact standpoint, Zac also pointed to the fact that revitalization of the existing facilities would allow Gering to host competitions. He indicated "tennis is a sport that appeals to all ages" as he asked the board to consider offering their commitment in the process. "Can this be done? Should we move forward?" he asked as he again highlighted their organizations role in trying to keep the district's cost as low as possible. In closing, he read a letter written by senior tennis player Kayle Morris expressing her appreciation for the program and support of revitalization efforts. Board President B.J. Peters stated "Zac, your passion has caught our attention. We understand the partnership, and we want to continue this. We realize timing will impact the project, so we will make it a priority to try to help your group find the resources to make this happen next summer. Although there are budget constraints we will need to consider in light of the pandemic, we are not asking you to slow down your efforts. It is a safety issue, and we have some great athletes that we want to offer the best tools to. You are here for the right reasons and we appreciate that."

6.3. Personnel/Curriculum Committee Report

Committee chair, Mary Winn recapped their most recent meeting on November 3. At tonight's meeting the board will consider the final piece of the Social Studies curriculum before they proceed to the English Language Arts adoption set to take place next. The proposed quote includes six years of digital access at no extra cost which was not offered in the other packages.

6.4. Business/Facilities Committee Report

Brian Copsey noted that the annual finance audit is currently underway and would be presented at next month's meeting. Brady Shaul indicated that during a recent meeting with Hausman Construction, the lighting in the main gymnasium was evaluated. Mary Winn inquired if this was a design flaw in the construction plan that should be revisited. The committee is unsure, but is discussing. He also noted the new marquee sign at GHS is scheduled to arrive this week, and will be installed soon. The committee had been made aware of network issues affecting the district, and upgrades have been approved. The first negotiation meeting will be held Wednesday night via Zoom between the district's legal counsel, Rex Shultze, and the GEA.

6.4.i. Trial Balance Summary

6.4.ii. Fund Balances

6.4.iii. Schedule of Investments

6.4.iv. Financial Statements

6.5. Superintendent's Report

Superintendent Cooper extended his appreciation to Shelly Muggli who was in attendance for her role in the aforementioned negotiation process and orchestrating annual training for our crisis teams. He also addressed a news release for earlier today addressing a resolution by the Nebraska State Board of Education requesting community support with a mask mandate. Currently, there are 54 active cases in our district which Cooper noted equates to approximately 2.5% of our population. Of these cases, it is projected that the number of students and staff is about 50/50. The number of quarantines are higher, and were described as having the most impact on students/families. In the district's Extended Campus Learning program, there are 65 students presently enrolled: 23-Elementary, 23-Junior High, 19 High School. Nearly half of the students who initially elected to participate in this program have since returned to the traditional, in-person setting.

7. **Action Items**

- 7.1. Discuss, consider, and take action regarding the purchase of K-5 social studies curriculum materials from Gibbs Smith Education in the amount of \$13,941.90.
- 7.2. Discuss, consider, and take action regarding approval of the NASB superintendent evaluation tool.

In discussion, Mary Winn inquired about the delivery method(s) of the evaluation. President B.J. Peters noted this would be an online survey. Also, despite the nature of Mr. Cooper's role being interim, an exit evaluation will need to be completed.

- 7.3. Discuss, consider, and take action regarding proposed changes to the 2020-21 school calendar.

9. **Board Comments**

Brady Shaul expressed his appreciation for all of the staff at Gering Public Schools, and hopes the additional work days approved at tonight's meeting will be helpful. Mary Winn attended the Western Conference one-act competition hosted at Gering Public Schools last weekend. As she reflected on past experiences, she was grateful for the improvements made in the theater over the past three years. She noted that set changes were nearly impossible without that additional space backstage, and the newly added overhead door was very beneficial. Despite challenging circumstances this year, the student's performance was amazing! She was also impressed with the safety protocols implemented and being followed. Josh

Lacy congratulated Jan Zitterkopf on her recognition as Bulldog staff member of the month. He also extended his appreciation to Zac Karpf and the other committee members who attended on behalf of the revitalization group as he shared how community involvement will be a critical factor for moving forward. Next, as both a board member and parent, he recognized custodians and all of the staff at GPS for keeping school open and continuing to keep students growing educationally. Brian Copey echoed this sentiment noting it is difficult to know how else to express appreciation, but he wants to continue to share that the board will continually do what they can to navigate this impossible situation citing "the goal remains the same - we are all doing our best to educate students." Gary Cooper added that, in appreciation, the cafeteria would be providing Thanksgiving lunch to all staff members on Thursday. Additionally, a special gathering with the district's custodial and maintenance teams would take place on December 16. Board President B.J. Peters continued to address staff saying "This year has been mentally challenging and wearing on all staff; we are aware. I will still adamantly defend the belief that schools are the safest place for our students to be. With the safety protocols that have been in place since the beginning of the year, we are keeping staff and students safe." In closing, Mr. Peters asked the public to please do their part so we can keep schools open.

10. **Adjourn**

The meeting was adjourned at 7:16 p.m.

EDUCATIONAL AND OPERATIONAL PLANNING

At least every five years, the board shall conduct an in-depth needs assessment, soliciting information from ~~business, labor, industry, higher education~~ and community members, regarding their expectations for adequate student preparation. ~~One purpose of this assessment is to assist the board in developing and evaluating a statement of philosophy for the school district. The second purpose of this assessment is to determine the areas of student performance, knowledge, and attitudes and the areas of school district operations that are judged to be most crucial in meeting school or school district goals. As part of its assessment, the board shall develop a process for communicating with business, industry, labor and higher education regarding their expectations for adequate student preparation. The statement of philosophy shall describe the board's beliefs about topics which shall include the nature of learning, the purpose of the school district, the scope of educational experiences that the school district should provide, the nature of its learners and a description of a desirable learning atmosphere.~~

~~In conjunction with the in-depth needs assessment of the school district, the board shall authorize the appointment of a committee representing administrators, employees, parents, students and community members, to make recommendations and assist the board in determining the priorities of the school district in addition to the basic skills areas of the education program.~~

~~It shall be the responsibility of the superintendent to ensure the school district community is informed of the board's policies, programs and goals and has an opportunity to express their thoughts and suggestions for the operation of the school district. The superintendent shall report annually to the board about the means used to keep the community informed.~~

~~As a result of the board and committee's work, the board shall determine major educational needs and rank them in priority order; develop long-range goals and plans to meet the needs; establish and implement short-range and intermediate-range plans to meet the goals and to attain the desired levels of student performance; evaluate progress toward meeting the goals and maintain a record of progress under the plan that includes reports of student performance and results of school improvement projects; and annually report the school district's progress made under the plan to the committee, community and Nebraska Department of Education.~~

EDUCATIONAL EQUITY

The District is committed to equity and excellence for all students. Educational equity is defined as providing all students, regardless of socioeconomic status, race, ethnicity, language, religion, sex gender, orientation, cognitive/physical ability, or mobility the high-quality instruction and support need to reach and exceed state educational standards.

The District will identify and address any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

To achieve educational equity, the District will commit to the following:

1. Using district-wide and individual school-level data disaggregated, when appropriate, by socioeconomic status, race/ethnicity, national origin, language, special education, and mobility, to inform district decision making;
2. Working to raise the achievement of all students; and
3. Graduating all students ready to succeed.

In order to reach the goal of educational equity for each and every student, the District shall monitor students' progress in meeting the state academic standards by the following:

1. Developing and implementing a well-rounded program of instruction to meet the academic needs of all students;
2. Identifying students who may be at risk for academic failure;
3. Supporting efforts to reduce the overuse of discipline practices that remove students from the classroom;
4. Providing additional educational assistance to individual students that the District determines need help in meeting the state academic standards; and
5. Identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

The District will provide organized, system-wide means of incorporating educational equity into its educational program by the following actions:

1. Providing every student with access to high quality curriculum, support, and other educational resources;
2. Providing multiple pathways to success in order to meet the needs of the entire student body and actively encourage, support, and expect high academic achievement for each student;
3. Working to create schools with safe supportive and inclusive environment; and
4. Seeking to promote educational equity as a priority in professional development.

The Superintendent will include equity practices leading to specific goals and strategies in the District's school improvement plan. The Superintendent will periodically report to the Board on progress in the implementation of this policy.

ADDRESSING BARRIERS TO ATTENDANCE

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students shall attend school unless excused by the principal of their attendance center. This policy, developed and annually reviewed in collaboration with the county attorney for the district's principal office location, is an attempt to address the barriers to student attendance. This policy shall include a provision indicating how the district and the county attorney will handle cases in which excessive absences are due to illness, and shall state the circumstances and number of absences or hourly equivalent upon which the school shall render all services to address barriers to attendance.

Any superintendent, principal, teacher, or member of the school board who knows of any violation of the state school attendance laws (79-201) shall report that violation to the school attendance officer within 3 days.

The superintendent shall designate an attendance officer. The attendance officer will immediately investigate the report of any child who may be in violation of the state's compulsory attendance statutes.

If any student has exceeded the number of unexcused absences as defined in the student handbook, the school shall render all services to address barriers to attendance. These services shall include the following:

1. verbal or written communication by school officials with the person or persons who have legal or actual charge or control of any child; and
2. a meeting or meetings between the school attendance officer, school social worker, a school administrator or designee, the person who has legal or actual control of the child, and the student (when appropriate) to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to improve regular attendance. The plan shall consider, but not be limited to:
 - (i) illness related to physical or behavioral health of the child;
 - (ii) educational counseling;
 - (iii) educational evaluation;
 - (iv) referral to community agencies for economic services;
 - (v) family or individual counseling; and
 - (vi) assisting the family in working with other community services.

The school may report to the county attorney of the county in which the person resides when the school has documented the efforts it has made as required by statutes, that the collaborative plan

to reduce barriers identified to improve regular attendance has not been successful, and that the child has been absent more than twenty days per year. The school shall notify the child's family or legal guardian in writing prior to referring the child to the county attorney. Illness that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney.

Students are subject to disciplinary action for excessive absenteeism including suspension and expulsion. It shall be within the discretion of the principal to determine, in light of the circumstances, whether a student may make up work missed because of excessive absenteeism. Disciplinary action for students receiving special education services will be assigned in accordance with the goals and objectives of the student's Individualized Education Program.

The superintendent shall report to the Commissioner of Education as directed by the commissioner regarding the number of and reason for any long-term suspension, expulsion, or excessive absenteeism; referral of a student to the office of the county attorney for excessive absenteeism; or contacting of law enforcement officials other than school resource officers by the district relative to a student enrolled in the district. The superintendent shall report annually to the Commissioner of the required data for the number of students who have dropped out of school.

It shall be the responsibility of the superintendent or designee to implement this policy. The implementation may include regulations indicating the disciplinary action to be taken for excessive absenteeism.

PUBLIC PARTICIPATION IN BOARD MEETINGS

The board recognizes the importance of citizen participation in school district matters. In order to assure citizens are heard and board meetings are conducted efficiently and in an organized manner, the board shall set time aside for citizen participation, either at a specific time during the meeting or during the discussion of agenda items. The board has the discretion to limit the amount of time set aside for public participation.

If the pressure of business or other circumstances dictate, the board president may decide to eliminate this practice at a particular meeting. The board president will recognize these individuals to make their comments at the appropriate time. The orderly process of the board meeting shall not be interfered with or disrupted.
