**GERING PUBLIC SCHOOLS  
GERING, NE**

**FINANCIAL RECORDS**

The Board shall receive monthly financial statements showing the financial condition of the school district as of the last day of the preceding month. Such statement will reflect the cash position of the respective accounts. Annual fund balances shall be reported in accordance with the requirements of the Governmental Accounting Standards Board (GASB) statement 54. Other financial records as may be determined necessary by either the board or the administration shall be presented periodically.

Financial records of the school district shall be maintained in accordance with generally accepted accounting principles (GAAP) regulations outlined by the Nebraska Department of Education as required or modified by law. School district monies shall be received and expended from the appropriate fund and/or account. The board, by board resolution, shall establish the following funds as needed:

- General Fund
- Depreciation Fund
- Employee Benefit Fund
- Contingency Fund
- Activities Fund
- Student Fee Fund
- School Lunch Fund
- Bond Fund
- Special Building Fund
- Qualified Capital Purchase Undertaking Fund
- Cooperative Fund

The resolution establishing such funds shall state the type of fund, name of the fund and purpose of the fund.

**GASB 54 Requirements**

Definitions:

Fund balance is a measurement of available financial resources. Fund balance is the difference between total assets and total liabilities in each fund.

GASB Statement 54 distinguishes fund balance between amounts that are considered nonspendable, such as fund balances associated with long term loan receivables or inventories, and other amounts that are classified based on the relative strength of the constraints that control the purposes for which specific amounts can be spent. Beginning with the most binding constraints, fund balance amounts will be reported in the following classifications:

Restricted – amounts limited by external parties such as constitutional provisions, legislation, state statutes and regulations, or grant requirements. This applies to the Depreciation Fund, Employee Benefit Fund, Student Fee Fund, Bond Fund and Special Building Fund balances.

Committed – amounts limited by Board policy or Board action. Action must be taken by the Board to commit fund balance for the designated purpose prior to the end of the fiscal year. The Lunch Fund balance is a Committed Fund balance by approval of the yearly budget. Formal actions of the Board also commit a portion of the General Fund balance.

Assigned – amounts that are intended for a particular purpose. Generally balances in some special revenue funds and portions of the General Fund are assigned by the superintendent.

In committing fund balances to a designated purpose, the Board acts as the district's highest level of decision making. A Board resolution must be passed in order to establish, modify or rescind a commitment of fund balance. These resolutions may be amended from time to time according to the wishes of the Board.

#### Use of Fund Balance

A restricted fund balance will be reduced to the extent that the underlying reason for the restriction has been eliminated.

Should the district experience an excess of expenditures over revenues for a given fiscal year, fund balance will be consumed in the following order:

1. Restricted fund balance to the extent that expenditures related to the restriction contributed to the excess of expenditures over revenues.
2. Committed fund balance to the extent that expenditures related to the commitment contributed to the excess of expenditures over revenues. If a plan for periodic use of committed fund balance is reviewed and approved by the School Board, committed fund balance will not be reduced by more than the amount designated in the plan.
3. Assigned fund balance to the extent that expenditures related to the assignment contributed to the excess of expenditures over revenues.
4. Unassigned fund balance for any remaining excess of expenditures over revenues.

The superintendent or designee may assign fund balance for items deemed appropriate at any time prior to the issuance of the audited financial statements for a given year. The superintendent shall be responsible for implementing this policy.

Students who are eligible to attend a Nebraska public school but who are not legal residents of the school district may be admitted into the school district in accordance with the option enrollment ~~option~~ program authorized by state statutes. Option eEnrollment ~~option~~ students shall be accepted without charge. If the student has previously had an option enrollment accepted in any district, the application shall be rejected unless a statutory exception to this rule applies for that student.

Formatted: Underline

Application for ~~option use of the~~ enrollment option shall be made between September 1 and March 15 for enrollment during the following and subsequent school years. ~~Written notification of approval or rejection of the application will be made before April 1.~~ Upon agreement of the school boards of the resident ~~school~~ district and the option (receiving) ~~school~~ district, deadlines for application and approval of the option may be waived. Following the March 15 deadline, applications requesting admittance must contain a release approval from the resident district prior to the option district's consideration for acceptance.

The application for option enrollment does not require a release from the resident district and the receiving district has forty-five days to issue acceptance or rejection if:

1. After February 1 the student relocated to a different resident district, or
2. The student's option district merged with another district effective after February 1<sup>st</sup> and
3. The student's attendance would occur during the next immediate and subsequent school years.

For applications submitted by the March 15 deadline, written notification of approval or rejection of the application will be made before April 1 to the student's parent/guardian and the resident district. If the district rejects an application for a student to option in or out, the district will provide notification by certified mail to the parent/guardian of the reasons for rejection and the process for appealing the decision to the State Board of Education.

The Board shall adopt standards and conditions for acceptance or rejection of a request for release of a resident student submitting an option application after March 15. For applications submitted after the March 15 deadline, the option district shall notify the parent/guardian, and the resident district whether the application is accepted or rejected within sixty days after submission. False or substantively misleading information submitted by a parent/guardian on an application to an option district may be cause for the option district to reject a previously accepted application prior to the student's attendance.

The board shall ~~annually~~ adopt a resolution ~~on or before April 1~~ setting forth its specific standards for acceptance and rejection of applications as an option school. Standards will conform to those set forth by state statute. These may include the capacity of a program, class, grade level, or school building or the availability of appropriate special education programs operated by the district. The standards shall not include previous academic achievement, athletic or other extracurricular ability, disabilities, proficiency in the English language, or previous disciplinary proceedings except as allowed by law.

An option district shall give first priority for enrollment to siblings of option students within the requirements of state statutes. The board shall follow statutes regarding the application of a student who relocates in a different district but wants to continue attending his or her original resident district or current option district.

Nonresident students not going through option enrollment may also be admitted under a contract with the student's resident district at the discretion of the superintendent upon application and payment of tuition as stated in the contract. The tuition rate shall be the current per-pupil cost of the school district as computed by the superintendent.

Students whose residency in the district ceases during a school year may continue attending school for the remainder of the school year without payment of tuition ~~upon completion of option papers~~.
