ADMINISTRATOR EVALUATION

The superintendent shall conduct an ongoing process of evaluating the administrators on their skills, abilities, and competence. At a minimum, the administrators will be evaluated annually. The goal of the formal evaluation process is to ensure that the educational program for the students is carried out, promote growth in effective administrative leadership for the school district, clarify the administrator's role as defined by the board and the superintendent, determine areas in need of improvement, clarify the immediate priorities of the responsibilities listed in the job description, and develop a working relationship between the superintendent and the administrator.

The superintendent is responsible for designing an administrator evaluation instrument. The formal evaluation shall include written criteria related to the job description. The superintendent, after receiving input from the administrators, shall present the formal evaluation instrument to the board for review.

The formal evaluation shall also include an opportunity for the administrator and the superintendent to discuss the written criteria, the past year's performance and the future areas of growth. The evaluation shall be completed by the superintendent, signed by the administrator and filed in the administrator's personnel file.

ADMINISTRATOR CONSULTING/OUTSIDE EMPLOYMENT

An administrative position is considered full-time employment. The board expects administrators to give the responsibilities of their positions in the school district precedence over other employment. An administrator may accept consulting or outside employment for pay as long as, in the judgment of the superintendent, the work is conducted on the administrator's personal time and it does not interfere with the performance of the administrative duties contracted by the board.

The board reserves the right, however, to request the administrator cease the outside employment as a condition of continued employment. The board shall give the administrator thirty days notice to cease outside employment.

POLICY 300.1
GERING PUBLIC SCHOOLS
GERING, NE

ROLE OF ADMINISTRATION

In this series of the board policy manual, the board defines the role and the employment of school district administrators. Policies in the 400 Series, "Employees," also apply to administrators unless a more specific policy exists in the 300 Series, "Administration."

School district administrators have been given a great opportunity and responsibility to manage the school district, to provide educational leadership, and to implement the educational philosophy of the school district. They are responsible for the day-to-day operations of the school district. In carrying out these operations, the administrators are guided by board policies, the law, the needs of the students, and the wishes of the citizens in the school district community.

It shall be the responsibility of the administrators to implement and enforce the policies of the board, to oversee employees, to monitor educational issues confronting the school district, and to inform the board about school district operations.

While the board holds the superintendent ultimately responsible for these duties, the principals are more directly responsible for educational results, for the administration of the school facilities and for the employees.

The board and the administration shall work together to share information and decisions under the management team concept.

POLICY 301.1
GERING PUBLIC SCHOOLS
GERING, NE

STRUCTURE OF MANAGEMENT

The board and the administrators shall work together in making decisions and setting goals for the school district. This effort is designed to obtain, share, and use information to solve problems, make decisions, and formulate school district policies and regulations.

It shall be the responsibility of each administrator to fully participate in the management of the school district by investigating, analyzing, and expressing their views on issues. Those board members or administrators with special expertise or knowledge of an issue may be called upon to provide information. Each board member and administrator shall support the decisions reached on the issues confronting the school district.

The board shall be responsible for making the final decision in matters pertaining to the school district.

It shall be the responsibility of the superintendent to develop guidelines for cooperative decision-making.

POLICY 301.2
GERING PUBLIC SCHOOLS
GERING, NE

MANAGEMENT TEAM

The board considers all those who have a role in the recruitment or release of employees to be part of the management team. The management team shall be headed by the superintendent. The superintendent shall convene meetings to discuss school district policies, administrative procedures and other business brought to the superintendent's attention.

The management team shall meet with the board upon the board's request or superintendent's recommendation to review overall operations of the school district and conditions affecting the management team. The management team shall have no relationship to the formal negotiating unit. In the event a member or members of the management team are unable to resolve a problem, a committee of one board member, one management team member, and the superintendent shall investigate the circumstances and make a recommendation. If the recommendation does not settle the matter, the board and the management team shall meet to resolve the matter. The board may seek the advice of outside management consultants to assist in resolving the matter.

POLICY 301.3
GERING PUBLIC SCHOOLS
GERING, NE

SUCCESSION OF AUTHORITY TO THE SUPERINTENDENT

In the absence of or inability to communicate with the superintendent, it shall be the responsibility of the other administrators to assume the superintendent's duties. The succession of authority to the superintendent shall be in this order:

1. Director of Special Services
2. Director of Curriculum
3. Finance Supervisor

If the absence of the superintendent is temporary, the successor shall assume only those duties and responsibilities of the superintendent that require immediate action. If the board determines the absence of the superintendent will be a lengthy one, the board shall appoint an acting superintendent to assume the responsibilities of the superintendent. The successor shall assume the duties when the successor learns of the superintendent's absence or when assigned by the superintendent or the board.

References to "superintendent" in this policy manual shall mean the "superintendent or the superintendent's designee" unless otherwise stated in the board policy.
